

U.S. Department of the Interior
United States Geological Survey
Plot derived from
Open-File Report 97-97

Base scanned from U.S. Geological Survey (Shelton 1989), Paul Allen (1983), San Jose (1978), and San Francisco (1978) 1:100,000 topographic maps

Stateplane projection, California coordinate system, zone 3

This map is a plot derived from data contained in the digital database Open-File Report 97-97. "Quaternary geology of Alameda County, and parts of Contra Costa, Santa Clara, San Mateo, San Francisco, Stanislaus, and San Joaquin Counties, California: A digital database." A PostScript image of this map is included in the Open-File Report, but the Open-File Report does not contain a paper copy of this map. The Open-File Report consists of the digital data and a pamphlet explaining the database and indicating how to obtain the data from which this map was prepared as well as the PostScript image of the map. The pamphlet also explains how those without computers can obtain a plot of this map from a private vendor.

This report is preliminary and has not been reviewed for conformity with U.S. Geological Survey editorial standards or with the North American Stratigraphic Code. Any use of trade product, firm names, or descriptive phrases only and does not imply endorsement by the U.S. Government.

This information is preliminary and is not intended for use in any legal proceeding. It is released on condition that neither the U.S. nor the United States Government nor any of its employees shall be held liable for any damages resulting from its authorized or unauthorized use.

QUATERNARY GEOLOGY OF ALAMEDA COUNTY AND SURROUNDING AREAS, CALIFORNIA: DERIVED FROM THE DIGITAL DATABASE OPEN-FILE 97-97
