Chapter 1:

Figure 1: The PECAD Decision Support System: Data Sources and Decision Support Tools

Figure 2: The PECAD Decision Support System: Earth System Models, Earth Observations, Decision Support Tools, and Outputs

Figure 3: The PECAD Decision Support System: The Role of Convergence of Evidence Analysis

Figure 4: The PECAD Decision Support System: Information Sources for the Convergence of Evidence Analysis

Chapter 2:

Figure 1: Configuration of CMAQ-based Decision Support System for climate change impact study

Chapter 3:

Figure 1: Example of HOMER output graphic.

Figure 2: Example of ocean wind resource assessment output for the offshore regions of Pakistan.

Chapter 4:

Figure 1: Relationship between the occurrence of black-legged tick presence at a site and minimum temperature (top) and evaluation of model (bottom)..

Top Panel: Log odds plot for relationship between *I. Scapularis* population maintenance and minimum temperature (T).

Bottom Panel: ROC Plot describing the accuracy of the autologistic model.

Figure 2: Forecast geographic distribution of the black-legged tick vector east of the 100th meridian in the United States for DSSPL.

Figure 3: Forecast change in black-legged tick distribution in Eastern and Central North America under climate change scenarios using DSSPL

Chapter 5:

Figure 1: Illustration depicting the flow of information
