The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high-priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high-quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public. Unless specifically noted, all information contained herein is in the public domain.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to

I. Introduction to the NCES Common Core of Data School District Finance Survey (F-33), School Year 1991–92 (Fiscal Year 1992) Revised File Version 1a

The Common Core of Data (CCD) is a comprehensive, annually updated, national statistical database of information concerning all public elementary and secondary schools and school districts. The CCD is made up of five surveys: the Public Elementary/Secondary School Universe Survey, the Local Education Agency Universe Survey, the State Nonfiscal Survey of Public Elementary/Secondary Education, the National Public Education Financial Survey (NPEFS), and the School District Finance Survey (F-33). All CCD data are provided by SEAs and are edited by NCES.

The CCD School District Finance Survey (F-33) consists of data submitted annually to the National Center for Education Statistics (NCES) by state education agencies (SEAs) in the 50 states and the District of Columbia. The purpose of the survey is to provide finance data for all local education agencies (LEAs) that provide free public elementary and secondary education in the United States. National and state totals are not included.¹

This file is one of several early data files that NCES is now making available electronically.

Both NCES and the Governments Division of the U.S. Census Bureau collect public school system finance data, and they collaborate in their efforts to gather these data. The Census Bureau is required to collect government finance data under Title 13 U.S.C. Section 182. NCES is authorized to collect these data by Congress through Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1). The Census Bureau acts as the primary collection agent and produces two data files: one for distribution and reporting by the Census Bureau and the other for distribution and reporting by NCES. The two data files differ in the inclusion in the NCES file of state government expenditures for and on behalf of school districts in certain variables, and in the classification of certain revenues as being from local or state sources. The NCES file also includes many charter school districts that are not included in the Census Bureau file. In addition, the data files differ in name. The Census Bureau refers to its data file as the Annual Survey of Local Government Finances: School Systems, and NCES refers to its data file as the CCD School District Finance Survey (F-33). This is the documentation of the CCD School District Finance Survey (F-33) data file for school year 1991–92, fiscal year (FY) 1992.

The CCD is a system of surveys designed to be inclusive rather than exclusive. Accordingly, CCD files contain a substantial number of records representing administrative and operating units that are unlike typical public schools and school districts. Definitions and categories used in the CCD are deliberately generic so that they may accommodate the many and varied organizational structures used in the provision of public elementary and secondary education across the nation. The CCD system provides features that enable SEAs and data users to identify and select records according to the categories of interest to them. The principal users of CCD

states and the nation, and are used in determining state funding allocations for a number of federal education programs, including those authorized by Title I of the Elementary and Secondary Education Act of 1965.

¹ Refer to the CCD National Public Education Financial Survey (NPEFS) for national and state-level figures. The NPEFS, a key component of the CCD survey system, collects state totals of school finance data. Although both the NPEFS and the F-33 collect data from SEAs, the NPEFS includes expenditures for special state-run schools that are not included in the F-33. NPEFS data represent the total spending on public elementary and secondary education for

fiscal data are the federal government, the education research community, state and local government officials (including school boards and LEA administrators), and the general public.

Data items are defined and referenced through the NCES accounting handbook, *Financial Accounting for Local and State School Systems* (Fowler 1990). The accounting handbook provides common definitions for detailed account codes, which are aggregated to form the data items collected in this survey. This helps to ensure comparable data across states and school districts.

Changes in the universe population do occur, and are often the result of districts being newly incorporated, undergoing boundary changes, or breaking up. More detailed information on these changes can be found in the nonfiscal CCD Local Education Agency Universe Survey files and documentation at http://nces.ed.gov/ccd/pubagency.asp.

The data file for the FY 92 CCD School District Finance Survey (F-33) contains 16,229 records representing the public elementary and secondary education agencies in the 50 states and the District of Columbia. This file contains records that are not in the Census Bureau school district finance file. The additional records contain data for school districts that the Census Bureau does not consider to be government entities. This file includes variables for revenues by source, expenditures by function, indebtedness, assets, and student membership counts, as well as identification variables. For a complete list of variables, see appendix A.

When merging the F-33 data file with other CCD data files, data users are encouraged to use the F-33 count for student membership. The student membership count has been changed in some records in the F-33 data file to more closely reflect the count of students enrolled in the schools of the school district.

The remainder of this documentation includes a user's guide and four appendixes. The user's guide contains information on methodology of this survey, including certain conditions that are unique to the data file for the FY 92 survey cycle, as well as information about changes to the survey that may be important to the user planning longitudinal analyses.

The four appendixes are as follows:

- Appendix A—Record Layout and Descriptions of Data Items gives the variable names and labels of the data items discussed throughout the documentation, as well as their location in the data file for the FY 92 survey cycle.
- **Appendix B—Glossary** defines all of the F-33 data items.
- **Appendix C—State Notes** provides comments related to unique state financial practices for FY 92 and how those practices relate to this data release.
- Appendix D—Value Distribution and Field Frequencies provides information about the frequency and distribution of data items across local education agencies.

II. User's Guide

A. Methodology

The F-33 is a universe survey, meaning that all LEAs from each of the 50 states and the District of Columbia are surveyed. Between October 1 and December 31 of each year, the Census Bureau distributes the F-33 survey instrument to all SEAs. Representatives from each SEA collect and edit data from their LEAs and submit data to the Census Bureau between March 15 and September 30 of the following year.

Data are reported to the Census Bureau in either the F-33 format or in the individual state agency's format. The latter process requires that the Census Bureau staff manually evaluate the SEA's chart of accounts and create a "crosswalk" that combines or allocates state data to the F-33 format.

For the FY 92 collection, the following states submitted data in their own formats: Alaska, Arizona, Arkansas, California, Colorado, Georgia, Indiana, Kentucky, Louisiana, Maine, Massachusetts, Mississippi, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, North Dakota, Ohio, Oklahoma, Rhode Island, South Carolina, Tennessee, Utah, and Wisconsin. Data for the District of Columbia and Hawaii were taken from the National Public Education Financial Survey (NPEFS) with supplemental data submitted. All other states reported data in the F-33 format. All data are monitored by survey analysts, and computer edits are used to check for internal and longitudinal consistency.

The F-33 is designed to provide finance data for each school district and should not be used to create SEA totals. It is suggested that the data user look to other sources, such as the NPEFS (http://nces.ed.gov/ccd/stfis.asp), for total revenues and expenditures for public education by state. The F-33 does not include state-run schools and some state programs that are not reported at the school district level.

B. Accounting and Collection Methods

The data collected through the F-33 survey are intended to provide a complete picture of the financial activity associated with public elementary and secondary school systems. All financial transactions associated with assets, expenditures by object and function, indebtedness, and revenues by source are considered in these data. Finance data are presented in whole dollar amounts.

The Census Bureau collects and edits the data, working with state CCD coordinators to resolve any inconsistent or unusual data. Some LEA data may not adhere strictly to the reporting guidelines of the NCES accounting handbook, or an LEA may be missing data for certain items. In these cases, supplemental information may be used by the Census Bureau to impute the necessary figures. A general record of data anomalies associated with state reporting and F-33 adaptation can be found in Appendix C—State Notes.

_

² The District of Columbia and Hawaii are single school districts. Therefore, their school district finance data reported in the F-33 survey are the same as the state finance data reported in the NPEFS. Supplemental data were submitted for the F-33 by the District of Columbia and Hawaii for data items that were not available in the NPEFS, e.g., long term and short term debts details.

There are some instances when the Census Bureau and NCES differ in their classification of tax items. Those items classified as local revenue by NCES, but as state revenue by the Census Bureau, are recorded in a single variable—NCES Local Revenue/Census State Revenue (C24).³

Fiscal years

The fiscal year begins on July 1 and ends on June 30 for most states. The fiscal year for Alabama runs from October 1 through September 30, and the fiscal year for Nebraska, Texas, and City of Chicago School District in Illinois runs from September 1 through August 31. The fiscal year for Colorado runs from January 1 to December 31. The F-33 data are not adjusted to conform to a uniform fiscal year.

Transfer Items

The F-33 file contains several items involving the transfer of funds among school districts. Local Revenue From Other School Systems (D11) consists of payments received from other school districts for providing services. Payments to Other School Systems (Q11) are expenditures made to other school districts for providing services. These items are included in the summary revenue (TLOCREV and TOTALREV) and expenditure (TOTALEXP) items for each district. Data users are encouraged to refer to the NPEFS for state and national totals; compiling state and national totals from the F-33 survey data would result in double counting, due to the inclusion of the D11 and Q11 transfer items.

Other transfer items include Local Revenue From Cities and Counties (D23) and the expenditure items Payments to State Governments (L12) and Payments to Local Governments (M12). D23 revenue is included in TLOCREV and TOTALREV. L12 and M12 expenditures are included in TOTALEXP.

State Revenue on Behalf of School Districts—Employee Benefits (C38) and State Revenue on Behalf of School Districts—Other than Employee Benefits (C39) are included in the state revenue subtotal (TSTREV) and total revenue (TOTALREV). State direct support expenditures for and on behalf of school districts are included in the detailed current expenditure items.

Missing data

The F-33 data file consists of several data fields from nonfiscal CCD surveys. For example, the lowest and highest grades offered by the LEA (GSLO and GSHI) are from the Local Education Agency Universe Survey. If an LEA in the F-33 file is not included in, or can not be matched to, the nonfiscal CCD survey, missing data will occur in one or more of the following fields: the NCES LEA code (LEAID), the Federal Information Processing Standards (FIPS) state number (FIPST), FIPS county number (CONUM), the Consolidated Metropolitan Statistical Area code (CMSA), GSLO, and GSHI. Missing data in those fields are reported as "M" in the data file.

Although no fiscal data items in the F-33 files are identified as missing, it is not always possible to determine whether a reported zero represents a missing data item or a true zero. For example, small districts often have staff and other costs that cross functions, and the principal of a school in a one-school LEA may also serve as the LEA superintendent. In some cases, this person's

-

³ Variable names are included in parentheses following variable labels at first reference. Subsequent references use variable names only.

salary might only be reported under LEA administration instead of allocated to both LEA administration and school administration functions.

Coverage, response, and nonsampling error

The F-33 universe includes all public school districts in the 50 states and the District of Columbia. All 51 respondents reported data for FY 92.

Nonsampling error occurs when reporting states use different item definitions than those supplied by CCD. This can arise when states follow different education policies and are not able to map their data exactly to the CCD. An example is that one state may report revenues from student activities while another state prohibits districts from collecting such revenues. Another source of nonsampling error is the timing of the initial data collection. Variations in the fiscal year followed by states are discussed earlier in this section (see "Fiscal years").

Reference sources

Four reference sources are used in conjunction with F-33 variable description and state reporting. The first and primary source is the NCES accounting handbook, Financial Accounting for Local and State School Systems (Fowler 1990). This publication contains standard account codes, classification criteria, and definitions for reporting school system financial information, providing a system by which fiscal data can be reported in a comprehensive and uniform manner. A second reference source is Governmental Accounting, Auditing, and Financial Reporting (Gauthier 2001), which can be purchased from the Government Finance Officers Association. A third reference, The Government Finance and Employment Classification Manual (U.S. Census Bureau 2005), can be accessed online at http://www.census.gov/govs/www/class.html. These three sources allow survey examiners to maintain variable continuity between survey cycles and during survey form modifications. A fourth reference is the summary of definitions needed to respond to the survey, found directly on the F-33 survey form under "Basic Instructions and Suggestions." Here, the respondent may reference general definitions associated with public education revenue, expenditure, debt, and asset information that directly pertain to the survey form. Together, these resources help to maintain the reliability and validity of F-33 school finance data.

C. Unit Identifiers

Five variables serve as the primary identification tools with which to examine the data in this release: the NCES local education agency identification code (LEAID), the Census Bureau identification code (CENSUSID), the Federal Information Processing Standards state code (FIPST), the FIPS county number (CONUM), and the Consolidated Metropolitan Statistical Area code (CMSA).

In addition to these variables, there are four other unit characterization codes: the school-level code (SCHLEV), the CCD Agency Nonfiscal File Match (CCDNF), Agency Low Grade Offered (GSLO), and Agency High Grade Offered (GSHI).

C.1. Identification variables

LEAID

Of the five identification variables, the NCES local education agency identification code (LEAID) is the most frequently used identifier within this data file. The LEAID code has seven

characters: a two-digit state code⁴ followed by a five-digit number that is unique to each agency within the state. This identifier generally remains the same across the years of data collection.

LEAID codes allow users to match LEA finance data with data from the nonfiscal CCD surveys (for instance, the Local Education Agency Universe Survey, which contains data on students, staff, dropouts, and graduates). It is also possible to link school-level data with LEA finance data, although it is important to note that school-level finance data are not available.

LEAID matching issues

Not every record in the F-33 file will have an LEAID code. The absence of an LEAID occurs when agencies are not included in, or can not be matched to, the LEA universe file. Education service agencies (ESAs) may also lack an LEAID. ESAs provide education-related services and will typically show administrative data but no enrollment.

The existence of an LEAID code does not guarantee that a match can be made with the LEA universe file. In some cases, the nonfiscal record may be dropped (by the state coordinator) from the LEA universe file, but retained in the fiscal file because there is still some financial activity associated with that agency. Additionally, it is possible for a district to receive start-up money in advance of having students and staff, resulting in the district being reported in the F-33 survey but not in the LEA universe survey.

The flag CCDNF has been added to the F-33 file to indicate whether a record in that file matches a record in the LEA Universe file. In most NCES research and publications, only those F-33 records matching the LEA universe and having student counts greater than zero are used in analyses. For more information on the LEAID code, please see the file documentation for the school universe and LEA universe surveys, available at http://nces.ed.gov/ccd/ccddata.asp.

The student membership count (V33) is derived from the LEA universe survey, although in some cases it has been edited. For instance, it is adjusted when the student count in that survey does not reflect the number of students educated in the district. In some cases, the student count in the LEA universe survey reflects the students that the district is responsible for and not the students that are actually educated in the district. Agencies in the LEA universe survey that cannot be matched to the F-33 survey usually do not have student counts.

CENSUSID

The Census Bureau identification code (CENSUSID) consists of the following items by their position in a 9-character field:

1–2 = Census Bureau state code

3 = Agency type code 4–6 = County area code

7–9 = Parent government of school district identifier

Positions 1 and 2 of CENSUSID (for all survey cycles) represent the Census Bureau/Governments Division state codes. Table 1 includes a complete listing of these codes.

6

⁴ The two-digit state code is the FIPS state code of the LEA.

Table 1. Census Bureau state codes in the first two positions of CENSUSID, by state: Fiscal year 1992

	Census		Census
State name	state code	State name	state code
Alabama	01	Montana	27
Alaska	02	Nebraska	28
Arizona	03	Nevada	29
Arkansas	04	New Hampshire	30
California	05	New Jersey	31
Colorado	06	New Mexico	32
Connecticut	07	New York	33
Delaware	08	North Carolina	34
District of Columbia	09	North Dakota	35
Florida	10	Ohio	36
Georgia	11	Oklahoma	37
Hawaii	12	Oregon	38
Idaho	13	Pennsylvania	39
Illinois	14	Rhode Island	40
Indiana	15	South Carolina	41
Iowa	16	South Dakota	42
Kansas	17	Tennessee	43
Kentucky	18	Texas	44
Louisiana	19	Utah	45
Maine	20	Vermont	46
Maryland	21	Virginia	47
Massachusetts	22	Washington	48
Michigan	23	West Virginia	49
Minnesota	24	Wisconsin	50
Mississippi	25	Wyoming	51
Missouri	26		

NOTE: CENSUSID is the Census Bureau identification code.

Position 3 of CENSUSID represents the district's type of school government. It indicates whether a district is fiscally independent and, if not, what level of government controls its revenue-raising authority. This characteristic has not remained constant over all survey cycles.

The agency type codes are as follows:

- 0 = State government school system
- 5 = Independent school system
- 7 = County-dependent school system
- 8 = City-dependent school system
- 9 = Township-dependent school system

Positions 4–6 of CENSUSID represent the county area code. County area codes generally reflect alphabetically ordered numbering of counties for each state. Positions 7–9 uniquely identify the parent government of a school district, regardless of type. After the 1993 survey cycle, unique identifiers (positions 10 through 14) were added by the Census Bureau to further specify subunits of parent governments of school districts. For some districts, CENSUSID may change across survey cycles due to boundary changes or changes in government control.

FIPS and statistical area variables

Three variables in the F-33 file allow records to be identified with specific geographic areas:

- *FIPST* is the FIPS state code. Table 2 presents FIPS state codes by state name and state abbreviation.
- *CONUM* is the FIPS county number. It consists of the two-digit FIPS state code and a three-digit county identification number. County numbers for each state can be found at http://www.census.gov/geo/www/relate/90appd a.txt.
- *CMSA* is the Consolidated Metropolitan Statistical Area (CMSA) code. The first two digits are the alternate CMSA FIPS codes. These digits are zeros if the district is not located in a CMSA. The remaining four digits are the Metropolitan Statistical Area (MSA) or the Primary Metropolitan Statistical Area (PMSA) FIPS code.

Table 2. FIPS state codes and state abbreviations, by state: Fiscal year 1992

	State	FIPS		State	FIPS
State	abbreviation	state code	State	abbreviation	state code
Alabama	AL	01	Montana	MT	30
Alaska	AK	02	Nebraska	NE	31
Arizona	AZ	04	Nevada	NV	32
Arkansas	AR	05	New Hampshire	NH	33

Michigan	MI	26	West Virginia	WV	54
Minnesota	MN	27	Wisconsin	WI	55
Mississippi	MS	28	Wyoming	WY	56
Missouri	MO	29			

NOTE: FIPS stands for Federal Information Processing Standards.

C.2. Other unit characterization codes

School-level codes

School-level codes (SCHLEV) describe the level of education provided within each school district:

01 = Elementary school system only

02 = Secondary school system only

03 = Elementary/secondary school system

05 = Vocational or special education system

06 = Nonoperating school system

07 = Education service agency (ESA)

Most ESAs are coded as "07" regardless of whether or not they provide general, special, or vocational education services. Special, vocational, and alternative education schools are identified in the CCD school universe file, which can be linked to the F-33 file to determine the type of services an agency provides.

CCDNF

The CCDNF variable indicates whether a record in the F-33 file matches a record in the LEA universe file: "0" indicates that the record does not match; "1" indicates that the record does match.

GSLO and GSHI

Agency Low Grade Offered (GSLO) and Agency High Grade Offered (GSHI) comprise the grade span for the LEA. The GSLO variable indicates the lowest grade offered; the GSHI variable indicates the highest grade offered.

D. Weights

Weight values (WEIGHT) are assigned to records in the F-33 surveys. Surveys that were universe collections have a weight of "1" assigned to each record. All the F-33 surveys were universe surveys except for FY 93 and FY 94 collections.

E. Data File Formats, Names, and Versions

File formats

Data presented in this release are available in two formats—a SAS dataset and a tab-separated values text file.

File names

The names of the FY 92 releases are as follows:

- Sdf921a.sas7bdat (SAS dataset)
- Sdf921a.txt (text file)

The first five characters indicate the file contents and year, and the last two characters indicate the file version. "Sdf" stands for school district finance, "92" stands for FY 92, "1" indicates that

the file is a final version by NCES, and "c" indicates this is the third version of this file by NCES.

File versions

During development, CCD data file names were changed to include a two-digit version number. The preliminary files are identified by a version number beginning with 0 (zero). The final files are assigned a version number beginning with 1 (one). The character following 0 or 1 indicates the version number of the preliminary or final file. For example, a 0a file is the first (original) preliminary file, a 0b file is the second (revised) preliminary file, a 1a file is the first (original) final file, a 1b file is the second (revised) final file, and a 1a file is the third (revised) final file.

NCES standards require that a NCES publication using the data be released before the data are considered final. After a publication using the data has been released, NCES releases a final file. If NCES receives revised data from states or discovers errors in the final release data file, a revised file is released. The documentation for the revised file indicates which states or records have revised data.

This glossary applies to the Common Core of Data School District Finance Survey (F-33). When applicable, corresponding F-33 variables are listed in brackets. For additional detail, it is suggested that the data user consult the NCES accounting handbook, *Financial Accounting for Local and State School Systems* (Fowler 1990).

bond funds: Funds established to account for the proceeds of bond issues pending their disbursement. [W31]

capital outlay: Direct expenditure for construction of buildings, roads, and other improvements, and for purchases of equipment, land, and existing structures. Includes amounts for additions, replacements, and major alterations to fixed works and structures. However, expenditure for repairs to such works and structures is classified as current expenditure. [TCAPOUT is the sum of F12, G15, K09, K10, and K11]

cash and investments: Cash, deposits, and government and private securities (bonds, notes, stocks, mortgages, etc.), except holdings of agency and private trust funds. Does not include interfund loans, receivables, and the value of real property and other fixed assets. [W01, W31, W61]

CCD: Common Core of Data. A group of public elementary/secondary education surveys of NCES. CCD data are collected from the administrative records systems of each state's department of education. The CCDNF variable in the F-33 file indicates whether a record in that file matches a record in the nonfiscal CCD Local Education Agency Universe file.

Census state, NCES local revenue: See "Local revenue—NCES local, Census state revenue."

construction: Production of fixed works and structures and additions, replacements, and major alterations thereto, including the planning and design of specific projects, site improvements, and the provision of equipment and facilities that are integral parts of a structure. Includes construction undertaken either on a contractual basis by private contractors or through a government's own staff (i.e., force account). **[F12]**

current expenditure: Expenditure for Instruction (TCURINST), Support Services (TCURSSVC), and Other Elementary/Secondary Programs (TCUROTH). Includes salaries, employee benefits, purchased services, and supplies, as well as payments made by states on behalf of school districts. Also includes transfers made by school districts into their own retirement system. Excludes expenditure for Non-Elementary/Secondary Programs (TNONELSE), debt service, capital outlay, and transfers to other governments or school districts. This item is formally called "Current Expenditures for Public Elementary/Secondary Education." [TCURELSC is the sum of TCURINST, TCURSSVC, and TCUROTH]

current operation expenditure: A Census Bureau term. Includes expenditure for instruction, support services, other elementary/secondary programs, and non-elementary/secondary programs. Excludes payments made by states on behalf of school districts and transfers by some school districts into their own retirement system.

current spending: A Census Bureau term. Includes expenditure for instruction, support services, other elementary/secondary programs, and non-elementary/secondary programs. Also includes

payments made by states on behalf of school districts and transfers by some school districts into their own retirement system.

debt: Long-term credit obligations of the school system or its parent government and all interest-bearing short-term (repayable within 1 year) credit obligations. Excludes non-interest-bearing short-term obligations, interfund obligations, amounts owed in a trust agency capacity, advances and contingent loans from other governments, and rights of individuals to benefits from school system employee retirement funds. [_19H, _21F, _31F, _41F, _61V, _66V]

debt outstanding: All debt obligations remaining unpaid at the end of the fiscal year. [_41F]

dependent LEA: A local education agency (LEA) that lacks either fiscal or administrative independence. Dependent LEAs are classified by the Census Bureau as subunits of other government units, such as a state, county, municipality, or township. (See "CENSUSID" in the "User's Guide" section of this documentation.)

elementary/secondary education: Programs providing instruction, or assisting in providing instruction, for students in prekindergarten, kindergarten, grades 1 through 12, and ungraded programs.

employee benefits expenditure: Amounts paid by the school system for fringe benefits. These amounts are not included in salaries and wages paid directly to employees. Includes contributions on behalf of employees for retirement coverage, social security, group health and life insurance, tuition reimbursement, worker's compensation, and unemployment compensation. **[Z34]**

enrollment: Count of pupils on pupil rolls in the fall of the school system's fiscal year. Also called fall membership or student membership. **[V33]**

equipment: Apparatus, furnishings, motor vehicles, office machines, and the like having an expected life of more than 5 years. Equipment expenditure consists only of amounts for purchase of equipment, including both additional equipment and replacements. Expenditures for facilities that are integral parts of structures are classified as expenditures for construction or for purchase of land and existing structures. **[K09, K10, K11]**

expenditure: All amounts of money paid out by a school system, net of recoveries and other correcting transactions, other than for retirement of debt, purchase of securities, extension of loans, and agency transactions. Includes only the external transactions of a school system; excludes noncash transactions such as the provision of perquisites or other payments in-kind.

fall membership: This comprises the total student enrollment on October 1 (or the closest school day to October 1) for all grade levels (including prekindergarten and kindergarten) and ungraded pupils. Membership includes students both present and absent on the measurement day. **[V33]**

federal revenue—direct: Aid from project grants for programs such as Impact Aid (P.L. 81-815 and P.L. 81-874), Indian Education, Bilingual Education, Head Start, Follow Through, Magnet Schools, Dropout Demonstration Assistance, and Gifted/Talented. [B10, B11, B12, B13]

federal revenue distributed by state governments: Aid from formula grants distributed through state government agencies. This includes revenue from programs such as the following:

Child Nutrition Act: Includes revenues from National School Lunch, Special Milk, School Breakfast, and A La Carte programs. Does not include the value of donated commodities. **[C25]**

children with disabilities—IDEA: Revenues awarded under the Individuals With Disabilities Act (P.L. 91-230). Includes formula grants authorized in Part B of this legislation. Excludes project grants authorized in Part D. These project grants are reported in Federal Revenue—Direct. [C15]

Title I: Revenues authorized by Title I of the Elementary and Secondary Education Act of 1965 (P.L. 89-10). Includes basic, concentration, targeted, and finance incentive grants. **[C14]**

vocational and technical education: Revenues from the Carl D. Perkins Vocational Education Act (PL 101-332). Includes revenues from State Basic and Tech-Prep formula grants. **[C19]**

other federal aid distributed by the state: Includes revenues from other formula grant programs distributed through state governments, such as mathematics, science, and teacher quality under Title II (Parts A and B); safe and drug-free schools; Title V (Part A) grants; and the Adult Education Act (Part B). [C16, C17, C18, C20]

nonspecified federal aid distributed by the state: Federal revenue amounts that pertain to more than one of the above categories, but which reporting units could not break out into these categories. These revenues are included in "Nonspecified" instead of "Other." **[C36]**

fiscal year: The 12-month period to which the annual operating budget applies. At the end of the fiscal year, the agency determines its financial condition and the results of its operations.

general expenditure: All school system expenditure except employee retirement or other insurance trust expenditure.

general revenue: All school system revenue except employee retirement or other insurance trust revenue.

independent LEA: A local education agency that has both fiscal and administrative independence. (See "CENSUSID" in the "User's Guide" section of this documentation.)

instruction expenditure: Includes payments from all funds for salaries, employee benefits, supplies, materials, and contractual services for elementary/secondary instruction; excludes capital outlay, debt service, and interfund transfers for elementary/secondary instruction. Instruction covers regular, special, and vocational programs offered in both the regular school year and summer school; excludes instructional support activities as well as adult education and

community services. Instruction salaries (**Z33**) includes salaries for teachers and teacher aides and assistants. [**TCURINST**, **E13**, **J12**, **J13**]

instructional equipment (only): Includes expenditure for all equipment recorded by school systems in general or operating funds under the "instruction" function. **[K09]**

interest earnings: Interest earned on deposits and securities, including amounts for accrued interest on investment securities sold. Receipts for accrued interest on bonds issued are classified as offsets to interest expenditure. Interest earnings shown under general revenue do not include earnings on assets of employee retirement systems. **[U22]**

interest expenditure: Amounts paid for the use of borrowed money. [186]

land and existing structures: Expenditure for the purchase of land, improvements to land, and existing buildings, including the purchase of rights-of-way, payments on capital leases, title searches, and similar activity associated with real property purchase transactions. [G15]

LEA: Often called a school district, a local education agency is an education agency at the local level whose primary responsibility is to operate public schools or to contract for public school services.

local revenue: Revenue raised within the boundaries of the LEA. These revenues are primarily raised through property taxes, but also come from other types of taxes and fees. [TLOCREV is the sum of A07, A08, A09, A11, A13, A15, A20, C24, D11, D23, T02, T06, T09, T15, T40, T99, U22, and U97]

fees: Fees and payments for services provided to students, including School Lunch [A09], District Activities [A13], Textbook Sales and Rentals [A11], Transportation Fees [A08], Tuition Fees [A07], Nonspecified Fees [A15], and Other Sales and Service Revenue [A20].

cities and counties: Revenues from separate county and city governments that are transferred to the LEA. Assessments received by regional LEAs from independent school districts are included here. **[D23]**

interest earnings: Interest earnings from all funds held by the LEA. [U22]

other school systems: Payments received from other school systems, both within and outside the state, for tuition, transportation, and other services. This item should be excluded from state and national totals. **[D11]**

NCES local, Census state revenue: The C24 category is reserved for any tax item classified as state revenue by the U.S. Census Bureau and as local revenue by NCES. These taxes are identified in Appendix C—State Notes. [C24]

parent government contributions: Tax receipts and any other amounts appropriated for the support of a dependent LEA by its parent government. This includes local property taxes collected. **[T02]**

property taxes: Taxes conditioned on ownership of property and measured by its value. This includes general property taxes relating to property as a whole, real and personal, tangible and intangible, whether taxed at a single rate or at classified rates. Property taxes reported here are from independent school districts. **[T06]** Property taxes collected by a parent government for dependent LEAs are reported as Parent Government Contributions.

taxes (other than property taxes): Revenues raised by school districts that set their own tax rates (independent LEAs). These include General Sales Taxes [T09], Individual and Corporate Taxes [T40], Other Taxes [T99], and Public Utility Taxes [T15].

long-term debt: Debt payable more than 1 year after the date of issue.

long-term debt issued: The par value of long-term debt obligations incurred during the fiscal period concerned, including funding and refunding obligations. Debt obligations authorized but not actually incurred during the fiscal period are not included. [_21F]

long-term debt retired: The par value of long-term debt obligations liquidated by repayment or exchange, including debt retired by refunding operations. [_31F]

NCES: National Center for Education Statistics, an organization within the Institute of Education Sciences (IES), part of the U.S. Department of Education. NCES is the primary federal entity for collecting, analyzing, and reporting data related to education.

non-elementary/secondary expenditure: Expenditure for non-elementary/secondary education programs. Included in this category are community services, adult education, and other non-elementary/secondary programs. [TNONELSE is the sum of V70, V75, V80, and J10]

other elementary/secondary current expenditure: Current expenditure for other than instruction and support service activities. Included in this category are food services, enterprise operations, and other elementary/secondary current expenditure. [TCUROTH is the sum of E11, V60, and V65]

parent government: Governments operate using a wide variety of organizational units to fulfill their duties. The core of the government to which these organizational units are attached is often referred to as the "parent" government. Thus, a dependent agency or school often is described in terms of the relationship to its parent government.

payments to other governments: Payments to state and local governments (except LEAs), including debt service payments to agencies that incur debt instead of the LEA. [L12, M12]

payments to other school systems: Payments made to other school systems within the state and outside of the state, for tuition, transportation, and other services. This item should be excluded from state and national totals. **[Q11]**

property taxes: See "Local Revenue—Property taxes."

public school systems: Includes independent school district governments and dependent school systems. Independent school district governments are organized local entities providing public elementary, secondary, special, and vocational/technical education. Dependent school systems are classified by the Census Bureau as subunits of some other governmental unit such as a county, municipality, township, or the state.

revenue: All amounts of money received by a school system from external sources, or net of refunds and other correcting transactions other than from issuance of debt, liquidation of investments, or as agency and private trust transactions. Revenue on the F-33 excludes noncash transactions such as receipt of services, commodities, or other "receipts in-kind."

salaries and wages: Amounts paid for compensation of school system officers and employees. Consists of gross compensation before deductions from withheld taxes, retirement contributions, etc. [Z32]

school lunch charges: Gross collections from cafeteria sales to children and adults. [A09]

SEA: State education agency, the agency of the state charged with primary responsibility for coordinating and supervising public instruction.

short-term debt: Interest-bearing debt payable within 1 year from the date of issue, such as bond anticipation notes, bank loans, and tax anticipation notes and warrants. Includes obligations having no fixed maturity date if payable from a tax levied for collection in the year of their issuance. [_61V, _66V]

state revenue: State revenue paid to the school system for any purpose, restricted or unrestricted, including the following: [TSTREV is the sum of C01, C04, C05, C06, C07, C08, C09, C10, C11, C12, C13, C35, C38, and C39]

capital outlay/debt service: Revenue paid for school construction and building aid, including amounts to help school systems pay for servicing debt. [C11]

compensatory and basic skills programs: Revenues for "at risk" or other economically disadvantaged students, including migratory children. Also includes monies from state programs directed toward the attainment of basic skills and categorical education excellence and quality education programs that provide more than staff enhancements, such as materials, resource centers, and equipment. [C06]

payments on behalf of LEA: State payments that benefit school systems but are not paid directly to school systems. Includes amounts transferred into state teacher or public employee retirement funds as well as into funds for other kinds of employee benefits, such as group health, life, and unemployment compensation. This category includes state payments for textbooks and school buses that are provided to public school systems. **[C38, C39]**

special education programs: Revenues for the education of physically and mentally disabled students. **[C05]**

Appendix B—Glossary

staff improvement programs: Revenues for programs designed to improve the quantity and quality of school system staff. Examples include programs for additional teacher units, teacher benefits such as retirement and social security contributions paid directly to the school system, mentor teachers, teacher induction, staff development contracts and stipends, career ladder contracts, and salaries for specific types of instructional and support staff. **[C04]**

transportation programs: Payments for various state transportation aid programs such as those that compensate the school system for part of its transportation expense and those that provide reimbursement for transportation salaries or school bus purchases. **[C12]**

vocational programs: Revenues for state vocational education assistance programs, including career education programs. [C09]

other programs: All other state revenues that are paid directly to school systems, including funds for bilingual education, gifted and talented programs, food services, instructional materials, textbooks, computer equipment, library resources, guidance and psychological services, driver education, energy conservation, enrollment increases and losses, health, alcohol and drug abuse, AIDS, child abuse, summer school, prekindergarten and early childhood, adult education (excluding vocational), desegregation, private schools, safety and law enforcement, and community services. Where these programs are covered under the state government's general formula assistance program, revenues are shown under "General Formula Assistance" instead of "Other State Aid." [C01, C07, C08, C10, C13]

nonspecified: State revenue amounts that pertain to more than one of the above categories, but for which reporting units could not provide distinct amounts by category. These revenues are included under "Nonspecified" instead of "Other." [C35]

support services expenditure: Relates to the support services functions (series 2000) defined in *Financial Accounting for Local and State School Systems* (National Center for Education Statistics 2003). Includes payments from all funds for salaries, employee benefits, supplies, materials, and contractual services; excludes capital outlay, debt service, and interfund transfers. Includes expenditure for the following functions: [TCURSSVC is the sum of E17, E07, E08, E09, V40, V45, V85, J11, J15, V35, V50, and V55]

business/central/other support services: Expenditure for business support, central support, and other support services. Business support services include payments for fiscal services (budgeting, receiving and disbursing funds, payroll, internal auditing, and accounting), purchasing, warehousing, supply distribution, printing, publishing, and duplicating services. Central support services include planning, research, development, and evaluation services. They also include information services, staff services (recruitment, staff accounting, noninstructional in-service training, staff health services), and data processing services. [V35, V50, V55]

general administration: Expenditure for board of education and executive administration (office of the superintendent) services. **[E08]**

Appendix B—Glossary

instructional staff support: Expenditure for supervision and instruction service improvements; curriculum development; instructional staff training; and instructional support services, such as libraries, multimedia centers, and computer stations for students that are outside of the classroom. **[E07]**

operation and maintenance: Expenditure for building services (heating, electricity, air conditioning, property insurance), care and upkeep of grounds and equipment, nonstudent transportation vehicle operation and maintenance, and security services. **[V40]**

pupil support services: Expenditure for attendance record keeping, social work, student accounting, counseling, student appraisal, record maintenance, and placement services. This category also includes medical, dental, nursing, psychological, and speech services. **[E17]**

pupil transportation services: Expenditure for the transportation of public school students, including vehicle operation, monitoring riders, and vehicle servicing and maintenance. **[V45]**

school administration: Expenditure for the office of the principal services. [E09]

nonspecified support services: Expenditures that pertain to more than one of the above categories. In some cases, reporting units could not provide distinct expenditure amounts for each support services category. These expenditures are included in "nonspecified" instead of "other support services." **[V85]**

total expenditure: Total Expenditure is the sum of Current Expenditure (TCURELSC), Non-Elementary/Secondary Expenditure (TNONELSE), Capital Outlay (TCAPOUT), intergovernmental expenditure (i.e., payments to other state and local governments and other school systems), and debt service expenditure. [TOTALEXP is the sum of TCURELSC, TNONELSE, TCAPOUT, L12, M12, Q11, and I86]

total revenue: The sum of revenue contributions emerging from local, state, and federal sources. **[TOTALREV** is the sum of **TFEDREV**, **TSTREV**, and **TLOCREV**]

The following notes can be used to track known anomalies in state data reported to the collection agent. Each anomaly recorded here applies to the current fiscal year. The absence of "Notes" for a state indicates that the state's data did not contain any anomalies.

Alabama

Notes:

- Fixed charges are estimated based on salaries and wages.
- Payments to other school systems are not separately identified in expenditure data.
 These data may slightly inflate current spending amounts for individual school districts.
- State expenditure made on behalf of the public school systems is reported in the data.

Alaska

Arizona

Notes:

- Instructional equipment is combined with all equipment outlays.
- State expenditure made on behalf of the public school systems is reported in the data.

Arkansas

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

California

Notes:

- State expenditure made on behalf of the public school systems is reported in the data.
- Instructional Equipment is combined with all equipment outlays.
- For five districts in California, the state reports a single unified district in the F-33 survey, but separate elementary and secondary districts in the CCD Local Education Agency Universe Survey. California treats the two elementary and high school districts as one district in its financial accounting, but as separate districts in managing its student and staff data. An NCES ID code (LEAID) is assigned to the combined district so that it may be matched with related items in the CCD file. Table C-1 lists the combined data by district, LEAID, and enrollment.

Table C-1. California combined school districts' enrollment in the F-33 survey: Fiscal year 1992

School District	NCES ID	Enrollment
Alhambra (combined district)	0601910	20,621
Alhambra City Elementary	0601910	10,758
Alhambra City High	0601930	10,036
Modesto (combined district)	0625130	28,261
Modesto City Elementary	0625130	17,862
Modesto City High	0625150	10,856
Petaluma (combined district)	0630230	6,215
Petaluma City Elementary	0630230	2,398
Petaluma City High	0630250	4,039
Santa Cruz (combined district)	0635590	8,115
Santa Cruz City Elementary	0635590	3,260
Santa Cruz City High	0635600	5,209
Santa Rosa (combined district)	0635810	15,092
Santa Rosa Elementary	0635810	5,016
Santa Rosa High	0635830	10,213

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "School District Finance Survey (F-33)," fiscal year 1992, Version 1a.

Colorado

Connecticut

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

Delaware

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

District of Columbia

Notes:

• Capital outlay payments for land and existing structures are reported under construction.

Florida

Notes:

Payments to other school systems are not separately identified in expenditure data.
 These data may slightly inflate current spending amounts for individual school districts.

Georgia

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

Hawaii

Idaho

Notes:

- Capital outlay payments for land and existing structures are reported under construction.
- State expenditure made on behalf of the public school systems is reported in the data.
- Payments to other school systems are not separately identified in expenditure data.
 These data may slightly inflate current spending amounts for individual school districts.

Illinois

Notes:

- Capital outlay payments for land and existing structures are reported under construction.
- State expenditure made on behalf of the public school systems are reported in the data.
- Corporate personal property replacement tax revenues are included in local revenue.

Indiana

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

Iowa

Kansas

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

Kentucky

Notes:

- Fixed charges are estimated based on salaries and wages.
- State expenditure made on behalf of the public school systems is reported in the data.

Louisiana

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

<u>Maine</u>

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

Maryland

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

Massachusetts

Notes:

Fixed charges are estimated based on salaries and wages.

- State expenditure made on behalf of the public school systems is reported in the data.
- Capital outlay payments for land and existing structures are reported under construction.

Michigan

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

Minnesota

Mississippi

Notes:

- Capital outlay payments for land and existing structures are reported under construction.
- Payments to other school systems are not separately identified in expenditure data.
 These data may slightly inflate current spending amounts for individual school districts.
- State expenditure made on behalf of the public school systems is reported in the data.

<u>Missouri</u>

Montana

<u>Nebraska</u>

Nevada

Notes:

- Local school support and sales tax levied by the state are included in the total local revenue data (from sales, motor vehicle, and utility franchise tax).
- Payments to other school systems are not separately identified in expenditure data.
 These data may slightly inflate current spending amounts for individual school districts.

New Hampshire

New Jersey

Notes:

- State expenditure made on behalf of the public school systems is reported in the data.
- Fixed charges are estimated based on salaries and wages.

New Mexico

Notes:

- Fixed charges are estimated based on salaries and wages.
- State expenditure made on behalf of the public school systems is reported in the data.
- Payments to other school systems are not separately identified in expenditure data.
 These data may slightly inflate current spending amounts for individual school districts.

New York

Notes:

• Fixed charges are estimated based on salaries and wages.

North Carolina

Notes:

- State expenditure made on behalf of the public school systems is reported in the data.
- Payments to other school systems are not separately identified in expenditure data.
 These data may slightly inflate current spending amounts for individual school districts.
- Capital outlay payments for land and existing structures are reported under construction.

North Dakota

<u>Ohio</u>

Oklahoma

Notes:

- State expenditure made on behalf of the public school systems is reported in the data.
- Fixed charges are estimated based on salaries and wages.

Oregon

Pennsylvania

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

Rhode Island

Notes:

- Payments to other school systems are not separately identified in expenditure data.
 These data may slightly inflate current spending amounts for individual school districts.
- State expenditure made on behalf of the public school systems is reported in the data.

South Carolina

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

South Dakota

Notes:

• Capital outlay payments for land and existing structures are reported under construction.

Tennessee

Notes:

• Fixed charges are estimated based on salaries and wages.

Texas

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

Utah

Notes:

Payments to other school systems are not separately included in expenditure data.
 These data may slightly inflate current spending amounts for individual school districts.

Vermont

Notes:

• State expenditure made on behalf of the public school systems is reported in the data.

Virginia

Notes:

• State taxes supporting schools (one cent sales tax) are included in the local revenue data.

Washington

West Virginia

Notes:

- Fixed charges are estimated based on salaries and wages.
- State expenditure made on behalf of the public school systems is reported in the data.

Wisconsin

Notes:

• Instructional Equipment is combined with all equipment outlays.

Wyoming
