Census File Number

**Item 17. CONSUMPTION OF SELECTED MATERIALS DURING 1997**

**INSTRUCTIONS**

**1. General** – The materials, parts, and supplies listed below are those commonly consumed in the manufacture, processing, or assembly of the products listed in item 18B. Please review the entire list and report separately each item consumed. Leave blank if you do not consume the item. If you use materials, parts, and supplies which are not listed, describe and report them in the "Cost of all other materials . . ." line at the end of this section. If you consumed less than \$25,000 of a listed material, include the value with "Cost of all other materials . . .," Census material code 970099 8.

Report materials, parts, and supplies purchased, transferred from other plants of your company, or withdrawn from inventory.

If quantities are requested, please use the unit of measure specified.

If the information as requested cannot be taken directly from your book records, REASONABLE ESTIMATES ARE ACCEPTABLE.

**2. Valuation of Materials Consumed** – The value of the materials, etc., consumed should be based on the delivered cost; i.e., the amount paid or payable after discounts and including freight and other direct charges incurred in acquiring the materials.

Materials received from other plants within your company should be reported at their full economic value (the value assigned by the shipping plant, plus the cost of freight and other handling charges).

If purchases or transfers do not differ significantly from the amounts actually put into production, you may report the cost of purchases or transfers. However, if consumption differs significantly from the amounts purchased or transferred, these amounts should be adjusted for changes in the materials and supplies inventories by adding the beginning inventory to the amount purchased or transferred and subtracting ending inventory.

**3. Contract Work** – Include as materials consumed those you purchased for use by others making products for you under contract. Amounts paid to the companies doing the contract work should be reported in item 10, line e, and should include freight in and out. On the other hand, materials owned by others but used at this establishment in making products for others under contract or on commission should be excluded.

**4. Resales** – Cost for products bought and sold or transferred from other establishments of your company and sold without further manufacture, processing, or assembly should be reported in item 10, line b, not in item 17 below. The value of these products shipped by this establishment should be reported in item 18B under Census product code 99989 00 6, "Resales."

**Item 18B. PRODUCTS AND SERVICES OF THIS ESTABLISHMENT DURING 1997**

**INSTRUCTIONS**

**1. General** – The manufactured products and services listed below are generally made in your industry. If you make products that are not listed, describe and report them in the "All other products made in this establishment" section at the end of item 18B. PLEASE DO NOT COMBINE PRODUCT LINES.

If quantities are requested, please use the unit of measure specified.

If the information as requested cannot be taken directly from your book records, REASONABLE ESTIMATES ARE ACCEPTABLE.

**2. Valuation of Products** – Report the value of the products shipped and services performed at the net selling value, f.o.b. plant to the customer; i.e., after discounts and allowances, and exclusive of freight charges and excise taxes.

**3. Contract Work**

a. Products made by others for you from your materials: Report such products on the specific lines of this section as if they were made in this establishment.

b. Products that you made from materials owned by others: Job or commission finishing of broadwoven fabrics should be reported on lines 42–63 in part VI-A. For all other products report the amount that you received for "commission or contract receipts" on lines 100–106. Do not report on the specific product lines for these products.

**4. Resales** – Do not report on the specific product lines those products bought and sold or transferred from other establishments of your company and sold without further manufacture. Report only a value under Census product code 99989 00 6, "Resales."

**5. Quantity Produced for All Purposes** – Where requested, report in column (D-1) the total amount of each product made for sale, on commission from materials owned by others, or for own use in this plant in further manufacture.

**6. Products Shipped and Other Receipts** – Report the quantity and value of each product physically shipped during 1997. Include products shipped to other plants and warehouses of your company and on consignment. Deduct returned goods. Also report in column (E) the value of services performed at this establishment where specified.

Information on products shipped should be reported based on the product condition at the time of shipment. For example, do not report as gray-goods shipments any sales of finished fabrics or fabricated textile products.

Report products transferred to other plants for further processing such as yarn to be woven, gray goods to be finished, finished goods to be fabricated into sheets, etc. The establishment receiving such transfers should report them as materials consumed at the same value plus costs of freight and other direct handling charges.

If not shown, please enter your 11-digit Census File Number from the address label on page 1

Census File Number

Item 18B. PRODUCTS AND SERVICES OF THIS ESTABLISHMENT DURING 1997 – Continued

INSTRUCTIONS – Continued

**7. Detailed Data Reported Elsewhere** – This report requires totals for groups of products covered in more detailed Current Industrial Reports (CIR). Selected data items indicated by an asterisk should equal the sum of the detail reported on the CIR report. The Current Industrial Reports related to this report are as follows:

- a. MQ22D, Consumption of Fibers in Woolen Spinning and Production of Tops and Noils and Tow to Top
- b. MA22F, Yarn Production
- c. MQ22T, Broadwoven Fabrics (Gray)
- d. MQ23X, Bed and Bath Furnishings

**8. Reference List** – To aid you in locating the appropriate part of the report form, a summary of item 18B is shown

**9. Yarn and Fabrics Classification** – Yarn and fabrics made from more than one fiber are classified by chief fiber content. For example, fabrics which are 40 percent cotton, 30 percent rayon, and 30 percent acetate would be considered manmade fiber fabrics. Blends and mixtures which are by weight 50 percent manmade fibers and 50 percent natural fiber should, for purposes of continuity, be classified in the manmade fiber category. Blends with 36 percent or more wool are classified as wool.

Operation	Products are listed in –	
	Part	Line No.
Scouring and/or combing, including converting top or sliver from tow	I	1–2
Spinning yarn	II	3–14
Textured filament yarn	III	15
Weaving gray goods (including tire cord)	IV	16–29
Knit fabrics	V	30–41
Finishing fabrics on commission	VI-A	42–63
Finishing of own fabrics	VI-B	64–84
Fabricating sheets and pillowcases	VII-A	85–86
Cotton towels and wash cloths	VII-B	87–88
Bedspreads, comforters, and blankets	VII-C	89–93
Fabricating all other textile products	VII-D	94–99
Commission receipts (except job finishing of fabrics)	VIII	100–106
