USDA Forest Service Wildland Fire Chemical Systems

WFCS Wildland Fire Chemicals

We provide technical support to Forest Service Fire and Aviation Management (F&AM) on matters relating to fire chemical products by:

- **Developing and administering submission procedures and specifications for evaluation of wildland fire chemical products submitted by private industry.**
 - I am not sure which type of product I have. [Help me decide.](#)
 - I know what type of product I have. [Tell me how to have it evaluated](#) and the requirements for product evaluation:
 - [Long-Term Retardants](#)
 - [Class A Foam Fire Suppressants](#)
 - [Water Enhancers](#)
 - I want to know how specific tests will be performed. [Show me the pro...](#)
- **Maintaining Qualified Products Lists (QPL) of fire chemical products that meet Forest Service requirements.**
 - [Long-Term Retardants—U.S.D.A. Forest Service](#)
 - [Class A Foams](#)
 - [Water Enhancers](#)
 - [Long-Term Retardants—Canada](#)
- **Providing technical and product information on wildland fire chemical products to the public.**
 - [Retardant Base Information](#)
 - [Product Information](#)
 - [Product Performance and Test Results](#)
 - [Supplier Contacts](#)
- **Monitoring fire chemical products purchased under the contract for the [Lot Acceptance and Quality Assurance Program \(LAQA\)](#).**
 - [Protecting the safety of fire fighting personnel, the general public, and the environment.](#)
 - [Application Guidelines](#)
 - [Reporting Fire Chemicals in Waterways or T&E Species Habitats](#)
 - Environmental Briefs and Information
 - [Toxicity and Environmental Concerns—General Information](#)
 - [Treating Water to Control the Spread of Invasives](#)
 - [Home and Yard Clean Up](#)
