1997 CENSUS OF MINERAL INDUSTRIES

INSTRUCTIONS FOR REPORTING NONMETALLIC MINERALS (EXCEPT FUELS) MINING

FORMS MI-1401, MI-1402, and MI-1403

GENERAL INFORMATION

Respondents are not required to respond to any information collection unless it displays a valid approval number from the Office of Management and Budget (OMB). The OMB 8-digit number appears in the upper right corner of this questionnaire.

If you require an extension of time to complete this report or if there are any other questions regarding this report, please write or call the Census Bureau as instructed on page 1 of the report form.

We estimate that it will take from 2 to 10 hours to complete this form, with almost 4 hours being the average. This includes time to read instructions, develop or assemble material, conduct tests, organize and review the information, and maintain and report the information. If you have any comments regarding these estimates or any other aspect of this survey, send them to the Associate Director for Administration/Comptroller, Attn: Paperwork Reduction Project 0607-0845 Room 3104, Federal Building 3, Bureau of the Census, Washington, DC 20233.

WHO SHOULD REPORT?

- A separate report must be filed for each mineral establishment operated by the company during any part of 1997. This includes mines under development and preparation plants under construction. **The report should be completed by the operator of the establishment, whether the operator is the owner or is operating it under lease or contract.**
- If you have not received forms to cover each of your operations, call or write the Census Bureau, describing the activity at the establishments for which you are requesting forms.
- If this questionnaire does not pertain to your type of activity, complete all appropriate items, such as employment, payroll, shipments, etc., of this report. Describe your activities in Item 1C, Principal Activity.

WHAT IS A MINERAL ESTABLISHMENT?

A mineral establishment is a single physical location where mineral operations are performed. It represents a working or group of workings at a given locality in which operations are conducted as a unit or are unified by common management or joint handling of some part of the mining or preparation process.

- Individual shafts, openings, or sites should not necessarily be considered as individual mines.
- Report open-pit mines separately from underground mines, whenever possible.

Examples of mineral establishments are:

- mine only (a mine may be an underground operation; a quarry or pit; a well or group of wells; or a river, lake, or ocean deposit)
- mine and preparation plant (such plants may be engaged in milling, washing, calcining, crushing, classifying, or other types of mineral preparation)
- preparation plant only
- mines or sites under exploration, development, or maintenance
- plants under construction

Portable sand and gravel preparation and portable stone-crushing plants are required to file only one report for all operations of the plant during the year. Specify in the remarks the principal locations at which the plant operated during 1997.

Separate reports are required for lease and land acquisitions of mineral rights if they are located in a county different than any establishment operated. Include a designation of the kind of mineral expected to be produced. Such acquisitions may be included in the report of the nearest operating establishment if the establishment is located in the same county as the acquisition and produces the same type of mineral.

HOW TO REPORT FOR ESTABLISHMENTS WITH NO PRODUCTION DURING 1997

Return a completed report for any of your company's mineral establishments that had no production during 1997. Enter "0" in item 18B. Report information in the appropriate items, such as custodial employees, inventories, assets, or capital expenditures.

WHAT ACTIVITIES SHOULD BE REPORTED?

Include:

- operations of a mine, pit, or quarry together with its associated shops, auxiliary units, yards, mill, preparation plant, and offices
- a mill or preparation plant not at the site of the mines served, or operated under separate management from the mines, together with its associated shops, auxiliary units, and offices
- other associated activities **when carried on at the same physical location** such as:
 - generating energy for the mine or plant (include a central power plant serving two or more mines or plants with the one for which the power plant furnishes the most electric energy)
 - maintenance of mine, plant, and equipment
 - receiving, shipping, storage, research, recordkeeping, health, safety, cafeteria, and other services
 - separate stone, sand, and gravel quarrying and crushing operations carried on by a company whose primary activity is construction

Exclude:

- operation of company stores, boardinghouses, bunkhouses, and recreational facilities
- separate sales branches, research laboratories, and general administrative offices. Report these on appropriate Census of Business, Census of Manufactures, or central office or auxiliary forms
- plants primarily producing cement, lime, structural clay or pottery products, or synthetic abrasives
- construction activities

WHAT PERIOD SHOULD EACH REPORT COVER?

- Each report should cover the calendar year 1997.
- If book records are not on a calendar-year basis, carefully prepared estimates are acceptable.
- If your fiscal year covers at least 10 months of calendar year 1997, and reporting on a calendar-year basis involves considerable cost, you may report on a fiscal-year basis. However, all payroll and hours-worked figures should relate to the calendar year rather than the fiscal year. (Use calendar-year payroll records from your tax records.)
- If an establishment began to operate or ceased to operate during 1997, report only the part of the year that the establishment was in operation.
- If the operator changed during the year, report only for that part of the year that your company operated the establishment. Report in item 15 the appropriate information on changes in **operator** or operations.
- Specify in the certification, item 22, the exact period that the report covers.

MULTIESTABLISHMENT COMPANIES ONLY

If any of the items requested are maintained in your records only at a divisional or company level, allocate their costs to each establishment for which you received a questionnaire. When determining transfer values of products and materials from one establishment to another (interplant transfers), include, in addition to direct costs of production, a reasonable proportion of "all other costs (company overhead) and profits." The establishments receiving such transfers should report them as purchased minerals for preparation, supplies, fuels, or electric energy at the same value plus cost of freight and other direct handling charges. (See item 10.)

Items 6, 7, and 8 – Assets, Capital Expenditures, Retirements, Depreciation, and Rental Payments

Multiestablishment Companies

- If this establishment is part of a multiestablishment company and the establishment maintains a tenant relationship with the parent company or one of its subsidiaries and pays "rent" for the use of either its buildings or equipment, exclude the value of this rent from Item 8, Rental Payments. Instead, report the gross value of assets made available to this establishment as a result of this "rental" agreement in item 6, as if the establishment owned them.
- If this establishment uses buildings or equipment rented directly from other companies, but rental payments are handled centrally at a company or division level, report the share of overhead charged to this establishment or estimate the share of rental charges appropriate to the operations of this establishment in item 8.

Establishments Involved With Leasing Arrangements for Equipment and/or Buildings

- Report leased equipment according to the type of lease negotiated with the producer or the lessor.
- Capital Leases (as defined by the Financial Accounting Standards Board (FASB)) report:
 - original cost or market value of that equipment and building as a value of fixed assets. Include annual depreciation and retirements charged against this equipment
 - cost (at market value) of acquisitions of building and equipment during the year as a capital expenditure and include it in the end-of-year assets and charge the first year depreciation (and retirements, if any)
- Operating Leases – report the periodic payments made to the producer or lessor in the rental section (item 8). Exclude the value of the building and equipment as assets, capital expenditures, depreciation, or retirements.

Item 6, Lines a and d – Gross Value of Depreciable and/or Depletable Assets

Report the acquisition cost (not current market value) of depreciable assets for which depreciation or amortization reserves are maintained. Also, report the acquisition cost of assets such as capitalized mineral exploration and development or acquisition cost for mineral land and rights for which depreciation, amortization, or depletion accounts are maintained.

- For new construction or other improvement projects in progress but not yet complete, include:
 - cumulative capital expenditures for such projects already in place at the beginning and end of the year, respectively, in item 6, lines a and d
 - expenditures capitalized for these projects during 1997 in item 6, line b

- If the establishment was acquired during the year, report the value at the end of the year (item 6, line d) as your purchase cost adjusted for capital expenditures (item 6, line b) and deductions (item 6, line c) since the time of purchase. Include used assets purchased during the year at their market value at the time of transfer rather than at original book value.

- If the establishment was sold by your company during the year, report the gross value at the beginning of the year (item 6, line a) at its acquisition cost. Also report this acquisition cost plus capital expenditures that may have occurred since the beginning of the year and the time of sale in item 6, line c.

- Report gross assets for the end of the year consistently with the gross assets at the beginning of the year and the annual asset changes during the year. Item 6, line a plus line b minus line c equals line d.

Item 6, Line b – Capital Expenditures During Year

Report the actual capital outlays during 1997, not the final value of buildings or other structures completed or equipment put in place during the year. (These expenditures are of the type for which depreciation or amortization accounts are ordinarily maintained.)

- Capital expenditures during 1997 may be determined by the following computation:

- (a) cost of additions completed during the year, plus

Report the reduced value of assets (reported in item 6, line d) brought about through use, mineral extraction, gradual obsolescence, or the effect of the elements (decay or corrosion) for 1997 only.

Include charges against assets acquired or completed during the year.

Report cost depletion as an allocation of wasting investment rather than percentage of statutory depletion used for Federal income tax purposes.

Item 8 – Rental Payments During the Year

Report rental payments made to other companies for use of depreciable assets such as buildings, other structures, machinery, and equipment. Include rental payments for land.

If this establishment is part of a multiestablishment company or is involved with leasing arrangements, see special instructions on page 3.
