

The Beams and Applications Seminar Series

Project of the X-ray ring FEL

N. A. Vinokurov

**Budker Institute of Nuclear Physics
SB RAS, Novosibirsk, Russia**

**Bldg. 401, room B3100
Tuesday, Mar. 29, 1:30 pm
(Special time and location)**

Host: E. Gluskin, XFD

The ring high gain FEL provides the possibility to obtain the monochromatic seed signal for the HGHG x-ray FEL. The feasibility of this device is discussed.

Visitors from off-site please contact Yuelin Li
(ylli@aps.anl.gov, 630-252-7863) to arrange for a gate pass.

This ANL seminar series is a CARA activity and focuses on the physics, technology and applications of particle and photon beams. It is sponsored jointly by the ASD Division, the AWA group of the HEP Division, and the ATLAS group of the PHY Division.
