

8.8 Demons Drop Class III - Large, curling waves appear here at some flows. Avoid the center area turbulence - it indicates a hole.

7.5 Wright-Way Drop Class III - This sharp drop, with big waves, takes you into the left wall at the bottom. Long, Class II rapids await you about 100 yards below. Look for two small camp spots after the rapids.

7.1 Green Canyon - Starts immediately after Shorts Bar. A Class II rapids, which piles into the wall on the right, signals the entry into this 2.5-mile long canyon.

7.2 Green Canyon Rapids Class II - Tricky in lower water, with numerous rocks and holes.

6.8 Schwartz Bar - Remnants of past mining activity are visible on the left. The two large camp spots here are the last before Green Canyon.

7 Shorts Bar - There is a large pictograph site at the lower end of the bar.

5.8 Woodruff Gulch - There are several large camp spots in this area
