Applicants' Representations:

1. Integrity is a stock life insurance company organized under the laws of Ohio. Integrity is a wholly owned subsidiary of The Western and Southern Life Insurance Company. The Western and Southern Life Insurance Company is wholly owned by Western and Southern Financial Group, Inc., which is wholly owned by Western and Southern Mutual Holding Company.
2. Integrity Separate Account I and Integrity Separate Account II are registered under the Act as unit investment trusts (File Nos. 811-04844 and 811-07134, respectively). They are used to fund variable annuity contracts of Integrity.
3. National Integrity is a stock life insurance company organized under the laws of New York. National Integrity is a direct subsidiary of Integrity and an indirect subsidiary of The Western and Southern Life Insurance Company.
4. National Integrity Separate Account I and National Integrity Separate Account II are registered under the Act as unit investment trusts (File Nos. 811-04846 and 811-07132, respectively). They are used to fund variable annuity contracts of National Integrity.
5. The fifteen variable annuity Contracts affected by this application are flexible premium deferred variable annuities and hereinafter are collectively referred to as the "Contracts."
6. Each Contract permits allocations of value to certain fixed subaccounts and variable subaccounts that invest in specific investment portfolios of underlying mutual funds. The

Contracts currently offer between 12 and 54 portfolios. All of the Contracts currently being sold offer the same portfolios and same series of the Putnam Variable Trust Funds ("Putnam"), MFS Variable Insurance Trust ("MFS"), DWS Investments VIP Funds ("DWS"), and J.P. Morgan Series Trust II ("JP Morgan") that are the subject of this Substitution. One contract that is no longer sold currently offers 12 portfolios including only one of the replaced portfolios, and will continue to offer 12 portfolios after the substitution.

7. Each Contract permits transfers from one subaccount to another subaccount at any time prior to annuitization, subject to certain restrictions and charges described below. No sales charge applies to such a transfer of value among subaccounts. The Contracts permit up to twelve free transfers during any contract year. A fee of \$20 is imposed on transfers in excess of twelve transfers in a contract year.

8. Each Contract reserves the right, upon notice to Contract owners and compliance with applicable law, to add, combine or remove subaccounts, or to withdraw assets from one subaccount and put them into another subaccount.

9. The Applicants propose the Substitution of 16 separate portfolios, representing all the currently available portfolios, except one, of four unaffiliated companies: Putnam, MFS, DWS, and JP Morgan (the "Replaced Portfolios"). As replacements, the Applicants propose 12 portfolios: eight from Fidelity VIP Funds ("Fidelity"), one from Franklin Templeton Variable Insurance Product Trust ("Franklin"), and three from Touchstone VST Funds (the "Replacement Portfolios"). Each of these fund companies currently offers portfolios in the Contracts, and 11 of the 12 proposed replacement portfolios are currently or were previously available in the Contracts.

10. The investment objective, strategies and risks of each Replacement Portfolio are the same as, or substantially similar to, the investment objective, strategies and risks of the corresponding

Replaced Portfolio. For each Replaced Portfolio and each Replacement Portfolio, the investment objective, strategies, and risks, along with the Morningstar Style Category, are shown in the tables that follow:

11. Applicants assert that the proposed Substitutions will streamline the Contracts, creating efficiencies and reducing costs. The current portfolio structure requires the Integrity Companies to

interface with eight fund companies. Reducing the number of its fund partners from eight to five will reduce the burden on the Integrity Companies' administrative, accounting, auditing, compliance, and marketing areas and systems. In addition, Applicants maintaining the legal and administrative relationships with eight fund companies has become increasingly burdensome in light of recently enhanced compliance requirements. Focusing compliance and administrative efforts on a smaller number of fund partners is intended to reduce risk and improve controls and oversight.

12. Applicants state that the proposed Substitutions are expected to provide significant benefits to the Contract owners, including improved selection of superior portfolios and simplification of fund offerings through the elimination of overlapping and duplicative portfolios in certain asset classes, particularly large cap growth. At the same time, Contract owners will continue to be able to select among 41 funds with a full range of investment objectives, investment strategies and risks.

13. Applicants represent that every Replacement Portfolio has an equal or lower expense ratio than the corresponding Replaced Portfolio, taking into account current fund expenses and fee waivers. Service fees charged by the Replacement Portfolios pursuant to a 12b-1 plan are equal to or less than those charged by the Replaced Portfolio, and the management fees are substantially similar between the Replaced and Replacement Portfolios. Detailed expense information is set forth in the chart below. By maintaining expenses at an equal or lower level, the Integrity Companies are offering their Contract owners and prospective investors a selection of better-managed funds at the same or reduced cost.

14. Applicants submit that each of the Replacement Portfolios has demonstrated better performance than the Replaced Portfolios during the overwhelming majority of the periods measured. Detailed performance information is set forth in the Application.

Applicants Legal Analysis and Conditions

1. The Substitution will take place at the portfolios' relative net asset values determined on the date of the Substitution in accordance with Section 22 of the Act and Rule 22c-1 thereunder with no change in the amount of any Contract owner's cash value or death benefit or in the dollar value of his or her investment in any of the subaccounts. Accordingly, there will be no financial impact on any Contract owner. The Substitution will be effected by having each of the subaccounts that invests in the Replaced Portfolios redeem its shares at the net asset value calculated on the date of the Substitution and purchase shares of the respective Replacement Portfolios at the net asset value calculated on the same date.

2. The Substitution will be described in a supplement to the prospectuses for the Contracts ("Sticker") filed with the Commission and mailed to Contract owners. The Sticker will give Contract owners notice of the Substitution and will describe the reasons for engaging in the Substitution. The Sticker will also inform contract owners with assets allocated to a subaccount investing in the Replaced Portfolios that no additional amount may be allocated to those subaccounts on or after the date of the Substitution. In addition, the Stickers will inform affected Contract owners that at anytime after receipt of the notification of the Substitution and for 30 days after the Substitution, they will have the opportunity to reallocate assets from the subaccounts investing in the Replacement Portfolios to subaccounts investing in other portfolios available under the respective Contracts, without the imposition of any transfer charge or limitation and without diminishing the number of free transfers that may be made in a given contract year.

3. The prospectuses for the Contracts, as supplemented by the Sticker, will reflect the Substitution. Each Contract owner will be provided with a prospectus for the Replacement Portfolios applicable to them. Within five days after the Substitution, the Integrity Companies will each send affected Contract owners written confirmation that the Substitution has occurred.
4. The Integrity Companies will pay all expenses and transaction costs of the Substitution, including all legal, accounting and brokerage expenses relating to the Substitution. No costs will be borne by Contract owners. Affected Contract owners will not incur any fees or charges as a result of the Substitution, nor will their rights or the obligations of the Integrity Companies under the Contracts be altered in any way. The Substitution will not cause the fees and charges under the Contracts currently being paid by Contract owners to be greater after the Substitution than before the Substitution. The Substitution will have no adverse tax consequences to Contract owners and will in no way alter the tax benefits to contract owners.
5. Each Contract and its prospectus expressly discloses the reservation of the Applicants' right, subject to applicable law, to substitute shares of another portfolio for shares of the portfolio in which a subaccount is invested.
6. In all cases the investment objectives and policies of the Replacement Portfolios are sufficiently similar to those of the corresponding Replaced Portfolios that contract owners will have reasonable continuity in investment expectations.
7. The Substitution will not result in the type of costly forced redemption that Section 26(c) was intended to guard against because the Contract owner will continue to have the same type of investment choices, with better potential returns and the same or lower expenses and will not otherwise have any incentive to redeem their shares or terminate their Contracts.

8. The purposes, terms and conditions of the proposed Substitution are consistent with the protection of investors, and the principles and purposes of Section 26(c), and do not entail any of the abuses that Section 26(c) is designed to prevent.
9. Current net annual expenses in the Replacement Portfolios are lower or equal to those of the Replaced Portfolios.
10. Each of the Replacement Portfolios is an appropriate portfolio to which to move Contract owners with values allocated to the Replaced Portfolios because the portfolios have substantially similar investment objectives, strategies and risks.
11. The costs of the Substitution, including any brokerage costs, will be borne by the Integrity Companies and will not be borne by Contract owners. No charges will be assessed to effect the Substitution.
12. The Substitution will be at the net asset values of the respective shares without the imposition of any transfer or similar charge and with no change in the amount of any Contract owner's accumulation value.
13. The Substitution will not cause the fees and charges under the Contracts currently being paid by contract owners to be greater after the Substitution than before the Substitution and will result in Contract owners' contract values being moved to Portfolios with the same or lower current total net annual expenses.
14. In connection with assets held under Contracts affected by the Substitutions, the Integrity Companies will not receive, for three years from the date of the Substitutions, any direct or indirect benefits from the Replacement Portfolios, their advisors or underwriters (or their affiliates) at a rate higher than that which they had received from the Replaced Portfolios, their advisors or underwriters (or their affiliates), including without limitation 12b-1, shareholder service,

administration or other service fees, revenue sharing or other arrangements in connection with such assets. Applicants represent that the Substitutions and the selection of the Replacement Portfolios were not motivated by any financial consideration paid or to be paid by the Replacement Portfolios, their advisors or underwriters, or their respective affiliates.

15. For the two year period following the date of the Substitutions, the Applicants agree that if, on the last day of each fiscal quarter during the 2 year period, the total operating expenses of an unaffiliated Replacement Fund (taking into account any expense waiver or reimbursement) exceed on an annualized basis the net expense level of the corresponding Replaced Fund for the 2005 fiscal year, it will, for each Contract outstanding on the date of the Substitutions, make a corresponding reimbursement of expenses to the Contract Owners as of the last day of such fiscal quarter period, such that the amount of the Replacement Fund's net expenses, together with those of the corresponding Separate Account, on an annualized basis, will be no greater than the sum of the net expenses of the corresponding Replaced Fund and the expenses of the Separate Account for the 2005 fiscal year.

16. For a two year period following the date of the Substitution, the Applicants agree that the total operating expenses of each affiliated Replacement Portfolio (taking into account any expense waiver or reimbursement) will not exceed on an annualized basis the net expense level of the corresponding Replaced Fund for the 2005 fiscal year.

17. Applicants further agree that Separate Account charges on the Contracts affected by this Substitution will not be increased at any time during the 2 year period following the date of the Substitution, while the caps discussed in paragraphs 15 and 16 are in effect on the Replacement Portfolios.

18. Notice of the proposed substitution was mailed to all Contract owners on October 30, 2006. In addition, all Contract owners will be given another notice of the Substitution after it is approved by the Commission. This notice will be sent at least 30 days prior to the Substitution. All Contract owners will have an opportunity at anytime after receipt of this notification of the Substitution and for 30 days after the Substitution to reallocate accumulation value among other available subaccounts without the imposition of any transfer charge or limitation and without being counted as one of the Contract owner's free transfers in a contract year.
19. Within five days after the Substitution, the Integrity Companies will send to affected Contract owners written confirmation that the Substitution has occurred.
20. The Substitution will in no way alter the insurance benefits to Contract owners or the contractual obligations of the Integrity Companies.
21. The Substitution will have no adverse tax consequences to contract owners and will in no way alter the tax benefits to Contract owners.

Conclusion:

For the reasons and upon the facts set forth above, Applicants submit that the requested order meets the standards set forth in Section 26(c). Applicants request an order of the Commission, pursuant to Section 26(c) of the Act, approving the Substitutions.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.
