## M327G — GLASS CONTAINERS (SHIPMENTS, PRODUCTION, AND STOCKS)

### DEFINITIONS AND SPECIAL INSTRUCTIONS

#### 1. Scope of survey

This survey covers all manufacturers of machine-made glass bottles, jars, vials, and tumblers for commercial packing or home canning of any product, whether for sale or for use by the producing company.

#### 2. Figures to be reported

Companies with more than one establishment manufacturing the products covered by this survey are requested to compile one report covering all locations.

##### a. Shipments

Column 1 — Report the shipments of glass containers in thousands of gross and be sure to include:

- Exports
- Quantities shipped to consignees
- Shipments to military offshore locations, post exchanges, and ships' stores
- Shipments to Alaska and Hawaii
- Shipments to Puerto Rico

but exclude:

Shipments of purchased glass containers (i.e. resales)

##### b. Production

Column 2 — Report the production of glass containers in thousands of gross.

##### c. Stocks, end of month, of glass containers

Column 3 — Report the stocks of glass containers in thousands of gross. Include all containers on hand at your plant(s) at the end of the month. Exclude imports and stocks held by consignees. The sum of stocks on hand at the end of the previous month plus production during the current month minus shipments during the current month should be equal to stocks on hand at the end of the current month, unless breakage or stock adjustments have occurred.

#### 3. Definitions of types of glass containers

Food (item code 1150) — Non-juice containers

Examples include:

- baby foods,
- catsup,
- coffee,
- concentrated beverage syrup,
- flavoring extracts,
