Purdue University; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC.

Docket Number: 99-016. *Applicant:* Purdue University, W. Lafayette, IN 47907-1393. *Instrument:* ICP Mass Spectrometer, Model PlasmaQuad 3. *Manufacturer:* VG Elemental, United Kingdom. *Intended Use:* See notice at 64 FR 36338, July 6, 1999.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument provides: (1) Determination of six radionuclides (¹⁰Be, ¹⁴C, ²⁶Al, ³⁶Cl, ⁴¹Ca, ¹²⁹I) for NSF Accelerator Mass Spectrometry Facility, (2) a high sensitivity quadrupole and (3) measurement of more elements than other ICP-mass spectrometers as determined by testing of standard specimen samples. The Department of Energy advised on August 18, 1999 that (1) these capabilities are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

National Plan of Action for the Reduction of Incidental Catch of Seabirds in Longline Fisheries

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Public notice.

SUMMARY: The United States, through a collaborative effort of NMFS and the U.S. Fish & Wildlife Service (FWS), is developing a National Plan of Action (NPOA) pursuant to the endorsement of the International Plan of Action (IPOA) for the Reduction of Incidental Catch of Seabirds in Longline Fisheries by the United Nations Food and Agriculture Organization (UN FAO) Committee on Fisheries (COFI) Ministerial Meeting in March 1999. Noting the increased numbers of incidental seabird catch in longline fisheries, this IPOA calls on COFI member states to voluntarily develop national plans on reducing this incidental seabird catch. The United States has committed itself to developing this national plan, and reporting on its implementation to COFI, no later than 2001. This notice provides a time frame for the completion of this project and an outline of the contents of this NPOA. The public is invited to provide written comments and suggestions for items to be incorporated or addressed within the NPOA.

DATES: Comments will be accepted on the Seabird NPOA from September 9, 1999 until September 30, 1999.

ADDRESSES: Written comments should be sent to David Kerstetter, NOAA-Fisheries/SF, 1315 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: David Kerstetter, 301-713-2337, ext. 107, or FAX 301-713-2313.

SUPPLEMENTARY INFORMATION: The "International Plan of Action (IPOA) for Reducing Incidental Catch of Seabirds in Longline Fisheries" was endorsed in principle at the 23rd FAO COFI session in February 1999 and approved at the Fisheries Ministerial in March 1999. As with the two other IPOAs on sharks and capacity reduction, the Seabird IPOA calls on members to voluntarily develop an NPOA on this issue.

The FAO Fisheries Department has a draft budget for the 1999-2001 biennium of US\$ 304,000 to assist with implementation of the seabird Plan by its Members. These funds have been allocated primarily to staff time, consultants, and publication costs. FAO anticipates the following three major actions from this budget toward its members: (1) Providing technical assistance while preparing NPOAs, (2) providing assistance in coordinating research and training, and (3) assisting in the reporting process to COFI.

The U.S. Government agencies did not wait for the passage of the IPOA to begin the work of seabird protection and management. Many measures have already been taken to reduce the incidental catch of these seabird species under such statutes as the Magnuson-Stevens Fishery Conservation and Management Act, the Endangered Species Act (ESA), and the Migratory Bird Treaty Act (MBTA). The U.S. NPOA is currently under development as a collaborative effort between NMFS and the Fish and Wildlife Service (FWS), with a draft Seabirds NPOA tentatively due for **Federal Register** notice in November 1999 and full completion of the Plan by January 2000.

Written comments on the Seabirds NPOA are encouraged (See **ADDRESSES**).

PROPOSED SCHEDULE
