LIST OF
STATISTICAL
TABLES

Table no.	Title	Page
1.	Population: Earliest Census to 2000; and Housing Units: 1950 to 2000 State, Urban and Rural	1
2.	Population and Housing Units: 1960 to 2000 State, County	2
3.	Population, Housing Units, Land Area, and Density: 2000; and Percent Change: 1970 to 2000 State, County	3
4.	Population by Urban and Rural: 2000; and Population by Urban: 1990 State, County	4
5.	Population and Housing Units: 1980 to 2000; and Area Measurements and Density: 2000 State, County, County Subdivision, Place	5
6.	Population and Housing Units: 1980 to 2000; and Area Measurements and Density: 2000 State, Place and [In Selected States] County Subdivision	9
7.	Rank by 2000 Population and Housing Units: 1990 and 2000 State, Place [2,500 or More Population]	16
7a.	Rank by 2000 Population and Housing Units: 1990 and 2000 State, Minor Civil Division [2,500 or More Population]	17
8.	Population by Urban and Rural and Size of Place: 2000 State, Size of Place [Population]	18
9.	Population, Housing Units, and Land Area by Urban and Rural and Size of Urban Area: 2000 State, Urban and Rural, Size of Urban Area [Population]	20

INTRODUCTION

Data from Census 2000 are presented in three printed report series:

1. PHC-1, *Summary Population and Housing Characteristics*
2. PHC-2, *Summary Social, Economic, and Housing Characteristics*
3. PHC-3, *Population and Housing Unit Counts*

The data from Census 2000 were derived from a limited number of basic questions asked of the entire population and about every housing unit (referred to as the 100-percent questions, found on the “short form”), and from additional questions asked of a sample of the population and housing units (referred to as the sample questions, found on the “long form”).

The PHC-1, *Summary Population and Housing Characteristics*, report series provides data based on the 100-percent questions. The subjects are age, Hispanic or Latino origin, household relationship, race, sex, tenure (owner- or renter-occupied), and vacancy characteristics. Land area measurements and population density also are provided. This series is similar to the 1990 census CPH-1 series.

The PHC-2, *Summary Social, Economic, and Housing Characteristics*, report series provides sample data based on both the 100-percent and the sample questions. Sample subjects include place of birth; residence in 1995; language; educational attainment and school enrollment; veteran status; disability status; employment status; journey to work; work status, earnings, income, and poverty status in 1999; physical housing characteristics; units in structure; fuel and equipment characteristics; owner and renter household characteristics, such as year owner moved into unit; home value; contract and gross rent; and mortgage and rental cost characteristics. This series is similar to the 1990 census CPH-5 series.

The PHC-3, *Population and Housing Unit Counts*, report series provides Census 2000 and historical comparisons of the 100-percent population and housing unit counts. It provides land and water area measurements, and population density. The user notes section documents geographic changes over the past decade. This series is similar to the 1990 census CPH-2 series.

In each series, there is one report for each state, the District of Columbia, and Puerto Rico, plus a United States summary report. Many tables in the United States summary reports include data for Puerto Rico.

HOW TO FIND GEOGRAPHIC AREAS AND SUBJECT MATTER DATA

This report includes a table finding guide to assist the user in locating those statistical tables that contain the desired data. The table finding guide lists alphabetically, by geographic area, the subjects shown in this report. To determine which tables in this report show data for a particular topic, find the subject in the lefthand column of the table finding guide and then look across the columns using the headings at the top for the desired type of geographic area. Figure I-1 is an example of a table finding guide.

The table finding guide does not include cross-classifications of subject-matter items. Additional information to locate data within specific reports is provided in the headnote at the top of the table finding guide and in the footnotes at the bottom of the guide.

HOW TO USE THE STATISTICAL TABLES

Parts of a Statistical Table

The census data included in printed reports are arranged in tables. Each table includes four major parts: (1) heading, (2) boxhead, (3) stub, and (4) data field. A typical census report table is illustrated in Figure I-2.

The heading consists of the table number, title, and headnote. The table number indicates the position of the table within the report, while the title is a brief statement indicating the subjects and time reference of the data presented in the table. The headnote is enclosed in brackets and is located under the title. It contains statements that qualify, explain, or provide information pertaining to the entire table.

The boxhead is under the heading. This portion of the table, which contains the individual column heads or captions, describes the data in each vertical column. In the boxhead of many tables, a spanner appears across and above two or more column heads or across two or more lower spanners. The purpose of a spanner is to classify or qualify items below it or separate the table into identifiable blocks in terms of major aspects of the data.

Figure I-1.

Table Finding Guide

SUBJECTS BY TYPE OF GEOGRAPHIC AREA AND TABLE NUMBER

The types of geographic areas covered in this report are shown on the side, and subjects are shown at the top. See PHC-3-A, *Population and Housing Unit Counts, Selected Appendixes*, for a description of area classifications (Appendix A) and for definitions and explanations of subject characteristics (Appendix B).

Geographic area	Population		Housing units		Area measurement		Average per square mile		Number of places

¹State, District of Columbia, or Puerto Rico.
²Parish in Louisiana; city and borough, municipality, borough, or census area in Alaska; and municipio in Puerto Rico; in Maryland, Missouri, Nevada, and Virginia, one or more cities are independent of counties and are treated as statistical equivalents of counties; the entire District of Columbia, which has no counties, is treated as a county equivalent.
³County subdivisions within the state are shown alphabetically with places for the following 12 states: Connecticut, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and Wisconsin.

The stub is located at the left edge of the table. It includes a listing of line or row captions or descriptions. At the top of the stub is the stubhead. The stubhead is considered to be an extension of the table title and usually shows generic geographic area designations and restrictions.

In the stub, several features are used to help the user better understand the contents of the table. Usually, a block of data lines is preceded by a sidehead. The sidehead, similar to a spanner, describes and classifies the stub entries following it. The use of indentation in a stub indicates the relationship of one data line to another. Indented data lines represent sub-categories that, in most instances, sum to a total. Occasionally

in tables, it is desirable to show one or more single-line subcategories that do not sum to the total.

The data field is that part of the statistical table that contains the data. It extends from the bottom of the boxhead to the bottom of the table and from the right of the stub to the right edge of the page.

Both geographic and subject-matter terms appear in tables. It is important to read the definitions of the terms used in the tables because census terms often are defined in special ways that reflect the manner in which the questions were asked and the data were tabulated. Definitions of geographic terms are provided in PHC-3-A, *Population and Housing Unit Counts, Selected Appendixes*, Appendix A. Census tables often include derived measures such as medians, means, percentages, and ratios. These and other subject-matter terms are defined in Appendix B of the same report.

Symbols and Geographic Abbreviations

The following symbols are used in the tables and explanations of subjects covered in Census 2000 reports:

- A dash “-” represents zero or a derived measure that rounds to less than 0.1.
- (X) means not applicable. In the 1990 and earlier decennial census reports, three dots “...” meant not applicable.
- (NA) means not available.

-
- The superscript prefix “r” indicates that the count has been revised since the publication of the 1990 census reports, or that the area was erroneously omitted or not shown in the correct geographic relationship in the 1990 census reports. This symbol appears only in the Census 2000 PHC-3, *Population and Housing Unit Counts*, report series.
 - A dagger “†” next to the name of a geographic area indicates that there has been a geographic change (for example, an annexation or detachment, a new incorporation, or a name change) since the information was published for the 1990 census for that area. This symbol appears only in the Census 2000 PHC-3, *Population and Housing Unit Counts*, report series. The geographic change information for the entities in a state is shown in the “User Notes” section of the Census 2000 PHC-3 report for that state.
 - A plus sign “+” is appended to the lower bound of the highest interval when the median falls in the upper interval of an open-ended distribution. A minus sign “-” is appended to the upper bound of the lowest interval when the median falls in the lowest interval of an open-ended distribution. For more information on medians, see the section on “Derived Measures” in Appendix B.
 - A minus sign “-” preceding a figure denotes decrease. The minus sign appears only in the Census 2000 PHC-3, *Population and Housing Unit Counts*, report series.
 - (U) means the place or place part is composed entirely of urban land area. The (U) appears only in the Census 2000 PHC-3, *Population and Housing Unit Counts*, report series.
 - (R) means the place or place part is composed entirely of rural land area. The (R) appears only in the Census 2000 PHC-3, *Population and Housing Unit Counts*, report series.
 - (U/R) means the place or place part is composed of both urban land area and rural land area. The (U/R) appears only in the Census 2000 PHC-3, *Population and Housing Unit Counts*, report series.

The following geographic abbreviations and terms may be used in the tables in this report:

- A “(part)” next to the name of a geographic area in a hierarchical presentation indicates that the geographic entity is located only partially in the superior geographic entity. For example, a “(part)” next to a place name in a county subdivision-place hierarchy indicates that the place is located in more than one county subdivision. (Places also may be “split” by county, congressional district, urban/rural, metropolitan area, voting district, and other geographic boundaries, depending on the presentation.) Other geographic entities also can be “split” by a higher level entity. The exception is a tabulation block, which is unique within all geographic entities in census products.
- ANVSA is Alaska Native village statistical area.
- ANRC is Alaska Native Regional Corporation.
- CCD is census county division.
- CDP is census designated place.
- CMSA is consolidated metropolitan statistical area.
- MA is metropolitan area.
- MSA is metropolitan statistical area.
- OTSA is Oklahoma tribal statistical area.
- PMSA is primary metropolitan statistical area.
- SDAISA is state designated American Indian statistical area.
- TDSA is tribal designated statistical area.
- UT is unorganized territory.

GRAPHICS

Charts, statistical maps, and other graphic summaries are included in some Census 2000 reports.

USER NOTES

User notes include corrections, errata, and related explanatory information. This section appears directly before the statistical tables in census reports. It presents information about unique characteristics of the report and changes or corrections made too late to be reflected in the text or tables themselves. However, sometimes this information becomes available too late to be reflected even in the user notes. Census 2000 user updates are available on the Census Bureau's Internet site at www.census.gov/main/www/cen2000.html. To receive notification of user notes, subscribe to the Census Product Update (<http://www.census.gov/mp/www/cpu.html>), a biweekly e-mail newsletter available from the Customer Services Center of the Marketing Services Office at the U.S. Census Bureau, or contact the Customer Services Center directly on 301-763-INFO (4636) or at webmaster@census.gov.

APPENDIXES

Appendixes A through E, G, and H, described below, are found in the separate printed volume, PHC-3-A, *Population and Housing Unit Counts, Selected Appendixes*, or on the Internet at <http://www.census.gov/prod/cen2000/phc-3-a.pdf>. Appendix F is included in this report.

Appendix A, Geographic Terms and Concepts. Provides definitions of the types of geographic areas and related information used in census products.

Appendix B, Definitions of Subject Characteristics. Contains definitions for the subject-matter terms used in census products, including explanations of derived measures, limitations of the data, and comparability with previous censuses. The subjects are listed alphabetically. Population characteristics are defined first, followed by the definitions of the housing subjects.

Appendix C, Data Collection and Processing Procedures. Explains the enumeration and residence rules used in counting the population and housing units in the United States and Puerto Rico. It also describes the major components of the operational plan for Census 2000, and includes a glossary of terms.

Appendix D, Questionnaire Facsimile. Presents a facsimile of the Census 2000 questionnaire used to collect the data in this report.

Appendix E, Data Products and User Assistance. Summarizes the Census 2000 data products by describing the information available in printed reports and through electronic media such as CD-ROM, DVD, and the Internet. It also describes Census 2000 maps and other geographic products, reference materials, and sources of assistance.

Appendix F, Maps. Contains maps depicting the geographic areas shown in this report.

Appendix G, Accuracy of the Data. Provides information on confidentiality of the data, imputation of housing unit status and population counts, sources of errors in the data, and editing of unacceptable data.

Appendix H, Acknowledgments. Lists many of the U.S. Census Bureau staff who participated in the various activities of Census 2000.

Table Finding Guide

SUBJECTS BY TYPE OF GEOGRAPHIC AREA AND TABLE NUMBER

The types of geographic areas covered in this report are shown on the side, and subjects are shown at the top. See PHC-3-A, *Population and Housing Unit Counts, Selected Appendixes*, for a description of area classifications (Appendix A) and for definitions and explanations of subject characteristics (Appendix B).

¹State, District of Columbia, or Puerto Rico.

²Parish in Louisiana; city and borough, municipality, borough, or census area in Alaska; and municipio in Puerto Rico; in Maryland, Missouri, Nevada, and Virginia, one or more cities are independent of counties and are treated as statistical equivalents of counties; the entire District of Columbia, which has no counties, is treated as a county equivalent.

³County subdivisions within the state are shown alphabetically with places for the following 12 states: Connecticut, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and Wisconsin.

User Notes

Additional information concerning this Census 2000 product may become available after this report is published. This information, called Notes and Errata, is available in portable document format (PDF) on the U.S. Census Bureau's Internet site at <http://www.census.gov/main/www/cen2000.html>. To receive notification of user notes, subscribe to the Census Product Update (<http://www.census.gov/mp/www/cpu.html>), a biweekly e-mail newsletter available from the Customer Service Center of the Marketing Services Office at the U.S. Census Bureau, or contact the Customer Services Center directly on 301-763-INFO (4636) or at webmaster@census.gov.

GENERAL NOTES

User Note 1

The user should be aware that there are limitations to many of these data. Please refer to the text provided with this report for further explanation of the limitations of the data. The population and other data shown for Census 2000 in this report is as of April 1, 2000; the boundaries used for all geographic entities are as of January 1, 2000. All boundaries are intended for Census Bureau statistical data collection and presentation only; their depiction and designation for statistical purposes do not constitute a determination of jurisdictional authority or entitlement. Corrections to the Census 2000 data as a result of certified Count Question Review changes are available from the Census Bureau's Internet site at: www.census.gov/prod/cen2000/notes/errata.pdf.

User Note 2

Data comparability for county subdivisions is shown only when the county subdivision contains substantially the same territory as reported for the 1990 census (generally defined as at least 80 percent of the previous territory) unless the county subdivision is also a place. There is no comparability provided for county subdivisions that have been extensively revised. Revised entities are noted by and within county. Changes to a geographic entity can be the result of legal change actions, statistical redefinition, correction of previous boundary or drafting errors, or new erroneous information.

Incorporated place and census designated place (CDP) comparability is provided for all places that retained their name or general area without regard to the amount of territorial change between censuses. Place comparability is not shown if the entity is new for Census 2000 (including changes from a CDP to a legally incorporated place and vice versa) or is the result of a merger that created an entirely new entity, or if a Census 2000 CDP contains less than 50 percent of the territory of a 1990 census CDP.

HISTORICAL NOTES

The area of Vermont was part of the original territory of the United States. It was included in the Charter of New England in 1620, but was later included in grants creating New York in 1664 and 1674. Representatives of 51 towns in the present area declared an independent state of "New Connecticut alias Vermont" in 1777, but also referred to the area as the "New Hampshire Grants." New York consented to the statehood separation of Vermont, which was admitted to the Union on February 18, 1791, as the 14th state, with generally the same boundary as the present state.

Census data for Vermont are available beginning with the 1790 census.

GEOGRAPHIC NOTES

Vermont is divided into 14 counties. The 255 county subdivisions in the state include 242 towns, which are functioning governmental units. All nine incorporated cities are independent of any county subdivision, and are treated by the Census Bureau as equivalent to county subdivisions. There also are four governmentally nonfunctioning legal entities; three are legally described as gores and one as a grant. There are 48 incorporated places and 19 CDPs in Vermont. Incorporated places in the state are legally described as cities and villages; all cities are independent of any county subdivision. The Census Bureau treats all villages and CDPs as dependent within towns.

GEOGRAPHIC CHANGE NOTES

The Geographic Change Notes listed below document high-level geographic entities—counties, county subdivisions, and places—that are different from the information reported in the 1990 census. The notes identify geographic entities whose name and/or boundary have changed, entities that no longer exist, newly established entities (both legal and statistical), and changes in geographic relationships, such as places that exist in one county and have expanded into or withdrawn from another county (the notes do not identify the other county(ies) in which the entity exists; this can be determined from the Table listing all places in this publication) and places that have become independent of or dependent within one or more county subdivisions. The changes are reported by and within county. A few of the reported changes in name, legal status, or legal relationship may be incorrect; if so, the correct version is shown in any Correction Notes section above. Some changes are the result of legal actions that took place prior to the 1990 census, but were not reported in that census.

The change notes for previous censuses reported only changes that occurred primarily as the result of specific legal actions, as well as identifiable revisions to statistical entities (primarily county subdivisions). For Census 2000, the notes reflect any boundary change that affects a geographic entity, regardless of whether it is the result of legal action, redefinition of a statistical entity, correction of a previous boundary-reporting or -drafting error, or new erroneous information. For example, the county-level text “all districts revised” may reflect a legal redistricting of all county subdivisions in the county, a major or minor relocation of county subdivision boundaries due to more accurate mapping or more accurate boundary information, or a combination of these that, in one way or another, affect every county subdivision in a county. In states whose legal entities rarely undergo a legal boundary change, such as the New England states, most of the entities reported to have exchanged, gained, or lost territory did so as the result of mapping changes, not legal actions. The extent and location of the boundary changes affecting any particular entity can be determined by comparing the TIGER/Line® Files, Cartographic Boundary Files, or a comparable set of maps for the 1990 and 2000 censuses.

Addison County, Vermont

Bristol village	disincorporated.
New Haven town	lost territory to Waltham town.
Waltham town	gained territory from New Haven town.

Bennington County, Vermont

Bennington town	lost territory to Shaftsbury town.
Glastenbury town	lost territory to Shaftsbury town.
Manchester Center CDP	gained territory.
North Bennington village	gained and lost territory.
Old Bennington village	lost territory.
Shaftsbury town	gained territory from Bennington and Glastenbury towns.
South Shaftsbury CDP	new CDP.

Caledonia County, Vermont	gained territory from Orange County.
Burke town	exchanged territory with Lyndon town; lost territory to Kirby town.
Groton town	gained territory from Topsham town, Orange County.
Hardwick town	lost territory to Walden town.
Kirby town	exchanged territory with Lyndon town; gained territory from Burke town.
Lyndon town.....	exchanged territory with Burke, Kirby, and St. Johnsbury towns; lost territory to Sutton town.
St. Johnsbury town	exchanged territory with Lyndon town.
Sutton town.....	gained territory from Lyndon town.
Walden town.....	gained territory from Hardwick town.
Chittenden County, Vermont	
Bolton town.....	lost territory to Huntington town.
Colchester town	exchanged territory with Essex town and Winooski city; lost territory to Milton town.
Essex Junction village	lost territory.
Essex town	exchanged territory with Colchester and Westford towns; lost territory to Jericho and Underhill towns.
Hinesburg town	lost territory to Richmond town.
Huntington town	gained territory from Bolton and Richmond towns.
Jericho town	gained territory from Essex town; lost territory to Underhill town.
Jericho village	gained territory.
Milton town.....	gained territory from Colchester and Westford towns.
Richmond town.....	gained territory from Hinesburg town; lost territory to Huntington town.
Underhill town.....	gained territory from Essex and Jericho towns.
Westford town	exchanged territory with Essex town; lost territory to Milton town.
Winooski city	exchanged territory with Colchester town.
Essex County, Vermont	
Averill town.....	lost territory to Norton town.
Avery's gore	lost territory to Brighton and Norton towns.
Bloomfield town	lost territory to Brunswick town.
Brighton town	gained territory from Avery's gore and Lewis town.
Brunswick town	gained territory from Bloomfield and Lewis towns.
Island Pond CDP.....	gained territory.
Lewis town	lost territory to Brighton and Brunswick towns.
Norton town	gained territory from Averill town and Avery's gore.

Franklin County, Vermont	exchanged territory with Lamoille County.
Bakersfield town.....	exchanged territory with Waterville town, Lamoille County.
Berkshire town	gained territory from Richford town.
Fairfield town.....	gained territory from Fletcher town.
Fletcher town	exchanged territory with Waterville town, Lamoille County; lost territory to Fairfield town.
Montgomery town.....	lost territory to Richford town.
Richford town	gained territory from Montgomery town; lost territory to Berkshire town.
Richford village.....	disincorporated.
St. Albans city	exchanged territory with St. Albans town.
St. Albans town.....	exchanged territory with St. Albans city.
Grand Isle County, Vermont	
Alburg town	lost territory to North Hero town.
Alburg village.....	gained and lost territory.
Isle La Motte town.....	lost territory to North Hero town.
North Hero town	gained territory from Alburg and Isle La Motte towns.
Lamoille County, Vermont.....	exchanged territory with Franklin County.
Belvidere town.....	exchanged territory with Waterville town.
Cambridge town.....	exchanged territory with Waterville town.
Cambridge village	gained and lost territory.
Elmore town	lost territory to Wolcott town.
Hyde Park town.....	gained territory from Johnson town; lost territory to Morrystown town.
Jeffersonville village.....	gained and lost territory.
Johnson town.....	lost territory to Hyde Park town.
Morrystown town	gained territory from Hyde Park town; lost territory to Stowe town.
Morrisville village.....	gained and lost territory.
Stowe town	gained territory from Morrystown town.
Stowe village	disincorporated.
Waterville town	exchanged territory with Belvidere and Cambridge towns, and with Bakersfield and Fletcher towns, Franklin County.
Wolcott town	gained territory from Elmore town.
Orange County, Vermont	lost territory to Caledonia County.
Fairlee town	lost territory to West Fairlee town.
Topsham town.....	lost territory to Groton town, Caledonia County.
West Fairlee town.....	gained territory from Fairlee town.
Orleans County, Vermont	
Albany town	gained territory from Lowell town.
Barton town.....	gained territory from Glover town.
Barton village	lost territory.
Charleston town.....	lost territory to Morgan town.
Coventry town.....	exchanged territory with Newport town; gained territory from Newport city.
Derby Center village	gained and lost territory.
Derby Line village	gained and lost territory.

Orleans County, Vermont—Con.

Derby town	exchanged territory with Newport city.
Glover town	lost territory to Barton town.
Holland town	gained territory from Morgan town.
Irasburg town.....	gained territory from Lowell town.
Lowell town.....	lost territory to Albany and Irasburg towns.
Morgan town	gained territory from Charleston town; lost territory to Holland town.
Newport city.....	exchanged territory with Derby and Newport towns; lost territory to Coventry town.
Newport town	exchanged territory with Coventry town and Newport city.
Orleans village.....	gained and lost territory.

Rutland County, Vermont.....

Brandon town.....	exchanged territory with Pittsford town.
Killington town	name changed from Sherburne.
Mount Holly town	gained territory from Ludlow town, Windsor County.
Pittsford town	exchanged territory with Brandon town; lost territory to Proctor town.
Proctor town.....	gained territory from Pittsford town.
Rutland city.....	gained territory from Rutland town.
Rutland town	exchanged territory with West Rutland town; lost territory to Rutland city.
Sherburne town	name changed to Killington.
Wallingford CDP	lost territory.
West Rutland CDP	gained territory.
West Rutland town	exchanged territory with Rutland town.

Washington County, Vermont

Barre city.....	exchanged territory with Barre town.
Barre town	exchanged territory with Barre city.
Calais town	gained territory from Worcester town.
East Montpelier town.....	exchanged territory with Montpelier city.
Graniteville-East Barre CDP.....	gained and lost territory.
Montpelier city	exchanged territory with East Montpelier town.
South Barre CDP	gained territory.
Waterbury village.....	gained and lost territory.
Worcester town.....	lost territory to Calais town.

Windham County, Vermont

Brattleboro CDP.....	gained territory.
Brookline town	lost territory to Putney town.
Jacksonville village	gained territory.
Putney town	gained territory from Brookline town.
Saxtons River village	gained territory.
West Brattleboro CDP.....	lost territory.
Westminster village.....	lost territory.
Whitingham town.....	gained territory from Wilmington town.
Wilmington town	lost territory to Whitingham town.

Windsor County, Vermont lost territory to Rutland County.
Chester-Chester Depot CDP lost territory.
Ludlow town..... lost territory to Mount Holly town, Rutland
County.
Springfield CDP..... lost territory.
Woodstock village gained and lost territory.

Table 6. Population and Housing Units: 1980 to 2000; and Area Measurements and Density: 2000

[For information concerning historical counts, see "User Notes." A place or place part is designated as (U) if it has entirely urban land area, as (R) if it has entirely rural land area, or as (U/R) if it has both urban land area and rural land area. An entity shown as entirely urban (U) may have rural water area, which is not included in the total area shown. An entity with land area rounding to less than 0.01 in square miles (shown as "-") has a small amount of land area in square meters (less than 12,949 square meters). Density computed using land area. For information on nonsampling error and definitions, see text]

Appendixes

Several appendixes traditionally found in printed reports are now available in a separate volume. See PHC-3-A, *Population and Housing Unit Counts, Selected Appendixes*, in print or on the Internet at <http://www.census.gov/prod/cen2000/phc-3-a.pdf> for the following:

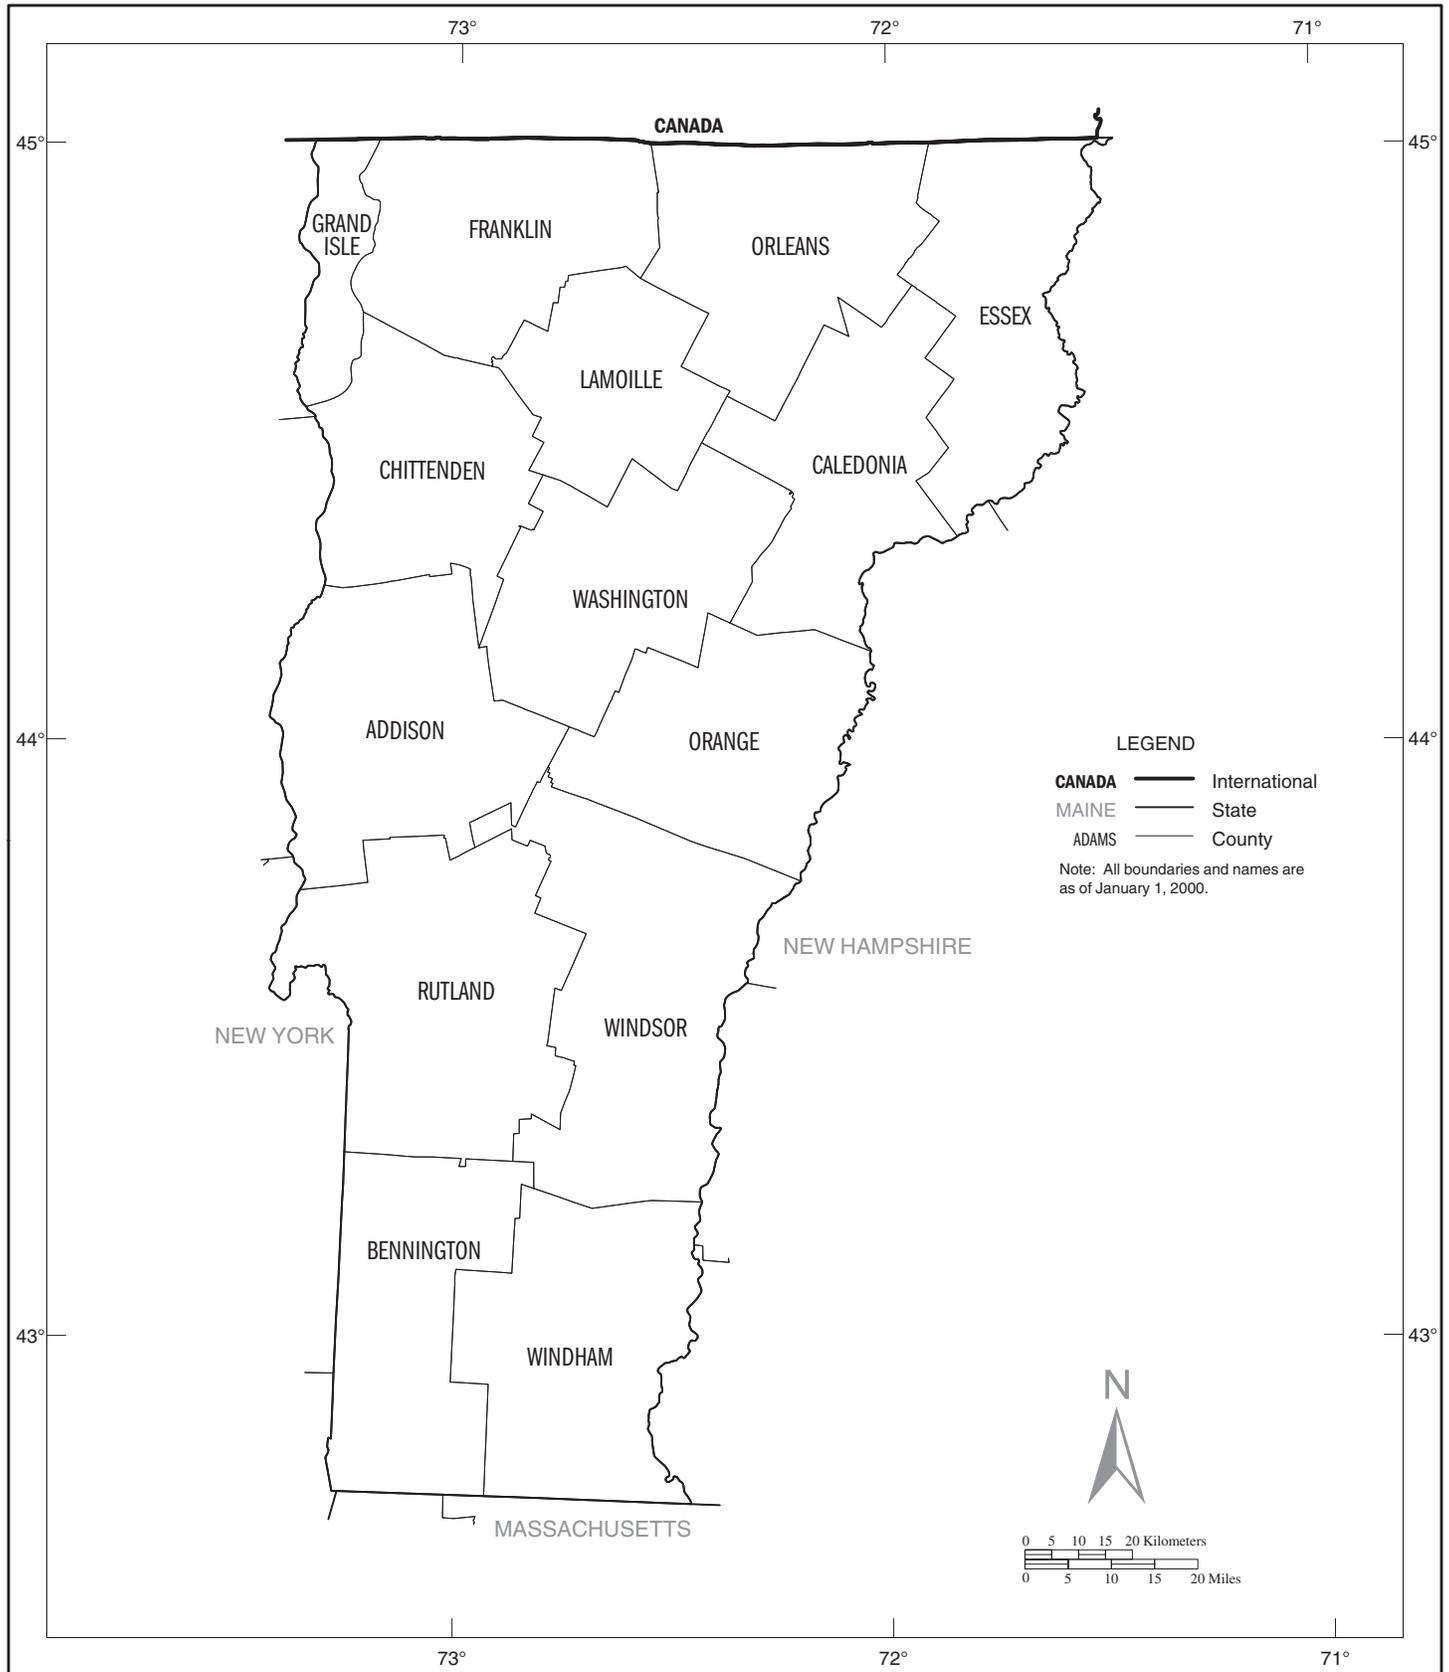

- Appendix A. Geographic Terms and Concepts
- Appendix B. Definitions of Subject Characteristics
- Appendix C. Data Collection and Processing Procedures
- Appendix D. Questionnaire
- Appendix E. Data Products and User Assistance
- Appendix G. Accuracy of the Data
- Appendix H. Acknowledgments

This Appendix section contains:

- Appendix F. Maps

Appendix F. Maps

↪	A fishhook joins contiguous and/or discontinuous parts of the same geographic entity

Map Sections

¹ A '10' following a place name indicates that the place is an independent place or independent city. An independent place is not part of any legal county subdivision and thus serves as the statistical equivalent of a legal county subdivision. An independent city is not part of any county or legal county subdivision and thus serves as both the statistical equivalent of a county and a legal county subdivision. The name for the county subdivision is always the same as that of the place and never shown separately on the map.

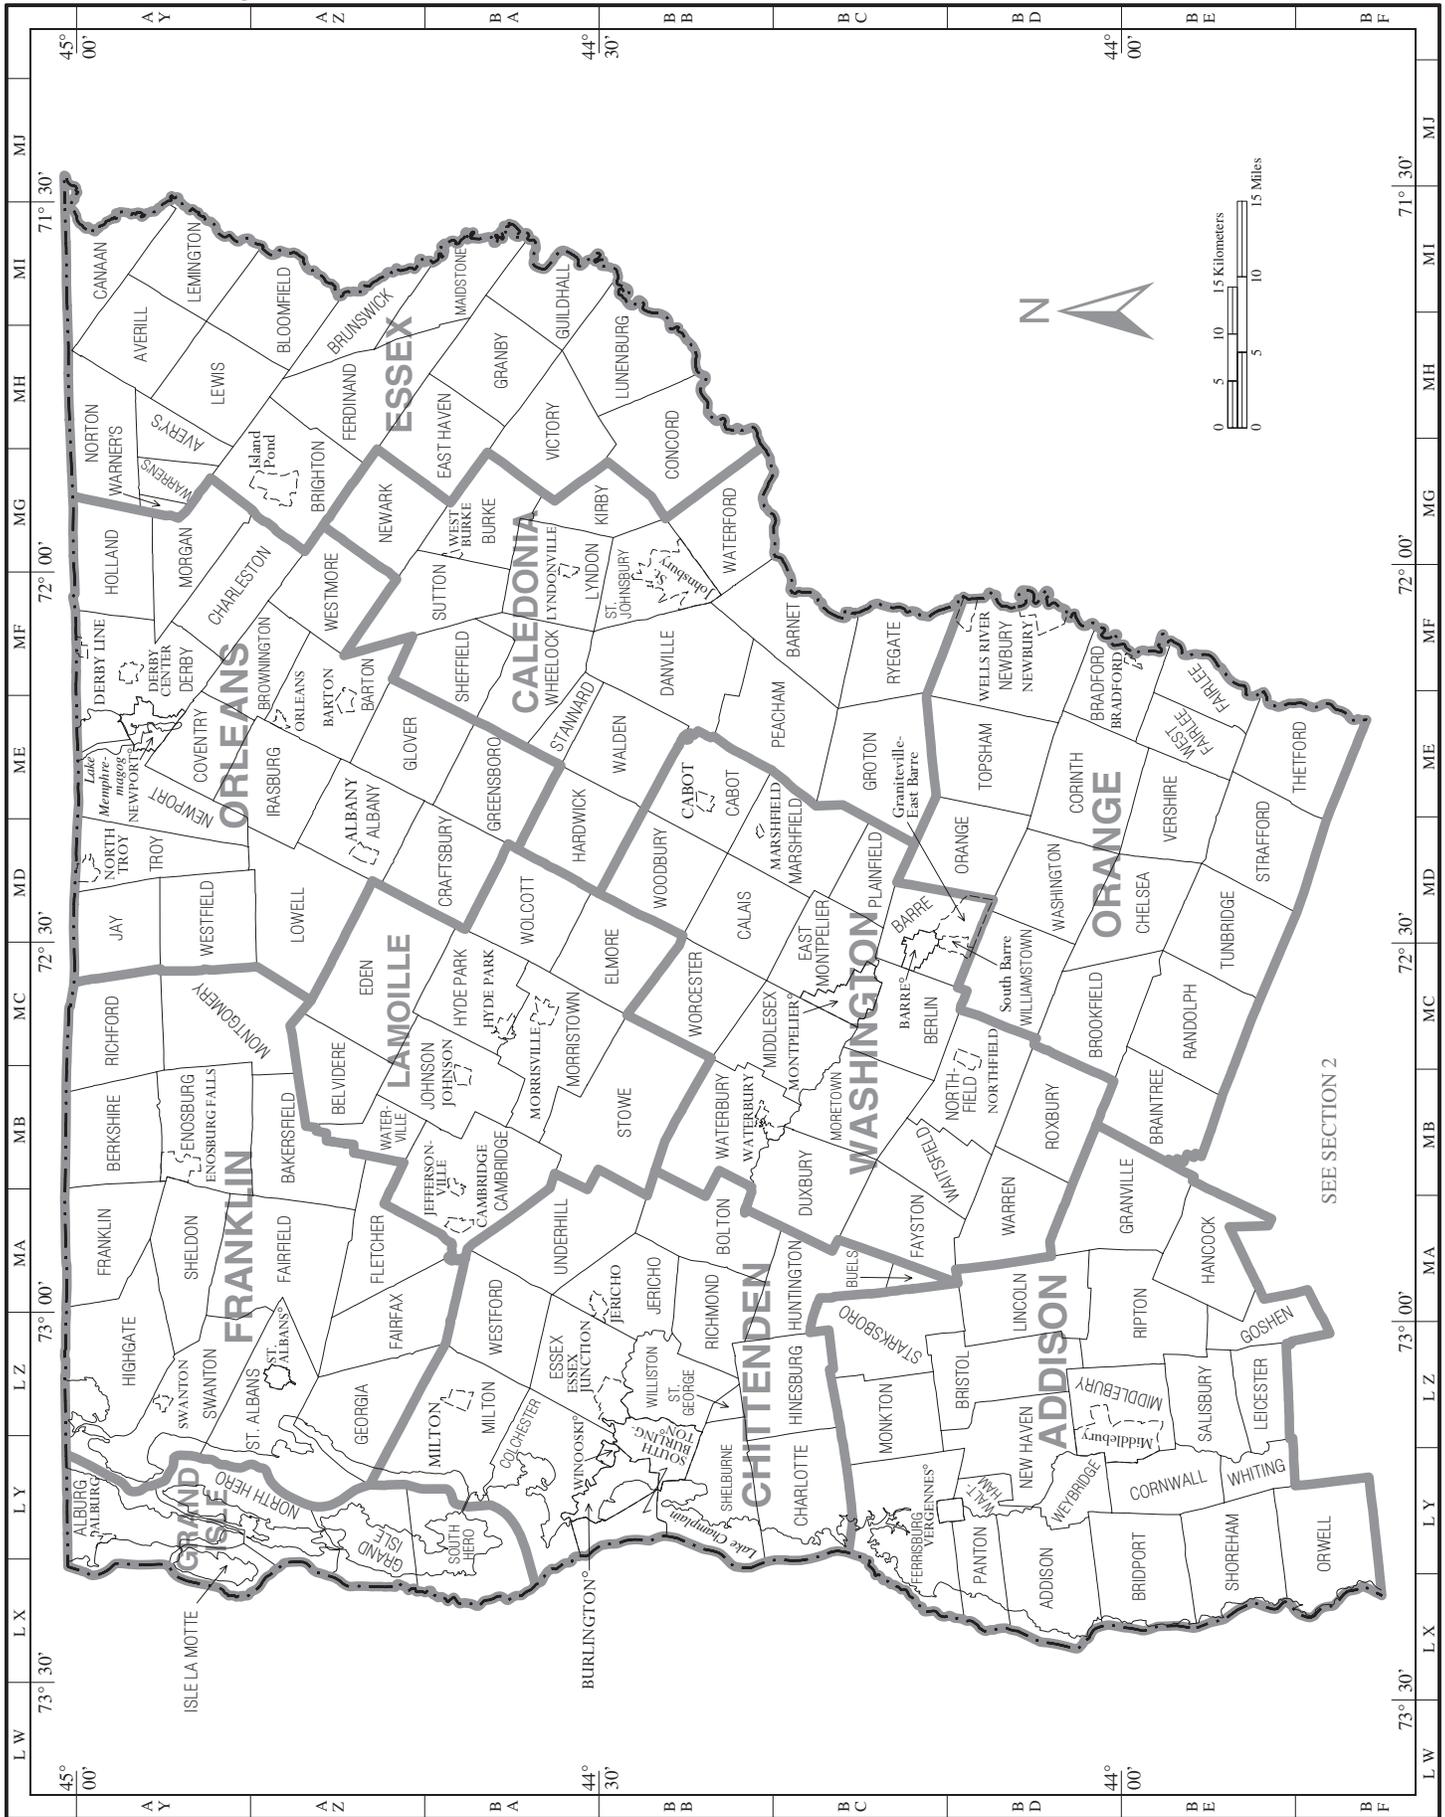

Note: All legal boundaries and names are as of January 1, 2000. Where international, state, county, and/or county subdivision boundaries coincide, the map shows the boundary symbol for the highest level of these geographic entities. The county boundary is always shown. Where a county subdivision boundary coincides with a place boundary, the map does not show the place boundary symbol. Any geographic entity name may include '(pt.)' if some portion of the entity extends beyond the limits of the map area displayed on the page, or if multiple discontinuous pieces of the entity have been discretely labeled on the page. A geographic entity name may include '(pts.)' if many discontinuous pieces exist for that entity that cannot be discretely labeled. The boundaries shown on this map are for Census Bureau statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights of ownership or entitlement.

County Location Index

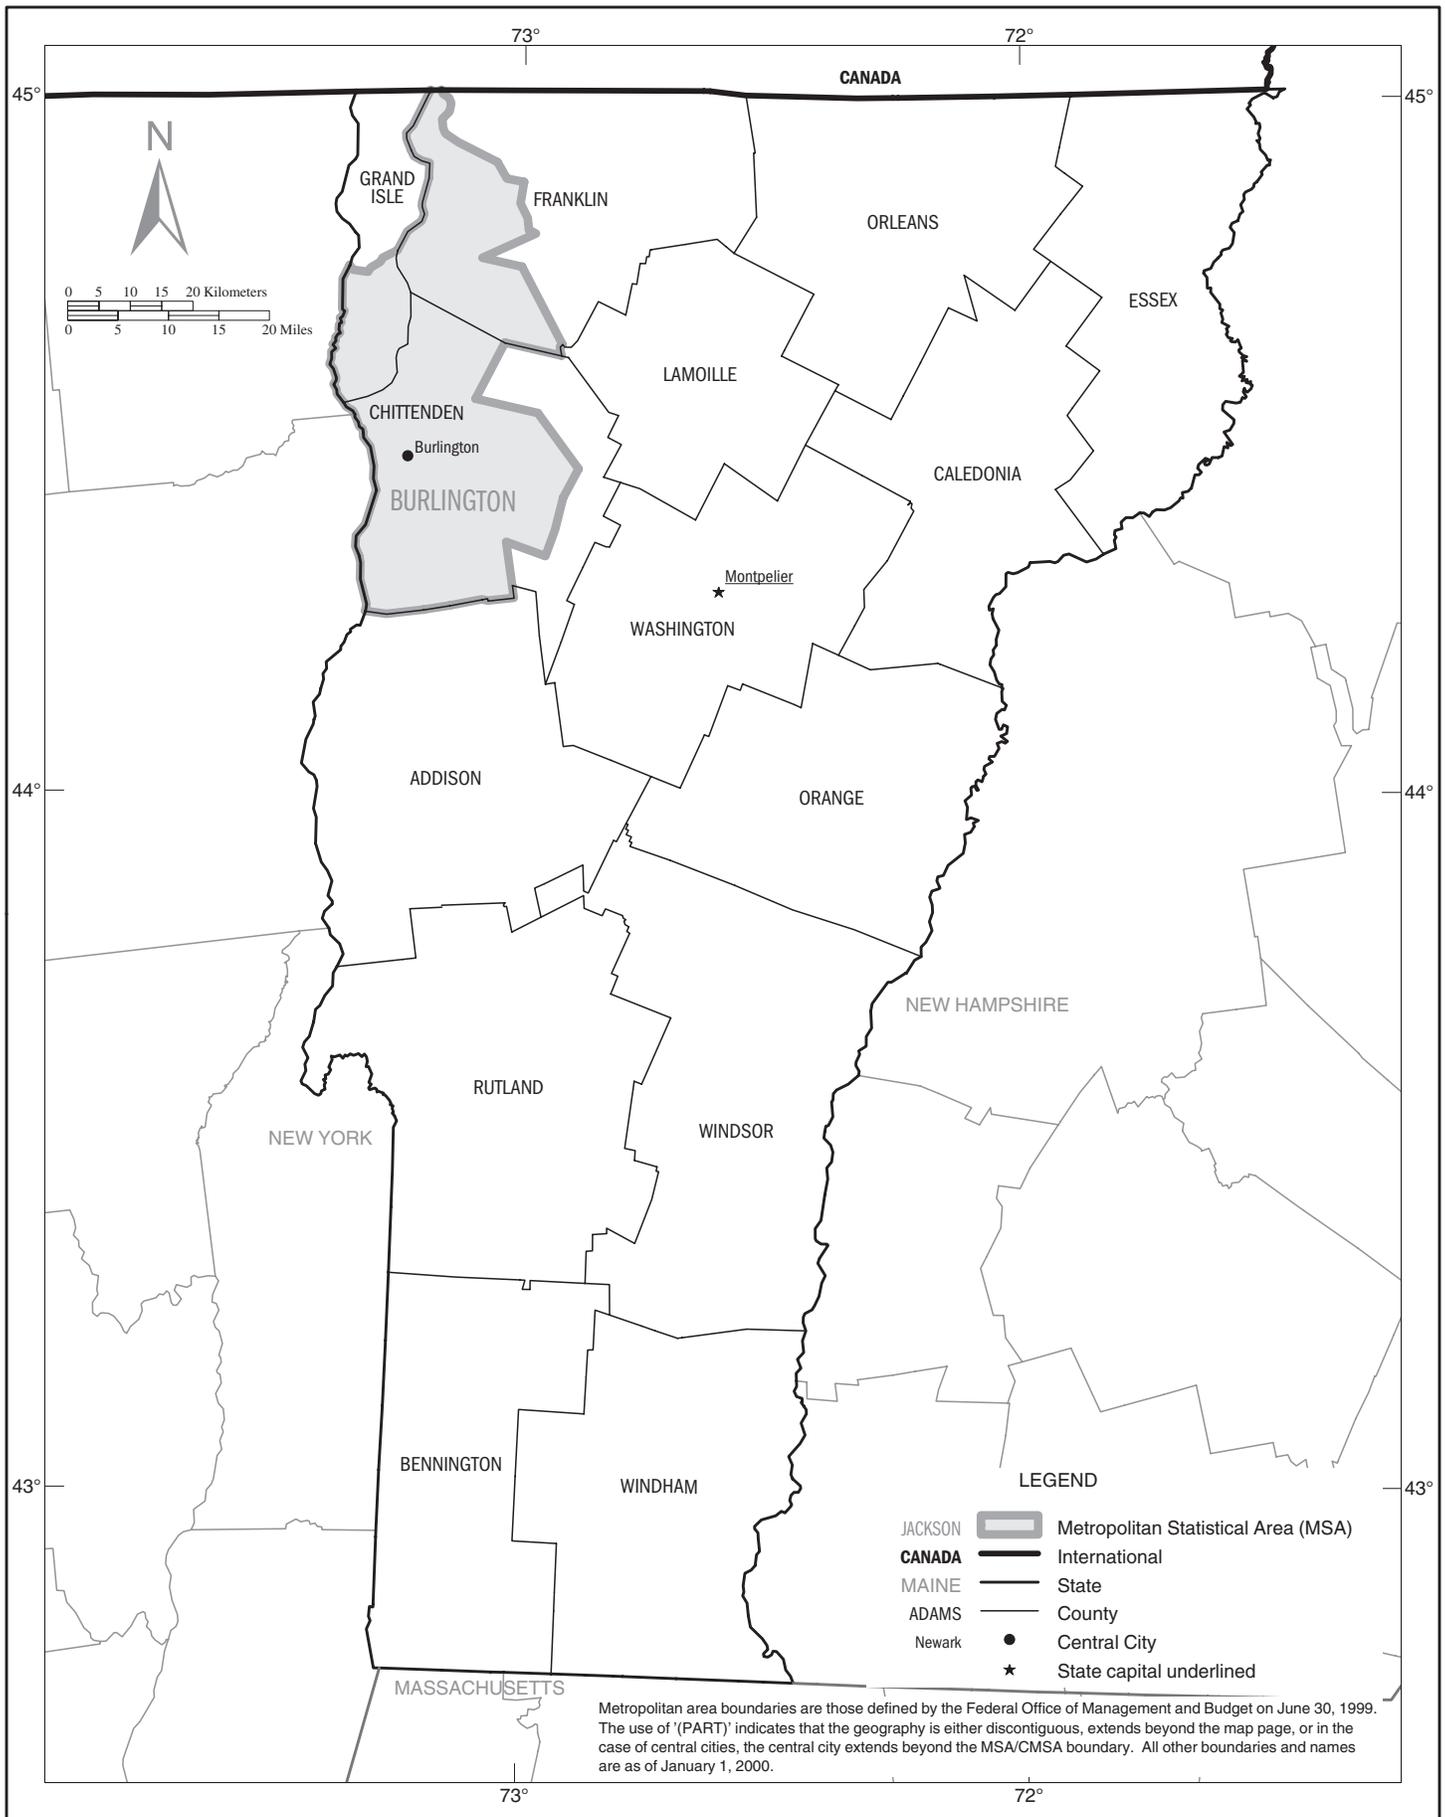

This list presents the reference coordinates for each county on the county subdivision outline map. Map section numbers refer to the county subdivision outline maps only.

Counties, County Subdivisions, and Places - Section 1

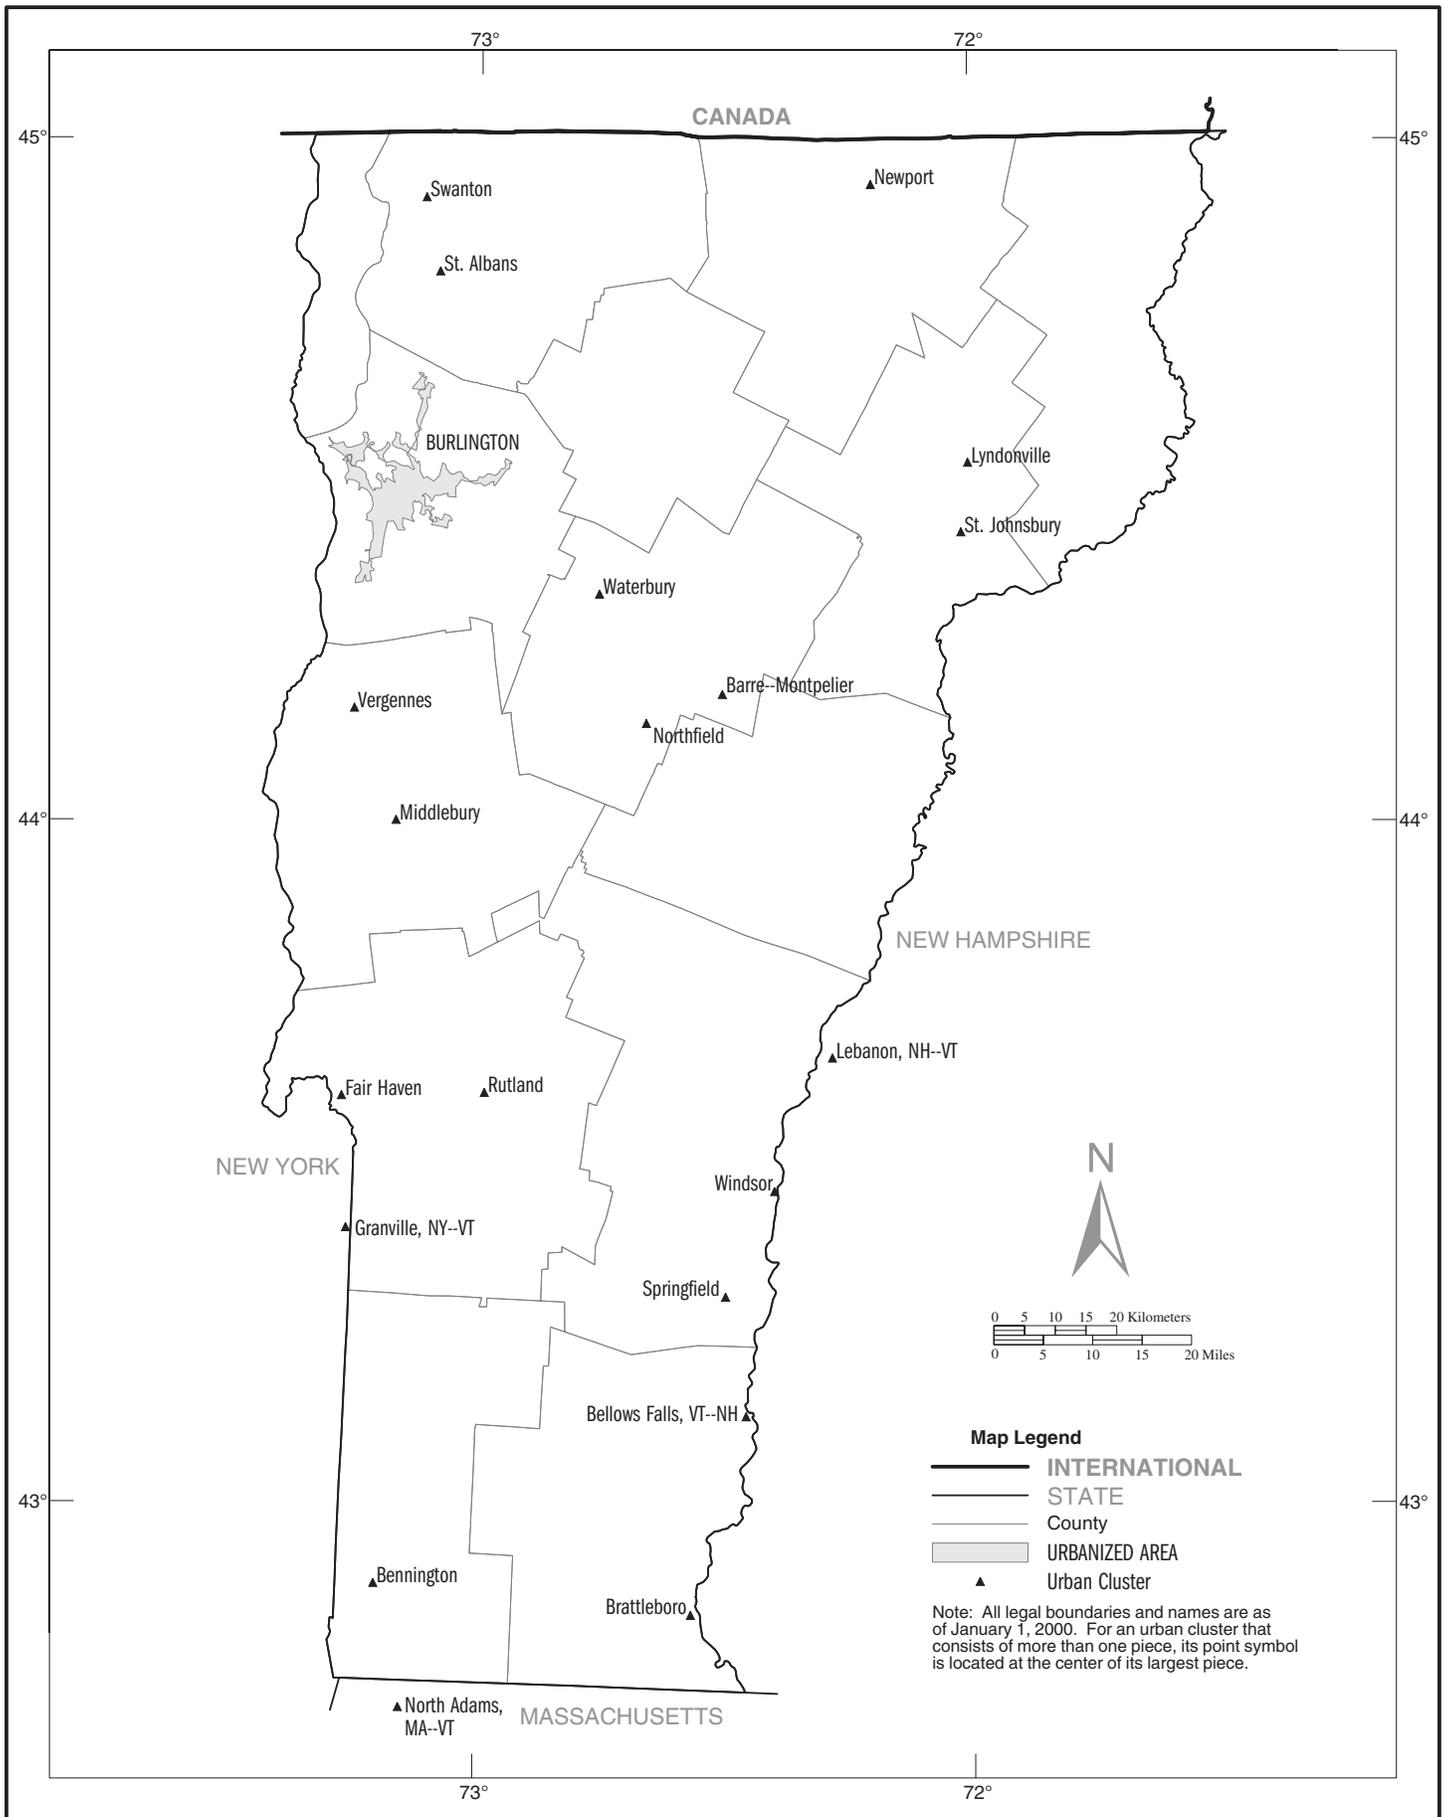

Metropolitan Area, Counties, and Central Cities

Metropolitan area boundaries are those defined by the Federal Office of Management and Budget on June 30, 1999. The use of '(PART)' indicates that the geography is either discontinuous, extends beyond the map page, or in the case of central cities, the central city extends beyond the MSA/CMSA boundary. All other boundaries and names are as of January 1, 2000.
