Grant Edit Codes

Introduction

This section provides a table to help you interpret the various edit codes that are used and their related comments. The information is grouped according to the following column headings:

- Edit Code – the number that is assigned if the edit condition(s) is met. This column also lists one of the three edit types. They are:

  - o   W   Warning and/or Corrected

  - o   E   Rejected

  - o   D   Duplicate

- Message – the explanation that displays for the prescribed edit condition.

- Condition and Action – a description of the situation that caused the edit and the action taken either to resolve it and/or to notify the school of the potential error.

- What It Means – further explanation of the message in an effort to make the cause of the edit clearer.

- How to Fix It – what the user must do to resolve the mistaken condition.

- COD Website Edit Code – the edit code that the user will see on the COD Website; Website edit codes are translated to the Pell Phase-In edit code on the SAIG Acknowledgment files.

The following comparison operators are used in performing these edits:

Equals	=
Less than	<
Greater than	>
Less than or equal to	<=
Greater than or equal to	>=
Not equal to	<>
A parameter value that can be changed between cycles, this is the data that comes from the ALGORITHM and AWARD YEAR tables and can be made year-specific.	@

Grant Data Requests

Data Requests are sent by schools to request information files. These files are the Multiple Reporting Record, Electronic Statement of Account, Year-to-Date, Reconciliation File, and Verification Status, Pell POP Report.

Business Rules

1. Grant Data Requests are sent as fixed-length, flat files and not as XML documents.

2. Grant Data Requests are sent to the COD system via SAIG batch with message class `PGRQ10IN` (Pell), `AGRQ10IN` (ACG) or `SGRQ10IN` (National SMART Grant) or via the COD web site.

3. After the Data Request is received and processed, a Data Request Acknowledgement record is sent back to the institution for each data request received.

Grant Data Request Acknowledgement

After a data request is received and processed by COD, a Data Request Acknowledgement is sent back to the school for each data request received.

Business Rules

1. The Data Request Acknowledgement is provided in fixed-length, flat file format.

2. Grant Data Request Acknowledgments are sent from the COD system with message class PGRA10OP (Pell), AGRA10OP (ACG) or SGRA10OP (National SMART Grant).

Grant Data Request Edit Codes

The following edit codes are returned in positions 78 – 98 on Grant Data Request Acknowledgement

Grant Data Request Edit Codes					
Edit Code and Type	Message	COD Condition and Action	What It Means	How to Fix It	COD Website Edit Codes
601 E	"Invalid Attended Pell ID"	If ANY of the following are true: The Attended Pell ID is nonnumeric The Attended Pell ID does not exist on the CODdatabase The Attended Pell ID is not a branch of the Reporting or Central Funded ID (only if the attended campus is not also the Reporting Campus) The Award Year <=2001 and Attended Pell ID is all zeros REJECT RECORD Set edit code 601	Occurs if the Attended Pell ID is either missing or invalid.	Resubmit data request with valid Attended Campus Pell ID.	601
602 E	"Invalid Data Request Type or Invalid Program Type"	If ANY of the following are true: The Data Request Code is <> 'M' or 'S' or 'R' or 'Y' for Award Year 2001 – 2002 and beyond The Data Request Code is <> 'M' or 'S' or 'Y' for Award Year 2000 – 2001 and beyond The Data Request Code is <> 'M' or 'S' or 'Y' or 'B' for Award Year 1999 – 2000 Applicable after April 14, 2007, the Data Request Code is 'V' or 'P' and the Program Type is 'AG' or 'SG' Applicable after April 14, 2007, The Program Type or Request Type is missing. NOTE: IF a request is placed for a report for 2006-2007 or prior, and the "Program Type" is blank, it will be processed as a Pell Data Request.	Occurs if invalid or missing data request type: M-Multiple Reporting Record, S-Statement of Account, Y-Year-To-Date, or R - Reconciliation. Also occurs if invalid or blank program type is submitted in the request.	Resubmit data request with valid data request type or valid program type.	602
603 E	"Invalid Requested Output Media Type"	If **ANY** of the following are true: The Media Type is <> 'E' or blank for Award Year 2000 – 2001 and beyond The Media Type is <> 'C', 'R', 'E' or blank for Award Year 1999 – 2000 REJECT RECORD Set edit code 603	Occurs if school's Output Media type is invalid. Must submit BLANK or E.	Resubmit data request with BLANK or E.	603
605 E	"Invalid Multiple Reporting Request Code 1, should be 'O' or 'D'"	If **ALL** of the following are true: The first position of the Data Request Type = 'M' MRR Code 1 <> 'O' or 'D' REJECT RECORD Set edit code 605	Occurs if an invalid MRR code is entered on data request. Must submit O-Origination or D-Disbursement.	Resubmit data request with O or D.	605

Grant Data Request Edit Codes					
Edit Code and Type	Message	COD Condition and Action	What It Means	How to Fix It	COD Website Edit Codes
606 E	"Invalid Multiple Reporting Request Code 2, should be 'A', 'S' or 'I'"	If **ALL** of the following are true: The first position of the Data Request Type = 'M' MRR Code 2 <> 'A' or 'S' or 'I' REJECT RECORD Set edit code 606	Invalid MRR code entered on data request. Must submit A (All), S (Single), or I (Institution).	Resubmit data request with A, S, or I.	606
607 E	"Invalid MR Student ID"	If **ALL** of the following are true: The MRR Code 2 = 'S' Positions 1 – 9 of the Student ID are nonnumeric REJECT RECORD Set edit code 607	Occurs if an invalid or incomplete Student ID is entered on a Data request for a specific student.	Resubmit data request with corrected Student ID.	607
608 E	"Invalid MR Institution ID"	If **ALL** of the following are true: The MRR Code 2 = 'I' The MR Pell ID is nonnumeric REJECT RECORD Set edit code 608	Occurs if an invalid Institution Pell ID is entered on a Data Request for MRR records.	Resubmit data request with the corrected institution Pell ID.	608
609 E	"Requested/ Matching Data Not Found"	The following scenarios will trigger edit 609: • Edit 609 is triggered for student level YTD request and Reconciliation request on a valid origination ID but the student requested does not belong to the attending school. • Edit 609 is triggered for student level YTD request and Reconcilation request for a valid SSN but student requested does not belong to the attending school.	Occurs if no data is found for request.	Create a different request.	609
610 E	"Number of awards is less than 2 or number of schools disbursed to student is less than 2"	This edit only applies to MRR student request only. If all of the following are true, it will trigger edit 610: • Request type is MRR and • Request is student specific (S) and • SSN is a valid SSN and • If the request is for Origination (O), number of awards is less than 2 or • If the request is for Disbursement (D), number of schools disbursed to student is less than 2. REJECT RECORD Set edit code 610	Occurs if number of awards is less than 2 or number of schools disbursed to student is less than 2 for student level MRR request.	Verify the correct Student ID was entered. If correct, school must submit an additional origination for student prior to requesting student MRR with origination information.	610

Grant Data Request Edit Codes					
Edit Code and Type	Message	COD Condition and Action	What It Means	How to Fix It	COD Website Edit Codes
611 E	"Invalid Reconciliation Origination ID"	If ALL the following are true: Request type = 'R' and Award ID is populated with legacy Pell ID Format = 999999999XX200599999900 Where: SSN = 001010001 to 999999999 Name Code = XX Year Indicator = 2010 Valid Attended PELL ID = 999999 Orig Sequence Number = 00 REJECT RECORD Set edit code 611	Occurs if the Origination ID is a legacy Pell Award ID	Resubmit the Data Request with the correct identifier for ACG and SMART Reconciliation request and blank for Pell Reconciliation request.	611
612 E	Invalid reported Current SSN	If ANY of the following are true: The Current SSN does not match the Current SSN on the applicant table for the same transaction number. If the Current SSN does not match the value on the applicant table, then set the incorrect fields to the value currently stored on the applicant table. REJECT RECORD Set edit code 612.	The student specific data request was received with incorrect Current SSN	Verify on the ISIR the correct Current SSN and resubmit the corrected record. If the ISIR is incorrect, a correction to the ISIR should be done.	612

Pell Grant Reports

Grant Reports Options

Grant Reports now include information for Pell, ACG, National SMART, and TEACH Grants. Grant Reports are available to schools via the school's SAIG mailbox, via the school's Newsbox on the COD Reporting web site, or via data requests.

Business Rules

1. Grant Reports for 2009-2010 are generated as fixed-length or pre-formatted flat files and not as XML documents.

2. Grant Reports for 2009-2010 are viewable on the COD Reporting web site in the following format:

    a. Comma-Delimited (CSV)

3. Grant Reports are sent to schools SAIG mailbox in the following format options:

    a. Preformatted Text file

        i.   Portrait

        ii. Courier 10

        iii. 78 characters per line

        iv. 59 lines per page

    b. Fixed-length file

4. The Grant Reports delivery method and format options vary by report type. These specific options are discussed under the appropriate report section.

> **Format Options**
> Format options vary by report. Not all reports are offered in all formats.

Pell Grant Electronic Statement of Account (ESOA)

The Electronic Statement of Account (ESOA) summarizes the status of a school's CFL versus the net drawdown for that award year. In addition, the ESOA provides the YTD Unduplicated Recipient Count, YTD Total Accepted and Posted Disbursements, YTD Total ACA paid to schools and net drawdown payments in G5.

ESOA Printing Specifications

For more information about printing the ESOA, please refer to *Volume VI, Section 7* of this technical reference.

Business Rules

1. An ESOA can be COD system generated or may be requested by the school via batch data request, or COD web site

    a. The ESOA sent via data request is a retransmission of the most recent ESOA generated by COD.

2. The COD system generates an ESOA each time a school's CFL changes, regardless of funding method.

3. The ESOA is provided in the fixed-length, flat file format.

4. The ESOA is sent from the COD System with message class `PGAS10OP`.

Pell Grant Multiple Reporting Record (MRR)

The Pell Grant Multiple Reporting Record (MRR) provides information to a school about a student's origination and disbursement status at other schools and the amount of the scheduled Pell Grant award disbursed. The MRR identifies two primary types of multiple reporting conditions: concurrent enrollment and potential overaward situations.

Business Rules

1. An MRR can be COD system generated or may be requested by the school via batch data request, or COD web site.

2. The MRR is provided in fixed-length, flat file format.

3. The MRR is sent from the COD System using message class `PGMR10OP`.

Pell Grant Reconciliation Report

The Reconciliation Report is a one-record student summary of processed records and can be helpful to a school as it completes both the year-end and ongoing reconciliation processes. This report can be downloaded, printed, or imported into a spreadsheet for comparison with the school's data. This report provides the total YTD disbursement amount per student with COD.

Business Rules

1. The Reconciliation Report may be requested by the school via batch data request or COD web site.

2. The Reconciliation Report is provided in fixed-length, flat file format.

3. The Reconciliation report is sent from the COD System with message class `PGRC10OP`.

Pell Grant Year-to-Date Record (YTD)

A Year-to-Date (YTD) Record can be requested for one given student or for all Pell Grant recipients at the school and contains detailed award and disbursement data at a transaction level. The YTD Record shows the number of recipients at the school; the number of award and disbursement records that were accepted, corrected, and rejected; and, for certain edit codes, the number of times a school received that specific edit code on a response document. The YTD Record can be used to replace a corrupt database or to reconcile records with accepted data on COD.

Business Rules

1. The Year-To-Date Record may be requested by the school via batch data request, or the COD web site.

2. The Year-To-Date Record is provided in fixed-length, flat file format.

3. The Year-To-Date Record is sent from the COD System with message class `PGYR10OP`.

202	203	2	N	Disbursement Sequence Number	The two-digit integer assigned to count the progression of disbursement adjustments for a given Disbursement Number. This numerical string tracks the number of transactions that have been processed for a previously accepted or corrected Disbursement Number.	Valid Values: Must be incrementally sequential within the following group assignment: 01 - 65 School-Assigned 66 - 90 COD-Assigned Or Web-based transactions	If the Disbursement Release Indicator is False, the Disbursement Sequence must be 01. The Sequence Number of any disbursement submitted by a Phase-In School must be 01. All disbursements either submitted by a school or generated by the COD System, must be included in the file. Each Disbursement transaction must be written to the file in the order that it appears in the database. For example: School submits Disb Sequence Numbers 01 and 02 for Disbursement Num 01. COD creates a system-generated Disb Sequence Number 66 and then school submits Disb Sequence Number 03. The transactions should appear in the record in the order: 01, 02, 66, and 03.
204	204	1	A/N	Disbursement Release Indicator	Value that is reported by the Full Participant school to indicate whether the disbursement is anticipated or actual. Pell Grant Verification Status Report

The Verification Status Report is designed to assist schools with early intervention for complying with verification requirements. It lists all students selected for verification by CPS with a verification status code of "blank" or "W".

Business Rules

1. The Verification Status Report is automatically sent to the school's SAIG mailbox on a monthly basis in the following format:

    a. Preformatted Text file (message class `PGVR10OP`)

2. The Verification Status Report is available via the COD web site in the following format:

    a. Comma-Delimited

    b. The Verification Status Report available on the COD web site is the report most recently generated by COD.

> **Format Options**
> Previous versions of this report will also be available on the COD web site.

3. Schools submit a data request for the Verification Status Report either through Batch or the COD web site.

    a. The Reporting School Entity ID is required on the data request while the Attended School Entity ID is optional.

        i.   If no Attended School Entity ID is submitted (zero filled), then the report will consist of the Reporting School and **all** the associated Attended School(s) student records.

        ii. If an Attended School Entity ID is submitted, then the report will list the Reporting School and **only** contain that Attended School student records.

4. The report will be sent to schools monthly until the last day of December for that specific award year. Example: Award year 2009-2010 ends 9/30/2010; the final date that COD would generate the Verification Status Report for 2009-2010 would be 12/31/2010.

5. Although the Verification Status Report is generated monthly, if there is no data for the report on a given month, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Pell POP Report

The Pell POP Report is sent to all schools that have reported disbursements for students that are in or have been in a POP situation for this award year. The report lists all students currently in POP, all students no longer in POP and all schools involved in the POP situations.

Business Rules

1. The Pell POP Report is automatically sent to the school's SAIG Mailbox on a weekly basis in the following format:

    a. Preformatted Text file (message class `PGPR10OP`)

2. The Pell POP Report is automatically sent to the school's Newsbox on the COD web site on a weekly basis in the following format:

    > The Pell POP Report is only sent to a school for that week if it currently has at least one student in POP.

    a. Comma-Delimited (CSV)

3. Schools can also submit a data request for the Pell POP Report either through Batch or the COD web site.

    a. Pell POP Reports generated as a result of a data request are sent to the school's SAIG mailbox in Preformatted format (message class `PGPR10OP`).

    b. The Reporting School Entity ID is required on the data request while the Attended School Entity ID is optional.

        i.   If no Attended School Entity ID is submitted (zero filled), then the report will consist of the Reporting School and all the associated Attended School(s) student records.

        ii. If an Attended School Entity ID is submitted, then the report will consist of the Reporting School and only that Attended School student records.

    c. The report generated as of result of a data request will contain data as of the previous night's processing.

4. The Pell POP Report is grouped by Attended School ID

    a. Within each Attended School ID group, the Pell POP Report groups students who:

        i.   Are currently in a POP situation for this award year

        ii. Have been in a POP situation during this award year, but are no longer in a POP situation. Students no longer in a POP situation include:

            1. Students for whom a school has submitted a negative disbursement to resolve the situation

            2. Students for whom COD has reduced all disbursements to $0 because the POP situation has gone unresolved for more than 30-Days

    b. Within each grouping, students are sorted by Last Name, First Name, Middle Initial, SSN, and DOB.

5. The Pell POP Report will be sent to schools weekly until the last day of December for that specific award year. Example: Award year 2009-2010 ends 9/30/2010; the final date that COD would generate the Pell POP Report for 2009-2010 would be 12/31/2010.

6. Although the Pell POP Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Academic Competitiveness Grant (ACG) Reports

ACG Report Options

ACG Reports are available to schools via the school's SAIG mailbox, via the school's Newsbox on the COD web site, or via data requests.

Business Rules

1. ACG Reports for 2009-2010 are generated as fixed-length or preformatted flat files and not as XML documents.

2. ACG Reports for 2009-2010 are viewable on the COD web site in the following format:

   a. Comma-Delimited (CSV)

3. ACG Reports are sent to schools SAIG mailbox in the following format options. Format options vary by report. Not all reports are offered in all formats:

   a. Preformatted Text file

      i. Portrait

      ii. Courier 10

      iii. 78 characters per line

      iv. 59 lines per page

   b. Fixed-length file

4. The ACG Report delivery method and format options vary by report type. These specific options are discussed under the appropriate report section.

Below is a summary of all ACG reports and available formats generated by the COD System.

Format and Delivery Methods			Data Request		SAIG Mailbox				COD Web Site

Pending Disbursement List	Last Name	Weekly			✓					✓

[1.] If triggered by change

Schools participating in the ACG program receive the Electronic Statement of Account (ESOA) report via the school's SAIG mailbox. This report is generated when an ACG funding level changes for a school in the ACG program.

ACG Electronic Statement of Account (ESOA)

The Electronic Statement of Account (ESOA) summarizes the status of a school's CFL versus the net drawdown for that award year and provides the YTD Total Accepted and Posted Disbursements.

Business Rules

1. The ESOA can be COD system generated or requested via Data Request and is delivered to the school's SAIG mailbox.

2. The COD system generates an ESOA each time a school's CFL changes, for Advanced Funding Schools.

3. The ESOA is provided in the fixed-length, flat-file format.

4. The ESOA is sorted by Pell ID/Transaction Date in descending order.

5. The ESOA is sent from the COD System with message class `AGAS10OP`.

> **ESOA Printing Specifications**
> For more information about printing the ESOA, please refer to *Volume VI, Section 7* of this technical reference.

ACG Multiple Reporting Record (MRR)

The Multiple Reporting Record (MRR) provides information to a school about a student's origination and disbursement status at other schools and the amount of ACG award(s) disbursed. The ACG MRR only identifies one primary type of multiple reporting conditions: concurrent enrollment.

Business Rules

1. An MRR can be COD system generated or may be requested by the school via batch data request, or COD web site.

2. The MRR is provided in fixed-length, flat file format.

3. The MRR is sent from the COD System using message class `AGMR10OP`.

ACG Reconciliation Report

The Reconciliation Report is a one-record student summary of processed records and can be helpful to a school as it completes both the year-end and ongoing reconciliation processes. This report can be downloaded, printed, or imported into a spreadsheet for comparison with the school's data. This report provides the total YTD disbursement amount per student with COD.

Business Rules

1. The Reconciliation Report may be requested by the school via batch data request or COD web site.

2. The Reconciliation Report is provided in fixed-length, flat file format.

3. The Reconciliation report is sent from the COD System with message class `AGRC10OP`.

ACG Year-to-Date (YTD) Record

A Year-to-Date (YTD) Record can be requested for one given student or for all ACG recipients at the school and contains detailed award and disbursement data at a transaction level. The YTD Record shows the number of recipients at the school; the number of award and disbursement records that were accepted and rejected; and, for certain edit codes, the number of times a school received that specific edit code on a response document. The YTD Record can be used to replace a corrupt database or to reconcile records with accepted data on COD.

Business Rules

1. The Year-To-Date Record may be requested by the school via batch data request, or the COD web site.

2. The Year-To-Date Record is provided in fixed-length, flat file format.

3. The Year-To-Date Record is sent from the COD System with message class `AGYR10OP`.

150	155	6	N	Attended Campus Pell-ID	Pell-ID of attended campus. Change creates new Origination/Award record. Institution must change award amounts for student at original attended campus as necessary.	Valid Pell-ID	Identifier Change creates new origination /award record. Institution must change award amounts for student at original attended campus as necessary.
156	171	16	A	Student's Last Name	The last name of the student for this CPS transaction.	Valid values: A – Z, 0 – 9, period, apostrophe, hyphen or blank	

ACG Year-To-Date (YTD) Record							Disbursement
First	Last	Len	Type	Field Name	Description	Valid Values	Processing Notes/Edits
172	183	12	A	Student's First Name	The first name of the student for this CPS transaction.	Valid values: A – Z, 0 – 9 or blank	
184	184	1	A	Student's Middle Initial	The middle initial of the student for this CPS transaction.	Valid Values: A – Z or blank	
185	193	9	N	Student's Current SSN	Social Security Number, as altered by the student through the CPS. This field equals the original SSN if the student has not changed SSN in the CPS.	Valid social security number	
194	201	8	D	Student's Date of Birth	Student's Date of birth for this CPS transaction.	Valid date of birth: CCYYMMDD	
202	203	2	N	Disbursement Sequence Number	The two-digit integer assigned to count the progression of disbursement adjustments for a given Disbursement Number. This numerical string tracks the number of transactions that have been processed for a previously accepted or corrected Disbursement Number.	Valid Values: Must be incrementally sequential within the following group assignment: 01 - 65 School-Assigned 66 - 90 COD-Assigned Or Web-based transactions	If the Disbursement Release Indicator is False, the Disbursement Sequence must be 01. All disbursements either submitted by a school or generated by the COD System, must be included in the file. Each Disbursement transaction must be written to the file in the order that it appears in the database. For example: School submits Disb Sequence Numbers 01 and 02 for Disbursement Num 01. COD creates a system-generated Disb Sequence Number 66 and then school submits Disb Sequence Number 03. The transactions should appear in the record in the order: 01, 02, 66, and 03.
204	204	1	A/N	Disbursement Release Indicator	Value that is reported by the school to indicate whether the disbursement is anticipated or actual. COD sets the value to true for Disbursements accepted from Phase-In Schools.	T- True (record for payment) F – False (disbursement is anticipated)	If the Disbursement Sequence Number is equal to or greater than 02, then the Disbursement Release Indicator must always be True.
205	206	2	N	Previous Disbursement Sequence Number	The prior sequence number is given to substantiate the order in which Disbursement records were processed.	Valid Values: Must be incrementally sequential within the following group assignment: 01 - 65 School-Assigned 66 - 90 COD-Assigned Or Web-based transactions BLANK (when disbursement sequence number =01 and no previous disbursement sequence number exists)	Identify the last sequence number that was processed immediately before this disbursement was accepted.

ACG Pending Disbursement List

This report provides a listing of all ACG anticipated disbursements (DRI = false).

Business Rules

1. The Pending Disbursement List is automatically sent to the school's SAIG mailbox on a weekly basis in the following formats:

   a. Preformatted Text file (message class `AGPD10OP`)

2. The Pending Disbursement List is available via the COD web site in the following format:

   a. Comma-Delimited (CSV)

   b. The Pending Disbursement List available on the COD web site is the report most recently generated by COD.

> **Format Options**
> Previous versions of this report will also be available on the COD web site.

3. The report will be sent to schools weekly until the last day of December for the specific award year. Example: Award year 2009-2010 ends 9/30/2010; the final date that COD would generate the Pending Disbursement List for 2009-2010 would be 12/31/2010.

Although the Pending Disbursement List is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

National Science and Mathematics Access to Retain Talent (SMART) Grant Reports

National SMART Grant Report Options

National SMART Grant Reports are available to schools via the school's SAIG mailbox, via the school's Newsbox on the COD web site, or via data requests.

Business Rules

1. National SMART Grant Reports for 2009-2010 are generated as fixed-length or preformatted flat files and not as XML documents.

2. National SMART Grant Reports for 2009-2010 are viewable on the COD web site in the following format:

    a. Comma-Delimited (CSV)

3. National SMART Grant Reports are sent to schools SAIG mailbox in the following format options. Format options vary by report. Not all reports are offered in all formats:

    a. Preformatted Text file

        i. Portrait

        ii. Courier 10

        iii. 78 characters per line

        iv. 59 lines per page

    b. Fixed-length file

4. The National SMART Grant Report delivery method and format options vary by report type. These specific options are discussed under the appropriate report section.

Below is a summary of all National SMART Grant reports and available formats generated by the COD System.

[1.] If triggered by change

Schools participating in the National SMART Grant program receive the Electronic Statement of Account (ESOA) report via the school's SAIG mailbox. This report is generated when a National SMART Grant funding level changes for a school in the National SMART Grant program.

National SMART Grant Electronic Statement of Account (ESOA)

The Electronic Statement of Account (ESOA) summarizes the status of a school's CFL versus the net drawdown for that award year and provides the YTD Total Accepted and Posted Disbursements.

Business Rules

1. The ESOA can be COD system generated or requested via Data Request and is delivered to the school's SAIG mailbox.

2. The COD system generates an ESOA each time a school's CFL changes, for Advanced Funding Schools.

3. The ESOA is provided in the fixed-length, flat file format.

4. The ESOA is sorted by Pell ID/Transaction Date in descending order.

5. The ESOA is sent from the COD System with message class `SGAS10OP`.

National SMART Grant Multiple Reporting Record (MRR)

The Multiple Reporting Record (MRR) provides information to a school about a student's origination and disbursement status at other schools and the amount of National SMART Grant award(s) disbursed. The National SMART Grant MRR only identifies one primary type of multiple reporting conditions: concurrent enrollment.

Business Rules

1. An MRR can be COD system generated or may be requested by the school via batch data request, or COD web site.

2. The MRR is provided in fixed-length, flat file format.

3. The MRR is sent from the COD System using message class `SGMR10OP`.

National SMART Grant Reconciliation Report

The Reconciliation Report is a one-record student summary of processed records and can be helpful to a school as it completes both the year-end and ongoing reconciliation processes. This report can be downloaded, printed, or imported into a spreadsheet for comparison with the school's data. This report provides the total YTD disbursement amount per student with COD.

Business Rules

1. The Reconciliation Report may be requested by the school via batch data request or COD web site.

2. The Reconciliation Report is provided in fixed-length, flat file format.

3. The Reconciliation report is sent from the COD System with message class SGRC10OP.

National SMART Grant Year-to-Date Record (YTD)

A Year-to-Date (YTD) Record can be requested for one given student or for all National SMART Grant recipients at the school and contains detailed award and disbursement data at a transaction level. The YTD Record shows the number of recipients at the school; the number of award and disbursement records that were accepted and rejected; and, for certain edit codes, the number of times a school received that specific edit code on a response document. The YTD Record can be used to replace a corrupt database or to reconcile records with accepted data on COD.

Business Rules

1. The Year-To-Date Record may be requested by the school via batch data request, or the COD web site.

2. The Year-To-Date Record is provided in fixed-length, flat file format.

3. The Year-To-Date Record is sent from the COD System with message class SGYR10OP.

202	203	2	N	Disbursement Sequence Number	The two-digit integer assigned to count the progression of disbursement adjustments for a given Disbursement Number. This numerical string tracks the number of transactions that have been processed for a previously accepted or corrected Disbursement Number.	Valid Values: Must be incrementally sequential within the following group assignment: 01 - 65 School-Assigned 66 - 90 COD-Assigned Or Web-based transactions	If the Disbursement Release Indicator is False, the Disbursement Sequence must be 01. All disbursements either submitted by a school or generated by the COD System, must be included in the file. Each Disbursement transaction must be written to the file in the order that it appears in the database. For example: School submits Disb Sequence Numbers 01 and 02 for Disbursement Num 01. COD creates a system-generated Disb Sequence Number 66 and then school submits Disb Sequence Number 03. The transactions should appear in the record in the order: 01, 02, 66, and 03.
204	204	1	A/N	Disbursement Release Indicator	Value that is reported by the school to indicate whether the disbursement is anticipated or actual. COD sets the value to true for Disbursements accepted from Phase-In Schools.	T- True (record for payment) F – False (disbursement is anticipated)	If the Disbursement Sequence Number is equal to or greater than 02, then the Disbursement Release Indicator must always be True.
205	206	2	N	Previous Disbursement Sequence Number	The prior sequence number is given to substantiate the order in which Disbursement records were processed.	Valid Values: Must be incrementally sequential within the following group assignment: 01 - 65 School-Assigned 66 - 90 COD-Assigned Or Web-based transactions BLANK (when disbursement sequence number =01 and no previous disbursement sequence number exists)	Identify the last sequence number that was processed immediately before this disbursement was accepted.

National SMART Grant Pending Disbursement List

This report provides a listing of all National SMART Grant anticipated disbursements (DRI = false).

Business Rules

1. The Pending Disbursement List is automatically sent to the school's SAIG mailbox on a weekly basis in the following formats:

    a. Preformatted Text file (message class `SGPD10OP`)

2. The Pending Disbursement List is available via the COD web site in the following format:

    a. Comma-Delimited (CSV)

    b. The Pending Disbursement List available on the COD web site is the report most recently generated by COD.

> **Format Options**
> Previous versions of this report will also be available on the COD web site.

3. The report will be sent to schools weekly until the last day of December for that specific award year. Example: Award year 2009-2010 ends 9/30/2010; the final date that COD would generate the Pending Disbursement List for 2009-2010 would be 12/31/2010.

Although the Pending Disbursement List is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Teacher Education Assistance for College and Higher Education Grant Reports

TEACH Grant Reports Options

Teacher Education Assistance for College and Higher Education (TEACH) Grant reports are available to schools in a variety of format options. TEACH Grant reports are available via the school's SAIG mailbox or via the school's Newsbox on the COD web site.

Business Rules

1. TEACH Grant Reports for 2009-2010 are sent to schools as a flat file and not an XML document.

2. TEACH Grant Reports for 2009-2010 are sent to school's SAIG mailbox in the following format options. Not all reports are offered in all formats:

   a. Preformatted Text file

      i. Portrait

      ii. Courier 10

      iii. 78 characters per line

      iv. 59 lines per page

   b. Fixed-length File

3. Many TEACH Grant Reports for 2009-2010 are viewable on the COD web site in the following format option:

   a. Comma-Delimited (CSV)

4. Some report options are tailored to a specific report. These specific options are discussed under the appropriate report section.

Below is a summary of all TEACH Grant reports and available formats generated by the COD System.

TEACH Grant Multiple Reporting Record (MRR)

The Multiple Reporting Record (MRR) provides information to a school about a student's origination and disbursement status at other schools and the amount of TEACH Grant award(s) disbursed. The TEACH Grant MRR only identifies one primary type of multiple reporting conditions: concurrent enrollment.

Business Rules

1. An MRR can only be COD system generated.

2. The MRR is provided in fixed-length, flat file format.

3. The MRR is sent from the COD System using message class THMR10OP.

> **Data Request**
> Beginning March 2009, an MRR can be requested by the school via batch data request.

TEACH Grant School Account Statement (SAS)

The TEACH School Account Statement (SAS) is a monthly statement, similar to a bank statement, which summarizes a school's TEACH processing activity for each month. The TEACH SAS is a school's primary tool used in reconciliation, and should be compared to both financial aid and business office records. This file provides the Department's official ending cash balance as of the end date of the file, based on data submitted by a school. As such, all schools with cash or disbursement activity within the award year will receive the TEACH SAS on a monthly basis.

Sections of the TEACH SAS

- Cash Summary - This section of the TEACH SAS provides the Department's official Ending Cash Balance for a school for the reported period. The Cash Summary contains both a monthly and a year-to-date summary of cash and award data processed at COD for that program year. This section can be compared to summary information on a school's internal systems. The comparison may then identify areas where further research is needed.

- Cash Detail - This section of the TEACH SAS provides detail on cash transactions processed at COD during the reported period. This includes drawdowns, drawdown adjustments, pushed funds, refunds of cash, returns, and/or reversals. If the monthly option is chosen, this section will only include cash transactions processed at COD during that month. If the year-to-date option is chosen, the section will include cash transactions processed at COD from the start of the program year through the end date of the file.

- TEACH Award Detail, Disbursement Activity Level - This section of the TEACH SAS provides transaction-level detail for all disbursement and adjustment transactions processed on COD during the reported period. If the monthly option is chosen, this section will include disbursements booked on COD during the reported month as well as year-to-date unbooked disbursements. If the year-to-date option is chosen, the section will include all disbursements, booked and unbooked, on COD as of the end date of the report. This information can be used to do a transaction-level comparison to the school's internal records, for either that month, or year-to-date. Note that for TEACH, unbooked disbursements are typically future dated disbursements. In most cases, unbooked disbursements appearing on the TEACH SAS are rare.

Business Rules

1. The COD system generates the TEACH SAS and automatically sends it to a school's SAIG mailbox.

2. The TEACH SAS is generated monthly and includes all data through the last day of the previous month.

3. The TEACH SAS displays pennies for all dollar amount fields.

4. Schools have the option to select the TEACH SAS Report Activity Type on the COD Web site.

   a. The choices for the Report Activity Type option are:

      i. Monthly (Default)

      ii. Year-to-Date

      iii. Both Monthly and Year-to-Date

   b. Schools may set or change their Report Activity Type option at any time. Changes will be applied to the next scheduled run of the TEACH SAS file.

   c. Schools new to the TEACH program or schools that have not changed their options on the COD Web site are set to the default values.

   d. A school's SAS options for the current award year will be carried over to the next award year with New Award Year Setup. If a school wants different options for different award years, it must update its options separately for each award year. Schools should ensure they are in the correct program year in the TEACH SAS Report Options screen before updating their options.

5. The TEACH SAS file is delivered to a school's SAIG mailbox in Comma-Delimited format using the following message classes:

    a. Monthly file (message class THSM10OP)

    b. Year-to-Date file (message class THSY10OP)

TEACH Grant Pending Disbursement List

This report provides a listing of all TEACH Grant anticipated disbursements (`DRI = false`).

Business Rules

1. The Pending Disbursement List is automatically sent to the school's SAIG mailbox on a weekly basis in the following formats:

   a. Preformatted Text file (message class `THPD10OP`)

2. The Pending Disbursement List is available via the COD web site in the following format:

   a. Comma-Delimited (CSV)

   b. The Pending Disbursement List available on the COD web site is the report most recently generated by COD.

> **Format Options**
> Previous versions of this report will also be available on the COD web site.

Although the Pending Disbursement List is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

TEACH Inactive Grants Report

The TEACH Inactive Grants Report lists all TEACH Grant awards that have been inactivated (the award and any pending or actual disbursements have been adjusted to $0) by the school for the reporting period. The reported period is a 30 day period, as shown at the top of the report, and this will be the calendar month prior to the run date of the report.

This report can be used to:

- Confirm that only the correct grants have been made inactive

    o Schools can reconcile this report with internal school records to verify that all awards needing to be made inactive have been processed at COD.

Business Rules

1. The TEACH Inactive Grants Report is automatically sent to the school's SAIG mailbox on a monthly basis.

2. The TEACH Inactive Grants Report is available via the SAIG mailbox in the following format:

    a. Preformatted Text file (message class `THIGPFOP`)

3. The Inactive Grants Report is available via the COD web site in the following formats:

    a. Comma-Delimited (CSV)

    b. The Inactive Grants Report available on the COD web site is the report most recently generated by COD.

> **Format Options**
> Previous versions of this report will also be available on the COD web site.

4. Although the Inactive Grants Report is generated monthly, if there is no data for the report on a given month, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

TEACH Grant SSN/Name/Date of Birth Change Report

The TEACH SSN/Name/Date of Birth Change Report lists students who have had identifier changes (including changes to SSN, name, and date of birth) during the reporting period, which is 90 days prior to the report end date. A student with an identifier change will be included on your school's report if that person was associated with your school for any of the 3 most recent award years. The change may have been initiated by: a) your school, b) another school associated with that student, or c) Direct Loan Servicing (in the case of an SSN change only). The report detail provides information on the school submitting the change, the field changed, the old value, the new value, and the date the change was accepted, to assist your school with researching any related identifier issues.

The information on this report can be used to:

- Confirm identifier changes sent by your school have been accepted properly on COD.

- Update your records (where appropriate).

  o Because your school may not have initiated the change, it is important to monitor the information on this report for any updated identifier information for your students and make changes to your records where appropriate. This will help you prevent future rejects based on old identifier information.

  o If your school has more current information on the student's identifiers, you will need to ensure this information is properly documented and updated on COD.

Business Rules

1. The TEACH SSN/Name/Date of Birth Change Report is automatically sent to the school's SAIG mailbox on a weekly basis, when a change is initiated.

2. The SSN/Name/Date of Birth Change Report is available via SAIG in the following format:

   a. Preformatted Text file (message class THSNPFOP)

3. The SSN/Name/Date of Birth Change Report is available via the COD web site in the following formats:

   a. Comma-Delimited (CSV)

4. The SSN/Name/Date of Birth Change Report available on the COD web site is the report most recently generated by COD.

5. Although the SSN/Name/Date of Birth Change Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

> **Previous Versions**
> Up to 52 previous versions of this report will also be available on the COD web site.

TEACH Rebuild File

An electronic Rebuild file can be requested to rebuild a school's lost or corrupted TEACH Database or to recreate specific student records. Schools, Customer Service, Third Party Servicers, and authorized FSA personnel can request a TEACH Rebuild via the COD Web site.

Business Rules

1. The TEACH Rebuild File will be provided in a fixed-length file format (message class `THRB10OP`)

2. Schools, Customer Service, Third Party Servicers, and authorized FSA personnel can request a TEACH Rebuild via the COD Web site.

3. A TEACH Rebuild File can be requested by a school for a specific:

    a. Award Year (e.g. 2009-2010) – provides all the award/disbursement information for the entire award year

    b. Student - provides award(s)/disbursement(s) information for one particular student by Social Security Number

    c. Award ID - provides award/disbursement information for a specific Award ID

    d. Date Range – provides award(s)/disbursement(s) information within a range of dates for a particular award year.

4. Disbursements with Disbursement Release Indicator (DRI) equal to false are not included on the TEACH Rebuild origination detail record.

5. All amount fields displayed on the TEACH Rebuild file display pennies with an implied decimal.

> **Date Range Option**
> The date range option selects awards accepted within the date range and provides all disbursement transactions, including disbursement adjustments, related to these awards.

TEACH Exit Counseling File/Report

Schools may request a TEACH Exit Counseling File or Report to identify students who have completed exit counseling on the Direct Loan Servicing web site.

Business Rules

1. The Recipient's TEACH Exit Counseling results from the Direct Loan Servicing web site are available in an electronic file or downloadable format.

2. Schools can choose to receive this optional report daily, weekly, or monthly. The default frequency option is monthly.

3. Schools can choose from the following file formats:

   a. ASCII-delimited (message class THCMEXOP).

   b. Fixed-length with Header and Trailer (message class THFFEXOP).

   c. Pre-formatted report (message class THFMEXOP).

TEACH ATS Discharge Report

The ATS Discharge Report contains data on ATSs that have become inactive within the last 30 days due to discharges for Death, Unauthorized Signature or Identity Theft.

This report can be used to

- Identify when a new ATS is needed for an award at your school.

  o If an ATS has been made inactive due to a discharge, it cannot be used for additional awards. If you expect to award and disburse additional funds to the affected borrower or student, verify that the individual is still eligible and obtain a new, signed promissory note.

Business Rules

1. The ATS Discharge Report is sorted in the following order (with each field listed in ascending order):

   a. Discharge Date

   b. Last Name

   c. First Name

   d. Middle Initial

   e. SSN, and then

   f. DOB

2. The ATS Discharge Report is available via SAIG in the following format:

   a. Fixed-Length (default)

3. The ATS Discharge Report (all format types) is sent from the COD System with non-award year specific message class `ATSDISOP`.

4. The ATS Discharge Report is transmitted to the Reporting School's SAIG mailbox and Newsbox on a weekly basis.

5. The ATS Discharge Report is transmitted to the following Attended School's Web Newsbox on a weekly basis:

   a. All Attended Schools with loans linked to the ATSs in the report.

   b. All Attended Schools that created the ATSs listed in the report regardless of whether or not an award was linked to the ATS.

6. Although the ATS Discharge Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Direct Loan Reports

Direct Loan Reports Options

Direct Loan Reports are available to schools in a variety of format options. Direct Loan reports are available via the school's SAIG mailbox or via the school's Newsbox on the COD web site.

Business Rules

1. Direct Loan Reports for 2009-2010 are sent to schools as a flat file and not an XML document.

2. Direct Loan Reports for 2009-2010 and prior years are sent to school's SAIG mailbox in the following format options. Not all reports are offered in all formats:

    a. Comma-Delimited (CSV)

    b. Pipe-Delimited

    c. Preformatted Text file

        i.   Portrait

        ii. Courier 10

        iii. 80 characters per line

        iv. 60 lines per page

    d. Fixed-length File

    e. Do Not Distribute - This is only available for specific reports (see the individual report Business Rules for more information). If this option is chosen, the report will not be generated and sent to a school's SAIG mailbox, although prior versions will still be available for viewing on the COD website. Schools can select the Do Not Distribute option from the COD Website Report Selection screen at any time. Keep in mind that, if a school chooses not to receive a report, COD will not be able to send any missed reports at a later time. If a school updates its options to begin receiving a report, the school will only receive reports generated from that point forward.

3. Many Direct Loan Reports for 2009-2010 and prior years are viewable on the COD web site in the following format options:

    a. PDF (These files are downloadable into Adobe)

    b. Comma-Delimited (CSV)

4. Some report options are tailored to a specific report.   These specific options are discussed under the appropriate report section.

Below is a summary of all Direct Loan Reports and available formats generated by the COD System.

Direct Loan School Account Statement (SAS)

The School Account Statement (SAS) is a monthly statement, similar to a bank statement, which summarizes the school's processing activity for each month. The SAS is the school's primary tool used in reconciliation and program year closeout, and should be compared to both financial aid and business office records. This report provides the Department's official ending cash balance as of the end date of the report, based on data submitted by the school. As such, all schools are required to receive the SAS on a monthly basis until they have officially closed out a program year.

Sections of the SAS

- **Cash Summary** - This section of the SAS provides the Department's official Ending Cash Balance for the school for the reported period. The Cash Summary contains both a monthly and a year-to-date summary of cash and loan data processed at COD for that program year. This section can be compared to summary information on the school's internal systems. The comparison may then identify areas where further research is needed. For example, if the school determines their internal systems match the SAS Cash Summary information for Net Drawdowns/Payments but not for Total Net Booked or Total Net Unbooked, the school can target further research to loan detail only.

- **Disbursement Summary by Loan Type** - This section of the SAS provides monthly and year-to-date summary information by loan type for the reported period. It can be used to monitor loan volumes at the summary level (both booked and unbooked) for all loan types processed at COD.

- **Cash Detail** - This section of the SAS provides detail on cash transactions processed at COD during the reported period. This includes drawdowns, drawdown adjustments, pushed funds, or refunds of cash. If the monthly option is chosen, this section will only include cash transactions processed at COD during that month. This section will not include any cash transactions requested or sent during the month, but not processed on COD until after the last day of that month. If the Year-to-date option is chosen, the section will include cash transactions processed at COD from the start of the program year through the end date of the report.

- **Loan Detail, Loan Level** - This section of the SAS provides loan-level detail for disbursement transactions processed on COD through the end date of the report. Each transaction lists the total amount disbursed on that loan as of the end date of the report. This information can be used to perform an award-level comparison to your internal systems. This section is only available as year-to-date.

- **Loan Detail, Disbursement Activity Level** - This section of the SAS provides transaction-level detail for all disbursement and adjustment transactions processed on COD during the reported period. This section may have multiple transactions per award id (as applicable). This section is available as monthly, year-to-date, or both. The monthly version will only show disbursements booked on COD during the reported month, but will include all unbooked disbursements (unbooked transactions are always year-to-date). This includes any future dated transactions with disbursement dates falling after the end of the report. The year-to-date version of the report will show all disbursements, booked and unbooked, on COD as of the end date of the report. This information can be used to do a transaction-level comparison to the school's internal records, for either that month, or year-to-date.

Business Rules

1. The COD System generates the School Account Statement (SAS) on a monthly basis and automatically sends it to the school's SAIG mailbox.

2. Once a school has officially completed the closeout process for a specific program year, a school will no longer receive a SAS for that year.

3. The SAS is generated on the first full weekend of the month and includes all data through the last day of the previous month. If the first day of the month falls on a Sunday, the SAS will run the following weekend. For example, the October SAS report, containing all data through October 31, will be run the first weekend of November.

4. Schools have the option to customize the SAS in a number of ways on the COD web site.

   a. The following options can be set for the SAS on the SAS Options page on the COD web site (Note: Each option is described in detail below):

     i.   Report Format

     ii.   Include Names of Borrowers

     iii.   Report Activity Type

     iv.   Sections of SAS to Receive

b.   Schools may set or change their options at any time. Changes to SAS options will be applied to the next scheduled run of the report.

c.   Schools new to the Direct Loan program or schools that have not changed their options on the COD web site are set to the default values. Note: Default values are noted in parentheses below.

d.   These options are year-specific, so schools must update their options separately for each year to change the defaults. Schools should ensure that they are in the correct program year in the SAS Report Options screen before updating their options.

e.   Schools may receive more than one report for an award year depending on which options are selected.

5.   The **Report Format** option allows the school to select the format of the SAS Report that is delivered to its SAIG mailbox.

a.   The choices for the Report Format option are:

     i.   Fixed-length flat file (**Default**) (message class `DSDF10OP` – Disbursement level and `DSLF10OP` – Loan level)

     ii.   Comma-Delimited (message class `DSDD10OP` – Disbursement level and `DSLD10OP` – Loan Level)

        1.   Schools have the option of receiving the SAS in Comma-Delimited format with or without headings

     iii.   Pipe-Delimited (message class `DSDD10OP` – Disbursement level and `DSLD10OP` – Loan Level)

        1.   The Pipe-Delimited format of the SAS is not available with headings

6.   The **Include Names of Borrowers** option allows the school to choose to have borrower names included in the detail portion of the SAS.

a.   The choices for the Include Names of Borrowers option are:

     i.   Yes

     ii.   No (**Default**)

b.   If Yes is selected, PLUS loans will show both Borrower and Student names.

c.   Borrower and Student First Name, Last Name, and Middle Initial are provided in the Loan Detail, Loan Level Section of the Fixed-length report.

d.   Borrower and Student First Name and Last Name (not Middle Initial) are provided in the Loan Detail, Loan Level section, and the Loan Detail, Disbursement Activity Level section of the Comma-Delimited and Pipe-Delimited reports.

e.   Borrower and Student First Name, Last Name, and Middle Initial are NOT provided in the Loan Detail, Disbursement Activity Level section of the Fixed-length report.

7. The **Report Activity Type** option allows the school to select whether to receive the Monthly, Year-to-Date, or Both for both the Cash and Loan detail sections of the SAS. Regardless of its choice, the school will receive the Monthly Cash Summary and the Year-to-Date Cash Summary.

   a. The choices for the Report Activity Type option are:

      i. Monthly (**Default**)

      ii. Year-to-Date

      iii. Both Monthly and Year-to-Date

   b. The school's Report Activity Type selection will determine the choices available under the Sections of SAS to Receive option.

      i. If Monthly is selected,

         1. The school will receive the Monthly Cash Detail.

         2. The school will have the choice to receive or not receive the Monthly Disbursement Transaction Level Detail.

         3. The school will NOT have the choice to receive the Year-to-Date Loan Level section or the Year-to-Date Disbursement Transaction Detail section.

      ii. If Year-to-Date is selected,

Direct Loan Pending Disbursement Listing Report

The Pending Disbursement Listing Report shows all pending/anticipated disbursements (with `Disbursement Release Indicator (DRI) = false`) from your school for the reported period and award year. The reported period is a 45-day window into the future from the date of the report, or any date in the past. This means that if a pending disbursement has a disbursement date less than or equal to 45 days from today, it will be included on the report.

The information displayed on this report can be used to:

- Determine your school's future funding needs.

  o Your school can identify pending disbursements on the report that fall within a period of immediate need (generally 3 business days), to calculate what amount to request in G5 (Advance Funded schools only). Keep in mind that any downward disbursement adjustments made since the last drawdown that have not resulted in a refund of cash back to the Department must be included in your calculation of funds needed by your school.

- To identify pending disbursements that should be reflected as actual disbursements (`DRI = true`).

  o If there are pending disbursements on the report with disbursement dates in the past or the immediate future, you can compare this information to internal school records to determine if any of these should be reflected as actual disbursements. If so, submit a `Disbursement Release Indicator = true` to COD as soon as possible.

- To identify awards or disbursements that need to be inactivated (reduced to $0).

  o If a disbursement is listed on the report and the associated award should have been inactivated or the individual disbursement needs to be reduced to $0, submit updated records to COD as soon as possible.

Business Rules

1. The Pending Disbursement Listing Report is automatically sent to the school's SAIG mailbox on a weekly basis.

2. The Pending Disbursement Listing Report is available via SAIG mailbox in the following formats, which can be selected via the COD website Report Selection screen under the "School" menu:

    a. Comma-Delimited (message class `DALC10OP`)

    b. Pipe-Delimited (message class `DALC10OP`)

    c. Preformatted Text file (message class `DIAA10OP`)

    d. The default format is Preformatted Text file. Schools may change their default options via the COD web site.

    e. Do Not Distribute - if this option is chosen, the Pending Disbursement Listing will not be generated and sent to your school's SAIG mailbox, although prior versions will still be available for viewing on the COD website. You can select the Do Not Distribute option from the COD Website Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school at a later time. If you update your options to begin receiving a report, you will only receive reports generated from that point forward.

3. The Pending Disbursement Listing Report is available via COD web site in the following formats:

    a. Comma-Delimited (CSV)

    b. The Pending Disbursement List available on the COD web site is the report most recently generated by COD.

> **Pipe-Delimited Layout**
> The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers (") around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

> **Format Options**
> Previous versions of this report will also be available on the COD web site.

4. The report will generate for the current and previous two Award Years. Example: for Award Year 2009-2010, a school will receive a report for Award Years 2009-2010, 2008-2009, and 2007-2008.

5. Although the Pending Disbursement Listing Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Direct Loan Funded Disbursement Listing Report

The Funded Disbursement Listing Report is provided to Pushed Cash schools only. It shows all funded/actual disbursements (`Disbursement Release Indicator = true`) accepted from your school for the reported date and award year, plus any previously reported downward adjustments that have not yet been netted against funding calculated for your school. The report also includes information regarding any refunds of cash received that may impact your funding calculations (where applicable), and the total payment your school should expect to receive for the reported date.

The information displayed on this report can be used to:

- Verify actual disbursements made against funds received

    o The report will show a list of actual (funded) disbursements that were used in your school's payment (cash receipt) calculation, which can be matched to school records.

    o The report will also include any downward adjustments that were netted into the payment amount

    o The total payment amount listed on the report can be matched against school financial records to verify these funds were received within applicable timeframes.

- Reconcile school disbursement records to COD

    o The funded disbursements listed on the report can be reconciled on a daily basis to an internal listing of disbursements made to student accounts and disbursements submitted to COD on that date.

    o Any actual disbursements not accepted at COD and not reflected on the report should be corrected and resent (these may have been sent by your school on the reported date, but were not processed as accepted and funded disbursements on that date and therefore, are not reflected on the report).

Business Rules

1. The Funded Disbursement Listing Report is automatically sent to Pushed Cash schools' SAIG mailbox on a daily basis.

2. The Funded Disbursement Listing Report is available via SAIG to Pushed Cash schools only in the following formats (for Pushed Cash schools only), which can be selected via the COD website Report Selection screen under the "School" menu:

    a. Comma-Delimited (message class `DARC10OP`)

    b. Pipe-Delimited (message class `DARC10OP`)

    c. Preformatted Text file (message class `DIAO10OP`)

    d. The default format is Preformatted Text file. Schools may change their default options on the COD web site.

3. The Funded Disbursement Listing Report is available to Pushed Cash schools via the COD web site in the following:

    a. PDF

    b. Comma-Delimited (CSV)

    c. The Funded Disbursement Listing Report available on the COD web site is the report most recently generated by COD

> ### Pipe-Delimited Layout
> The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers (") around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

> ### Format Options
> Previous versions of this report will also be available on the COD web site.

4. Although the Funded Disbursement List is generated daily, if there is no data for the report on a given day, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Direct Loan 30-Day Warning Report

The 30-Day Warning Report lists unbooked loans for which the COD System has not received the required elements for "booking" a loan. The items needed to book a Direct Loan are included in the Business Rules. These items must be submitted to the Department within 30 days of the initial actual disbursement date. Any missing items will result in the loan remaining unbooked, which may be in violation of this 30-day reporting requirement.

Unbooked awards are listed on the report if any activity occurred on the award (award, MPN, or initial actual disbursement are accepted) during the reported period. The reported period is a 90-day period beginning 120 days prior to the report run date, to allow for the 30-day reporting requirement. Awards remain on the report for 90 days, unless the award books or becomes inactive. For example, if an award is accepted on 10/15/2009 without a promissory note or a disbursement, it will not appear on the October 2009 30-Day Warning Report (30 days have not passed since the award was accepted), but it will appear on the November, December, and January reports if the award remains unbooked. Inactive loans (award amount and disbursements = $0) will not appear on the report. Promissory notes listed on the report are unlinked as of the report end date. Unlinked promissory notes will appear on the report only if the promissory note was received within the reporting period, a 30-day period beginning 30 days prior to the report run date.

The 30-Day Warning Report can be used to:

- Identify the missing pieces necessary for booking the loan. This information is contained in the Loans Pending Booking section of the report.

  o Fields listed on the report indicate which piece(s) of data are still needed by the Department to book the loan (any missing data will display a "Y" in the corresponding Data Needed column).

  o For an award to be listed on the 30 Day Warning report, the award must be accepted on COD. Therefore, you will never see a "Y" in the Data Needed column under "Loan."

- Identify MPNs awaiting awards. This information is included in the Promissory Notes Without Origination Records section of the report.

  o The report will display all unlinked MPNs accepted by COD from your school during the reported period.

- Reconcile to your school's internal records of unbooked awards.

  o Schools can run internal reports of unbooked awards and match this against the 30-Day Warning Report. If there are awards on the 30-Day Warning showing as unbooked that are booked in the school's internal records, the school should research the outstanding piece needed to book the loan, as listed on the 30-Day Warning report.

- Monitor compliance with the 30 day reporting requirement.

  o If an award is listed on the 30-Day Warning Report and there is an actual disbursement on file (data needed = N for Disb column), your school is out of compliance with the 30-day reporting requirement.

  o If an award is listed on the report and there is not an actual disbursement on file (data needed = Y for Disb column), and internal school records show that there was an actual disbursement made on this award, submit the disbursement immediately to COD. If it is >30 days after the date the actual disbursement was made, your school is out of compliance.

The 30-Day Warning Report does not provide any information regarding disbursement amounts or any subsequent disbursements made to a loan that also will need to book. For this type of information, you will need to consult school records or the School Account Statement (SAS). Also, since awards with actual disbursements will drop off the 30-Day Warning after 90 days, it is important to reference the SAS for a complete record of unbooked loans with actual disbursements accepted on COD.

Business Rules

1. The 30-Day Warning report displays the missing components that are necessary for the loan to book. The necessary items for a loan to be booked are:

   a. Accepted award/origination record

   b. Accepted MPN

   c. Accepted first disbursement record

   d. Accepted credit decision (for PLUS only)

> **Rejected Credit Decisions**
> Direct Loan PLUS award will not be built on COD unless an accepted credit decision is on file, therefore rejected credit decisions will never appear on the 30 Day Warning report

2. Loans with Award Amounts = $0 do not display on this report.

3. Loans that display on this report without a promissory note accepted and an actual disbursement are removed from the report after 90 days.

4. The 30-Day Warning Report is automatically sent to the school's SAIG mailbox on a monthly basis.

5. The 30-Day Warning Report is available via SAIG mailbox in the following formats, which can be selected via the COD website Report Selection screen under the "School" menu:

   a. Comma-Delimited (message class `DIWC10OP`)

   b. Pipe-Delimited (message class `DIWC10OP`)

   c. Preformatted Text file (message class `DIWR10OP`)

   d. The default format is Preformatted Text file. Schools may change their default options on the COD web site.

> **Pipe-Delimited Layout**
> The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers (") around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

   e. Do Not Distribute - if this option is chosen, the 30 Day Warning Report will not be generated and sent to your school's SAIG mailbox, although prior versions will still be available for viewing on the COD website. You can select the Do Not Distribute option from the COD Website Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school at a later time. If you update your options to begin receiving a report, you will only receive reports generated from that point forward.

6. The 30-Day Warning Report is available via the COD web site in the following formats:

   a. Comma-Delimited

   b. The 30-Day Warning Report available on the COD web site is the report most recently generated by COD.

> **Format Options**
> Previous versions of this report will also be available on the COD web site.

7. For 2003-2004 and forward, the Batch ID under the section entitled "Pnotes Without Origination Records" is removed from the preformatted 30-Day Warning Report (`DIWR10OP`).

8. For 2003-2004 and forward, the Batch ID is replaced with filler in the delimited versions of the 30-day Warning Report (`DIWC10OP`).

9. The report will generate for the current and previous two Award Years. Example: for Award Year 2009-2010, a school will receive a report for Award Years 2009-2010, 2008-2009, and 2007-2008.

10. Although the 30-Day Warning Report is generated monthly, if there is no data for the report on a given month, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Direct Loan Inactive Loans Report

The Inactive Loan Report lists all Direct Loan Awards that have been inactivated (the award and any pending or actual disbursements have been adjusted to $0) by the school for the reporting period. The reported period is a 30 day period, as shown at the top of the report, and this will be the calendar month prior to the run date of the report.

This report can be used to

- Confirm that only the correct loans have been made inactive

    o Schools can reconcile this report with internal school records to verify that all awards needing to be made inactive have been processed at COD.

- Identify awards that may have dropped off the 30-Day Warning Report

    o Loans will drop off the 30-Day Warning when they are inactivated.

    o If you expect an award to be listed on the 30-Day Warning and it is not, you may want to research if it now appears on the Inactive Loans report, or if it has been booked since the last report.

Business Rules

1. The Inactive Loans Report is automatically sent to the school's SAIG mailbox on a monthly basis.

2. The Inactive Loans Report is available via the SAIG mailbox in the following formats, which can be selected via the COD website Report Selection screen under the "School" menu:

    a. Comma-Delimited (message class `INACCDOP`)

    b. Pipe-Delimited (message class `INACCDOP`)

    c. Preformatted Text file (message class `INACPFOP`)

> **Pipe-Delimited Layout**
> The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers (") around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

    d. The default format is Preformatted Text file. Schools may change their default options on the COD web site.

    e. Do Not Distribute - if this option is chosen, the Inactive Loans Report will not be generated and sent to your school's SAIG mailbox, although prior versions will still be available for viewing on the COD website. You can select the Do Not Distribute option from the COD Website Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school at a later time. If you update your options to begin receiving a report, you will only receive reports generated from that point forward.

3. The Inactive Loans Report is available via the COD web site in the following formats:

    b. The Inactive Loans Report available on the COD web site is the report most recently generated by COD.

4. Although the Inactive Loans Report is generated monthly, if there is no data for the report on a given month, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Direct Loan Duplicate Student Borrower Report

The Duplicate Student Borrower Report lists the student borrowers for which the COD System has accepted multiple Direct Subsidized and/or Unsubsidized Award records with overlapping academic years within the same award year. This report assists in identifying subsequent award or disbursement records that may reject due to exceeding the annual loan limits. This report does NOT relieve the school of its responsibility to monitor all loan activity (including FFEL) for a student through the Financial Aid Transcript and NSLDS processes.

This information can be used to:

- Identify potential overaward situations.

  o Use data on the report to identify when multiple sub/unsub awards have been originated with overlapping academic years, which could result in an overaward situation.

  o If any of the listed awards at your school will not be disbursed, or will only be partially disbursed, reduce the award by the applicable amount.

  o Monitor remaining awards for students listed on the report and any associated disbursements for any rejects due to overaward situations.

Business Rules

1. The Duplicate Student Borrower Report is automatically sent to the school's SAIG mailbox on a monthly basis.

2. The Duplicate Student Borrower Report is available via SAIG mailbox in the following formats, which can be selected via the COD website Report Selection screen under the "School" menu:

   a. Comma-Delimited (message class `DUPLCDOP`)

   b. Pipe-Delimited (message class `DUPLCDOP`)

Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school at a later time. The Duplicate Student Borrower Report lists student borrowers for which COD has
accepted multiple Direct Subsidized and/or Unsubsidized common records. The list
indicates other schools that have submitted a common record for the same borrower
who may be attending your school. This report assists in identifying subsequent
loan origination records that may reject due to exceeding the annual loan limits.
This report does NOT relieve the school of its responsibility to monitor all loan
activity (including FFEL) for a student through the Financial Aid Transcript and
NSLDS processes.

Direct Loan SSN/Name/Date of Birth Change Report

The SSN/Name/Date of Birth Change Report lists students/borrowers who have had identifier changes (including changes to SSN, name, and date of birth) during the reporting period, which is 90 days prior to the report end date. A student/borrower with an identifier change will be included on your school's report if that person was associated with your school for any of the 3 most recent award years. The change may have been initiated by: a) your school, b) another school associated with that borrower, or c) Direct Loan Servicing (in the case of an SSN change only). The report detail provides information on the school submitting the change, the field changed, the old value, the new value, and the date the change was accepted, to assist your school with researching any related identifier issues.

The information on this report can be used to:

- Confirm identifier changes sent by your school have been accepted properly on COD.

- Update your records (where appropriate).

    o Because your school may not have initiated the change, it is important to monitor the information on this report for any updated identifier information for your students and make changes to your records where appropriate. This will help you prevent future rejects based on old identifier information.

    o If your school has more current information on the student's identifiers, you will need to ensure this information is properly documented and updated on COD.

Business Rules:

1. The SSN/Name/Date of Birth Change Report is automatically sent to the school's SAIG mailbox on a weekly basis, when a change is initiated.

2. The SSN/Name/Date of Birth Change Report is available via SAIG in the following formats, which can be selected via the COD website Report Selection screen under the "School" menu:

    a. Comma-Delimited (message class `SNDCCDOP`)

    b. Pipe-Delimited (message class `SNDCCDOP`)

    c. Preformatted Text file (message class `SNDCPFOP`)

    d. The default format is Preformatted Text file.

> **Pipe-Delimited Layout**
> The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers (") around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

    e. Do Not Distribute - if this option is chosen, the SSN/Name/Date of Birth Change Report will not be generated and sent to your school's SAIG mailbox, although prior versions will still be available for viewing on the COD website. You can select the Do Not Distribute option from the COD Website Report Selection screen at any time. Keep in mind that, if you choose not to receive a report, COD will not be able to send any missed reports for your school at a later time. If you update your options to begin receiving a report, you will only receive reports generated from that point forward.

3. The SSN/Name/Date of Birth Change Report is available via the COD web site in the following formats:

    a. Comma-Delimited (CSV)

    b. The SSN/Name/Date of Birth Change Report available on the COD web site is the report most recently generated by COD.

> **Format Options**
> Previous versions of this report will also be available on the COD web site.

4. Although the SSN/Name/Date of Birth Change Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Direct Loan Rebuild File

An electronic rebuild file can be requested to rebuild a school's lost or corrupted Direct Loan Database or to recreate specific student records. It may be imported into Direct Loan Tools to rebuild an EDExpress database or into a school's vendor or mainframe system. For more information on the rebuild functionality in DL Tools, refer to Volume IV, Section 1 of this Technical Reference.

Business Rules

1. The Direct Loan Rebuild File is provided in a fixed-length file format (message class CODRBFOP).

2. A Rebuild File can be requested by a school for a specific:

    a. Award Year (e.g. 2009-2010) – provides all the loan/disbursement information for the entire award year

    b. Borrower/Student - provides loan(s)/disbursement(s) information for one particular student by the student's Social Security Number.

    c. Award ID (Loan ID) - provides loan/disbursement information for a specific Award ID

    d. Date Range – provides loan(s)/disbursement(s) information within a range of dates for a particular award year.

> **Date Range Option**
> The date range option selects awards accepted within the date range and provides all disbursement transactions, including disbursement adjustments, related to these loans.

Direct Loan MPN Discharge Report

The MPN Discharge Report contains data on MPNs that have become inactive within the last 30 days due to discharges for Death, Unauthorized Signature or Identity Theft.

This report can be used to

- Identify when a new MPN is needed for an award at your school.

    o If an MPN has been made inactive due to a discharge, it cannot be used for additional awards. If you expect to award and disburse additional funds to the affected borrower or student, verify that the individual is still eligible and obtain a new, signed promissory note.

Business Rules

1. The MPN Discharge Report is sorted in the following order (with each field listed in ascending order):

    a. Last Name

    b. First Name

    c. Middle Initial

    d. SSN, and then

    e. DOB

2. The MPN Discharge Report is available via SAIG in the following formats, which can be selected via the COD website Report Selection screen under the "School" menu:

    a. Fixed-Length (default)

    b. Pipe-delimited

    c. Comma-delimited

> **Format Options**
> Previous versions of this report will also be available on the COD web site.

3. The MPN Discharge Report is available via the COD web in only comma-delimited format.

4. The MPN Discharge Report (all format types) is sent from the COD System with non-award year specific message class MPNDISOP.

5. The MPN Discharge Report is transmitted to the Reporting School's SAIG mailbox and Newsbox on a weekly basis.

6. The MPN Discharge Report is transmitted to the following Attended School's Web Newsbox on a weekly basis:

    a. All Attended Schools with loans linked to the MPNs in the report.

    b. All Attended Schools that created the MPNs listed in the report regardless of whether or not an award was linked to the MPN.

7. Although the MPN Discharge Report is generated weekly, if there is no data for the report on a given week, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.

Pipe-Delimited Record Layout

The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers (") around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

Direct Loan Expired MPN Report

The Expired MPN Report contains data on MPNs that have expired (become inactive) within the last 30 days due to any of the following reasons:

- No awards linked within a year of the date of receipt

- No actual disbursements on a linked award within a year of the date of receipt

- 10 years passing since the date of receipt

- A PLUS loan linked with an Endorser.

MPNs will not appear on the Expired MPN Report if they have expired due to Disbursement inactivity more than 30 days prior to the date of the report generation.

This report can be used to:

- Identify when a new MPN may be needed for an award at your school

    o   If an MPN has expired, you cannot use that MPN to link to a new, unlinked award at your school that will be disbursed after the expiration date. You must obtain a new, signed promissory note to book additional loans.

    o   If an MPN has expired that is already linked to an award at your school, no further action is necessary for that award. Any disbursements made to the linked award will book using the existing promissory note.

Business Rules

1. The Expired MPN Report is sorted in the following order (with each field listed in ascending order):

    a. Last Name

    b. First Name

    c. Middle Initial

    d. SSN, and then

    e. DOB

> **Name Display**
> This report will not display the last name and middle initial, and will truncate all but the first two characters of the first name of borrowers who have not been established on the COD system.

2. The Expired MPN Report is available via SAIG in the following formats, which can be selected via the COD website Report Selection screen under the "School" menu:

    a. Fixed-length (default)

Pipe-Delimited Record Layout

The pipe-delimited report layout is the same as the comma-delimited report layout (except the comma-delimited report utilizes text qualifiers (") around each field). The commas (,) in the valid field content are replaced with pipes (|) in the pipe-delimited report.

Direct Loan MPNs Due to Expire Report

The MPNs Due to Expire Report contains data on MPNs that will expire (become inactive) within the next 60 days due to any of the following reasons:

- No awards linked within a year of the date of receipt

- No actual disbursements on a linked award within a year of the date of receipt

- 10 years passing since the date of receipt

MPNs that have expired and were previously included on the report will no longer appear on the report. In addition, MPNs that will no longer expire within the next 60 days due to recent activity will be removed from future report.

This report can be used to:

- Identify when a new MPN may be needed for an award at your school

   o If an MPN is about to expire, and you know that your award will not be accepted, linked, and disbursed prior to the expiration date of the note, you should obtain a new MPN.

   o If an MPN is about to expire that is already linked to an award at your school, no further action is necessary for that award. Any disbursements made to the linked award will book using the existing promissory note.

Business Rules

1. The MPNs Due to Expire Report is sorted in the following order (with each field listed in ascending order):

   a. Last Name

   b. First Name

   c. Middle Initial

   d. SSN, and then

   e. DOB

> **Name Display**
> This report will not display the last name and middle initial, and will truncate all but the first two characters of the first name of borrowers who have not been established on the COD system.

2. The MPNs Due to Expire Report is available via the SAIG in the following formats, which can be selected via the COD website Report Selection screen under the "School" menu:

   a. Fixed-length (default)

   b. Pipe-delimited

   c. Comma-delimited

> **Format Options**
> Previous versions of this report will also be available on the COD web site.

3. The MPN's Due to Expire Report is available via the COD web in only comma-delimited format.

4. The MPNs Due to Expire Report (all format types) is sent from the COD System with message class MPNEXPOP.

5. The MPNs Due to Expire Report is transmitted to the Reporting School's SAIG mailbox and Newsbox on a monthly basis.

6. The MPNs Due to Expire Report is transmitted to the following Attended School's Newsbox on a monthly basis:

   a. All Attended Schools with loans linked to the MPNs in the report.

b. All Attended Schools that created the MPNs listed in the report regardless of whether or not an award was linked to the MPN.

7. Although the MPNs Due to Expire Report is generated monthly, if there is no data for the report on a given month, the report will not be sent to the schools' SAIG mailbox or made available via the COD web site.
