Table of Contents

Overview

Preface

The 2008-2009 FISAP Technical Reference provides programmer specifications and record layouts for your school and for other organizations that need to design software systems to interface with the U.S. Department of Education's (ED's) FISAP processor. The technical system information in this document allows you to build your own system in order to prepare a FISAP data file that can be uploaded to the FISAP on the Web.

This technical reference provides a current snapshot of the system modifications for the upcoming processing year and contains the following sections:

- Overview

- Implementation Guide

- Record Layouts

Keep in mind that further changes to the technical reference may occur as we proceed with implementation.

If you have any questions regarding the information contained in this document, please contact FISAP Technical Support at 1-877-801-7168.

Important Telephone Numbers

The U.S. Department of Education is available to answer FISAP procedure and policy questions from 9:00 a.m. to 5:00 p.m. (ET), Monday through Friday. The number to call is

Implementation Guide

Introduction

This section assists you as a custom school, third-party servicer, or software provider with implementing system changes for the 2008-2009 FISAP cycle. These changes will enable you to create FISAP data files for upload to the FISAP on the Web. This guide provides

- 2008-2009 Modifications at a Glance

- Uploading to the FISAP Management Section

- Batch Edit/Reject Codes (including what each error message means and how to fix it)

Keep in mind that further changes to the technical reference may occur as we proceed with implementation.

If you have questions regarding the material in this document, please call FISAP Technical Support between the hours of 8 a.m. and 8 p.m. (ET) at 1-877-801-7168.

2008-2009 Modifications at a Glance

In Part II, Section E, new fields 23b (ACG expenditures) and 23c (National SMART Grant expenditures) have been added. Also, Field 23 (Pell Grant expenditures) has been renumbered to 23a.

In Part III, Section A, new fields 17 and 38 (related to surviving spouses of public service victims of 9-11 terrorist attacks) and 42, Balancing Adjustments (Debits) and 43 (Balancing Adjustments (Credits) have been added to Part III, Section A. From 17 on, fields have been renumbered.

Uploading to the FISAP Management Section

The FISAP management function allows you to upload a file to the eCB Web site. This process will greatly reduce keying errors if you are a school or servicer that can extract data from your data systems. The file used for the upload must follow the format described in the current year record type. A single file upload can contain multiple records, and any file name can be used for that upload file.

To access the FISAP management function,

- (if you are a servicer, select/change to the school you wish to upload.)

- select Setup from the top menu.

- select FISAP Management.

- enter complete file name with drive and directory path.

- select upload file.

The system will inform you if the process was successful. (If it was and you are a servicer, continue with the next school.) Data errors will cause the upload to fail; if you encounter these errors, please recheck the contents of each field and ensure that it follows the criteria outlined in the FISAP Technical Reference. If you continue having problems, please contact the Campus-Based Call Center at 1-877-801-7168 for assistance.

All waiver requests must be submitted to the Department by midnight February 8, 2008. No waivers received after the February 8, 2008 deadline will be accepted. Each waiver request will be considered by a review panel. Schools will receive their waiver approval or denial decision by March 14, 2008.	Left
