Table 2.—Enrollment in educational institutions, by level and control of institution: Fall 1980 to fall 2005 [In thousands]

¹ Public elementary and secondary education are state estimates.

² Includes enrollments in local public school systems and in most private schools (religiously affiliated and nonsectarian). Excludes home-schooled children. Based on the National Household Education Survey, the home-schooled children numbered approximately 850,000 in the spring of 1999. Excludes preprimary pupils in schools that do not offer first grade or above.

3 Estimated.

⁴ Includes kindergarten and some nursery school pupils.

⁵Enrollment for 1996 through 1999, and the projections are for degree-granting institutions. All other years, are for institutions of higher education.

⁶ Includes unclassified students below the baccalaureate level.

7 Includes unclassified postbaccalaureate students.

NOTE: Degree-granting enrollment projections are based on the middle alternative projections published by the National Center for Education Statistics. Data for degreegranting institutions for 1999 imputed using alternative procedures. (See *Guide to Sources* for details.) Detail may not sum to totals due to rounding. Some data have been revised from previously published figures.
