

# APPENDIX B

## RIPARIAN AND WETLAND MANAGEMENT OF WATERSHEDS

This appendix shows the allotments addressed under Riparian and Wetland Management. The allotments are ranked into six groups based on resource conditions and whether riparian objectives are being met in the allotment. Resource conditions are reflected in the allotment categorization; Improve (I), Maintain (M), or Custodial (C). This information may change, based on site potential as determined by intensive inventories.

- Group 1 = I allotments and not meeting objectives or unknown if meeting objectives
- Group 2 = M allotments and not meeting objectives or unknown if meeting objectives
- Group 3 = I allotments and meeting objectives
- Group 4 = M allotments and meeting objectives
- Group 5 = C allotments and not meeting objectives or unknown if meeting objectives
- Group 6 = C allotments and meeting objectives

The following table shows the codes used for management category, type of plan and whether riparian objectives are being met.

Management Category = MGT	Type of Plan = PLN	Meeting Riparian Objectives = OBJ
I = Improve	E = Existing AMP	Y = Yes
M = Maintain	P = Proposed AMP	N = No
C = Custodial	PT = Potential AMP	U = Unknown
	N = Non-AMP Area
