(Issue No. 73-6)

FOR RELEASE January 9, 1973

NEW RULES AND RULE PROPOSALS

PROPOSE NEW RULE 147. The Commission on January 8 proposed a new Rule 147, which is part of the SEC's "140 series of rules." It would define certain terms in, and clarify certain conditions of the intrastate offering exemption provided in Section 3(a)(11) of the Securities Act, which exempts from registration securities that are part of an issue offered and sold only to persons resident within a single state, if the issuer is a person resident and doing business within such state.

The proposed Rule defines the terms "resident" and "doing business within." A person would be considered to be a resident if it is organized under the laws of the state, and, if a partnership, all of its general partners are residents of such state. An individual would be a resident only of the state in which he has his personal residence. The issuer would be deemed to be "doing business within" a state only if its principal office is in the state, it derives at least 80 percent of its gross revenues on a consolidated basis from the business conducted within the state, and it has at least 80 percent of its assets in such state. In addition, 90 percent of the proceeds of the offering must be spent in connection with the business conducted in the state. In order to prevent redistribution outside of the state, the proposed Rule limits all trading in the securities offered pursuant to the Rule to the same state for a period of a year after the distribution. Lastly, the proposed Rule also provides a definite standard for when offerings pursuant to the exemption would be integrated with other offerings by the issuer and its affiliates, by automatically integrating all such offerings within any consecutive six-month period.

In announcing the proposed Rule Chairman Casey said that the Rule is intended to assure that investors will be protected by limiting the exemption from registration to those situations contemplated by Congress -- that is, local financing by local businesses. "I believe that this proposed Rule will not only provide additional protection for investors, but will also help local businesses seeking financing solely from local sources to comply with Section 3(a)(11) and the registration provisions of the Act" he added. (Rel. 33-5349)

PROPOSED RULES CONCERNING EXCHANGE TRADING IN OPTIONS. The Commission today issued two releases proposing new Rules 9b-1 and 12a-6 under the Securities Exchange Act of 1934 (Exchange Act) in connection with the pending proposed registration of the Chicago Board Options Exchange, Inc. as a national securities exchange and the reported consideration also being given by certain registered exchanges to trading options.

Proposed Rule 9b-1 specifies special procedures in connection with the adoption and alteration of rules of a registered national securities exchange concerning acts or transactions in puts and calls ("Options"). Historically, exchanges have not traded options. The Commission is of the opinion that in addition to the novelty of exchange option trading, such trading may involve complex problems and special risks to investors and to the integrity of the marketplace. The Commission therefore believes that, utilizing the broad power granted under Sections 9 and 23 of the Exchange Act, it should provide itself with a substantial amount of flexibility in carrying out its regulatory responsibilities with respect to option trading on exchanges.

Proposed Rule 9b-1 would require registered national securities exchanges to file with the Commission copies of any changes in or addition to the rules of the exchanges concerning acts or transaction in options. The Commission would be empowered to review and, if appropriate, disapprove such changes or additions prior to their becoming effective. Proposed Rule 9b-1 would also establish procedures by which the Commission, after notice and opportunity for hearing, may by order require the adoption, amendment, alteration, or rescission of any rule of a national securities exchange concerning acts or transactions in options, but the holding of such a hearing would not prevent adoption of any such order upon expiration of the notice period.

The period during which interested parties may submit their views and comments terminates on February 15, 1973. (Rel. 34-9930)

Proposed Rule 12a-6 provides an exemption from the registration provisions of § 12(a) of the Act for securities underlying options where the option is itself registered on the national securities exchange in question, the underlying security is registered and listed on another national securities exchange, and the exchange upon which the option is listed limits its activity in the underlying securities to effecting exercises of the options.

The rule is thus intended to relieve any exchange which lists options of the need to register its underlying securities under Section 12(a) or to apply for unlisted trading privileges pursuant to Section 12(f) of the Act for the underlying securities where it has provided for comparable disclosure with regard to the listed options and their underlying securities and does not seek to establish trading markets in the underlying securities.

The period during which interested parties may submit their views and comments terminates on February 15, 1973. (Rel. 34-9931)

PROPOSED RULE RELATING TO LESSORS OF UTILITY FACILITIES. The SEC today proposed adoption of Rule 7(d) under Sections 2(a)(3) and 2(a)(4) of the Public Utility Holding Company Act of 1935 to exclude from the definition of owner in those sections financial institutions or leasing companies that hold title to, or beneficial interests in, physical facilities leased to public-utility companies. Interested persons are invited to submit, in triplicate, views or comments in writing to Aaron Levy, Director, Division of Corporate Regulation, Securities and Exchange Commission, Washington, D. C. 20549, on or before February 22, 1973. All communications should refer to File No. S7-470. (Rel. 35-17843)

OVER

DECISION IN ADMINISTRATIVE PROCEEDING

OHIO EDISON ACQUISITION OF HIRAM'S ELECTRIC UTILITY SYSTEM APPROVED. The SEC has issued an order granting the application of Ohio Edison Company, of Akron, Ohio, a registered holding company and an electric utility company, for approval of its proposed acquisition of the electric utility system owned and operated by the Village of Hiram, Ohio.

According to the Commission's decision, Hiram in November 1971 determined it was no longer feasible or economical to operate its system and offered to sell it to the highest bidder. Ohio Edison submitted the only bid, in the amount of \$675,000 in cash plus the cost of net additions after the valuation date, April 1, 1971, and this bid was accepted. The Commission concluded that the proposed price was within a reasonable range of fairness and also conformed with the other standards of the Public Utility Holding Company Act. (Rel. 35-17842)

Clyde Atkins entered an order temporarily restraining them and Daniel Pate and Nicholas Elliott, and set the matter down for further hearing on January 8. (LR-5689)

TRUST INDENTURE ACT RELEASE

THE FLINTKOTE CO. The SEC has issued an order granting an application of The Flintkote Company for a finding that the trusteeship of Bankers Trust Company under indentures dated October 1, 1960 and July 15, 1971, heretofore qualified under the Act, and an indenture to be entered into upon execution of a lease agreement which new indenture will not be qualified under the Act, is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify it from acting as such under any of these indentures.
