- 1 Underlined packs are counted as breeding pairs toward recovery goals.
 - 2 Excludes wolves killed in control actions.
 - 3 Does not include pups that disappeared before winter.
 - 4 Collared wolves that became missing in 2008.
 - 5 Includes agency lethal control and take by private citizens under 10j regulation.
 - 6 Includes only domestic animals confirmed killed by wolves.
 - 7 Pack did not exist on December 31, 2008 and is not displayed on the map; see pack narrative.
 - 8 See narrative for more information.
- # Border pack shared with adjacent state or province; dens in Idaho and majority of time in Idaho.
- % Pack composition figures are extrapolations of data collected during summer, where number of adults is calculated by subtracting verified pup production from year-end pack size estimates; these estimates do not account for undocumented pup mortalities, and therefore may underestimate the number of adults in a pack.
