## APPLICATIONS OF PTI PACIFICA INC. AND IT&E OVERSEAS, INC. FOR CONSENT TO ASSIGN LICENSES

### NUMBERING RESOURCE UTILIZATION AND FORECAST (NRUF) REPORTS AND LOCAL NUMBER PORTABILITY REPORTS PLACED INTO THE RECORD, SUBJECT TO PROTECTIVE ORDER

ULS File No. 0003356838  
CC Docket No. 99-200

PTI Pacifica Inc. (“PTI Pacifica”) and IT&E Overseas, Inc. (“IT&E” and, together with PTI Pacifica, the “Applicants”) have filed a series of applications pursuant to sections 214 and 310(d) of the Communications Act of 1934, as amended.<sup>1</sup> As part of a larger transaction, the Applicants seek Commission approval of the assignment of wireless licenses from IT&E to PTI Pacifica.<sup>2</sup>

In connection with the Commission’s review of the applications, the Commission intends to examine information contained in the Numbering Resource Utilization and Forecast (“NRUF”) reports filed by wireless telecommunications carriers<sup>3</sup> and disaggregated, carrier-specific local number portability (“LNP”) data related to wireless telecommunications carriers. These data may assist the Commission in assessing the competitive effects of the transaction. Accordingly, subject to the provisions of a protective order (“NRUF Protective Order”) being adopted this day, the Commission intends to place into the record in this proceeding (1) NRUF reports for all wireless telecommunications carriers concerning data as of June 30, 2008 and (2) wireless-to-wireless LNP data for all wireless telecommunications carriers from the June 2008 LNP databases that the Commission receives from NeuStar, Inc.

Section 251 of the Communications Act grants the Commission jurisdiction over the North American Numbering Plan (“NANP”) and related telephone numbering issues. In order to better monitor the way numbering resources are used within the NANP and efficiently allocate NANP resources, the Commission requires telecommunications carriers to provide the Commission with a utilization report of

<sup>2</sup> See PTI Pacifica, Inc. and ITE Overseas, Inc. Seek FCC Consent to Assign Licenses, ULS File No. 0003356838 (filed May 2, 2008). In addition to the assignment of wireless licenses, the Applicants are also seeking Commission approval for the assignment and transfer of domestic and international Section 214 assets and a declaratory ruling under section 310(b)(4) of the Communications Act that the proposed acquisition by PTI Pacifica of IT&E’s licenses and authorizations is consistent with the public interest. The Wireline Competition Bureau created a docket, WC Docket No. 08-54, for the transfer of control of the domestic Section 214 application.

their current inventory of telephone numbers and a five-year forecast of their numbering resource requirements.<sup>4</sup> LNP data are collected by the LNP Administrator and provided to the Commission.

The Commission has recognized that disaggregated, carrier-specific forecast and utilization data should be treated as confidential and should be exempt from public disclosure under 5 U.S.C. § 552(b)(4).<sup>5</sup> The NRUF and LNP reports are being placed into the record subject to the provisions of an NRUF Protective Order. As such, the NRUF data will not be available to the public except pursuant to the terms of the NRUF Protective Order, as outlined below.

Persons seeking to review the NRUF or LNP data may do so only for purposes of participating in this proceeding. Pursuant to the NRUF Protective Order, outside persons participating or intending to participate in the proceeding who are not involved in competitive decision-making activities and who have signed the Acknowledgement of Confidentiality attached to the NRUF Protective Order may review the NRUF and LNP data. We emphasize that persons seeking to review the NRUF or LNP data must have adequate protections in place to prevent improper use or disclosure of the information.

Affected parties have until April 23, 2009 to oppose disclosure of their NRUF and LNP data. In addition, affected parties will have five business days after the filing of an Acknowledgement of Confidentiality to object to the release of the data to a particular person who requests permission to review it.

If the Commission receives no opposition from affected parties by April 23, 2009, the Commission will place the NRUF and LNP data into the public record subject to the safeguards contained in the NRUF Protective Order. If disclosure is opposed, the procedures set forth in 47 C.F.R. § 0.461(i) shall apply. All filings should refer to ULS File No. 0003356838.

Under the Commission's current procedures for the submission of filings and other documents,<sup>6</sup> submissions in this matter may be filed electronically (*i.e.*, though ULS) or by hand delivery to the Commission's Massachusetts Avenue location.
