

NOTES: German data are for the former West Germany only. Detail do not add to 100% because funding for some objectives (for example, advancement of knowledge) is not graphed. R&D is classified according to its *primary* government objective, although it may support any number of complementary goals. For example, defense R&D with commercial spin-offs is classified as supporting defense, not industrial development.

SOURCE: National Science Foundation, SRS; Organisation for Economic Co-operation and Development; and national sources.
