

ACKNOWLEDGEMENT

This report has been peer reviewed in draft form by individuals chosen for their diverse perspectives and technical expertise. The expert review and selection of reviewers followed the OMB's Information Quality Bulletin for Peer Review. The purpose of this independent review is to provide candid and critical comments that will assist the Climate Change Science Program in making this published report as sound as possible and to ensure that the report meets institutional standards. The peer review comments, draft manuscript, and response to the peer review comments are publicly available at: www.climatechange.gov/Library/sap/sap2-1/default.php.

We wish to thank the following individuals for their peer review of this report:

Frans Berkhout, Free University of Amsterdam

Garry Brewer, Yale University

Ged Davis, World Economic Forum

Nebojsa Nakicenovic, International Institute for Applied Systems Analysis

Robert Lempert, RAND Corporation

M. Granger Morgan, Carnegie-Mellon University

John Robinson, University of British Columbia

Thomas J. Wilbanks, Oak Ridge National Laboratory

We would also like to thank the numerous individuals who provided their comments during the public comment period. The public review comments, draft manuscript, and response to the public comments are publicly available at: www.climatechange.gov/Library/sap/sap2-1/default.php.

The writing team is grateful for research assistance by Kristen Cleary, Emily Kelly, Paul Porter, Gautam Rao, and Nora Van Horssen.
