

NOAA DMP2 Directions for Macintosh

The DMP2 runtime application was created in FileMaker Pro 8. The DMP2 has been tested on Macintosh OS X 10.4.8.

1. Download DMP2Mac.zip and unzip.
2. Open the NOAA DMP2 Mac directory and double-click on the NOAA DMP2 Mac application file/icon:

3. You will see the following window:

4. Enter “kiosk” in Account Name:. Leave Password: empty and click on OK.
5. Note that the free application Adobe Acrobat Reader is necessary to open DMP2 supporting documents. It can be downloaded at:
