GREEN POWER CHALLENGES

Select One

Partners Purchasing 100% Green Power (U.S. Operations)

The following is a list of EPA Partner organizations that are purchasing 100 percent green power for their entire U.S. operations. Combined, these purchases amount to almost 2 billion kilowatt-hours (kWh) annually. EPA applauds these Partners for their organization-wide commitment to green power

This list was finalized as of March 30, 2007 and will be updated quarterly. The next update, scheduled for April 2007, will reflect purchase information received from Partners by April 9, 2007.

Green Power Usage (kWh)	% of Green Power	Organization Type	Provider	Resources	State
Whole Foods Market					
463,128,000	100%	Retail	Austin Energy, Community Energy, PNM, Renewable Choice Energy, Sky Energy	Biomass, Geothermal, Hydro, Solar, Wind	TX

100% Green Power Purchasers (U.S. Operations) – as of April 9, 2007

The next update, scheduled for July 2007, will reflect completed Partner purchase information received by July 9, 2007.

The following is a list of EPA Partner organizations that are purchasing 100 percent green power for their entire U.S. operations. Combined, these purchases amount to more than 3 billion kilowatt-hours (kWh) annually. EPA applauds these Partners for their organization-wide commitment to green power!

100% Green Power Purchasers (U.S. Operations) - as of July 9, 2007

The next update, scheduled for October 2007, will reflect completed Partner purchase information received by October 1, 2007.

The following is a list of EPA Partner organizations that are purchasing 100 percent green power for their entire U.S. operations. Combined, these purchases amount to more than 3 billion kilowatt-hours (kWh) annually. EPA applauds these Partners for their organization-wide commitment to green power!

Green Power Usage (kWh)	% of Green Power	Organization Type	Provider	Resources	State

100% Green Power Purchasers: as of October 1, 2007

The Green Power Partnership works with a wide variety of leading organizations — from Fortune 500 companies to local, state and federal governments, and a growing number of colleges and universities. The following Top Partner Rankings highlight the annual green power purchases of leading organizations within the United States and across individual industry sectors.

These green power purchases help reduce the environmental impacts of electricity use and support the development of new renewable generation capacity nationwide. Purchase amounts reflect U.S. operations only and are sourced from U.S.-based green power resources. Organizations can meet EPA purchase requirements using any combination of three different product options (1) Renewable Energy Certificates, (2) On-site generation, and (3) Utility green power products.

Purchase figures are based on annualized Partner contract amounts (kilowatt-hours), not calendar year totals. These rankings are updated on a quarterly schedule. Find out how your organization can partner with EPA today! To view a top partner list, select from the chart below:

The 100% Green Power Purchaser list represents those organizations that are buying green power to meet 100 percent of their U.S. organization-wide electricity use. The combined green power purchases of these organizations amounts to 4 billion kilowatt-hours of green power annually, which is the equivalent amount of electricity needed to power more than 250,000 average American households each year.
