

K. What Is Codification and Is EPA Codifying Delaware's Hazardous Waste Program as Authorized in This Rule?

Codification is the process of placing the State's statutes and regulations that comprise the State's authorized hazardous waste program into the Code of Federal Regulations. We do this by referencing the authorized State rules in 40 CFR part 272. We reserve the amendment of 40 CFR part 272, subpart I, for this authorization of Delaware's program revisions until a later date.

L. Statutory and Executive Order Reviews

This rule only authorizes hazardous waste requirements pursuant to RCRA section 3006 and imposes no requirements other than those imposed by State law (see Supplementary Information: section A. Why are Revisions to State Programs Necessary?). Therefore, this rule complies with applicable executive orders and statutory provisions as follows. 1. Executive Order 12866: Regulatory Planning Review—The Office of Management and Budget has exempted this rule from its review under Executive Order 12866. 2. Paperwork Reduction Act—This rule does not impose an information collection burden under the Paperwork Reduction Act. 3. Regulatory Flexibility Act—After considering the economic impacts of today's rule on small entities under the Regulatory Flexibility Act, I certify that this rule will not have a significant economic impact on a substantial number of small entities. 4. Unfunded Mandates Reform Act—Because this rule approves pre-existing requirements under State law and does not impose any additional enforceable duty beyond that required by State law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act. 5. Executive Order 13132: Federalism—Executive Order 13132 does not apply to this rule because it will not have federalism implications (*i.e.*, substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government). 6. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments—Executive Order 13175 does not apply to this rule because it will not have tribal implications (*i.e.*, substantial direct effects on one or more Indian tribes, on the relationship between the Federal government and

Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes). 7. Executive Order 13045: Protection of Children From Environmental Health & Safety Risks—This rule is not subject to Executive Order 13045 because it is not economically significant and it is not based on health or safety risks. 8. Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution, or Use—This rule is not subject to Executive Order 13211 because it is not a significant regulatory action as defined in Executive Order 12866. 9. National Technology Transfer and Advancement Act—EPA approves State programs as long as they meet criteria required by RCRA, so it would be inconsistent with applicable law for EPA, in its review of a State program, to require the use of any particular voluntary consensus standard in place of another standard that meets the requirements of RCRA. Thus, section 12(d) of the National Technology Transfer and Advancement Act does not apply to this rule. 10. Congressional Review Act—EPA will submit a report containing this rule and other information required by the Congressional Review Act (5 U.S.C. 801 et seq.) to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2). This action will be effective on December 6, 2004.
