

APPENDIX A

LIST OF CLASSIFIED STRUCTURES PROGRAM

STRUCTURE CONDITION DEFINITIONS

For prehistoric or historic ruined structures, the assignment of condition should be based on the goal of maintaining the character, material, and stability of the structure as acquired, excavated, or existing.

For all other structures, condition is categorized and defined as follows:

GOOD (G) The structure and significant features are intact, structurally sound, and performing their intended purpose. The structure and significant features need no repair or rehabilitation, but only routine or preventive maintenance.

FAIR (F) The structure is in fair condition if either of the following conditions is present:

- a) There are early signs of wear, failure, or deterioration through the structure and its features are generally structurally sound and performing their intended purpose, **OR**
- b) There is failure of a significant feature of the structure.

POOR (P) The structure is in poor condition if any of the following conditions is present:

- a) The significant features are no longer performing their intended purpose, **OR**
- b) Significant features are missing, **OR**
- c) Deterioration or damage affects more than 25% of the structure, **OR**
- d) The structure or significant features show signs of imminent failure or breakdown.

UNKNOWN (U) Not enough information is available to make an evaluation.
