

Life in the Great Basin

Great Basin Teachers Workshop

The Great Basin Teachers Workshop is a fascinating way to learn about the amazing and unique biological resources of the Great Basin region. Spend six days in northeastern Nevada learning about plants and wildlife. Most of the workshop will be in the field and will be hands-on learning. (Bring your hiking shoes!)

Workshop Topics

- ~Observation Skills Development
- ~Create Authentic Scientific Investigations in the Classroom
- ~Study of Invasive Plants and Control Methods
- ~ Teach the Scientific Method
- ~Sampling Techniques
- ~Wildflower Walks, Nature Art, and Native Plant Studies
