

Currently, the Corporation is soliciting comments concerning its proposed use of a modified version of the OMB-approved Standard Form 269A, "Financial Status Report (Short Form)." This modified form is and would be exclusively used for financial reporting on grants awarded for the AmeriCorps program. This modified financial status report is currently in use by AmeriCorps grantees in the same format for which comments are being now being solicited. Grantees in the AmeriCorps program use the modified Standard Form 269A to report cumulative financial status and activity, typically over a semi-annual period specified by the grant award provisions.

The modified Standard Form 269A for AmeriCorps grantees differs from the regular Standard Form 269A in only one respect. On lines 10b and 10c where total "Recipient share of outlays" and "Federal share of outlays" are normally reported, respectively, the modified form requires two sub-total amounts to be recorded. Lines 10b and 10c are each split into (1) "Member Support" and (2) "Operational Expense" categories of outlays. It is necessary to collect sub-totals rather than totals to maintain adequate federal financial management integrity since member support and operational expense categories of grantee spending require different rates at which the grantee must provide matching funds (recipient share).

Copies of the information collection requests can be obtained by contacting the office listed in the address section of this notice.

DATES: Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by April 29, 2005.

FOR FURTHER INFORMATION CONTACT: Margaret Rosenberry, (202) 606-5000, ext. 124, or by e-mail at prosenbe@cns.gov.

SUPPLEMENTARY INFORMATION: The Corporation is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Corporation, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are expected to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).

Background

AmeriCorps program regulations set the matching funds (recipient share) requirements for participant benefits (also known as member support) and other AmeriCorps program costs (also known as operational expense) at different matching rates. These rates are currently set at 15% and 33%, respectively, with the member support component requiring cash match only.

Current Action

The Corporation seeks to extend a currently approved collection using a modified Standard Form 269A. Other than re-labeling the form with a more descriptive title to differentiate its use from the unmodified Standard Form 269A, and re-labeling the types of outlays to also be more descriptive, the modified form is unchanged from existing use. The Corporation requires 100% electronic reporting. The current modified form is due to expire on March 31, 2005.
