RIN 0648-AJ51

Fisheries of the Exclusive Economic Zone Off Alaska; Scallop Fishery off Alaska; Amendment 3

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues a final rule to implement Amendment 3 to the Fishery Management Plan for the Scallop Fishery off Alaska (FMP), which delegates to the State of Alaska (State) the authority to manage all aspects of the scallop fishery, except limited access. This final rule repeals all Federal regulations governing the scallop fishery off Alaska, except for the scallop vessel moratorium program. This action is necessary to eliminate duplicative regulations and management programs at the State and Federal levels and is intended to further the goals and objectives of the FMP.

DATES: Effective July 14, 1998.

ADDRESSES: Copies of Amendment 3 and the Environmental Assessment/Regulatory Impact Review (EA/RIR) prepared for Amendment 3 are available from the NMFS Alaska Region, P.O. Box 21668, Juneau, AK 99802, Attn: Lori J. Gravel, or by calling the Alaska Region, NMFS, at 907-586-7228.

FOR FURTHER INFORMATION CONTACT: Kent Lind, 907-586-7228 or kent.lind@noaa.gov.

SUPPLEMENTARY INFORMATION: NMFS and the State of Alaska manage the scallop fishery off Alaska pursuant to the FMP. The North Pacific Fishery Management Council (Council) prepared the FMP pursuant to the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Federal regulations governing the scallop fishery appear at 50 CFR parts 600 and 679. State regulations governing the scallop fishery appear in the Alaska Administrative Code (AAC) at 5 AAC Chapter 38--Miscellaneous Shellfish.

The Council submitted Amendment 3 for Secretarial review on March 26, 1998, and a Notice of Availability of the amendment was published March 31, 1998 (63 FR 15376), with comments on the FMP amendment invited through June 1, 1998. NMFS published a proposed rule to implement Amendment 3 on April 16, 1998 (63 FR 18863), with comments on the proposed rule invited until June 1. No comments were received on the FMP amendment or the proposed rule by the end of the comment periods.

Based on a review of the FMP amendment, proposed rule, EA/RIR, and applicable State laws, the Administrator, Alaska Region, NMFS, determined that Amendment 3 is necessary for the conservation and management of the scallop fishery off Alaska and that it is consistent with the

Magnuson-Stevens Act and other applicable laws.

Management Background and Need for Action

The history of the scallop fishery off Alaska and the events leading up to the development of the joint State-Federal management regime under Amendment 1 to the FMP are discussed in detail in the proposed rule (63 FR 18863, April 16, 1998) and in the EA/RIR prepared for this action (see ADDRESSES). Amendment 1 established a joint State-Federal management regime under which NMFS implemented Federal scallop regulations that duplicate most State scallop regulations, including definitions of scallop registration areas and districts, scallop fishing seasons, closed waters, gear restrictions, efficiency limits, crab bycatch limits, scallop catch limits, inseason adjustments, and observer coverage requirements. This joint State-Federal management regime was designed as a temporary measure to prevent unregulated fishing in Federal waters until changes in the Magnuson-Stevens Act would enable the Council to delegate management of the fishery to the State.

While the joint State-Federal management regime established under Amendment 1 has enabled NMFS to reopen the Exclusive Economic Zone to fishing for scallops, it has proven to be cumbersome in practice. Every management action, including inseason openings and closures, must be coordinated so that State and Federal actions are simultaneously effective. NMFS must draft and publish in the **Federal Register** inseason actions that duplicate every State inseason scallop action. State scallop managers are now constrained in their ability to implement management decisions rapidly because they must coordinate each action with NMFS and provide sufficient lead-time for publication of the action in the **Federal Register**.

The only purpose of maintaining duplicate regulations at the State and Federal level is to prevent unregulated fishing by vessels not registered under the laws of the State. The State-Federal management regime established under Amendment 1 is no longer necessary to prevent unregulated fishing for scallops in Federal waters because the Sustainable Fisheries Act of 1996, which amended the Magnuson-Stevens Act, now provides authority for the Council to delegate to the State management responsibility for the scallop fishery in Federal waters off Alaska. The statutory requirements for delegation of fisheries management

authority to a state were presented in the preamble to the proposed rule (63 FR 18863, April 16, 1998).

Repeal of Federal Scallop Regulations Under Amendment 3

Amendment 3, adopted by the Council by a 10 to 1 vote, delegates to the State the authority to manage all aspects of the scallop fishery in Federal waters, except limited access, including the authority to regulate vessels not registered under the laws of the State. Section 306(a)(3)(B) of the Magnuson-Stevens Act, as amended, requires that such a delegation of authority be made through an FMP amendment and be approved by a three-quarters majority vote of the Council.

This final rule to implement Amendment 3 removes subpart F of 50 CFR part 679. Subpart F contains all the Federal regulations specific to the scallop fishery off Alaska, with the exception of the scallop vessel moratorium program, which is set out under permit requirements at June 26, 1998, § 679.4(g). Amendment 3 and this final rule change the Federal scallop vessel moratorium program established under Amendment 2 to the FMP by simplifying scallop management in the Federal waters off Alaska through the elimination of unnecessary duplication of regulations at the State and Federal levels.

This final rule also makes minor changes to § 679.1(h) to accommodate the delegation of management authority to the State and adds a definition of Scallop Registration Area H (Cook Inlet) to the definitions at § 679.2 because this definition, previously set out in subpart F, is necessary for the scallop vessel moratorium program.

Changes Made From the Proposed Rule

This final rule removes definitions for "Dive" and "Scallop dredge" under the definition of "Authorized fishing gear" at § 679.2 because these definitions are no longer required. In addition, the final rule eliminates cross references to scallop regulations at § 679.7(h) and § 679.22(g). No additional changes were made from the proposed rule.

Classification

This action repeals duplicative Federal regulations that serve no Federal management purpose and have the potential to confuse the regulated community. In addition, this action does not significantly revise

management measures for the regulated community in a manner that would require time to plan or prepare for those revisions. For these reasons, the Assistant Administrator for Fisheries, NOAA, finds that good cause exists to waive the 30-day delayed effectiveness period for this action under 5 U.S.C. 553(d).

The Assistant General Counsel for Legislation and Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration that this rule would not have a significant economic impact on a substantial number of small entities. No comments were received regarding this certification. As a result, a regulatory flexibility analysis was not prepared.

This final rule has been determined to be not significant for the purposes of E.O. 12866.

The Administrator, Alaska Region, NMFS determined that fishing activities conducted under this rule would not affect endangered and threatened species listed or critical habitat designated pursuant to the Endangered Species Act in any manner not considered in prior consultations on the scallop fisheries off Alaska.
