Importance: High

Changes are highlighted in the spreadsheet

In addition to the consumer end of the business, here are some of the activities going on in the business space.....

AOL - We are working with AOL-Enterprise to ship Outlook as their preferred Mail client. FrontPage extensions should be supported by PrimeHost (for Business Web hosting) shortly, ANS (owns part of backbone) is preparing bundled solutions for their customers and are evaluating NT/IE/FP.

CIS - Offering Exchange and NT/PPTP services.

Prodigy - none.

We really need to fill out the following information for Jeffr's NA MYR.

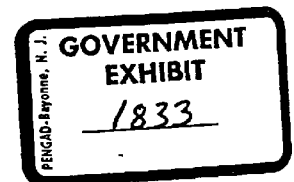

I have started it but we need to complete:

- 1.) Better info on our telco accounts
- 2.) Better info (check numbers) on our OLS accounts
- 3.) Provide clear notes on who has licensed IE (yes or no) and who has done a referral server deal with us and at what minimum % for IE

Can we please complete this ASAP????

Internet Provider #s for
NA xl...

Thanks,
Cam
