Re: Parcel No. 01-09-01

Dear Mr. Terland:

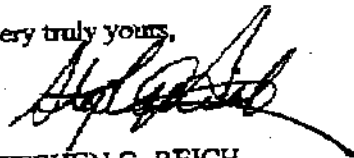

With reference to the above parcel we are hereby protesting the leasing for oil and gas exploration.

As noted on page 26 of the January 27, 2009, Sale Notice this parcel is located adjacent to known sacred sites and historic properties and contains high potential for National Register eligible historic and cultural properties.

It might also contain a Buffalo Jump according to the old timers who live in these parts.

Therefore, we want to stress that the contemplated oil and gas leases are inappropriate for this historic parcel.

Very truly yours,

STEPHEN G. REICH
