<sup>1</sup> Includes special education, vocational/technical education, and alternative schools. Excludes prekindergarten enrollment.

<sup>2</sup> The estimates for 1999 were computed using a different procedure from that used prior to 1997–98.

<sup>3</sup> NCES employed an area frame sample to account for noninclusion of schools at the national level. However, caution should be exercised in interpreting state by state characteristics since the samples were not designed to produce such numbers.

<sup>4</sup> Insufficient data to compute a standard error.

NOTE: Standard errors for states are root mean squared errors to correct for bias in model based estimates. Tabulation includes only schools that offer first grade or above. Some data have been revised from previously published figures.
