| HANDOUT (7) | T (7) SEABIRD RESTORATION PLAN TIMELINE & SBI 2009 DRAFT PROPOSAL                          |  |

## INTRODUCTION & OVERVIEW OF MEETING OBJECTIVES

JEN BOYCE

LONG BEACH FEDERAL BUILDING

```
DISCUSSION Meeting goal: review and discuss draft MSRP FY 09 budget.
A resolution to formally adopt the 2009 budget will be sent out once the draft is approved by the trustee council.
```

## AGENDA TOPIC APPROVAL OF SANTA CRUZ ISLAND TRUSTEE COUNCIL MEETING MINUTES

JEN BOYCE

 DISCUSSION
 Handout(1): minutes of MSRP Trustee Council meeting held on Santa Cruz Island, June 20, 2008

 Jennifer Boyce made a motion to officially adopt the minutes of the MSRP Trustee Council meeting held on Santa Cruz Island, June 20, 2008. Patty Velez seconded the motion. The Trustee Council voted all in favor, and the minutes were formally approved and will be put in the administrative record.

| DISCUSSION | <ul> <li>Reference to handout(2) of MSRP Court Registry Funds and accounts balance sheet:         <ul> <li>Noted: The swing money is part of court registry account</li> <li>The real balance number to look at for restoration funds is the DOI-NRDA account</li> </ul> </li> <li>Question posed to council if Cotton &amp; Co should continue to reconcile the balance of the DOI and US District Court accounts.</li> <li>Per Jim Haas, the money was put into a longer term investment. Jim will check to see if any interest is due in December.</li> <li>The trustee council will make the investment decision on the next monthly council conference call.</li> <li>Question was raised of how much is still owed to NOAA for past costs associated with damage assessment.</li> <li>Chris Plaisted gave an overview of the plan to finalize all of NOAA's payments due for damage assessment.</li> <li>As per the FY 03-1 resolution NOAA is to be paid \$4M per year over several years, with a final payment of \$2.5M in 2008.</li> <li>Resolution 06-2 said if payment happened later than scheduled, any interest earned over the amount between the scheduled withdrawal and the actual withdrawal would go to NOAA.</li> <li>Interest earned up to the date of the actual transfer goes to MSRP</li> <li>Cotris Plaisted proposed the handling of the account to the council:         <ul> <li>Disburse the remaining funds (including past costs and interest) to NOAA per resolution 06-2</li> <li>Move the remaining funds, all of which would be due to MRSP, out of court registry account and into the DOI NRDA account</li> <li>Handout (3) given to council by Chris Plaisted (Draft Resolution 08-4)</li> </ul> </li> </ul> |
|            | <ul> <li>Total past costs payment to NOAA will be \$6.5M: \$4M was due in 2007, and \$2.5M was due in January 2008. The total interest to be paid to NOAA is \$1,056,539. The balance of what is left in the account will be moved into the DOI NRDA account for use by MSRP</li> <li>MSRP has determined it no longer needs Cotton &amp; Co. to maintain the reconciliation of the DOI and Court Registry account and Cotton &amp; Co. will be notified of the change to the MSRP – Cotton &amp; Co. contract</li> <li>The council members in attendance unanimously agreed with the proposal and to distribute resolution 08-4 for council signatures.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| AGENDA     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| DISCUSSION | Council received a handout (4) summarizing the status of all MSRP agency cost packages.<br>The following MSRP cost packages were ratified by the trustee council:<br>USFWS FY 2002: \$417,905.78<br>NOAA FY 2005: \$567,163.08<br>USFWS FY 2005: \$477,767.01<br>NOAA FY 2006: \$520,649.13<br>CSLC CY 2006: \$14,804.33                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
