Table with 6 columns: Agency, Bureau of Indian Affairs, National Park Service (NPS), US Fish and Wildlife Service, USDA Forest Service (FS), Bureau of Land Management (BLM). Row: Total managed acres.

RESOURCES (2003):

Human:

Suppression:

- Type 1 Hotshot Crews...2
Alpine IHC...Rocky Mountain National Park, CO
Arrowhead IHC...Sequoia & Kings Canyon National Park, CA
Smokejumpers...1
Subject to Furlough for 13 pay periods...West Yellowstone, Yellowstone National Park, WY
Firefighters (Permanent Full Time, Subject to Furlough and Seasonals)...434
Employees at Fire Management Program Center...41
Student Conservation Association Intern (at Fire Management Program Center)...1
Regional Fire Management Officers (RFMOs)...7

Fire Use:

- Fire Use Modules ...9
These NPS modules are used on interagency assignments.

Buffalo National River, AR Great Smoky Mountains National Park, TN Cumberland Gap National Historical Park, KY
Zion National Park, UT Bandelier National Monument, NM Whiskeytown National Recreation Area, CA
Saguaro National Park, AZ Yellowstone National Park, WY Black Hills, stationed at Jewel Cave National Monument, SD

Equipment:

- Water/foam tenders...14
Helicopters (fire only)...9
Engines...155
Air Tanker Base...Knoxville, TN- average 54 retardant drops per season (5-year average)
The NPS does not have a contract with the airtankers. The airtankers are part of the nation-wide contracts that the USDA Forest Service manages. While the FS manages the contracts, the NPS employees have been managing the Base since the 1960s. Today there are two NPS permanents and one seasonal assigned to the Base. There are no FS positions assigned to the Base.
