

Training Materials by Title 2007

Accident investigation

Number: VT01293

Material: video 22 minutes

Industry: all industries

Describes how to effectively conduct an accident investigation including the purpose of accident investigation, interviewing the witnesses, gathering and analyzing the information, and implementing improvements.

Summit Training Source 1987

Accident investigation: Just the facts

Number: VT01416

Material: video 18 minutes

Industry: construction

Covers how to effectively conduct an accident investigation including the purpose of accident investigation, gathering the facts, interviewing the witnesses, analyzing the information, and implementing improvements.

Assoc General Contractors of America 1991

Accident prevention: Staying a step ahead

Number: VT01263

Material: video 18 minutes

Industry: general industry

Covers the basics for setting up a company safety program including establishing procedures for reporting hazards, hazard assessment and correction, and employee training.

NOTE: Washington State may have stricter standards than OSHA.

WA State Dept of Labor & Industries 1992

Accidents: It can't happen to me

Number: VT01575

Material: video 10 minutes

Industry: general industry

Covers, through interviews with workers, the basic causes and prevention of accidents including safety attitudes and practices.

Digital 2000 1997

Advertencia a los peligros de plomo (lead)

Number: VT01386 Spanish

Material: video 13 minutes

Industry: construction

Discusses lead hazards including health effects and personal protective

Chicago Construction Safety Council 1996

Aerial lift safety

Number: VT01506

Material: video 7 minutes

Industry: all industries

Demonstrates safe operating procedures, pre-operation inspection, work site evaluation and safe work practices.

Summit Training Source 1998

Agricultural vehicle safety orientation

Number: VT01532

Material: video 12 minutes

Industry: agriculture

Covers basic safety measures including defensive driving techniques and pre-operation inspection.

Digital 2000 1994

Agricultural vehicle safety orientation

Number: VT01534 Spanish

Material: video 12 minutes

Industry: agriculture

See previous description.

Digital 2000 1994

Air purifying respirators

Number: VT00357

Material: video 7 minutes

Industry: general industry

Demonstrates the care and storage of air purifying respirators, the situations where they are

worn, and proper fit testing.

Summit Training Source 1990

Airborne hazards

Number: VT00358

Material: video 6 minutes

Industry: general industry

Describes airborne contaminants, their effect on the respiratory system, and the importance of selecting the right respirator for the job.

Summit Training Source 1990

Training Materials by Title 2007

All about OSHA

Number: VT01679 Spanish

Material: video 8 minutes

Industry: all industries

Provides an introduction to OSHA for the Spanish-speaking workforce including Latino accident statistics, OSHA inspections, reporting job hazards, and employer responsibilities. NOTE: Mention is made of some Georgia OSHA Atlanta West Area Office 2000

Arc welding operations: Construction

Number: VT01576

Material: video 11 minutes

Industry: construction

Reviews safety and health hazards including operating procedures, securing the work zone, ventilation, grounding, personal protective equipment, and fire prevention.

Digital 2000 1992

Asbestos awareness

Number: VT00359

Material: video 6 minutes

Industry: general industry

Covers the identification and uses of asbestos, where it is found and its health hazards.

Summit Training Source 1990

Asbestos awareness: Are you at risk?

Number: VT01565

Material: video 19 minutes

Industry: all industries

Discusses the three forms of asbestos, how they are used, possible locations, recognizing damage and deterioration, hazard communication, health effects, housekeeping requirements, and personal protection.

Coastal Training 1992

Asbestos exposure: Within safe limits

Number: VT01590

Material: video 15 minutes

Industry: construction

Describes how asbestos is used in construction, its effect on the body, and how workers can protect themselves from exposure.

Assoc General Contractors of America 1998

Asbestos removal: Jobsite techniques

Number: VT01126

Material: video 20 minutes

Industry: construction

Covers safe asbestos removal from job site preparation to clean up.

Sheet Metal & Air-Conditioning Industry 1988

Avoid hot mix hazards

Number: VT01566

Material: video 12 minutes

Industry: construction

Covers basic hot mix road construction safety including hot mix plants, hot mix transfer, dump trucks, heavy equipment, traffic control, and personal protective equipment.

Assoc General Contractors of America 1993

Avoiding electrical hazards

Number: VT01430

Material: video 19 minutes

Industry: general industry

Discusses working safely around electricity including personal protection, working on energized circuits, lockout/tagout, and working near power lines.

Coastal Training 1989

Avoiding electrical hazards

Number: VT01614 Spanish

Material: video 19 minutes

Industry: general industry

See above description

Coastal Training 1994

Avoiding struck by/hit by: Construction

Number: VT01549

Material: video 18 minutes

Industry: general industry

Covers safety precautions around heavy equipment and rotating/pivoting machinery, construction vehicle movement signals and alarms, proper stacking of building materials, protection from falling objects, and the use of personal protective equipment.

Training Materials by Title 2007

J.J. Keller & Associates 1996

Back injury prevention: Construction
 Number: VT01370
 Material: video 5 minutes
 Industry: construction
 Explains how the back functions, safe lifting techniques, and prevention of back injuries.

Digital 2000 1993

Back safety
 Number: VT00360
 Material: video 6 minutes
 Industry: all industries
 Covers how the back functions, proper lifting techniques, good posture, and prevention of injuries.

Summit Training Source 1990

Back safety: The ergonomic connection
 Number: VT01683
 Material: video 14 minutes
 Industry: all industries
 Explains ways to prevent back disorders including how the back works, proper body mechanics, common back injuries, risk factors, and preventive measures.

Summit Training Source 1992

Back to basics: Construction back injury prevention
 Number: VT01406
 Material: video 18 minutes
 Industry: construction
 Explains how the back functions and the causes and prevention of back injuries including proper lifting techniques and good work posture.

Assoc General Contractors of America 1992

Back your back: Back & Muscle injury prevention
 Number: VT01276
 Material: video 19 minutes
 Industry: general industry
 Explains the causes and prevention of back injuries and lifting techniques.

WA State Dept of Labor & Industries 1992

Backhoe safety
 Number: VT01503

Material: video 18 minutes
 Industry: construction
 Emphasizes safe operating techniques including pre-operation inspection, safety procedures, unloading from trailers, and digging near underground and overhead utilities.

Zomar Productions 1992

Backhoe/loader operation
 Number: VT01740
 Material: video 16 minutes
 Industry: construction
 Covers backhoe operation safety including planning the job, trenching and backfilling, working a spoil pile, and lifting techniques

Assoc General Contractors of America 2001

Backhoe/loader operations and safety
 Number: VT01371
 Material: video 5 minutes
 Industry: construction
 Covers general backhoe safety practices, operating rules, and maintenance procedures.

Digital 2000 1993

Basic electrical safety
 Number: VT01281
 Material: video 7 minutes
 Industry: all industries
 Discusses the properties of electricity, its hazards, and working safely with electric powered tools and equipment.

Training Network-LIP 1992

Basic electrical safety Construction
 Number: VT01387
 Material: video 7 minutes
 Industry: construction
 Discusses the properties of electricity and the hazards involved in working with electric power tools and equipment including grounding, extension cords, inspection and maintenance, and working in wet weather.

CoreMedia Training 1991

Basic electrical safety on the job site
 Number: VT01313
 Material: video 11 minutes

Training Materials by Title 2007

Industry: construction
Reviews the principles and properties of electricity, its hazards, and the safe use of electrical equipment and extension cords on the job site.
Digital 2000 1992

Basic electrical safety on the job site
Number: VT01499 Spanish
Material: video 11 minutes
Industry: construction
See previous description.
Digital 2000 1992

Basic ergonomics
Number: VT01637
Material: video 5 minutes
Industry: all industries
This humorous video provides a definition, gives a short history, and covers its relevance in the workplace.
Safety Shorts 1989

Basic look at scaffolds for compliance officers
Number: VT01259
Material: video 21 minutes
Industry: construction
Discusses OSHA requirements for scaffolding and scaffold construction.
OSHA Office of Construction 1994
& Engineering
<http://www.osha.gov/SLTC/video/scaffold/video.html>

Bloodborne pathogens
Number: VT00412
Material: video 20 minutes
Industry: all industries
Describes basic bloodborne disease transmission and precautions, decontamination, and minimizing the risk of infection through proper housekeeping and personal protective
Coastal Training 1992

Bloodborne pathogens
Number: VT01577
Material: video 9 minutes
Industry: all industries
Covers information on HIV and Hepatitis B, transmission, work accident first aid procedures, and exposure prevention.

Digital 2000 1998

Bloodborne pathogens
Number: VT01733
Material: video 6 minutes
Industry: all industries
Discusses HIV, Hepatitis B and C including the hazards, means of transmission, misconceptions about exposure, symptoms of infection, and proper protective measures.
Summit Training Source 1990

Bloodborne pathogens case histories
Number: VT01592
Material: video 21 minutes
Industry: general industry
Through the retelling of real-life stories, discusses bloodborne disease transmission, safe work practices, PPE, housekeeping, and engineering controls for first responders.
Coastal Training 1995

Bloodborne pathogens standard: How it affects you, how it protects you
Number: VT01686
Material: video 20 minutes
Industry: health care
Reviews standard precautions, HBV vaccinations, engineering controls, work practice controls, and personal protective equipment.
Coastal Training 1992

Bloodborne pathogens: Know the risk
Number: VT01633
Material: video 19 minutes
Industry: all industries
Covers common sense guidelines for workers including information on bloodborne diseases, transmission, exposure risk, preventing or minimizing exposure risk, housekeeping, and the proper use, removal and disposal of PPE.
Coastal Training 1997

Bloodborne pathogens: Long-term care
Number: VT01684
Material: video 23 minutes
Industry: health services
Discusses safe work practices and

Training Materials by Title 2007

precautions including workplace transmission, reducing the risk, and personal protective equipment.

Coastal Training 1992

Bloodborne pathogens: Protect your dental environment

Number: VT01685

Material: video 19 minutes

Industry: health services

Covers safe work practices for the dental worker including workplace transmission, dealing with sharp instruments, reducing the risk, and personal protective equipment.

Coastal Training 1992

Bloodborne pathogens: Protect yourself

Number: VT00454

Material: video 15 minutes

Industry: general industry

Covers basic bloodborne disease transmission and precautions for workers including first-aid safeguards, decontamination procedures, and proper housekeeping for first-on-the-scene co-workers.

Coastal Training 1992

Bloodborne pathogens: Protect yourself

Number: VT001715 Spanish

Material: video 15 minutes

Industry: general industry

See previous description.

Coastal Training 2000

Bloodborne pathogens: What employees must know

Number: VT01698

Material: video 15 minutes

Industry: general industry

Provides practical tips and safe work practices for employees including personal protective equipment, safe work practices, engineering controls, reporting exposure and labeling.

J.J. Keller & Associates 2001

Boomlifts in construction

Number: VT01528

Material: video 10 minutes

Industry: construction

Covers startup inspections, lifting principles, hazards including overhead power lines, and safe operating procedures.

Coastal Training 1996

Breathing easy: What you should know about indoor air quality

Number: VT01364

Material: video 13 minutes

Industry: general industry

Discusses the factors affecting indoor air quality including ventilation systems, temperature and humidity, and sources of contaminants.

Public Building Services 1992

Bridge construction safety: Safe span

Number: VT01423

Material: video 10 minutes

Industry: construction

Covers bridge construction hazards and safety measures including falls, cranes, and scaffolds.

Assoc General Contractors of America 1993

Bucket truck safety: Training for operators

Number: VT01699

Material: video 18 minutes

Industry: all industries

Covers safety and operation issues, explains what can go wrong, and how to prevent these situations from happening.

J.J. Keller & Associates 2000

Can you spot the hazard?

Number: VT01638

Material: video 6 minutes

Industry: all industries

Covers conducting a workplace inspection, identifying hazards including fire and electrical, and safety measures including housekeeping and personal protective equipment.

Safety Shorts 1999

Carpal tunnel

Number: VT00361

Material: video 5 minutes

Industry: general industry

Describes carpal tunnel syndrome and

Training Materials by Title 2007

ways to eliminate the stress caused by this repetitive motion injury.

Summit Training Source 1990

Carpenters: A study of hazards in the construction industry

Number: VT01153

Material: video 12 minutes

Industry: carpentry and floor

Focuses on general safety and health hazards faced by carpenters on the construction-site including scaffolding, ladders, personal protective equipment, and power tools.

Florida AFL-CIO United Labor Agency 1986

Case of the vicious vapor

Number: VT01473

Material: video 7 minutes

Industry: all industries

This humorous video deals with how to investigate a hazardous vapor incident including air sampling, personal protective equipment, and proper

Kirkwood Community College 1995

Caution: Foundry at work

Number: VT01628

Material: video 10 minutes

Industry: general industry

Covers foundry operations, safe work practices, hazard control, and health and safety hazards including metal fumes, noise, heat, and silica.

US National Institute for OSH 1997

Caution: Foundry at work (CC)

Number: DVD07

Material: DVD 10 minutes

Industry: general industry

See previous description.

US National Institute for OSH 1998

Caution: Foundry at work (CC)

Number: DVD08 Spanish

Material: DVD 10 minutes

Industry: general industry

See previous description.

US National Institute for OSH 1998

Chains, cranes, & slings

Number: VT01362

Material: video 5 minutes

Industry: general industry

Covers equipment pre-use inspection, load handling and sling angles.

Training Network-LIP 1992

Chains, cranes, slings and hoists

Number: VT01363

Material: video 12 minutes

Industry: general industry

Covers pre-use inspections, maintenance and proper use of lifting devices including equipment protection, safe load capacities and sling angles.

Training Network-LIP 1994

Chainsaw leg protection

Number: VT01758

Material: video 4 minutes

Industry: general industry

This brief but graphic video demonstrates the devastating effects of the chainsaw on various materials including jeans, old chaps, and state of the art chaps.

WA State Dept of Labor & Industries 2002

Chemical burns

Number: VT00362

Material: video 5 minutes

Industry: general industry

Discusses safe work practices, the use of chemical-resistant personal protection, and first aid measures.

Summit Training Source 1990

Chemical handling: Corrosives

Number: VT01486

Material: video 12 minutes

Industry: all industries

Reviews basic information about corrosives including characteristics, hazards, PPE, exposure symptoms, labeling, handling and storage.

Coastal Training 1992

Chemical handling: Flammables

Number: VT01432

Material: video 14 minutes

Industry: all industries

Covers basic information about handling flammables and combustibles in the workplace including their characteristics

Training Materials by Title 2007

and hazards, ignition, MSDSs, labeling, emergency response, handling and storage.

Coastal Training 1992

Chemical handling: General principles

Number: VT01433

Material: video 16 minutes

Industry: all industries

Covers safe work practices for handling flammables, corrosives, and solvents including their characteristics and hazards, handling and storage.

Coastal Training 1990

Chemical handling: Solvents

Number: VT01619

Material: video 12 minutes

Industry: all industries

Provides general information on solvents including the effect of solvents on the body, exposure symptoms, handling and storage, safety rules, labeling, fire hazards, and emergency response.

Coastal Training 1992

Chemicals in the workplace

Number: VT01516

Material: video 15 minutes

Industry: general industry

Details material safety data sheets and labels, recognition of chemical hazards, safe handling techniques and storage, and personal protective equipment.

J.J. Keller & Associates 1988

Competent person and soils testing

Number: VT01504

Material: video 27 minutes

Industry: construction

Defines the role and responsibilities of the "competent person," explains the soil classification system, shows five easy field tests for determining soil types including by means of a pocket penetrometer, and preparing for an OSHA inspection.

Zomar Productions 1992

Complete confined spaces handbook by John F. Rekus

Number: T55.R45

Material: book 381 pages

Industry: all industries

Covers recommended procedures and guidance for safe entry into confined spaces.

Lewis Publishers 1994

Compressed gas cylinders: Storage

Number: VT01471

Material: video 10 minutes

Industry: construction

Discusses safety rules and procedures for the safe storage of compressed gas cylinders.

Digital 2000 1992

Compressed gas cylinders: Using and handling

Number: VT01472

Material: video 8 minutes

Industry: construction

Explains the hazards and procedures for the safe use, storage, and handling of compressed gas cylinders.

Digital 2000 1992

Compressed gases: Safe handling

Number: VT01453

Material: video 18 minutes

Industry: all industries

Provides information on both flammable and non-flammable compressed gases including classifications, labeling, handling cylinders, valves and leaks.

Coastal Training 1995

Concrete construction safety: Laying the groundwork

Number: VT01751

Material: video 13 minutes

Industry: construction

Covers the hazards associated with concrete construction.

IL Onsite S&H Consultation 2002 Program

Conducting a safety meeting in the field

Number: VT01250

Material: video 14 minutes

Industry: logging

Discusses how to conduct a safety meeting at the work site.

University of Idaho 1992

Training Materials by Title 2007

Confined space atmospheric testing

Number: VT01663

Material: video 17 minutes

Industry: general industry

Reviews the how and when to test, atmospheric hazards, procedures for proper pre-testing, and how to respond when air is determined to be unsafe.

Coastal Training 1992

Confined space case histories

Number: VT01434

Material: video 14 minutes

Industry: all industries

Shows re-enactments of real-life confined space accidents and reviews what went wrong including atmospheric testing, ventilation and permits.

Coastal Training 1995

Confined space case histories

Number: VT01716 Spanish

Material: video 14 minutes

Industry: all industries

See previous description.

Coastal Training 1995

Confined space emergency rescue

Number: VT01650

Material: video 14 minutes

Industry: all industries

Covers the hazards of confined spaces, the proper use of safety and rescue equipment, and rescue pre-planning and training.

Summit Training Source 1994

Confined space entry

Number: VT01687

Material: video 25 minutes

Industry: all industries

Covers characteristics and types of confined space, hazards, control measures, entry permits, personal protective equipment, and rescue techniques.

Primedia Workplace Learning 1993

Confined space entry: Clearing the air

Number: VT01567

Material: video 16 minutes

Industry: construction

Discusses the dangers of confined space entry, entry permits, air quality testing, ventilation, rescue procedures and personal protective equipment.

Assoc General Contractors of America 1991

Confined space entry: Construction

Number: VT01369

Material: video 5 minutes

Industry: construction

Explains hazards, procedures, and safety measures for entry into confined spaces including atmosphere testing.

Digital 2000 1993

Confined space entry: Permit required!

Number: VT01435

Material: video 12 minutes

Industry: all industries

Covers the dangers of working in confined spaces and safety precautions including entry permit requirements, safe atmospheric testing, ventilation, and personal protective equipment.

Coastal Training 1990

Confined space hazards

Number: VT01302

Material: video 5 minutes

Industry: all industries

Explains types of confined spaces, atmospheric and physical hazards, and safe work practices.

Summit Training Source 1990

Confined space hotwork: Checklist to safety

Number: VT01454

Material: video 20 minutes

Industry: all industries

Describes the hazards and the safety precautions required for confined space hotwork including hotwork permits, atmospheric testing, safety equipment, fire watch, and emergency rescue.

Coastal Training 1992

Confined space rescue

Number: VT01303

Material: video 6 minutes

Industry: all industries

Demonstrates simulated rescue situations, proper use of rescue and

Training Materials by Title 2007

retrieval equipment, and rescue procedures.

Summit Training Source 1990

Confined space rescue

Number: VT01599

Material: video 31 minutes

Industry: general industry

Reviews proper confined space entry, technical rescue procedures, different types of rescue systems and equipment, and developing the rescue team.

Coastal Training 1991

Confined space ventilation

Number: VT01651

Material: video 18 minutes

Industry: all industries

Reviews the safety precautions required for confined space ventilation including the when and how to ventilate, atmospheric hazards, types of mechanical ventilation, and techniques.

Coastal Training 1992

Confined spaces, deadly places

Number: VT01626

Material: video 21 minutes

Industry: all industries

Based on real-life incidents that show the hazards that can befall untrained workers and permit violators including confined space hazards, oxygen deficiency, toxic atmospheres, engulfment, flammable or explosive atmospheres, and mechanical hazards.

Safe Expectations 1992

Confined spaces: A training program for employees

Number: VT01517

Material: video 25 minutes

Industry: general industry

Covers identification of confined space hazards, discusses entry permits, reviews training needs, and outlines standard requirements such as atmospheric testing and personal protective equipment.

J.J. Keller & Associates 1993

Construction accidents: It can't happen to me

Number: VT01616

Material: video 8 minutes

Industry: construction

Covers, through interviews with workers, the basic causes and prevention of accidents including safety attitudes and practices.

Digital 2000 1997

Construction back safety

Number: VT01600

Material: video 10 minutes

Industry: construction

Covers safety techniques including correct posture, proper lifting procedures, and preventing back injuries.

Coastal Training 1992

Construction confined space entry

Number: VT01455

Material: video 12 minutes

Industry: construction

Covers skills for working safely in confined spaces including how to identify confined spaces, their hazards including oxygen deficiency and toxic gases, safety procedures and entry permits.

Coastal Training 1992

Construction electrical safety

Number: VT01456

Material: video 10 minutes

Industry: construction

Covers the properties of electricity, electrical hazards, accident response, and proper work practices including the safe use of power tools and equipment.

Coastal Training 1993

Construction emergency medical response

Number: VT01674

Material: video 15 minutes

Industry: construction

Covers what workers should do in an emergency situation and assists contractors in the development of an emergency medical plan.

Assoc General Contractors of America 1999

Construction equipment safety: Multiple choice

Number: VT00354

Material: video 24 minutes

Industry: construction

Training Materials by Title 2007

Covers heavy equipment operation safety through accident re-enactments that are freeze-framed at the actual moment of judgment. Viewers are asked to spot the hazards before the action is resumed.

Allied Digital Technologies 1984

Construction equipment safety: Shake hands with danger

Number: VT00259

Material: video 23 minutes

Industry: construction

This award winning video shows re-enactments of hazardous situations faced by workers who operate and maintain heavy construction equipment, to stress the need to follow safe work practices.

Allied Digital Technologies 1984

Construction fall protection: Get arrested!

Number: VT01557

Material: video 11 minutes

Industry: construction

This humorous video covers the effective use of body harness and lanyard in personal fall arrest systems, as well as positioning systems, proper anchorage techniques, floor hole covers, and guardrail construction.

Coastal Training 1998

Construction fall protection: Get arrested!

Number: VT01615 Spanish

Material: video 12 minutes

Industry: construction

See previous description.

Coastal Training 1998

Construction fall protection: Hook Up

Number: VT01487

Material: video 10 minutes

Industry: construction

Discusses fall hazards, the three types of fall arrest systems, fall arrest distances, choosing anchorage and tie-off points, equipment inspection, proper use of equipment, and the rescue of fallen workers.

Coastal Training 1995

Construction fire prevention: Avoid the heat

Number: VT01405

Material: video 15 minutes

Industry: construction

Discusses fire hazards and prevention on the job site including proper storage of combustibles and flammables, control of welding sparks and fire watch, safety cans, housekeeping, and the types and use of fire extinguishers.

Assoc General Contractors of America 1992

Construction forklift safety

Number: VT01314

Material: video 14 minutes

Industry: construction

Covers pre-operation inspection, maintenance, safe operating procedures, and forklift engineering principles such as leverage and stability.

Digital 2000 1991

Construction forklifts

Number: VT01457

Material: video 9 minutes

Industry: construction

Covers safe operating procedures for both fixed mast lift and extended reach forklifts including start-up inspections, lifting principles, rated load capacity, center of gravity, and moving a load.

Coastal Training 1996

Construction forklifts: Extending your reach

Number: VT01593

Material: video 14 minutes

Industry: construction

Covers extended reach forklift safety including lifting principles, start-up inspections, load stability, leverage, rated load capacity, moving the load, electrical hazards, and safety procedures.

Coastal Training 1999

Construction health risks

Number: VT01232

Material: video 15 minutes

Industry: construction

Discusses health hazards found on the construction-site including the effects of toxic chemicals, asbestos, welding fumes, and silica.

Florida AFL-CIO United Labor Agency 1989

Training Materials by Title 2007

Construction jobsite safety

Number: VT01550

Material: video 20 minutes

Industry: construction

Covers how to recognize and avoid jobsite hazards such as power tools, heavy equipment, scaffolds, electrical, falls and safety measures such as personal protective equipment and emergency action plans.

J.J. Keller & Associates 1996

Construction lockout/tagout

Number: VT01458

Material: video 10 minutes

Industry: construction

Discusses the prevention of unexpected start-ups of equipment during servicing and maintenance including how lockout/tagout systems operate and a six-step safety procedure.

Coastal Training 1992

Construction lockout/tagout: Take control

Number: VT01427

Material: video 20 minutes

Industry: construction

Reviews the types of hazardous energy found on the jobsite, identifying potential hazards, proper lockout/tagout procedures, and equipment re-energizing procedures.

Assoc General Contractors of America 1993

Construction repetitive stress injuries

Number: VT01639

Material: video 5 minutes

Industry: construction

Covers one of the fastest growing types of workplace injuries, its symptoms, proper work techniques, and the effects of overexertion, incorrect posture, and excessive force.

Safety Shorts 1998

Construction respiratory protection: Breathing easier

Number: VT01408

Material: video 18 minutes

Industry: construction

Provides basic information about jobsite respiratory hazards, types of respirators,

selection, fit testing procedures, use, inspection and maintenance.

Assoc General Contractors of America 1993

Construction safety Choice or chance?

Number: VT01280

Material: video 15 minutes

Industry: construction

Highlights the four leading causes of fatalities on construction job sites and stresses that safety is also the worker's responsibility.

OSHA Office of Information & Consumer Affairs 1996

<http://www.osha.gov/SLTC/video/constructionsafety/video.html>

Construction safety essentials

Number: VT01548

Material: video 23 minutes

Industry: construction

Discusses jobsite hazards such as scaffolding, ladders, confined spaces, excavations, and safety measures such as personal protective equipment and fall arrest systems.

Vocam 1997

Construction safety: New hire safety orientation

Number: VT01388

Material: video 10 minutes

Industry: construction

Discusses basic jobsite safety procedures including fire extinguisher use, hearing protection, hazardous substances, fall protection, housekeeping, electrical safety, ladders, and lifting.

CoreMedia Training Solutions 1991

Construction safety planning by David V. MacCollum

Number: TH443.M

Material: book 285 pages

Industry: construction

Provides a broad overview and summary of safety considerations when planning for both large and small construction

Van Nostrand Reinhold 1995

Construction safety practices and principles by Robert Peyton and Toni C. Rubio

Number: TH443.P4

Material: book 266 pages

Training Materials by Title 2007

Industry: construction
Discusses how to integrate safety into jobsite operations including written safety and health programs, hazard communication, and safety training.
Van Nostrand Reinhold 1991

Construction scaffold safety

Number: VT01529
Material: video 10 minutes
Industry: construction
Explains construction, inspection, and safety procedures including fall arrest systems for stationary, mobile, and suspension scaffolds.
Coastal Training 1995

Construction shoring safety

Number: VT01505
Material: video 24 minutes
Industry: construction
Covers installation of timber, screwjack and hydraulic shoring systems, determining soil types, sheeting designs, and safety hazards unique to trenching operations.
Coastal Training 1990

Construction signs and barricades

Number: VT01495
Material: video 10 minutes
Industry: construction
Gives an overview of signs, signals and barricades used on construction sites including road construction.
Digital 2000 1995

Construction slips and falls

Number: VT01645
Material: video 6 minutes
Industry: construction
This humorous video discusses the causes of slips and falls, proper footwear, and prevention including awareness of hazards and good housekeeping.
Safety Shorts 1996

Construction stairways and ladders

Number: VT01436
Material: video 12 minutes
Industry: construction
Discusses ladder and stairway hazards and safety precautions including proper

setup and use, slope ratio, inspection and maintenance, and construction.
Coastal Training 1992

Construction stationary scaffolds

Number: VT01437
Material: video 11 minutes
Industry: construction
Covers safety practices for working on and around stationary scaffolds including hazards, construction, inspection, fall prevention, and use.
Coastal Training 1997

Construction temporary electricity: Take charge

Number: VT01426
Material: video 18 minutes
Industry: construction
Covers electrical hazards found on the jobsite, how electricity works, safety measures, GFCIs, extension cords, power tools, and temporary power installations.
Assoc General Contractors of America 1991

Construction trenching and shoring

Number: VT01459
Material: video 10 minutes
Industry: construction
Covers safety guidelines including site evaluation, protective systems, and emergency response.
Coastal Training 1992

Construction warning labels and signs

Number: VT01469
Material: video 16 minutes
Industry: construction
Discusses various labeling systems, the reason for warning labels and signs around the jobsite including chemical hazards and safety precautions.
Coastal Training 1996

Construction warning signs

Number: VT01605
Material: video 4 minutes
Industry: construction
Deals with reasons to take warning signs, found on and around construction sites, seriously because they warn of potential safety hazards.

Training Materials by Title 2007

Assoc General Contractors of America 1992

Construction welding safety

Number: VT01438

Material: video 12 minutes

Industry: construction

Discusses the essentials of welding safety focusing on oxyfuel gas welding and cutting including operation procedures and safety equipment.

Coastal Training 1993

Construction worker safety orientation: Getting the job done safely

Number: VT01569

Material: video 12 minutes

Industry: construction

Outlines basic jobsite safety measures including personal protective equipment, manual material handling, fall protection, electrical hazards, excavations, and housekeeping.

Assoc General Contractors of America 1995

Construction worker safety orientation: Getting the job done safely

Number: VT01607 Spanish

Material: video 12 minutes

Industry: construction

See previous description.

Assoc General Contractors of America 1995

Contractor beware: Guide to power line safety

Number: VT01708

Material: video 16 minutes

Industry: construction

Covers safety precautions when working near overhead or underground power lines including how electricity can kill, operating cranes and heavy equipment such as backhoes, and calling electric utilities before you dig.

Connecticut Light & Power 1997

Contractor's guide to process safety management: a part of the process

Number: VT01585

Material: video 14 minutes

Industry: construction

Covers work safety in industrial process facilities including hazard control, worker training, and OSHA's Process Safety

Management Standard.

Assoc General Contractors of America 1994

Conveyors

Number: VT01640

Material: video 6 minutes

Industry: general industry

This humorous video gives an overview of conveyor hazards including nip points and falling materials, and preventive measures including guards, warning signs, and safe work practices.

Safety Shorts 1996

Corrosives

Number: VT00363

Material: video 5 minutes

Industry: general industry

Covers the hazards associated with corrosives, including battery acid and phosphates, proper handling and storage in the work environment.

Summit Training Source 1990

Crane and sling safety: Inspection and use

Number: VT01390

Material: video 19 minutes

Industry: general industry

Covers basic safety procedures when working with overhead and boom cranes including daily pre-operation inspection, maintenance, lifting procedures, and proper use techniques.

CoreMedia Training 1992

Crane operation safety

Number: VT01535

Material: video 12 minutes

Industry: construction

Focuses on the basic procedures for the safe operation of overhead and boom cranes including pre-operation inspection, pre-lift check, sling maintenance and inspection, and

Industrial Training Systems 1995

Crane rigging safety: Controlling the load

Number: VT01409

Material: video 17 minutes

Industry: construction

Discusses the basics of crane rigging safety including pre-use inspection of

Training Materials by Title 2007

hooks and slings, planning the lift including determining the weight, stability of the load, and the center of gravity of the load, and choice of sling.

Assoc General Contractors of America 1992

Crane safety awareness for site superintendents

Number: VT01186

Material: video 8 minutes

Industry: construction

Highlights common hazards associated with construction mobile crane operations and discusses management responsibilities for safe operation on the jobsite.

OSHA Office of Construction & Engineering 1992

<http://www.osha.gov/SLTC/video/cranesafety/video.html>

Crane safety: Construction

Number: VT01315

Material: video 13 minutes

Industry: construction

Covers mobile crane pre-operation inspection, refueling, potential hazards such as power lines, load capacities, lifting procedures, and safety

Digital 2000 1992

Crane safety: Play it safe

Number: VT01420

Material: video 15 minutes

Industry: construction

Covers crane safety practices for crane operators and riggers including daily pre-work inspection and maintenance, proper loading and moving a load, and surveying the jobsite for hazards such as overhead power lines.

Assoc General Contractors of America 1992

Cut-off saw safety

Number: VT01671

Material: video 9 minutes

Industry: construction

Reviews hazards, proper PPE, and safe operating practices including pre-use

inspection, blade installation, refueling, startup, and guard positioning.

Assoc General Contractors of America 1994

Dark ages of safety

Number: VT01533

Material: video 12 minutes

Industry: all industries

This humorous video uses black and white footage from the 20's, 30's, and 40's to emphasize the importance of following safety procedures.

Digital 2000 1995

Deadly dust II

Number: VT01540

Material: video 30 minutes

Industry: grain elevators

Shows dramatic scenes of grain elevator explosions, the devastation caused by the blast, demonstrations on how and why these explosions occur, and emergency planning.

Kansas State University 1990

Deadly dust III

Number: VT01541

Material: video 22 minutes

Industry: grain elevators

Features two employees who survived major dust explosions, dramatic scenes of actual explosions, stop motion demonstrations of how primary and secondary explosions occur, and prevention measures.

Kansas State University 1995

Demolition safety: What goes up must come down

Number: VT01573

Material: video 12 minutes

Industry: construction

Describes the demolition process and safety measures including on-site preparations, pre-stressed concrete hazards, signs and barricades, cranes, and debris removal.

Assoc General Contractors of America 1993

Don't blow it: Asbestos safety

Number: VT01268

Material: video 15 minutes

Industry: automotive repair

Training Materials by Title 2007

Discusses asbestos, its health effects, and removal methods used to control exposure during brake replacement.

US Environ Protection 1986

Driver attitude

Number: VT00364

Material: video 5 minutes

Industry: all industries

Covers safe driving procedures, seat belt use, and the effects of drugs and alcohol on driving.

Summit Training Source 1990

Driver's safety: Thinking ahead

Number: VT01741

Material: video 14 minutes

Industry: construction

Provides instruction on safe driving practices for construction workers required to operate motor vehicles while on the job.

Assoc General Contractors of America 1996

Driving safety: Highway-rail crossing safety

Number: VT01713

Material: video 18 minutes

Industry: commercial vehicles

Shows a reenactment of a train/school bus crash to illustrate the dangers of not following safety procedures when crossing railroad track, also includes a ten-step procedure for safe driver actions.

Idaho Dept of Law Enforcement 1991

Driving safety: The safety zone

Number: VT01714

Material: video 16 minutes

Industry: all industries

Addresses what safety precautions car drivers should take when driving in close proximity to trucks including the difference in weight ratios, blind spots, turning space, safe driving distances, and stopping distance.

Idaho Dept of Law Enforcement 1995

Dust control: It's everybody's business

Number: VT01382

Material: video 20 minutes

Industry: all industries

Discusses how to reduce worker exposure to silica dust including dust collection equipment.

US Mine Safety and Health Administration 1996

Egress/exit safety

Number: VT01641

Material: video 5 minutes

Industry: general industry

Discusses exit doors, safe exits, clear paths, blocked exits, and employee awareness of exit locations.

Safety Shorts 1992

Electrical case histories: Fatal shock

Number: VT01439

Material: video 22 minutes

Industry: general industry

Covers, through re-enactments of real-life electrical accidents, the principles of electrical safety including the dangers of electrical shock, personal verification of lockout/tagout, response to electrical emergencies, and PPE.

Coastal Training 1994

Electrical power generation: High voltage

Number: VT01488

Material: video 27 minutes

Industry: general industry

Presents safety information for electric utilities operations including working on or near exposed energized parts and overhead power lines.

Coastal Training 1994

Electrical principles

Number: VT01558

Material: video 14 minutes

Industry: all industries

Demonstrates basic electrical principles including how electricity works, electrical circuits, grounding, and circuit protection devices such as GFCIs.

Coastal Training 1988

Electrical safety and asbestos abatement

Number: VT01094

Material: video 12 minutes

Industry: construction

Covers electrical fundamentals and hazards.

Training Materials by Title 2007

NOTE: OSHA does not require explosion-proof lighting or equipment unless another hazard is present which would require its use.

Intl Assoc of Heat and Frost Insulators 1987

Electrical safety in construction

Number: VT01380

Material: video 19 minutes

Industry: construction

Covers both temporary and permanent jobsite installations of electricity including GFCIs, temporary hook-ups, power tools and cord sets.

J.J. Keller & Associates 1996

Electrical safety overview

Number: VT01282

Material: video 10 minutes

Industry: general industry

Discusses the properties of electricity and its hazards, the inspection and care of electrical equipment and power tools, and safe work practices including grounding, GFCIs, and lockout/tagout.

Digital 2000 1993

Electrical safety: Basic principles

Number: VT01664

Material: video 16 minutes

Industry: general industry

Covers the basic principles of electricity, reviews safe work conditions and procedures, emergency response procedures, electrical circuits, insulators and conductors, grounding, and circuit protection devices such as GFCIs.

Coastal Training 2000

Electrical safety: Construction

Number: VT01372

Material: video 5 minutes

Industry: construction

Covers basic safety rules when working with electrical tools and equipment including plugs, cords, and GFCIs.

Digital 2000 1993

Electrical safety: Ground Fault Circuit Interrupters

Number: VT01580

Material: video 11 minutes

Industry: construction

Covers what GFCI's are all about, how they work, and general safety procedures for protection against electrical shock.

Digital 2000 1992

Electrical safety: Ground Fault Circuit Interrupters

Number: VT01726 Spanish

Material: video 11 minutes

Industry: construction

See previous description

Digital 2000 1992

Electrical safety: Real, real-life

Number: VT01601

Material: video 13 minutes

Industry: general industry

Explains, through re-enactments of real-life situations, hazards and safety practices when working with or around electricity including PPE, proper grounding, and the use of GFCIs.

Coastal Training 1998

Electrical safety: Real, real-life

Number: VT01717 Spanish

Material: video 13 minutes

Industry: general industry

See previous description.

Coastal Training 1998

Electrical safety: Safe work practices

Number: VT01304

Material: video 5 minutes

Industry: general industry

Describes electrical hazards, maintaining proper work distances from electrical sources, proper tools and equipment, and personal protective equipment.

Summit Training Source 1990

Electrical safety: The hazards of electricity

Number: VT01400

Material: video 6 minutes

Industry: general industry

Covers the basic principles of electricity, the causes of electrocution and electrical shock and electricity as the source of fire.

Summit Training Source 1990

Elevated work safety

Number: VT01536

Material: video 12 minutes

Training Materials by Title 2007

Industry: all industries

This humorous video covers general safety procedures for working on tower and suspended scaffolds, aerial lifts, and roofs including proper setup, inspection, and fall arrest systems.

Industrial Training Systems 1996

Elevated work surfaces: Getting it right at height

Number: VT01591

Material: video 21 minutes

Industry: construction

Discusses working on scaffolds, elevated and suspended work platforms, and roofs including the importance of planning and preparing the work, hazard recognition, safety procedures, and fall

Vocam 1996

Emergency action plans: I plan to live

Number: VT01642

Material: video 5 minutes

Industry: general industry

This humorous video covers warning signals, responsibility lists and assignments, exit routes, and evacuation procedures.

Safety Shorts 1992

Emergency action plans: Spiral to disaster

Number: VT01636

Material: video 24 minutes

Industry: all industries

Using the Piper Alpha oil rig explosion as a backdrop, covers what makes a good Emergency Action Plan including awareness of work-area hazards, risk analysis, training, safe work practices, emergency procedures, and evacuation drills.

Coastal Training 2000

Emergency evacuation training

Number: VT01522

Material: video 18 minutes

Industry: general industry

gives step-by-step instructions on procedures to follow in an emergency including the important role of pre-planning exit routes, egress, assembly areas, lines of authority, and all-clear

signals.

Safe Expectations 1990

Employee's guide to working with hazardous materials

Number: VT01176

Material: video 16 minutes

Industry: all industries

Gives an overview of the hazard communication standard and an introduction to material safety data sheets.

S&H Council of Greater Omaha 1991

Employee's guide to working with hazardous materials

Number: VT01365 Spanish

Material: video 16 minutes

Industry: all industries

See previous description.

S&H Council of Greater Omaha 1996

Ergonomic programs that work

Number: VT01498

Material: video 21 minutes

Industry: general industry

Discusses various aspects of an ergonomics program by visiting four companies and reviewing their programs.

OSHA Office of Information & Consumer Affairs 1998

<http://www.osha.gov/SLTC/video/ergoprogramsthatwork/video.html>

Ergonomics awareness education

Number: VT01759

Material: video 26 minutes

Industry: general industry

Describes musculoskeletal disorders, work related causes, recognizing hazards, identifying common measures to reduce these hazards, risk factors, and the importance of early reporting of

WA State Dept of Labor & Industries 2002

Ergonomics in the workplace

Number: VT01393

Material: video 18 minutes

Industry: general industry

Addresses production line tasks, cumulative trauma disorders,

Training Materials by Title 2007

identification of workplace activities that can cause CTD such as manual materials handling, and prevention measures.

Primedia Workplace Learning 1995

Ergonomics: Solving the puzzle

Number: VT01623

Material: video 18 minutes

Industry: general industry

Covers how to create an ergonomic work environment, how to reduce repetitive motion injuries, and how to create a successful ergonomics program.

Coastal Training 2000

Ergonomics: Your body at work

Number: VT01624

Material: video 20 minutes

Industry: general industry

This award winning video reviews ergonomic mechanics, cumulative trauma disorders and contributing factors, worksite analysis, and low-cost ergonomic worksite improvements.

Coastal Training 1991

Excavation and trenching safety: On solid ground

Number: VT01418

Material: video 18 minutes

Industry: construction

Covers identifying jobsite hazards and conditions, access and egress to trench, hazardous atmospheres, emergency rescue, methods of sloping, shoring and shielding, and soil classification.

Assoc General Contractors of America 1990

Excavation safety for workers: In the trenches

Number: VT01415

Material: video 14 minutes

Industry: construction

Discusses trench hazards, how hazards can be reduced through sloping and shielding, and how to safety work in and around them.

Assoc General Contractors of America 1996

Excavations, trenches and shoring

Number: VT01294

Material: video 14 minutes

Industry: construction

Provides an overview of protective systems, regulatory requirements and safe work practices.

Summit Training Source 1996

Excavations: 29 CFR 1926, Subpart P

Number: VT01242

Material: video 23 minutes

Industry: construction

Discusses the hazards associated with excavation operations and safe work practices and control measures to prevent accidents.

OSHA Office of Training and Education 1992

Exhaust air ventilation systems: operation and maintenance

Number: VT01095

Material: video 18 minutes

Industry: construction

Describes how to set up and operate negative air filtration systems used in asbestos removal.

Intl Assoc of Heat and Frost Insulators 1989

Eye and face protection: Safety gear

Number: VT01518

Material: video 11 minutes

Industry: all industries

Describes different types of safety glasses, goggles, face shields, and helmets used to protect the eyes and face from debris, chemicals, and dangerous light.

Aims Multimedia 1989

Eye and face protection: Safety gear

Number: VT01727 Spanish

Material: video 11 minutes

Industry: all industries

See previous description.

Aims Multimedia 1989

Eye safety

Number: VT00144

Material: video 20 minutes

Industry: general industry

Covers the importance of eye protection, common eye injuries, and the selection and use of eye protection.

Primedia Workplace Learning 1985

Training Materials by Title 2007

Eye safety

Number: VT00365

Material: video 5 minutes

Industry: general industry

Discusses three kinds of eye hazards, the specific type of eye protection for each hazard, and proper first aid procedures are demonstrated.

Summit Training Source 1990

Eye safety: Your eyes are different

Number: VT01653

Material: video 14 minutes

Industry: general industry

Stresses, through its depiction of near misses and computer graphics, the need to consistently wear eye protection, common eye injuries, and how to choose the correct type of eyewear for the job.

CoreMedia Training 1994

Eyewashes and safety showers

Number: VT01702

Material: video 12 minutes

Industry: all industries

Reviews the correct operation and use of eyewashes and safety showers, equipment testing, accident prevention, reading MSDS, and proper procedures in chemical contact.

Training Network-LIP 1994

Fall free: Employer training

Number: VT01289

Material: video 25 minutes

Industry: construction

Covers the requirements of 1926 Subpart M for supervisory and management personnel including fall hazards and their controls, protective systems, management responsibilities, and employee training requirements.

Chicago Construction Safety Council 1995

Fall free: Toolbox talk

Number: VT01288

Material: video 9 minutes

Industry: construction

Focuses on the proper use of fall arrest equipment including body harnesses, lanyards, and lifelines.

Chicago Construction Safety Council 1995

Fall prevention: Elevated work surfaces

Number: VT01394

Material: video 21 minutes

Industry: all industries

Covers safety procedures for working on and inspection of elevated work surfaces including aerial lifts and scaffolds.

Primedia Workplace Learning 1993

Fall protection for construction: Heightened awareness

Number: VT01413

Material: video 20 minutes

Industry: construction

Covers types of fall protection systems and where they should be used including personal fall arrest systems, guardrails, safety nets, floor covers, warning lines, and controlled access zones.

Assoc General Contractors of America 1995

Fall protection for construction: Heightened awareness

Number: VT01515 Spanish

Material: video 20 minutes

Industry: construction

See previous description.

Assoc General Contractors of America 1995

Fall protection for ironworkers

Number: VT01749

Material: video 17 minutes

Industry: construction

Covers fall restraint systems, fall arrest systems, positioning devices, equipment inspection, and controlled decking zones.

Coastal Training 2001

Fall protection: Construction

Number: VT01556

Material: video 24 minutes

Industry: construction

Covers fall protection systems including

Training Materials by Title 2007

guardrails, nets, personal fall arrest, positioning devices, warning lines, floor and hole covers, and controlled access zones.

J.J. Keller & Associates 1995

Fall protection: Taking control

Number: VT01295

Material: video 11 minutes

Industry: all industries

Discusses how to recognize potential fall hazards, developing a pro-active safety attitude, and the proper use and care of fall protection equipment including anchor points, rope grabs, full body harnesses, lanyards, and lifelines.

Summit Training Source 1994

Fall protection: The basics

Number: VT01537

Material: video 11 minutes

Industry: all industries

This humorous video covers engineering controls such as guardrails, barriers, and nets; and personal fall arrest systems including body harnesses, lifelines, lanyards, and anchorages

Industrial Training Systems 1996

Farm & ranch safety management by Stan Anthony

Number: S565.A58

Material: book 231 pages

Industry: agriculture

Provides safety guidelines to help farmers/ranchers identify and eliminate agricultural safety hazards.

Delmar Publishers 1995

Farmstead safety: Do it everyday!

Number: VT01542

Material: video 7 minutes

Industry: agriculture

Focuses on hazards and safety measures including machinery and equipment, grain storage, and housekeeping.

Kansas State University 1994

Fire extinguisher operation: Construction

Number: VT01568

Material: video 5 minutes

Industry: construction

Discusses classes of fires, types of fire

extinguishers, inspection, operation, and location on the jobsite for visibility and accessibility.

Assoc General Contractors of America 1995

Fire extinguisher safety

Number: VT01391

Material: video 11 minutes

Industry: general industry

Discusses knowing your company's fire escape plan, finding out where fire extinguishers are located at your worksite, the four classes of fires, types of fire extinguishers, and their proper use.

CoreMedia Training 1996

Fire extinguisher training

Number: VT01373

Material: video 5 minutes

Industry: all industries

Covers fire extinguisher basics, types of fire extinguishers, the four classes of fires, and proper use techniques.

Digital 2000 1993

Fire extinguishers

Number: VT01507

Material: video 5 minutes

Industry: all industries

Covers the classification of fire extinguishers, the type of fire for which they are suited, and their proper use.

Summit Training Source 1990

Fire prevention: Construction

Number: VT01578

Material: video 12 minutes

Industry: construction

Discusses fire hazards and prevention on the job site including proper storage of flammables, safety cans, electrical safety, good housekeeping practices, and the types and use of fire extinguishers.

Digital 2000 1992

Fire safety

Number: VT01551

Training Materials by Title 2007

Material: video 15 minutes
Industry: general industry
Presents the elements of combustion, the classes for fire, fire hazards commonly found in the workplace, types and use of fire extinguishers, and evacuation procedures.
J.J. Keller & Associates 1993

Fire safety: Don't get burned

Number: VT01721
Material: video 10 minutes
Industry: roofing and siding
Covers fire hazards and burn prevention by illustrating the correct use of kettles, tankers, LP gas tanks and torches, as well as proper emergency first-aid techniques.
National Roofing Contractors Assoc 1990

Fire safety: Real, real-life

Number: VT01559
Material: video 15 minutes
Industry: all industries
This humorous video covers all of the important essentials of fire safety through reenactments of fire situations, and discusses the elements and classes of fire, fire prevention, fire extinguishers, emergency action plans.
Coastal Training 1998

Fire safety: There's no second chance

Number: VT01460
Material: video 20 minutes
Industry: general industry
Re-creates a workplace fire and discusses the elements and classes of fire, fire prevention, emergency action plans, types of fire extinguishers and their use.
Coastal Training 1996

Fire! Getting out alive

Number: VT01524
Material: video 18 minutes
Industry: general industry
Discusses how to prepare for a fire emergency including exit posting and egress, fire drills, emergency evacuation plans, and employee fire education and preparation training.
Safe Expectations 1995

Fire! In the workplace

Number: VT01440
Material: video 17 minutes
Industry: general industry
Covers the recognition of potential hazards, the fire triangle, classes of fires, fire extinguisher use, and how to extinguish small fires.
Coastal Training 1989

Flammable liquids

Number: VT01305
Material: video 7 minutes
Industry: general industry
Covers the characteristics of, hazards of, and proper handling and storing of flammable liquids.
Summit Training Source 1990

Foot protection

Number: VT01374
Material: video 5 minutes
Industry: all industries
Discusses types of hazardous situations found on the job, foot injuries and the importance of wearing appropriate safety shoes and boots.
Digital 2000 1993

Foot protection: Safety gear

Number: VT01519
Material: video 11 minutes
Industry: all industries
Explains how the foot works, workplace hazards to feet, classification of safety shoes, and the function of toe shields, metatarsal guards, and puncture-resistant soles.
Aims Multimedia 1989

Foot protection: Safety gear

Number: VT01728 Spanish
Material: video 11 minutes
Industry: all industries
See previous description.
Aims Multimedia 1989

Forklift case histories: Serious business

Number: VT01449
Material: video 18 minutes
Industry: general industry
Shows re-enactments of real-life forklift accidents, demonstrates the dangers of

Training Materials by Title 2007

improper use, and discusses safe work practices, securing the platform and load, lifting, safe speed and turning, and awareness of surroundings.

Assoc General Contractors of America 1992

Forklift driving skills

Number: VT00368

Material: video 5 minutes

Industry: general industry

Describes techniques for driving on wet, rough and inclined surfaces and proper procedures for load handling.

Summit Training Source 1990

Forklift fundamentals: Get the facts

Number: VT01594

Material: video 18 minutes

Industry: general industry

Covers powered industrial truck design, controls and instrumentation, pre-operation safety inspection, the vehicle stability triangle and the factors that affect it.

Coastal Training 1997

Forklift load capacity

Number: VT01654

Material: video 5 minutes

Industry: general industry

Demonstrates proper load balance and weight capacity, the importance of the three-point suspension system and the effect of the stability triangle.

Summit Training Source 1990

Forklift operations: Carry the load

Number: VT01595

Material: video 19 minutes

Industry: general industry

Discusses operating conditions and hazards including surface conditions, lifting and putting down the load, load stability, traveling tips, working with stacks, special hazards, operating safety, vehicle and pedestrian traffic.

Coastal Training 1999

Forklift pedestrian safety

Number: VT01760

Material: video 10 minutes

Industry: general industry

This dramatic video is intended for people on foot who work in areas where forklifts are being used.

WA State Dept of Labor & Industries 2003

Forklift pre-operation inspection

Number: VT01655

Material: video 5 minutes

Industry: general industry

Covers the pre-operation inspection checklist, proper forklift maintenance, and basic forklift features.

Summit Training Source 1990

Forklift safe driving

Number: VT00371

Material: video 5 minutes

Industry: general industry

Demonstrates how accidents occur and safe driving techniques.

Summit Training Source 1990

Forklift safe driving skills: The responsible operator

Number: VT01296

Material: video 14 minutes

Industry: general industry

Discusses hazard awareness and safety procedures, driving skills, interaction with pedestrian traffic, proper load handling and lifting, and techniques for driving on various surfaces such as ramps, inclines and dock plates.

Summit Training Source 1995

Forklift safety: Loads of experience

Number: VT01392

Material: video 15 minutes

Industry: general industry

Focuses on the responsibilities of pedestrians who are working around lift trucks to prevent accidents including eye contact with the driver, safe distance, safe work zone, and safe drop zone.

CoreMedia Training 1990

Training Materials by Title 2007

Forklift safety: On the go

Number: VT01584

Material: video 17 minutes

Industry: construction

This video on extended reach forklifts discusses pre-operation inspection, vehicle center of balance, load capacities, and safe operation including lifting, moving, and stacking loads.

Assoc General Contractors of America 1994

Forklift Safety: The Color of Danger

Number: VT01526

Material: video 17 minutes

Industry: general industry

This award winning video uses re-enactments of actual accidents to show the consequences of a lapse in concentration or safe driving procedures in various industrial settings including docks and warehouses.

Allied Digital Technologies 1982

Forklift walk-behinds

Number: VT00372

Material: video 5 minutes

Industry: general industry

Covers the safe operation of handtrucks including pre-operation inspection and load capacity.

Summit Training Source 1990

Forklifts and pedestrians

Number: VT00373

Material: video 5 minutes

Industry: general industry

Uses live-action accident scenarios to show how serious forklift accidents involving pedestrians can be prevented.

Summit Training Source 1990

Formaldehyde

Number: VT01625

Material: video 14 minutes

Industry: general industry

Discusses health hazards and routes of entry into the body, hazard communication, personal protective equipment, and safe work practices.

Summit Training Source 1995

From here to there: Moving things by hand

Number: VT01523

Material: video 13 minutes

Industry: all industries

Presents the fundamentals of manual materials handling including sizing up the item to be moved, proper lifting techniques, and the use of handcarts and trucks.

Safe Expectations 1978

Gas cylinders: Handling and storing

Number: VT01401

Material: video 7 minutes

Industry: general industry

Shows the proper storage and handling procedures for many types of gases contained in cylinders.

Summit Training Source 1990

Gas welding and cutting operations: Construction

Number: VT01579

Material: video 14 minutes

Industry: construction

Explains basic safety procedures and health hazards including equipment inspection, cylinder connections, valves, fire prevention, and metal fume fever.

Digital 2000 1993

Gas welding and cutting operations: Construction

Number: VT01711 Spanish

Material: video 14 minutes

Industry: construction

See previous description.

Digital 2000 1993

Grain elevator safety orientation

Number: VT01709

Material: video 14 minutes

Industry: agriculture

Demonstrates safe work practices including the use of PPE, electrical safety, ladder safety, slip hazards, truck and wagon grain unloading, entering

Training Materials by Title 2007

grain bins, engulfment hazards, and grain dust explosion causes and
IL Onsite S&H Consultation 2001
Program

Grinding

Number: VT01402
Material: video 7 minutes
Industry: general industry
Discusses engineering controls, proper personal protective equipment, and techniques of safe grinding operations.
Summit Training Source 1990

Grinding safety: The rule of Muldoon

Number: VT00526
Material: video 17 minutes
Industry: general industry
This humorous video covers grinding wheel speeds, guards, mounting procedures, and wheel operating rules.
Grinding Wheel Institute 1985

Ground skidding

Number: VT01257
Material: video 11 minutes
Industry: logging
This video, developed for Pacific Northwest logging, covers the basic safety procedures of ground skidding.
University of Idaho 1992

Groundskeeping safety: Be a pro!

Number: VT01489
Material: video 17 minutes
Industry: general industry
Covers hazards and safety procedures for employees responsible for grounds or outdoor maintenance when using chemicals and equipment including basic PPE, tractors, riding mowers, brush-cutting equipment and blowers.
Coastal Training 1997

Hand and arm protection: Safety gear

Number: VT01520
Material: video 11 minutes
Industry: all industries
Covers how to recognize workplace hand and arm hazards, the causes of traumatic and contact injuries, the reason for and use of guards on equipment and

machinery, and choosing the proper gloves for the job.
Aims Multimedia 1989

Hand and arm protection: Safety gear

Number: VT01729 Spanish
Material: video 11 minutes
Industry: all industries
See previous description.
Aims Multimedia 1989

Hand and power tool safety

Number: VT01283
Material: video 7 minutes
Industry: all industries
Discusses the common hand and power tools involved in accidents including wrenches, drills and handsaws.
Training Network-LIP 1992

Hand and power tool safety

Number: VT01284
Material: video 16 minutes
Industry: all industries
This humorous video reviews the basics of using tools including proper use, choosing the right tool for the job, inspection, and tool related accidents.
Training Network-LIP 1991

Hand and power tool safety

Number: VT01384
Material: video 12 minutes
Industry: all industries
Covers general safety rules and proper techniques when using cutting, striking, and power tools including using the right tool for the job, storage and inspection, avoiding kickbacks, and PPE.
Training Network-LIP 1994

Hand and power tool safety

Number: VT01598
Material: video 13 minutes
Industry: all industries
Discusses good safety attitudes and proper techniques as the key to injury-free use of hand and powers tools including wrenches, power drills and saws.
Training Network-LIP 1996

Hand and power tool safety: Construction

Number: VT01379

Training Materials by Title 2007

Material: video 13 minutes
Industry: construction
Discusses tool care and inspection, grounding, and general safety rules including using the proper tool for the
Digital 2000 1992

Hand and power tool safety: Construction

Number: VT01500 Spanish
Material: video 13 minutes
Industry: construction
See previous description.
Digital 2000 1992

Hand and power tools

Number: VT01376
Material: video 5 minutes
Industry: all industries
Covers general safety rules when using hand and power tools including wrenches.
Digital 2000 1993

Hand safety

Number: VT00376
Material: video 6 minutes
Industry: general industry
Covers the causes of hand injuries and prevention including the proper use of hand tools, knife safety, working with machinery and pinch points.
Summit Training Source 1990

Hand tool safety overview: Give safety a hand

Number: VT01441
Material: video 15 minutes
Industry: all industries
Provides an introduction to hand tool safety including basic safety procedures, safe work practices, and proper use of wrenches, hammers, and screw drivers.
Coastal Training 1994

Hand/arm vibration syndrome

Number: VT01270
Material: video 25 minutes
Industry: all industries
Covers the cause, symptoms, assessment, and treatment of this cumulative trauma disorder.
US National Institute for OSH 1990

Hazard communication

Number: VT01668

Material: video 13 minutes
Industry: general industry
Reviews the differences between common hazardous materials, proper storage, labeling systems, material safety data sheets, exposure reduction, and safe handling procedures.
Summit Training Source 1998

Hazard communication in manufacturing

Number: VT01285
Material: video 5 minutes
Industry: general industry
Discusses material safety data sheets, labeling, handling and safe use of chemicals in the workplace.
Training Network-LIP 1992

Hazard communication standard 1926.59

Number: VT01243
Material: video 14 minutes
Industry: construction
Discusses chemical hazards in construction including materials safety data sheets, container labeling, employee training, and the requirements of the standard.
OSHA Office of Training and Education 1993

Hazard communication training: The toxic time bomb

Number: VT01166
Material: video 15 minutes
Industry: construction
Discusses construction chemical hazards including hazard awareness, safe chemical handling procedures, employee right-to-know, and how to read labels and material safety data sheets.
Florida AFL-CIO United Labor Agency 1988

Hazard communication: The message is construction safety

Number: VT01583
Material: video 14 minutes
Industry: construction
Covers construction chemical hazards including types of hazardous materials found on the jobsite, reading product labels and material safety data sheets, safe handling procedures, and the

Training Materials by Title 2007

requirements of the standard.

Assoc General Contractors of America 1997

Hazard communication: Training for employees

Number: VT01660

Material: video 18 minutes

Industry: general industry

Covers chemical safety, the importance of keeping an up-to-date hazardous chemical inventory, how to read MSDSs, labeling of containers, what an employee should do if they find an unlabeled container or no MSDS on a substance, and written hazcom programs.

J.J. Keller & Associates 2000

Hazard communication: Training for employees

Number: VT01662 Spanish

Material: video 18 minutes

Industry: general industry

See previous description.

J.J. Keller & Associates 2000

Hazard communication: Your right to know

Number: VT01722

Material: video 12 minutes

Industry: roofing and siding

Explains how to use material safety data sheets, labeling procedures for hazardous materials, and safety precautions.

National Roofing Contractors Assoc 1990

Hazard communication: Your safety net

Number: VT01665

Material: video 14 minutes

Industry: general industry

Focuses on chemical hazards and safety precautions including exposure situations, ways to control chemical hazards, and reading and using material safety data sheets and warning labels.

Coastal Training 2000

Hazard recognition

Number: VT01737

Material: video 5 minutes

Industry: general industry

Covers the skills and techniques for recognizing common types of hazards found in the workplace.

Summit Training Source 1990

Hazard recognition: Out of the ordinary

Number: VT01667

Material: video 13 minutes

Industry: general industry

Covers how to identify potential hazards in the workplace through work area inspection and common hazards including contact with objects and equipment, improper lifting, falls, exposure to harmful substances.

Summit Training Source 2000

HazCom case histories: Learn from their mistakes

Number: VT01442

Material: video 20 minutes

Industry: all industries

Using re-enactments of real-life HazCom incidents, covers the importance of following safe work practices, reading material safety data sheets and warning labels, emergency response, and using personal protective equipment.

Coastal Training 1994

HazCom for construction

Number: VT01461

Material: video 12 minutes

Industry: construction

Covers the dangers of working with and around chemicals, how to recognize construction site chemical hazards, hazard control, safety precautions and personal protective equipment.

Coastal Training 1995

HazCom: Understanding labels

Number: VT01245

Material: video 8 minutes

Industry: construction

Discusses the importance of labels on hazardous materials, how to read them, and various types of labeling systems including that of the National Fire Protection Association which uses color coding to distinguish classes of hazards. Laborers' National H&S Fund 1993

HazCom: Understanding MSDS

Number: VT01246

Material: video 19 minutes

Industry: construction

Discusses the eight sections required on

Training Materials by Title 2007

material safety data sheets including health hazards and exposure prevention.
Laborers' National H&S Fund 1993

HazCom: Using MSDS

Number: VT01538

Material: video 12 minutes

Industry: general industry

This humorous video provides a basic overview of a typical material safety data sheet, how to read and use them, and the reasons to consult a MSDS when working with hazardous chemicals.

Industrial Training Systems 1996

HAZWOPER training: Awareness level

Number: VT01490

Material: video 20 minutes

Industry: general industry

Designed for all employees, discusses the standard, hazardous materials definitions, and the activities and workers covered by the standard.

Coastal Training Technologies 1990

Head protection: Hard hats

Number: VT01375

Material: video 5 minutes

Industry: construction

Covers hardhat construction, how hard hats work and the importance of wearing head protection on the job.

Digital 2000 1993

Head protection: Safety gear

Number: VT01521

Material: video 10 minutes

Industry: all industries

Examines the features and benefits of wearing hard hats including how the suspension system works, adjustment, regular inspection, and maintenance.

Aims Multimedia 1989

Head protection: Safety gear

Number: VT01730 Spanish

Material: video 10 minutes

Industry: all industries

See previous description.

Aims Multimedia 1989

Health & safety Why care?

Number: VT01173

Material: video 14 minutes

Industry: general industry

Presents an overview of potential hazards and safety precautions for retail, wholesale and department store employees.

Retail, Wholesale and Dept Store Union 1991

Health & safety Why care?

Number: VT01173S Spanish

Material: video 14 minutes

Industry: general industry

See previous description.

Retail, Wholesale and Dept Store Union 1991

Health and safety in welding and allied processes by Nigel C. Balchin

Number: TS227.8H

Material: book 231 pages

Industry: all industries

Identifies the hazards of major welding processes including gas welding, arc welding, brazing and soldering.

McGraw-Hill 1993

Healthcare electrical safety

Number: VT01561

Material: video 18 minutes

Industry: health services

Discusses the common hazards of using electrical monitoring and diagnostic equipment typical to the healthcare setting, basic electrical principles, and electrical safety guidelines.

Coastal Training 1991

Healthcare ergonomics

Number: VT01562

Material: video 21 minutes

Industry: health services

Covers cumulative trauma disorders and contributing factors, identifying hazards, proper lifting body mechanics, lifting and transferring of patients, workstation adjustments, and exercises.

Coastal Training 1996

Healthcare PPE

Number: VT01563

Material: video 19 minutes

Training Materials by Title 2007

Industry: health services
Covers types of PPE available to healthcare workers and how they work, how to identify hazards such as infectious and chemical, selection of PPE, proper use and removal, inspection and disposal.
Coastal Training 1995

Healthcare safety orientation

Number: VT01564
Material: video 16 minutes
Industry: health services
Gives employees an overview of workplace hazards and safety measures including slips and falls, back injuries, handling medical waste, chemicals, radiation, and the proper use of personal protective equipment.
Coastal Training 1994

Hearing

Number: VT00377
Material: video 5 minutes
Industry: general industry
Explains how the ear operates, the effects of noise, and the use of earmuffs and earplugs to prevent hearing loss.
Summit Training Source 1990

Hearing conservation on the jobsite: Sound advice

Number: VT01424
Material: video 13 minutes
Industry: construction
Discusses noise on the jobsite and the reason for wearing hearing protection.
Assoc General Contractors of America 1995

Hearing conservation: An employee review

Number: VT01273
Material: video 9 minutes
Industry: all industries
Discusses control of harmful noise, hearing protection, and noise-induced hearing loss.
VA Medical Center 1991

Hearing protection: Safety gear

Number: VT01731 Spanish
Material: video 13 minutes
Industry: general industry
Explains how the ear works, workplace noise hazards, the effects of noise, and the use of hearing protection including earmuffs and earplugs.
Aims Multimedia 1989

Hearing safety

Number: VT00146
Material: video 18 minutes
Industry: general industry
Stresses the hazards of both short- and long-term exposure to common levels of industrial noise, and the correct use of various protective devices.
Primedia Workplace Learning 1986

Heat stress

Number: VT01634
Material: video 5 minutes
Industry: all industries
Covers the effects of heat on the body, health hazards and their symptoms, and preventive measures.
Summit Training Source 1990

Heat stress prevention

Number: VT01297
Material: video 10 minutes
Industry: all industries
Discusses the dangers of excessive heat exposure, how the body reacts in high temperatures, and precautions to take to guard against heat stroke and
Summit Training Source 1989

Heat stress: Don't lose your cool

Number: VT01666
Material: video 15 minutes
Industry: all industries
Discusses how to prevent or treat heat disorders including work procedures, fluid intake, eating habits, clothing, and acclimatization.
Coastal Training 2000

Highway work zone safety: Work zone ahead

Number: VT01693
Material: video 12 minutes
Industry: construction

Training Materials by Title 2007

Provides basic safety training to road construction workers.

Assoc General Contractors of America 1996

HIV in the research laboratory

Number: VT01748

Material: video 28 minutes

Industry: general industry

Identifies causes of laboratory-acquired infections and safety practices to protect against HIV.

Howard Hughes Medical Institute 1994

Hoists and slings

Number: VT01635

Material: video 14 minutes

Industry: all industries

Covers various types of hoists and slings, factors to consider when choosing a hoist or sling, safety practices, inspection procedures, proper care and storage.

Summit Training Source 2000

Hot work permit

Number: VT01298

Material: video 13 minutes

Industry: all industries

Discusses proper procedures and safe work practices when performing hot work (welding, cutting, grinding) including identifying potential hazards including fires and explosions, permit procedures, and personal protective equipment.

Summit Training Source 1996

Hot work: Welding and cutting safety in construction

Number: VT01414

Material: video 14 minutes

Industry: construction

Covers safe work practices and procedures for gas and arc welding and cutting operations including recognizing hazards, personal protective equipment, and equipment inspection.

Assoc General Contractors of America 1994

Housekeeping

Number: VT00379

Material: video 6 minutes

Industry: general industry

Discusses how proper housekeeping can reduce accidents including slips and falls and prevent fires.

Summit Training Source 1990

Housekeeping on the jobsite

Number: VT01317

Material: video 10 minutes

Industry: construction

Discusses how good housekeeping can prevent accidents on the construction site including slips and falls.

Digital 2000 1995

Housekeeping on the jobsite: The winning ticket

Number: VT01707 Spanish

Material: video 13 minutes

Industry: construction

Explains the dangers of working on cluttered jobsites including slips and falls.

Assoc General Contractors of America 1991

Housekeeping responsibilities

Number: VT01648 Spanish

Material: video 5 minutes

Industry: all industries

Covers how good housekeeping can prevent accidents and fires including spill cleanup and oily rag disposal.

Training Network-LIP 1994

Housekeeping: A matter of attitude

Number: VT01525

Material: video 16 minutes

Industry: all industries

This humorous video points out the impacts of sloppy housekeeping and why good housekeeping is an important aspect of safety because it can prevent accidents.

Safe Expectations 1981

Housekeeping: It ain't like in the movies

Number: VT01530

Material: video 15 minutes

Industry: all industries

This humorous video, an action

Training Materials by Title 2007

adventure spoof, reviews the importance of preventing accidents through good housekeeping techniques including proper tool storage and eliminating

Coastal Training 1995

How far is that fall?

Number: VT01511

Material: video 22 minutes

Industry: construction

Covers fall distance calculations for personal fall arrest systems as found in OSHA regulation 1926.502(d)(16).

OSHA Office of Training and Education 1998

How to investigate an accident

Number: VT01581

Material: video 13 minutes

Industry: all industries

Presents the basics of accident investigation including interviewing witnesses, fact gathering, analyzing data, and the points to remember when completing an accident report.

Digital 2000 1999

Hypothermia

Number: VT01604

Material: video 7 minutes

Industry: all industries

Discusses how to recognize the warning signs and how to prevent it including wearing the proper cold-weather PPE.

Summit Training Source 1998

Incident investigation

Number: VT01299

Material: video 17 minutes

Industry: all industries

Provides training on the methods and techniques required to discover the accurate cause of an incident including physical evidence, fact finding, data gathering, interviewing witnesses, analyzing details, and effective corrective actions.

Summit Training Source 1995

Indoor cranes: Safe lifting operations

Number: VT01602

Material: video 19 minutes

Industry: general industry

Covers how to safely operate shop-operated power hoist equipment and discusses pre-operation safety inspections, basic rigging techniques, and lifting and moving the load.

Coastal Training 1991

Industrial ventilation: a practical overview

Number: VT01188

Material: video 22 minutes

Industry: general industry

Discusses the principles of industrial ventilation to control the buildup of hazardous industrial chemicals in the air.

OSHA Office of Training and Education 1991

Introduction to scaffolding safety

Number: VT01597

Material: video 22 minutes

Industry: construction

Discusses scaffold erection, hazards, and safe work practices.

National Ironworkers Training Fund 1999

Ironworkers: A study of hazards in the construction industry

Number: VT01098

Material: video 25 minutes

Industry: structural steel

Discusses jobsite hazards and safety precautions including ladders, scaffolds, rigging, setting beams, bolting and welding. NOTE: Body belts are no longer acceptable as part of a personal fall arrest system.

Florida AFL-CIO United Labor Agency 1987

Is it worth your life? Workplace violence prevention

Number: VT01262

Material: video 19 minutes

Industry: retail trade

This video shows ways to prevent or defuse violent situations in retail stores.

NOTE: Washington State has a Crime Prevention Code. OSHA uses the General Duty Clause to cover this workplace hazard.

WA State Dept of Labor & Industries 1992

Training Materials by Title 2007

It can happen here: Chemical disasters

Number: VT01171
Material: video 5 minutes
Industry: chemical
Describes the causes of toxic releases and explosions at chemical plants.
Intl Chemical Workers Union 1989

It only takes a second...

Number: VT01682
Material: video 4 minutes
Industry: all industries
This powerful video shows, through work and driving accident re-enactments, how easily accidents can happen and the consequences of not taking the time to think safety.
Aurora Pictures 1995

It's a wonderful kitchen: Injury prevention for food service workers

Number: VT01496
Material: video 12 minutes
Industry: food service
Identifies the most common food service-related injuries and methods of prevention including slips and falls, burns and scalds, and cuts.
NY State Dept of Health 1991

Job hazard analysis: A guide to identifying risks in the workplace by George Swartz

Number: T55.S93
Material: book 205 pages
Industry: all industries
Provides a step-by-step guide to identifying and preventing occupational hazards on the job.
Government Institutes 2001

Job safety analysis

Number: VT01752
Material: video 10 minutes
Industry: all industries
Offers an overview of job safety analysis including how to identify the hazards which are associated with each job step and identifying the proper way of doing

the job.

IL Onsite S&H Consultation Program 2000

Job safety analysis for construction: Step-by-step

Number: VT01572
Material: video 14 minutes
Industry: construction
Discusses the elements of the job safety analysis process used for planning work, and identifying and controlling potential job site hazards.

Assoc General Contractors of America 1993

Jobsite hazardous waste safety: handle with care

Number: VT01411
Material: video 17 minutes
Industry: construction
Reviews the proper way to handle the unexpected discovery of hazardous waste on the jobsite including stop work, notifying the designated person, and securing the site.

Assoc General Contractors of America 1992

Jobsite safety inspection: Controlling the field

Number: VT01582
Material: video 13 minutes
Industry: construction
Discusses how to conduct jobsite safety inspections, developing and using safety checklists, identifying and eliminating hazards, follow-up on problem areas, and employee training.

Assoc General Contractors of America 1991

Lab safety: Assessing risks of toxic chemicals

Number: VT01747
Material: video 11 minutes
Industry: general industry
Covers risk assessment, determining a chemical's inherent toxicity, potential routes of exposure, acute versus chronic toxicity, duration and frequency of exposure.

Howard Hughes Medical Institute 1994

Lab safety: Chemical hazards

Number: VT01744
Material: video 10 minutes
Industry: general industry
Demonstrates safe work practices and

Training Materials by Title 2007

procedures that apply when working with hazardous chemicals.

Howard Hughes Medical Institute 1994

Lab safety: Chemical storage hazards

Number: VT01746

Material: video 11 minutes

Industry: general industry

Reviews the basic principles of safe chemical storage for organic and inorganic chemicals, acids, bases, flammables, toxics, caustics, oxidizers, and corrosives.

Howard Hughes Medical Institute 1994

Lab safety: Emergency response

Number: VT01745

Material: video 12 minutes

Industry: general industry

Addresses fire, personal injuries, and radiation, chemical and biological spills and demonstrates proper safety procedures.

Howard Hughes Medical Institute 1994

Lab safety: Handling hazardous chemicals

Number: VT01689

Material: video 21 minutes

Industry: general industry

Discusses the requirements of the Laboratory Safety Standard, hazard identification, exposure monitoring and PELs, recordkeeping, and emergency procedures.

Coastal Training 1990

Lab safety: Practicing safe science

Number: VT01743

Material: video 29 minutes

Industry: general industry

Demonstrates safe practices, features reenactments of actual laboratory accidents, and poses questions to help the viewer recognize risks associated with scientific protocols.

Howard Hughes Medical Institute 1994

Lab safety: Under the hood

Number: VT01603

Material: video 18 minutes

Industry: general industry

Discusses safe work practices, how to recognize common laboratory chemical and health hazards, laboratory hoods, how to use a Chemical Hygiene Plan and emergency procedures.

Coastal Training 1998

Ladder safety

Number: VT01508

Material: video 6 minutes

Industry: all industries

Covers selecting the proper ladder for the job, inspection, truck racks, and proper set-up and use.

Summit Training Source 1990

Ladder safety: Construction

Number: VT01381

Material: video 5 minutes

Industry: construction

Explains safe use requirements for ladders including proper set-up, inspection, 4:1 ratio, and climbing techniques.

Training Network-LIP 1994

Ladder safety: Construction

Number: VT01570

Material: video 6 minutes

Industry: construction

Covers the safe use of ladders including inspection, 4:1 pitch ratio, the 3-point rule, safe climbing techniques, and job-made ladders.

Assoc General Contractors of America 1992

Ladder safety: Construction

Number: VT01672 Spanish

Material: video 6 minutes

Industry: construction

See previous description.

Assoc General Contractors of America 1992

Ladder safety: Fall prevention

Number: VT01545

Material: video 12 minutes

Industry: all industries

Training Materials by Title 2007

Explains the principles of ladder selection, inspection, set-up and use, and safe climbing techniques.

Primedia Workplace Safety 1993

Ladder safety: Step right up

Number: VT01279

Material: video 19 minutes

Industry: general industry

This humorous video demonstrates safety tips and procedures when using portable ladders including carrying, inspection, erecting, securing, and climbing.

Coronet/MTI Film & Video 1981

Landing safety

Number: VT01251

Material: video 18 minutes

Industry: logging

This logging video discusses safety measures to be taken at landing areas.

University of Idaho 1992

Large power hand tool safety

Number: VT01617

Material: video 10 minutes

Industry: all industries

Covers safety risks and precautions that should be observed when working with the impact wrench, large power drills, portable band saws, and the roto

Aims Multimedia 1991

Laser safety: Construction

Number: VT01673

Material: video 8 minutes

Industry: construction

Covers the use of lasers in construction, the four classes of lasers, the hazards of laser light, proper eye protection, and safe operating practices including the posting of warning signs.

Assoc General Contractors of America 1997

Lead abatement: Safe practices

Number: VT01261

Material: video 26 minutes

Industry: construction

Discusses lead hazards and ways of preventing exposure in the construction industry.

Laborers-AGC Education and 1995

Training Fund

Lead exposure in construction: Caution!

Number: VT01705

Material: video 11 minutes

Industry: construction

Discusses sources of lead exposure, lead poisoning symptoms, protective measures, and the hazards of lead in the construction industry.

Western Consortium for Public Health 1993

Lead exposure in construction: Exposing the facts

Number: VT01705

Material: video 17 minutes

Industry: construction

Describes how lead is used in the construction industry, its effects on the human body, and how workers can protect themselves from overexposure.

Assoc General Contractors of America 1992

Lead in construction: Medical surveillance

Number: VT01265

Material: video 15 minutes

Industry: construction

Discusses medical examinations and surveillance program that employers are required to provide workers exposed to lead in construction.

Laborers-AGC Education and Training Fund 1993

Lead safety in the demolition industry

Number: VT01260

Material: video 15 minutes

Industry: wrecking and

Discusses lead exposure, its health effects, and ways of preventing exposure

National Assoc of Demolition Contractors 1994

Lead safety in the demolition industry

Number: VT01266 Spanish

Material: video 15 minutes

Industry: wrecking and

See previous description.

National Assoc of Demolition Contractors 1994

Lead safety on the construction site: Employee

Number: VT01236

Material: video 29 minutes

Training Materials by Title 2007

Industry: construction

Discusses lead hazards, health effects, sources of lead exposure, medical surveillance, engineering and work practice controls, and abatement procedures.

Chicago Construction Safety Council 1993

Lead safety on the construction site: Employer

Number: VT01237

Material: video 26 minutes

Industry: construction

Covers compliance programs, lead hazards, health effects, exposure assessment, control measures, OSHA requirements, recordkeeping requirements, and safety program evaluation.

Chicago Construction Safety Council 1993

Lead standard

Number: VT01661

Material: video 6 minutes

Industry: all industries

Discusses how lead enters the body, the health hazards associated with overexposure, safety procedures, and preventive measures.

Summit Training Source 1996

Lead: Treat it with respect

Number: VT01463

Material: video 17 minutes

Industry: construction

Discusses the dangers of lead hazards in construction, how lead enters the body, exposure limits, PPE, housekeeping, and medical surveillance.

Coastal Training 1993

Lifting safely: Construction

Number: VT01318

Material: video 12 minutes

Industry: construction

Explains how the back functions, safe lifting methods, and how to prevent back injuries.

Digital 2000 1993

Line breaking: Use a permit

Number: VT01443

Material: video 16 minutes

Industry: chemical

Discusses the dangers involved in not following process system safety procedures including line and equipment opening (LEO), LEO permits, lockout/tagout, line-breaking procedures and post procedures, and emergency response.

Coastal Training 1992

Line skidding

Number: VT01252

Material: video 16 minutes

Industry: logging

Covers safety procedures for skidding with a gravity yarder.

University of Idaho 1992

Loading and hauling

Number: VT01253

Material: video 17 minutes

Industry: logging

Discusses safety procedures for drivers and loader operators during the loading and hauling of logs.

University of Idaho 1992

Lockout for life! Lockout/tagout case histories

Number: VT01444

Material: video 20 minutes

Industry: general industry

Shows dramatic re-enactments of actual accidents, reviews the hazards of uncontrolled energy, details correct procedures for locking and tagging, proper equipment shutdown and isolation, and proper safety procedures.

Coastal Training 1992

Lockout tragedy: Danger zone

Number: VT01750

Material: video 15 minutes

Industry: general industry

This high-impact video retells the story of a worker who lost his life in an avoidable accident involving improper lockout procedures.

Coastal Training 2001

Lockout/tagout for machine shop employees

Number: VT01239

Material: video 18 minutes

Industry: general industry

Training Materials by Title 2007

Discusses lockout/tagout procedures for machine shop employees.

National Tooling and Machining Association 1992

Lockout/tagout for machine shop managers

Number: VT01238

Material: video 19 minutes

Industry: general industry

Discusses lockout/tagout procedures for machine shop employees.

National Tooling and Machining Association 1992

Lockout/tagout procedures

Number: VT01306

Material: video 6 minutes

Industry: general industry

Covers proper procedures for isolating various types of hazardous energy including electrical, mechanical, hydraulic and pneumatic, and the procedures to take when restarting

Summit Training Source 1990

Lockout/tagout safety procedures

Number: VT01277

Material: video 17 minutes

Industry: general industry

Discusses energy control during the maintenance and servicing of equipment. NOTE: Washington State may have stricter standards than Federal WA State Dept of Labor and Industries 1992

Lockout/tagout: Controlling the beast

Number: VT01470

Material: video 19 minutes

Industry: general industry

Graphically demonstrates the hazards of uncontrolled energy, reviews and explains the purpose of proper lockout/tagout procedures and the dangers if those procedures are not

Coastal Training 1994

Lockout/tagout: Real, real-life

Number: VT01608

Material: video 18 minutes

Industry: general industry

This interactive video covers the when,

where and why of lockout including safe work practices, proper locking/tagging procedures, and spotting potential dangers.

Coastal Training 2000

Lockout/tagout: Real, real-life

Number: VT01718 Spanish

Material: video 18 minutes

Industry: general industry

See previous description.

Coastal Training 2000

Lockout/tagout: safety training for employees

Number: VT01552

Material: video 15 minutes

Industry: general industry

Provides an overview of the standard and demonstrates proper safety procedures including how to apply and remove safety devices, the requirements for locks and tags, inspections, recordkeeping, and maintaining lockout/tagout during shift changes.

J.J. Keller & Associates 1995

Lockout/tagout: The process of controlling hazardous energy by Edward R. Grund

Number: T55.G77

Material: book 429 pages

Industry: general industry

Covers safeguards and practices to protect workers when servicing, repairing, adjusting, and inspecting machinery, equipment, and processes.

National Safety Council 1995

Logging body mechanics

Number: VT01292

Material: video 22 minutes

Industry: logging

Discusses the prevention of back injuries for loggers working with chain saws and logging equipment.

Lumberjack Resource 1995

Development Council

Logging safely in the Intermountain Northwest

Number: VT01254

Material: video 18 minutes

Industry: logging

Training Materials by Title 2007

Gives an overview of logging operations and safety practices.

University of Idaho 1992

Long term care safety orientation: Work smart, be safe

Number: VT01753

Material: video 15 minutes

Industry: health services

Intended as a safety orientation for new employees or as a refresher for current employees who work in the nursing home industry.

IL Onsite S&H Consultation Program 2002

Machine guarding

Number: VT01307

Material: video 7 minutes

Industry: general industry

Discusses different types of guards, the importance of not bypassing guards, and the use of guards in lockout procedures.

Summit Training Source 1990

Machine guarding

Number: VT01395

Material: video 16 minutes

Industry: general industry

Provides an overview of machine hazards including point of operation and pinch points, the necessity and techniques of machine guarding, safety precautions, and guarding devices including sensors, restraints, pullbacks and gates.

Primedia Workplace Learning 1989

Machine guarding

Number: VT01445

Material: video 14 minutes

Industry: general industry

Describes machine hazards, the categories and types of machine guards, the importance of using guards, the places where machine hazards occur such as pinch points, and safety control devices including pullbacks and gates.

Coastal Training 1992

Machine guarding

Number: VT01719 Spanish

Material: video 14 minutes

Industry: general industry

See previous description.

Coastal Training 1992

Machine guarding: A management & employee safety program

Number: VT01700

Material: video 18 minutes

Industry: general industry

Explains the roles of management and employees, discusses the elements of a sound machine guarding policy, and maintaining a safe work environment.

J.J. Keller & Associates 1995

Machinery and machine guarding

Number: VT01755

Material: video 15 minutes

Industry: general industry

Covers ways to safeguard machinery and shows a variety of machine safeguarding techniques.

IL Onsite S&H Consultation Program 2003

Machinery safety: A close call

Number: VT01512

Material: video 9 minutes

Industry: agriculture

Discusses hazards associated with agricultural machinery including entanglements, pinch and crush points.

Kansas State University 1993

Mailroom safety

Number: VT01734

Material: video 6 minutes

Industry: all industries

Covers how to recognize suspicious packages, helps dispel myths about the hazards presented by suspicious packages, and proper procedures for handling suspect mail.

Summit Training Source 2002

Managing silica hazards: Construction

Number: VT01483

Material: video 14 minutes

Industry: construction

Discusses silica, its hazards, hazard assessment at the jobsite, engineering and work practice controls, personal protective equipment, and the employer's responsibilities.

Training Materials by Title 2007

Chicago Construction Safety Council 1997

Manbaskets in construction

Number: VT01485

Material: video 10 minutes

Industry: construction

Covers safety measures including proper procedures for hoisting manbaskets using a crane or derrick.

Coastal Training 1997

Masonry trades: A study of hazards

Number: VT01122

Material: video 13 minutes

Industry: construction

Covers construction-site hazards and safety measures including lifting techniques, cement dust, power tools and equipment, wall bracing and supports, and limited access zones.

Florida AFL-CIO United Labor Agency 1989

Material handling equipment safety

Number: VT01618

Material: video 9 minutes

Industry: general industry

Covers safe operating procedures for 2-wheel dollies, cages, manual pallet jacks, gas and electric forklifts, stock chasers, stock pickers and electric jacks.

Aims Multimedia 1991

Materials handling and storage

Number: VT01474

Material: video 22 minutes

Industry: general industry

Discusses safety procedures when using common material handling equipment including forklifts, cranes, hoists, and conveyors.

Kirkwood Community College 1995

Materials handling and storage: Hazardous and flammable

Number: VT01606

Material: video 9 minutes

Industry: all industries

This humorous video covers safety principles for the handling and storage large quantity hazardous and flammable materials including manual and

equipment handling, stacking, proper storage techniques, and storage areas.

Industrial Training Systems 1995

Materials handling safety: Making the right move

Number: VT01417

Material: video 14 minutes

Industry: construction

Discusses hazards and safety procedures when handling and storing construction materials including proper lifting techniques, storage areas, and safe stacking methods for materials.

Assoc General Contractors of America 1992

Means of egress

Number: VT01475

Material: video 5 minutes

Industry: general industry

A Laurel and Hardy spoof showing the consequences of improperly marked exits and blocked exits.

Kirkwood Community College 1995

Mechanical power press safety: Don't press your luck

Number: VT01446

Material: video 19 minutes

Industry: general industry

Discusses proper safety procedures, types of presses, safeguarding devices, press operation, inspection and maintenance.

Coastal Training 1996

Mechanized logging

Number: VT01255

Material: video 12 minutes

Industry: logging

Covers the basics of safe mechanized logging.

University of Idaho 1992

Mill safety and rescue in the rubber industry

Number: VT01544

Material: video 18 minutes

Industry: rubber industry

Re-creates mill accidents, demonstrates rescue methods, and discusses mill hazards, machine guards, and safe operating procedures.

Rubber Manufacturers Association 1997

Training Materials by Title 2007

Minimizing back strain on the job

Number: VT00147

Material: video 24 minutes

Industry: general industry

Covers explains how to reduce the day-to-day strains of lifting, sitting, and bending, how back injuries occur, and techniques for reducing back injuries including proper lifting.

Primedia Workplace Learning 1985

Minimizing the risks of skin cancer

Number: VT01513

Material: video 12 minutes

Industry: all industries

This video, while geared toward farmers, covers safety measures for anyone required to work long hours in the sun including wearing sunscreen and protective clothing, gives SPF ratings for various types of clothing.

Kansas State University 1995

Mobile crane capacities: Construction

Number: VT01675

Material: video 19 minutes

Industry: construction

Provides information for the crane operator to make correct reductions in mobile crane capacities including crane inspection, leveling, wind effects, dynamic loading and duty cycle work.

Assoc General Contractors of America 2000

Mobile crane load charts

Number: VT01656

Material: video 5 minutes

Industry: all industries

Covers load chart interpretations and usage including the importance of factoring in all variables for each lift.

Summit Training Source 1990

Mobile crane setup: Construction

Number: VT01676

Material: video 19 minutes

Industry: construction

Provides information for the safe setup of mobile cranes including site condition hazards, leveling, blocking and planning the lift.

Assoc General Contractors of America 2000

Mobile cranes

Number: VT01509

Material: video 5 minutes

Industry: all industries

Discusses pre-location set-up, pre-operation inspection, safe operating techniques, and planning the lift.

Summit Training Source 1990

Mobile scaffold safety: Rolling towers

Number: VT01587

Material: video 12 minutes

Industry: construction

Describes mobile scaffold safety including erection and dismantling, 4:1 ratio, inspection, use, fall protection, and load capacity.

Assoc General Contractors of America 1997

MSDS

Number: VT00383

Material: video 5 minutes

Industry: general industry

Explains how to read and use a material safety data sheet.

Summit Training Source 1990

MSDS: Communicating chemical safety

Number: VT01546

Material: video 15 minutes

Industry: all industries

Provides a basic overview of a typical material safety data sheet including the types of information they contain, and why they should be consulted when working with chemicals.

Industrial Training Systems 1994

MSDS: Read it before you need it!

Number: VT01464

Material: video 20 minutes

Industry: general industry

This video will help employees use and understand the various sections of material safety data sheets including

Training Materials by Title 2007

exposure situations, hazard prevention and personal protection, toxicology, and disposal.

Coastal Training 1993

Never again: Preventing chemical disasters

Number: VT01172

Material: video 49 minutes

Industry: chemical

Covers safety committees, risk analysis, and accidents.

United Steelworkers of America 1989

Non-compatible chemicals: What you should know

Number: VT01337

Material: video 14 minutes

Industry: general industry

Discusses chemical groups and their hazards, storage requirements, and emergency procedures.

Intl Chemical Workers Union 1987

Not by chance: Chemical disasters

Number: VT01175

Material: video 21 minutes

Industry: chemical

Discusses the risks of accidental chemical releases to workers and the general public.

AFL-CIO Industrial Union 1990
Department

Nursing homes: Hazards & solution

Number: VT01497

Material: video 16 minutes

Industry: nursing homes

Discusses various hazards in nursing homes, specifically focusing on resident transfer hazards and the use of patient assist devices.

OSHA Directorate of Technical Support 1998

<http://www.osha.gov/SLTC/video/nursinghome/video.html>

Office safety

Number: VT01735

Material: video 5 minutes

Industry: all industries

Covers how to recognize potential hazards and take preventive measures to help eliminate incidents including slips

and falls and back injuries.

Summit Training Source 1990

Oops! Your office is showing

Number: VT01278

Material: video 15 minutes

Industry: all industries

Discusses how to identify the causes of office accidents and ways to prevent them including workstation design, and proper lifting techniques.

WA State Dept of Labor & Industries 1992

Operating engineers: A study of hazards in the construction industry

Number: VT01123

Material: video 18 minutes

Industry: construction

Discusses hazards and safety measures when operating cranes and heavy equipment including pre-operation inspection, load lifting techniques, power lines, and carrier operations.

Florida AFL-CIO United Labor Agency 1988

Operation safe site: Concrete

Number: VT01203

Material: video 11 minutes

Industry: construction

Discusses safety procedures when working in concrete construction including form and shoring systems.

Assoc Contractors of Mid- Florida 1980

OSHA 10-hour construction PowerPoint

Number: CD01

Material: CD 10

Industry: construction

Emphasizes hazard identification, avoidance and control in the following subjects: OSHA, electrical, fall protection, excavations, cranes, materials handling and storage, hand and power tools, ppe, scaffolds, and stairways and OSHA Office of Training and Education 2003

http://www.osha.gov/fso/ote/training/outreach/construction_outreach_tp.html

OSHA 10-hour general industry PowerPoint

Training Materials by Title 2007

Number: CD02

Material: CD 10

Industry: general industry

Hazard identification, avoidance and control in the following subjects: OSHA, bloodborne pathogens, electrical, fire protection, flammable liquids, ppe, hazard communication, machine guarding, walking-working surfaces, and safety and health programs.

OSHA Office of Training and Education 2003

http://www.osha.gov/fso/ote/training/outreach/gi_outreach_tp.html

OSHA at work

Number: VT01184

Material: video 22 minutes

Industry: all industries

Describes OSHA and its functions. NOTE: First two minutes of video contains extraneous material.

OSHA Office of Information & Consumer Affairs 1991

OSHA in review

Number: VT01233

Material: video 10 minutes

Industry: all industries

Reviews the history of OSHA through film footage of former Assistant Secretaries.

OSHA 1989

OSHA inspection: Overcoming the fear

Number: VT01691

Material: video 24 minutes

Industry: all industries

Discusses how to prepare for an OSHA inspection and what to expect including the opening conference, what is included in the inspection tour, the closing conference, types of violations and their penalties, and how to appeal a citation.

Coastal Training 1994

OSHA inspection: Preparation and response by Rick Kaletsky

Number: T55.K26

Material: book 438 pages

Industry: all industries

Covers how OSHA works, what employers need to do in order to have an effective

safety and health program, and how to prepare for and respond to an OSHA work site inspection.

McGraw-Hill 1997

OSHA on-site consultation program

Number: VT01756

Material: video 10 minutes

Industry: all industries

Provides an overview of the services provided by state OSHA Consultation Programs by presenting a jointly developed Industry/OSHA silica hazard control program.

IL Onsite S&H Consultation Program 2002

OSHA recordables

Number: VT01736

Material: video 6 minutes

Industry: all industries

Covers the recording of workplace illnesses and accidents on the OSHA 300, 300-A, and 301 forms including what records must be kept and how to determine what goes on the record.

Summit Training Source 2002

OSHA recordkeeping: On the record

Number: VT01681

Material: video 18 minutes

Industry: all industries

Discusses the revised OSHA recordkeeping system including how to distinguish between a recordable and non-recordable incident and the new OSHA 300, 300-A, and 301 forms.

Summit Training Source 2001

OSHA recordkeeping: True to form

Number: VT01680

Material: video 13 minutes

Industry: all industries

Covers the revised OSHA recordkeeping system including an overview of changes, when to begin and end counting, employee privacy issues, procedures, and the new OSHA forms 300, 300-A and

Coastal Training 2001

OSHA top ten

Number: VT01771

Training Materials by Title 2007

Material: video 25 minutes
Industry: general industry
Points out the most common OSHA violations for general industry including machine guarding, lockout/tagout, hazard communication, warning signs and labels, and employee training.
Coastal Training 2002

OSHA's inspection and citation process: Construction

Number: VT01586
Material: video 14 minutes
Industry: construction
Provides information on employer rights and responsibilities under the OSH Act including the reasons for inspections, the opening conference, inspection tour, closing conference, citations, the seven types of violations, and penalties.
Assoc General Contractors of America 1993

Oxyacetylene safety

Number: VT01397
Material: video 22 minutes
Industry: all industries
Discusses the importance of following basic safety rules, ten safety rules are given and illustrated, and demonstrations show the dangers and effects of misuse of oxyacetylene equipment.
Primedia Workplace Learning 1996

Oxyfuel gas cutting: The sure cut

Number: VT01491
Material: video 13 minutes
Industry: all industries
Details the principles of welding safety and provides specific procedures when performing oxyfuel gas cutting including safety equipment, hook-up procedures, hazardous fumes, and ventilation.
Coastal Training 1990

Painters and allied trades: A study of hazards

Number: VT01161
Material: video 26 minutes
Industry: painting and paper
Covers jobsite safety and health hazards including ladders, scaffolds, abrasive blasting, spray painting, and hazardous chemicals. NOTE: Body belts are no

longer acceptable as part of a personal fall arrest system.
Florida AFL-CIO United Labor Agency 1987

Pave your way to safety: Concrete paving safety

Number: VT01571
Material: video 14 minutes
Industry: construction
Covers general safety procedures for concrete paving including concrete hazards, heavy equipment, personal protective equipment, paving equipment maintenance, and traffic control.
Assoc General Contractors of America 1993

Pendant controlled crane safety

Number: VT01669
Material: video 14 minutes
Industry: general industry
Covers safety considerations including pre-operation inspection, safe operating procedures, rigging, slings, use of hooks, moving and setting the load, and storage of the crane and block.
Summit Training Source 1997

Permit-required activities

Number: VT01690
Material: video 12 minutes
Industry: construction
Discusses high-risk contractor work that requires a special work permit including identifying potential hazards, safe work practices for hot work, confined space entry, excavations, asbestos, and lockout/tagout.
Summit Training Source 1995

Personal protective equipment

Number: VT01287
Material: video 9 minutes
Industry: all industries
Discusses types of hazards found in the workplace and appropriate personal protective equipment.
Training Network-LIP 1992

Personal protective equipment

Number: VT00386
Material: video 5 minutes
Industry: all industries
Demonstrates the proper use of personal

Training Materials by Title 2007

protective equipment including hard hats, respirators, eye protection, and
Summit Training Source 1990

Personal protective equipment

Number: VT01286
Material: video 6 minutes
Industry: all industries
Covers the selection and use of hard hats, gloves, safety glasses, and earmuffs.
Training Network-LIP 1992

Personal protective equipment for construction: Best strategy

Number: VT01407
Material: video 12 minutes
Industry: construction
Discusses the safety reasons for using PPE, sizing up the job, choosing the proper PPE, and the use of hard hats, earplugs and muffs, face shields, safety shoes, gloves, safety glasses and goggles, respirators, and fall protection.
Assoc General Contractors of America 1995

Personal protective equipment for construction: Best strategy

Number: VT01646 Spanish
Material: video 12 minutes
Industry: construction
See previous description.
Assoc General Contractors of America 1995

Personal protective equipment for head, eye/face, hand, foot

Number: VT01398
Material: video 19 minutes
Industry: all industries
Discusses matching personal protective equipment with the hazards associated with the job, proper selection, fit, inspection, and maintenance of hard hats, safety glasses, gloves, and work
Primedia Workplace Learning 1992

Personal protective equipment training

Number: VT01553
Material: video 22 minutes
Industry: general industry
Covers eye and face, head, foot, hand, hearing, and respiratory personal

protective equipment, how to use it, fit testing, maintenance and inspection.
J.J. Keller & Associates 1994

Personal protective equipment: Danger zone

Number: VT01652
Material: video 12 minutes
Industry: general industry
Stresses the importance of assessing hazards prior to PPE selection and includes demonstrations of the proper use and care of hard hats, safety glasses, goggles, respirators, gloves, and shoes.
Summit Training Source 1992

Personal protective equipment: Real, real-life

Number: VT01493
Material: video 14 minutes
Industry: all industries
This humorous video discusses the use of various types of personal protective equipment and shows re-enactments of real-life situations and asks viewers to think how they would respond.
Coastal Training 1997

Personal protective equipment: What's the difference?

Number: VT01723
Material: video 10 minutes
Industry: roofing and siding
Covers the types of personal protective equipment needed to prevent injuries including hard hats, gloves, goggles, boots and the conditions in which it is needed.
National Roofing Contractors Assoc. 1990

Personal protective equipment: You're covered

Number: VT01447
Material: video 18 minutes
Industry: general industry
Covers workplace hazards and the selection, care and use of head, eye/face, foot, hand, and hearing personal protective equipment including safety glasses, types and classes of hard hats, gloves, footwear, and ear muffs and
Coastal Training 1994

Pesticides and you: A primer on pesticide handling and storage

Training Materials by Title 2007

Number: VT01514

Material: video 29 minutes

Industry: all industries

This video, while geared toward farmers, explains and describes safe handling, storage, containment, and application of pesticides for anyone using these chemicals.

Kansas State University 1997

Physics of falling

Number: VT01256

Material: video 14 minutes

Industry: logging

This video, developed for Pacific Northwest logging, discusses the basics of safe tree falling including saw cuts.

University of Idaho 1992

Pile driving safety: Firm footing

Number: VT01410

Material: video 15 minutes

Industry: construction

Describes common pile driving hazards and safety measures including overhead power lines, equipment inspection, and driving the pile.

Assoc General Contractors of America 1993

Plumbing and pipefitting trades: A study of hazards

Number: VT01168

Material: video 20 minutes

Industry: construction

Covers construction-site hazards and safety measures including power tools, ladders, welding, and toxic fumes.

Florida AFL-CIO United Labor Agency 1990

Pneumatic fastening tools

Number: VT01611

Material: video 12 minutes

Industry: all industries

Covers the safe and effective use of pneumatic nailers and staplers including components, loading and operation, hoses and couplings, and air pressure.

Safetycare 1995

Pole topping safety: High voltage electrical

Number: VT01761

Material: video 10 minutes

Industry: utilities

This video, for utilities workers and linemen, shows examples of acceptable and effective pole top removal practices.

WA State Dept of Labor & Industries 2000

Portable fire extinguishers

Number: VT01492

Material: video 14 minutes

Industry: all industries

Discusses the four difference classes of fire, how to choose the appropriate fire extinguisher and the basics of fire extinguisher use.

Coastal Training 1990

Powder actuated tool safety

Number: VT01421

Material: video 5 minutes

Industry: construction

Reviews the hazards and safety measures associated with these tools including caution when working on walls and loading.

Assoc General Contractors of America 1992

Power and hand tool safety

Number: VT01399

Material: video 21 minutes

Industry: all industries

Covers safety rules, good judgment and the proper methods of selection, inspection and use of both hand tools and portable power tools.

Primedia Workplace Learning 1988

Power tool safety: On your guard

Number: VT01419

Material: video 14 minutes

Industry: construction

Hazards of circular, reciprocating and radial arm saws, drills, sanders, and bench and angle grinders including safety eyewear, the importance of reading and understanding the operator's manual, tool guards, proper use, and

Assoc General Contractors of America 1992

Power tool safety: On your guard

Number: VT01720 Spanish

Material: video 14 minutes

Training Materials by Title 2007

Industry: construction
See previous description.
Assoc General Contractors of America 1992

Power tools

Number: VT01643
Material: video 8 minutes
Industry: construction
This graphic video covers safe power tool use and operation, electrical hazards, pre-use inspection and maintenance, and personal protective equipment.

Safety Shorts 1996

Power zone ergonomics

Number: VT01631
Material: video 10 minutes
Industry: general industry
Covers manufacturing and office work station design including visual access, work reach zones, standing, and hand-wrist stress.

IL Onsite S&H Consultation Program 2000

Powered hand tool safety: Handle with care

Number: VT01609
Material: video 19 minutes
Industry: all industries
Discusses predicting and avoiding dangers when working with powered hand tools including safety procedures, pre-use inspection, and proper PPE.

Coastal Training 2000

Preparing your office for an earthquake

Number: VT01762
Material: video 7 minutes
Industry: all industries
Identifies potential hazards, shows how to lessen damage with simple preventive measures, and lists items for emergency kits.

WA State Dept of Labor & Industries 2001

Pressure valves

Number: VT01627
Material: video 5 minutes
Industry: general industry
Discusses hazards, injury prevention, and safe work practices.

Summit Training Source 1990

Preventing back injuries and other CTD's

Number: VT01710
Material: video 18 minutes
Industry: construction
Discusses how the body works, the best body positions for doing work, back function and injury, proper lifting, proper shoveling, and the three risk factors for cumulative trauma injury, which are force, position, and repetition.
National Roofing Contractors Assoc 1996

Preventing bloodborne disease

Number: VT00421
Material: video 18 minutes
Industry: general industry
Discusses bloodborne disease transmission, precautions, decontamination measures, and personal protective equipment for first responders and first aid providers.

Primedia Workplace Learning 1992

Pro-active safety attitudes: Looking out for number one

Number: VT01620
Material: video 15 minutes
Industry: all industries
Through re-enactments of real-life accidents, discusses the importance of accident prevention and protection, safety equipment and safety habits.

Coastal Training 1994

Process incident investigation

Number: VT01657
Material: video 18 minutes
Industry: general industry
Covers the methods and techniques of gathering evidence, interviewing witnesses, analyzing details, and documenting information.

Summit Training Source 1993

Process safety for the hard hat crew

Number: VT01621
Material: video 12 minutes
Industry: construction
For contract employees working at chemical or petroleum facilities including how the Process Safety Standard applies to them, contract employee responsibilities, safe work

Training Materials by Title 2007

practices, lines of communication, and handling emergencies and accidents.

Coastal Training 1995

Process safety: Employee awareness

Number: VT01465

Material: video 15 minutes

Industry: general industry

Explains basic elements of the Process Safety Standard, the importance of following proper procedures, employee participation in process safety programs, incident investigation and follow-up.

Coastal Training 1994

Protecting the working teen: Youth rules!

Number: VT01757

Material: video 15 minutes

Industry: all industries

Provides information to help employers provide a safe and healthful workplace for teenage workers as well as to recognize and eliminate workplace

IL Onsite S&H Consultation Program 2003

Protecting workers in auto body shops

Number: VT01629

Material: video 17 minutes

Industry: general industry

Discusses personal protective equipment, use of spray paint guns, ventilation of spray booths and sanders, and health hazards such as metal dusts and paint.

US National Institute for OSH 1995

Protecting workers: How OSHA conducts inspections

Number: VT01258

Material: video 18 minutes

Industry: all industries

Describes the OSHA inspection process and OSHA services available to employers.

OSHA Office of Information & Consumer Affairs 1994

Protecting workers: How OSHA writes standards

Number: VT01183

Material: video 13 minutes

Industry: all industries

Describes how OSHA standards are developed using the excavation standard as an example.

OSHA Office of Information & Consumer Affairs 1992

Protecting your eyesight

Number: VT01763

Material: video 7 minutes

Industry: general industry

Shows dramatic examples of what happens when proper eye protection is not worn and the difference between regular glasses compared to goggles stamped ANSI Z87.

WA State Dept of Labor & Industries 2003

Repetitive stress injuries: Manufacturing

Number: VT01644

Material: video 6 minutes

Industry: general industry

Covers the symptoms of this painful disorder, proper work techniques, and the effects of overexertion, incorrect posture, lifting, twisting, and improper wrist positions.

Safety Shorts 1998

Residential construction: Framing safety

Number: VT01764

Material: video 13 minutes

Industry: construction

Designed for general contractors, carpenters, and framers. Covers safe work practices including guardrails, raising walls, rolling trusses, and roof sheeting.

WA State Dept of Labor & Industries 2000

Residential construction: Framing safety

Number: VT01768 Spanish

Material: video 13 minutes

Industry: construction

See previous description.

WA State Dept of Labor & Industries 2000

Residential construction: Roofing safety

Number: VT01765

Material: video 13 minutes

Industry: construction

Covers job preparation, walk-around safety inspections, ladder safety, fall

Training Materials by Title 2007

protection, roofing hazards, and housekeeping.

WA State Dept of Labor & Industries 1999

Residential construction: Roofing safety

Number: VT01769 Spanish

Material: video 13 minutes

Industry: construction

See previous description.

WA State Dept of Labor & Industries 1999

Residential construction: Siding safety

Number: VT01766

Material: video 13 minutes

Industry: construction

Covers safety work practices including job preparation, walk-around safety inspections, PPE, ladder safety, scaffold safety, and first aid.

WA State Dept of Labor & Industries 1999

Residential construction: Siding safety

Number: VT01770 Spanish

Material: video 13 minutes

Industry: construction

See previous description.

WA State Dept of Labor & Industries 1999

Residential fall protection: Nailing it down

Number: VT01754

Material: video 13 minutes

Industry: construction

Covers fall hazards in the residential construction industry and hazard controls such as guardrails, controlled access zones, side rails, and PPE.

IL Onsite S&H Consultation Program 2002

Residential fall protection: New options

Number: VT01291

Material: video 13 minutes

Industry: construction

Discusses interim fall protection measures during the rulemaking period.

OSHA Directorate of Technical Support 1996

Respirators and how to use them

Number: VT01319

Material: video 12 minutes

Industry: all industries

Covers typical workplace respiratory hazards, facts regarding respirator use, and various types of respiratory equipment.

Digital 2000

1995

Respirators and how to use them

Number: VT01732 Spanish

Material: video 12 minutes

Industry: all industries

See previous description.

Digital 2000

1995

Respirators: SCBA care and maintenance

Number: VT01560

Material: video 15 minutes

Industry: all industries

Covers the care and use of the most common types of respirators including donning, fit testing, disassembly and reassembly, inspecting, and storing.

Coastal Training

1991

Respirators: Your TB Defense/TB respiratory protection

Number: DVD01

Material: DVD 48 minutes

Industry: health services

Discuss respiratory protection for healthcare workers, and gives step-by-step instructions for developing a respiratory protection program for tuberculosis.

US National Institute for OSH 2002

Respirators: Your TB Defense/TB respiratory protection (CC)

Number: DVD02

Material: DVD 48 minutes

Industry: health services

Discuss respiratory protection for healthcare workers, and gives step-by-step instructions for developing a respiratory protection program for tuberculosis.

US National Institute for OSH 2002

Respirators: Your TB defense

Number: VT01630

Material: video 16 minutes

Industry: health services

Covers the history of TB, transmission, symptoms, and respiratory protection including types of respirators, how they work, fit testing, cleaning, inspection, and

Training Materials by Title 2007

storage.

US National Institute for OSH 2000

Respiratory protection

Number: VT01377

Material: video 5 minutes

Industry: general industry

Covers common respiratory health hazards, and the inspection, use, and storage of respiratory equipment.

Digital 2000 1993

Respiratory protection: Another world

Number: VT01466

Material: video 19 minutes

Industry: general industry

Discusses respiratory protection including when it is needed, airborne hazardous substances, hazardous atmospheres, types of respirators, fit testing, maintenance, and written programs.

Coastal Training Technologies 1995

Rigging equipment: Inspecting for safety

Number: VT01479

Material: video 15 minutes

Industry: general industry

Covers the importance of both regular and periodic inspections of rigging equipment and what signs of damage to look for on synthetic web slings, metal mesh slings, chain slings, wire rope, and rigging hardware.

Primedia Workplace Learning 1990

Rigging equipment: Selection and care

Number: VT01480

Material: video 16 minutes

Industry: general industry

Introduces the characteristics, care and handling of slings (synthetic web, metal mesh, chain and wire rope) and hardware (hoist locks, shackles, eye bolts, and turn buckles) commonly used for overhead lifting in industry.

Primedia Workplace Learning 1990

Rigging safety

Number: VT01670

Material: video 13 minutes

Industry: all industries

Covers types of rigging, sling selection and inspection, pre-lift preparation, load control and dynamics, work site hazards, and safe work practices.

Summit Training Source 1998

Right-to-know

Number: VT00388

Material: video 5 minutes

Industry: general industry

Provides hazard communication training on MSDS terms and labeling compliance including proper container labeling.

Summit Training Source 1990

Roofing contractor safety

Number: VT01632

Material: video 10 minutes

Industry: construction

Covers roofing safety awareness and safe work practices including falls, hot work, ladders, fires, material storage, cranes, weather conditions, personal protective equipment, housekeeping, and equipment use.

IL Onsite S&H Consultation Program 2000

Safe harvest

Number: VT01543

Material: video 24 minutes

Industry: agriculture

Features farmers who were involved in harvesting equipment accidents who discuss pre-operation inspections, hazards, training, and safety procedures.

Kansas State University 1988

Safe lifting

Number: VT01649 Spanish

Material: video 5 minutes

Industry: all industries

Explains how the back functions, safe lifting methods, and how to prevent back injuries.

Training Network-LIP 1994

Safe operation of overhead cranes: Pendant controlled

Number: VT01613

Material: video 19 minutes

Training Materials by Title 2007

Industry: general industry
Covers the major steps that should be followed to insure safe operation of pendent controlled overhead cranes and hoists including pre-operation inspections, operational checks, hand signals, weight capacity, planning the lift, and shutdown procedures.
Safetycare 1995

Safe rigging

Number: VT01481
Material: video 20 minutes
Industry: general industry
Explains the procedures involved in rigging for a safe lift, the importance of lift capacity rating, types of hitches, how to calculate the load weight for simple and complex shapes, and center of
Primedia Workplace Learning 1990

Safety and health factors in welding and cutting

Number: VT01290
Material: video 30 minutes
Industry: all industries
Discusses general safety and health hazards associated with gas and arc welding and cutting as well as techniques for controlling or reducing these hazards including gases, chemical agents, hearing loss, and fire.
OSHA Office of Training and Education 1990

Safety attitude

Number: VT01309
Material: video 6 minutes
Industry: general industry
Discusses hazard awareness, following safe work practices, and creating a safe work environment.
Summit Training Source 1990

Safety awareness: It's up to you!

Number: VT01724
Material: video 13 minutes
Industry: roofing and siding
Provides a summary of safety procedures including fall prevention, burns, proper lifting techniques and personal protective equipment.

National Roofing Contractors Assoc 1993

Safety-- It's your responsibility

Number: VT01275
Material: video 19 minutes
Industry: general industry
Uses dramatized situations to show the role supervisors play in promoting and maintaining safety.
US Postal Service 1982

Safety made easy: Checklist to OSHA compliance by John R. Grubbs and Sean M. Nelson

Number: T55.D39
Material: book 198 pages
Industry: general industry
Provides a guide to understanding and complying with OSHA Title 29 CFR 1910.
Government Institutes 1999

Safety meetings: Give'em what they want

Number: VT01622
Material: video 16 minutes
Industry: all industries
Discusses how to conduct successful safety meetings including determining your needs, executing a plan, keeping the meeting interesting, save time for questions, evaluate the training, and try out new material.
Coastal Training 2000

Safety on trial

Number: VT01767
Material: video 35 minutes
Industry: construction
This video was developed to assist the general contractor in establishing work rules to prevent accidents, explains the role of the employer in worker safety, and shows how an accident can devastatingly alter a workers life.
WA State Dept of Labor & Industries 1994

Safety orientation: It begins with you

Number: VT01300
Material: video 14 minutes
Industry: general industry
Discusses inspecting for and recognizing

Training Materials by Title 2007

potential hazards and following safe work practices including lockout/tagout, lifting, forklift operations, housekeeping, bloodborne pathogens, confined spaces, and PPE.

Summit Training Source 1996

Safety orientation: It takes a winning attitude

Number: VT01462

Material: video 18 minutes

Industry: general industry

Presents an overview of workplace safety to protect workers from the most common industrial hazards including lockout/tagout, PPE, bloodborne pathogens, lifting and fire safety.

Coastal Training 1996

Safety: The bottom line

Number: VT01694

Material: video 19 minutes

Industry: construction

Designed to demonstrate the value of establishing a sound safety programs and the economic benefits.

Assoc General Contractors of America 1997

Scaffold hazard recognition

Number: VT01220

Material: video 24 minutes

Industry: construction

Shows jobsite situations and points out good and bad design and construction practices including base plates, frames, bracing, and planking.

CO Building & Construction 1982
Trades Council

Scaffold safety: Construction

Number: VT01320

Material: video 10 minutes

Industry: construction

Covers basic safety hazards and procedures when working on stationary, mobile and suspended scaffolds including erecting, inspection, guardrails, power lines, and load capacities.

Digital 2000 1992

Scaffold safety: Construction

Number: VT01501 Spanish

Material: video 10 minutes

Industry: construction

See previous description.

Digital 2000

1992

Scaffold safety: Putting it all together

Number: VT01422

Material: video 15 minutes

Industry: construction

Provides step-by-step erecting procedures including worksite evaluation and preparation, selecting and inspection of scaffolding, siles, cross bracing, planking, access points, fall protection systems, and tie-ins to existing structures.

Assoc General Contractors of America 1996

Scaffolding safety training: Construction

Number: VT01554

Material: video 17 minutes

Industry: construction

Provides an overview of the standard and demonstrates scaffolding techniques, reviews rules on selection and construction, use of guardrails and ladders, and preventing accidents due to falling objects, falls, overloading, and structural instability.

J.J. Keller & Associates 1997

Scaffolding safety: Erecting and dismantling

Number: VT01403

Material: video 19 minutes

Industry: construction

Covers potential hazards, site evaluation and preparation, selecting and inspection of scaffolding, proper erecting and dismantling procedures, and safe work practices during erection and

Summit Training Source 1997

Scaffolding safety: Safe work practices

Number: VT01404

Material: video 12 minutes

Industry: construction

Demonstrates the potential hazards associated with scaffolds including falls,

Training Materials by Title 2007

falling objects, power lines, load capacity, inspection, and safe work practices such as fall arrest systems and good housekeeping.

Summit Training Source 1997

Scaffolds: Safety at all levels

Number: VT01448

Material: video 18 minutes

Industry: construction

Covers the requirements of 1926.450-454 including hazards, safe work practices, fall arrest systems, the role of the competent person, preassembly inspection, assembly, pre-shift inspection, and maintenance.

Coastal Training 1997

Scaffolds: Safety at all levels

Number: VT01612 Spanish

Material: video 18 minutes

Industry: construction

See previous description.

Coastal Training 1998

Scissor and aerial work platform safety

Number: VT01678

Material: video 15 minutes

Industry: construction

Highlights the hazards of working on elevated platforms including overhead power lines, pre-operation inspection, and safe work practices.

Assoc General Contractors of America 2000

Scissor lifts in construction

Number: VT01531

Material: video 9 minutes

Industry: construction

Discusses pre-operation inspections, lifting principles, hazards such as overhead power lines, and safe operating procedures.

Coastal Training 1996

Setting up a jobsite safely

Number: VT01725

Material: video 9 minutes

Industry: roofing and siding

Explains the importance of planning and implementing safety procedures on the jobsite including setting up warning lines, ladder safety, and material safety

data sheets.

National Roofing Contractors Assoc 1994

Sheet metal workers: A study of hazards

Number: VT01169

Material: video 17 minutes

Industry: sheet metal

Discusses fabrication and installation hazards including shop machinery, slings and hoists, ladders, power tools, and electricity.

Florida AFL-CIO United Labor Agency 1987

Shoveling safety

Number: VT01476

Material: video 6 minutes

Industry: construction

Covers using the right shovel for the job, inspection, and proper technique to avoid back injury.

Training Network-LIP 1990

Silica exposure: It can leave you breathless

Number: VT01695

Material: video 13 minutes

Industry: construction

Covers the use of silica in the construction industry, its effects on the body, and how workers can protect themselves from the hazards.

Assoc General Contractors of America 1999

Silica hazard awareness: Construction

Number: VT01482

Material: video 16 minutes

Industry: construction

Discusses silica, its hazards and health effects on the respiratory system, sources of silica exposure, and exposure protection.

Chicago Construction Safety Council 1997

Skid steer loader safety

Number: VT01677

Training Materials by Title 2007

Material: video 8 minutes
Industry: construction
Covers safety hazards including limited driver visibility, rollovers and contact with power lines; and safety procedures including pre-use inspection, refueling, and carrying the load.
Assoc General Contractors of America 1994

Slips and falls

Number: VT01310
Material: video 5 minutes
Industry: all industries
Discusses the causes of slips and falls on ladders, stairs, loading docks, and wet surfaces, preventive measures, and fall techniques.
Summit Training Source 1990

Slips and falls in construction

Number: VT01321
Material: video 10 minutes
Industry: construction
Covers slip and fall hazards, basic safety rules, and hazard abatement including housekeeping.
Digital 2000 1992

Slips and falls in construction

Number: VT01712 Spanish
Material: video 10 minutes
Industry: construction
See previous description.
Digital 2000 1992

Slips, trips and falls

Number: VT01510
Material: video 15 minutes
Industry: all industries
Uses falls performed by stunt people to demonstrate the importance of the correct use of ladders, stair safety, good housekeeping, picking up obstacles, cleaning up spills, and fall protection equipment.
Summit Training Source 1990

Slips, trips and falls: Real, real-life

Number: VT01610
Material: video 17 minutes
Industry: all industries
This interactive video uses "real-life" situations to

cover awareness and identification of potential dangers, taking action to minimize hazards including good housekeeping and spill cleanup, and minimizing improper use of equipment such as ladders.

Coastal Training Technologies 2000

So you're the safety director!: An introduction to loss control and safety management by Michael V. Manning

Number: T55.M3516
Material: book 174 pages
Industry: all industries
Covers evaluating and managing a company safety program, investigating accidents, preparing for and handling OSHA inspections.
Coastal Training 1996

Spills

Number: VT00392
Material: video 14 minutes
Industry: general industry
Demonstrates containment, cleanup and decontamination procedures for small spills of hazardous chemicals.
Summit Training Source 1990

Split rim tire safety

Number: VT01477
Material: video 6 minutes
Industry: general industry
Outlines how to remove and replace tires from rims and split rings, air pressure, and using a safety inflation cage
Training Network-LIP 1990

Spray painting: Dual protection

Number: VT01269
Material: video 14 minutes
Industry: general industry
Discusses the spray-painting process, its health hazards, and basic control strategies for dealing with these hazards.
US National Institute for OSH 1984

Stairway and ladder safety: Success at the top

Number: VT01425
Material: video 17 minutes
Industry: construction
Discusses ladder and stairway safety including point of access, inspection,

Training Materials by Title 2007

ladder ratings, and requirements for jobmade ladders and stairways such as height limits, lumber strengths, siderails, tie-down, treads, risers, and stair-rail heights.

Assoc General Contractors of America 1991

Stairways and ladders: Construction safety

Number: VT01389

Material: video 7 minutes

Industry: construction

Mostly discusses ladder safety including step and straight ladder set-up, how to choose the proper ladder for the job, pre-use inspection, and slope ratio, and stairway safety inspection.

CoreMedia Training 1991

Stairways and ladders: The first step

Number: VT01596

Material: video 18 minutes

Industry: all industries

This video, which mostly covers portable and fixed ladders, reviews hazards and safety procedures including proper selection for the job, inspection, maintenance, set-up, climbing techniques, and load capacity.

Coastal Training 1991

Stop silicosis

Number: VT01383

Material: video 13 minutes

Industry: all industries

This black-and-white 1938 documentary discusses the causes of silicosis and its effects on the respiratory system.

USDOL 1938

Supervisor's safety manual

Number: T55.S8156

Material: book 341 pages

Industry: all industries

Covers safety management and training, hazards and prevention, and accident investigation.

National Safety Council 1991

Survival in excavation: Safe working around existing utilities

Number: VT01706

Material: video 20 minutes

Industry: construction

This video, an orientation for excavators, describes how to safely plan the job from start to finish.

Assoc General Contractors of America 1996

Suspension scaffolds in construction

Number: VT01467

Material: video 10 minutes

Industry: construction

Covers safety procedures including recognizing hazards, access, hoisting, inspection, electrical hazards, and safe work practices.

Coastal Training 1997

Swing stage scaffolds

Number: VT01589

Material: video 13 minutes

Industry: construction

Covers 2-point adjustable scaffold safety including correct rigging, operation, inspection, and personal fall arrest systems.

Coastal Training 1997

Targeting workplace violence

Number: VT01385

Material: video 19 minutes

Industry: general industry

Shows three scenarios (hospital/late night custodial/office) then discusses ways to prevent or defuse the situations.

Oregon Occupational S&H Division 1997

TB respiratory protection: Administrator's review

Number: VT01738

Material: video 48 minutes

Industry: health services

takes you step-by-step through developing a respiratory protection program for tuberculosis including risk assessment, standard operating procedures, respirator selection, and employee training.

US National Institute for OSH 2002

Thermal burns

Number: VT00393

Material: video 5 minutes

Industry: general industry

Training Materials by Title 2007

Shows how to prevent heat related burns using safe work practices and the do's and don't when treating a burn victims.
Summit Training Source 1990

Toxics

Number: VT01658
Material: video 5 minutes
Industry: all industries
Discusses why toxics are dangerous to health, ways to limit exposure, and safe handling procedures in order to prevent injuries and accidents.
Summit Training Source 1990

Tractor safety: Consider the flipside

Number: VT01312
Material: video 15 minutes
Industry: agriculture
Discusses the importance of ROPS (roll over protective structures) to prevent death or injury due to tractor overturn.
Case International 1995

Trailer construction equipment safely

Number: VT01696
Material: video 14 minutes
Industry: construction
Covers how to safely load, transport, and unload construction equipment from trailers.
Assoc General Contractors of America 1996

Train the trainer

Number: VT01311
Material: video 5 minutes
Industry: all industries
Covers how to conduct effective safety meetings including meeting preparation, capturing audience attention, and leading effective discussions
Summit Training Source 1990

Tree trimming safety

Number: VT01478
Material: video 6 minutes
Industry: general industry
Covers hazards including contact with energy sources and falling limbs and tool maintenance.
Training Network-LIP 1990

Trench emergency: Cave in!

Number: VT01468
Material: video 14 minutes
Industry: construction
Reviews, through showing an actual cave-in, the dos and don'ts of trench rescue including the dangers posed by trenches, shoring and shielding, and preparing a rescue team.
Coastal Training 1993

Trenching and excavation safety

Number: VT01659
Material: video 18 minutes
Industry: construction
Explains the hazards created by digging trenches and excavations, how these hazards can be reduced by sloping, shielding, and shoring systems, and emphasizes personal and work safety.
Zomar Productions 1987

Trenching and shoring

Number: VT01378
Material: video 5 minutes
Industry: construction
Explains trenching basics such as soil classification and various types of shoring and shielding.
Digital 2000 1992

Trenching and shoring operations

Number: VT01322
Material: video 12 minutes
Industry: construction
Explains how to avoid cave-ins by following safety precautions including proper sloping, types of shoring, types of shielding, and soil classification.
Digital 2000 1992

Trenching and shoring operations

Number: VT01502 Spanish
Material: video 12 minutes
Industry: construction
See previous description.
Digital 2000 1992

Trenching and shoring safety: Cave-in!

Number: VT01431
Material: video 18 minutes
Industry: construction
Covers trench hazards and cave-in

Training Materials by Title 2007

prevention including site evaluation, soil testing, protective systems, and emergency response.

Coastal Training 1994

Trenching and shoring: Safety training program

Number: VT01555

Material: video 19 minutes

Industry: construction

Covers safety and health hazards including falling rock or soil and oxygen deficiencies, soil classification, competent person, installation of protective support systems, sloping including and benching, and emergency

J.J. Keller & Associates 1993

Tunneling inspections

Number: VT01351

Material: video 18 minutes

Industry: construction

Covers safety and health problems, safety procedures and equipment used in tunneling.

Intl Union of Operating Engineers 1988

Use of electrical equipment in hazardous locations

Number: VT01352

Material: video 16 minutes

Industry: all industries

Discusses the three classifications of hazardous locations and requirements for approved electrical equipment.

Utility Workers Union of America 1987

Violence in the workplace

Number: VT01703

Material: video 15 minutes

Industry: all industries

Covers the underlying causes of workplace violence, warning signs, types of threats including aggressive behavior and verbal abuse, proper response to threatening words or actions, and handling disputes with co-workers.

Training Network-LIP 1996

Violence on the job

Number: DVD03

Material: DVD 27 minutes

Industry: all industries

Discusses practical measures for identifying risk factors for violence at work, and taking strategic action to keep employees safe.

US National Institute for OSH 2004

Violence on the job (CC)

Number: DVD04

Material: DVD 27 minutes

Industry: all industries

Discusses practical measures for identifying risk factors for violence at work, and taking strategic action to keep employees safe.

US National Institute for OSH 2004

Walking and working surfaces: Watch your step!

Number: VT01484

Material: video 19 minutes

Industry: all industries

Discusses the proper use of equipment and procedures on various walking and working surfaces including ramps, scaffolds and platforms.

Coastal Training 1995

Warehouse safety: It's no mystery

Number: VT01494

Material: video 22 minutes

Industry: general industry

Covers the most common hazards in warehouses and how to correct them including lifting, housekeeping, driving and working around forklifts, hazard communication, PPE, and materials handling.

Coastal Training 1997

Welding safety: Securing the work zone

Number: VT01450

Material: video 16 minutes

Industry: all industries

Explains proper procedures for oxyfuel and electric-arc welding, securing the 360-degree zone, proper ventilation, personal protective equipment, and fire

Coastal Training 1988

Welding: Respecting the hazards

Number: VT01301

Training Materials by Title 2007

Material: video 13 minutes
Industry: all industries
Discusses understanding and recognizing potential hazards, safe work practices, types of welding, inspecting the welding environment and equipment, proper personal protective equipment, and fire prevention.
Summit Training Source 1996

What's wrong with this picture?

Number: VT01704
Material: video 15 minutes
Industry: all industries
This humorous video asks employees to identify lifting, PPE, HazCom, and fire protection hazards in a variety of video clips; the segments are repeated with narration and graphics that explain the hazards or unsafe acts.
Training Network-LIP 1998

Wire rope: Above the hook

Number: VT01742
Material: video 18 minutes
Industry: construction
Provides an overview of wire rope safety for crane operators including installation, inspection, maintenance, deficiencies, wedge sockets and block spinning.
Assoc General Contractors of America 2001

Work zone safety training

Number: VT01701
Material: video 18 minutes
Industry: construction
Covers the dangers of roadwork for construction and utility workers including traffic control, warning signs, flaggers, PPE, channeling devices, equipment inspection and maintenance.
J.J. Keller & Associates 2001

Workers exposed: HIV and Hepatitis B

Number: VT00504
Material: video 10 minutes
Industry: health services
Explains the means of transmission, the disposal of sharps, and how to clean up blood spills and vomit.

Oregon Occupational S&H 1993
Division

Working around construction equipment

Number: VT01428
Material: video 5 minutes
Industry: construction
Discusses backing accidents and safe work practices for heavy equipment operators.
Assoc General Contractors of America 1992

Working around cranes

Number: VT01451
Material: video 19 minutes
Industry: general industry
Covers hazards and safety measures around cranes including wire rope/lifting and signaling.
Coastal Training 1995

Working around high voltage

Number: VT01429
Material: video 6 minutes
Industry: construction
Discusses safety measures when working around overhead and underground power lines including what to do if contact does occur.
Assoc General Contractors of America 1992

Working safely around explosives

Number: VT01574
Material: video 5 minutes
Industry: construction
Covers basic safety procedures including storage facilities, transportation, loading the charge, and blasting area
Assoc General Contractors of America 1992

Working safely with compressed gases

Number: VT01697
Material: video 15 minutes
Industry: all industries
Covers the proper handling and storage of full and empty containers, emergency procedures, and the physical hazards of compressed gases.
J.J. Keller & Associates 1995

Working safely with lead: Construction

Number: VT00547
Material: video 20 minutes

Training Materials by Title 2007

Industry: construction

Discusses the potential health hazards involved with overexposure to lead, routes of entry into the body, safety precautions and medical surveillance.

Primedia Workplace Learning 1994

Working smart: General office safety

Number: VT01452

Material: video 20 minutes

Industry: general industry

Discusses identifying office hazards and ways to prevent accidents including slips and falls, hazardous substances, flammable chemicals, and ergonomics.

Coastal Training 1992

Working with stress

Number: DVD05

Material: DVD 17 minutes

Industry: all industries

Covers how job stress poses a threat to both the well-being of workers and companies, the body's physical and psychological responses to stress, and the causes and prevention of job stress.

US National Institute for OSH 2002

Working with stress

Number: VT01739

Material: video 17 minutes

Industry: all industries

Covers how job stress poses a threat to both the well-being of workers and companies, the body's physical and psychological responses to stress, and the causes and prevention of job stress.

US National Institute for OSH 2002

Working with stress (CC)

Number: DVD06

Material: DVD 17 minutes

Industry: all industries

Covers how job stress poses a threat to both the well-being of workers and companies, the body's physical and psychological responses to stress, and the causes and prevention of job stress.

US National Institute for OSH 2002

Workplace precautions against bloodborne pathogens: as it should be done

Number: VT01185

Material: video 25 minutes

Industry: general industry

Highlights OSHA requirements and discusses how health care workers can protect themselves against occupational exposure to Hepatitis B and HIV.

OSHA Office of Information & Consumer Affairs 1992

X factor: Accidents in woods and millyards

Number: VT01527

Material: video 22 minutes

Industry: logging

This award winning video uses accident reenactments to explore the reasons behind accidents in the logging industry and in millyards.

Allied Digital Technologies 1980
