

the most recent period; (3) if the exporter is not a firm covered in this review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters of this merchandise will continue to be 60.79 percent, the all others rate established in the final results of the less than fair value investigation (59 FR 41431, August 12, 1994).

The deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulation and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with section 751(a)(1) of the Act and 19 CFR 353.22.

Dated: January 7, 1997.

Robert S. LaRussa,

Acting Assistant Secretary for Import Administration.

Fisheries of the Exclusive Economic Zone Off Alaska; Amendments 44/44; Definition of Overfishing

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Approval of fishery management plan amendments.

SUMMARY: NMFS announces the approval of Amendments 44/44 to the Fishery Management Plan for Groundfish of the Gulf of Alaska and the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMPs). These amendments revise definitions of acceptable biological catch (ABC) and overfishing levels (OFLs) for groundfish species or species groups. This action is necessary to ensure that conservation and management measures continue to be based upon the best scientific information available and is intended to advance the North Pacific Fishery Management Council's (Council's) ability to achieve, on a continuing basis, the optimum yield from fisheries under its authority.

EFFECTIVE DATE: January 9, 1997.

ADDRESSES: Copies of Amendments 44/44 and the environmental assessment and related economic analysis prepared for the proposed action are available from the North Pacific Fishery Management Council, 605 West 4th Avenue, Suite 306, Anchorage, AK 99501-2252; telephone 907-271-2809.

FOR FURTHER INFORMATION CONTACT: James Hale, 907-586-7228.

SUPPLEMENTARY INFORMATION: In response to the national standards established in the Magnuson Fishery Conservation and Management Act and advisory guidelines codified at 50 CFR part 600, subpart D, the Council developed an objective and measurable definition of overfishing and, in 1991, implemented that definition under Amendments 16 and 21 to the FMPs (56 FR 2700, January 24, 1991). In the years since implementation of that definition, fishery scientists have had the opportunity to evaluate the efficacy of current definitions of ABC and overfishing. In light of that experience and with increased understanding of the reference fishing mortality rates used to define ABCs and overfishing, fishery scientists have raised several concerns about the present definitions and the extent to which they reflect and account for levels of uncertainty about fish populations. Consequently, NMFS' Overfishing Definitions Review Panel and the Council's Scientific and Statistical Committee recommended redefining ABC and overfishing to facilitate more conservative, risk-averse management measures when stock size and mortality rates are not fully known.

Amendments 44/44 revise the definitions of OFL and ABC consistent with these recommendations.

A Notice of Availability of Amendments 44/44, which describes the proposed amendments and solicited comments from the public until December 10, 1996, was published in the Federal Register (October 17, 1996; 61 FR 54145). One comment was received in support of the amendments. After review under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), NMFS determined that Amendments 44/44 are consistent with the Magnuson-Stevens Act and other applicable laws and approved Amendments 44/44 on January 9, 1997. Additional information on this action is contained in the October 17, 1996, Notice of Availability (61 FR 54145).

No regulatory changes are necessary to implement these FMP amendments.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 10, 1997.

Bruce Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
