Introduction

This section provides all the record layouts you need to create your own software to participate in the Electronic Data Exchange (EDE) process.

Request Title in ISIR Files

To identify the group of ISIRs belonging to your datamart requests, a request title for each query is returned in the resulting ISIR file sent to your school. The title appears as the first detail line in the ISIR file after the SAIG header record. The title is in positions 1 to 50. Positions 51 to 3700 are blank.

In addition, to ensure that the ISIR data from the CPS for all ISIR records is consistent with your school's software, this request title is part of the daily and pushed ISIR files you receive. For these ISIR files, the first detail line contains all blanks in positions 1 to 3700. Examples are listed below.

ISIRs received as a result of a datamart request

Line 1: O*N05 record (SAIG header record)

Line 2: Request Title (up to 50 bytes of description from the datamart query)

Line 3: First ISIR record meeting request query

Line 4: Second ISIR record meeting request query

Line 5: O*N95 record (SAIG trailer record)

ISIR received as part of daily ISIRs or pushed ISIRs

Line 1: O*N05 record (SAIG header record)

Line 2: Blank line

Line 3: First ISIR record sent to your school

Line 4: Second ISIR record sent to your school

Line 5: O*N95 record (SAIG trailer record)

Academic Competitiveness Grant (ACG) Data File Import Record Layout

(ED2010OP)

Each day after FAFSA records are processed, this data file is created to inform schools about the ACG data submitted by applicants. Each file that you receive includes all applicants for that day who have listed your school code in any of the ten school choice fields on the transaction on which the ACG data was submitted. If a school code is added to a record in a subsequent correction, the ACG data is sent to the new school.

Each student record that has ACG data submitted and is potentially eligible for the grant has at least two of the following comment codes set on his or her ISIR: 268 through 271.

Field #	Start	End	Length	Changes	Field Name	Valid Content	Justify
