SECOND ERRATUM

Adopted: January 12, 2001

Released: January 12, 2001

By the Office of Engineering and Technology:

1. On December 8, 2000, the Commission released a *First Report and Order and Further Notice of Proposed Rule Making* in the above captioned proceeding. The proposed rule section 101.105(a)(4), "Interference Protection Criteria," in Appendix E, "Proposed Rules," did not accurately reflect the options as discussed in paragraphs 269-270. Therefore, with this Erratum we correct proposed rule section 101.105(a)(4) to conform with the text of the *Further Notice of Proposed Rule Making*.

2. Proposed section 101.105(a)(4) in Appendix E is changed to read as follows:

OPTION ONE: (a)(4) MVDDS stations must operate on a non-harmful interference basis to Direct Broadcast Satellite (DBS) receivers. Interference to DBS receivers shall not increase the total outage of any system by more than XX per year. Except for public safety entities, harmful interference protection from MVDDS stations to incumbent point-to-point 12 GHz fixed stations is not required. Incumbent point-to-point private operational fixed 12 GHz stations, except for public safety entities, are required to protect MVDDS stations under the process described in Section 101.103(d) of this subpart.

OPTION TWO: (a)(4) MVDDS stations must operate on a non-harmful interference basis to Direct Broadcast Satellite (DBS) receivers. Interference to DBS receivers shall not increase the total outage of any system by more than XX minutes per year. Except for public safety entities, harmful interference protection from MVDDS stations to incumbent point-to-point 12 GHz fixed stations is not required. Incumbent point-to-point private operational fixed 12 GHz stations, except for public safety entities, are required to protect MVDDS stations under the process described in Section 101.103(d) of this subpart.

Federal Communications Commission

OPTION THREE: (a)(4) MVDDS stations must operate on a non-harmful interference basis to Direct Broadcast Satellite (DBS) receivers. MVDDS shall not decrease the C/I of any system below XX. Except for public safety entities, harmful interference protection from MVDDS stations to incumbent point-to-point 12 GHz fixed stations is not required. Incumbent point-to-point private operational fixed 12 GHz stations, except for public safety entities, are required to protect MVDDS stations under the process described in Section 101.103(d) of this subpart.

3. Accordingly, IT IS ORDERED that this Erratum is issued pursuant to Section 0.241 of the Commission's rules on delegated authority, 47 C.F.R. § 0.241.

FEDERAL COMMUNICATIONS COMMISSION

Bruce Franca
Acting Chief
Office of Engineering and Technology
