Enclosed for your review is the proposed Cascade Resource Management Plan and Final Environmental Impact Statement. This plan outlines the proposed management of 487,466 acres of public land in the Cascade Resource Area. The Proposed Plan is a refinement of the Preferred Alternative presented in the draft Resource Management Plan/Environmental Impact Statement published in August 1986. The Proposed Plan is BLM's proposed alternative.

With the exception of the wilderness recommendations, all parts of this Proposed Plan may be protested. Protests should be sent to the Director (760), Department of the Interior, Bureau of Land Management, 18th and C Streets N.W., Washington, D.C. 20240, prior to September 21, 1987 -- the end of the 30-day protest period -- and should include the following information:

- The name, mailing address, telephone number, and interest of the person filing the protest.
- A statement of the issue or issues being protested.
- A statement of the part or parts being protested
- A copy of all documents addressing the issue or issues that were submitted during the planning process by the protesting party or an indication of the date the issue or issues were discussed for the records.
- A short concise statement explaining why the BLM Idaho State Director's proposed decision is wrong.

At the end of the 30-day protest period, the Proposed Plan, excluding any portions under protest, shall become final. Approval shall be withheld on any portion of the plan under protest until final action has been completed on such protest. The final resource management plan is scheduled to be published with the record of decision in late 1987.

Sincerely yours,
