COMMUNICATION SITES

RECOMMENDATION

L - 5.1 CS

Allow communication site development on Davis Mountain and Johnson Hill in conjunction with communication facilities already constructed.

Support Needs; Appraisal

RATIONALE

Communication site development creates an unpleasant visual impact in many cases. These sites are well suited for communication site development due to the topography and they are well removed from areas frequented by the public. The use of one facility for several users will reduce the cluttered effect often-times associated with communication sites. Allowance at these locations will speed up processing time since the impacts will already have undergone analysis.

Multiple-Use Analysis

No conflicts with other activities exist for this recommendation.

Multiple-Use Recommendation

Accept Step I Recommendation

Support Needs:

Appraisal.

Reasons

See Rationale.

Alternatives Considered

1. No development.
2. Development of only one site.

MANAGEMENT FRAMEWORK PLAN - STEP 1
ACTIVITY OBJECTIVES

Name (MFP)	Bennett Hills-Timmerman Hill
Activity	
Lands	
Objective Number	L-6

Objective:

Agricultural Trespass

Eliminate agricultural trespass situations within the planning units by F.Y.'78, by processing applications filed under the Act of September 26, 1968. Make further identification of trespass situations and initiate trespass action against trespassers by 1985.

Rationale:

The Act of September 26, 1968, expired on September 25, 1971; therefore, all applications filed under its provisions are at least 4 1/2 years old. Prompt processing of Public Sale applications under the Unintentional Trespass Act and the prompt identification and termination of illegal agricultural trespass not covered in the Act will serve to alert the public that the BLM will not condone this use. Only when these trespasses are cleared up will the BLM be able to effectively manage those lands.
