

# READ File / Systems Safety Information

WEB SITE: <http://www.blm.gov/nifc/st/en/prog/fire/Aviation/safety.html>

The screenshot shows a Windows Internet Explorer browser window displaying the BLM Aviation Safety page. The browser's address bar shows the URL: <http://www.blm.gov/nifc/st/en/prog/fire/Aviation/safety.html>. The page header includes the BLM logo and the text "U.S. DEPARTMENT OF THE INTERIOR BUREAU OF LAND MANAGEMENT". The main content area features a banner with the text "Fire and Aviation" and a search bar. A left sidebar contains a navigation menu with items like "What We Do", "Visit Us", "Information Center", "Our Offices/Centers", "Get Involved", and "Contact Us". The main content area lists various resources, including "Air Awards", "Aviationweek.com", "AirSafe.com", "FAA Home Page", "FAA Human Factors", "Flight Safety Foundation", "Helicopter Association International", "Landings Web Page", "NTSB", "OAS Safety Page", "Risk Assessment", "SAFECOMS", "System Safety", "2008 System Safety Aviation Guide (PDF)", "Read File", "Six Minutes for Safety", "USDA Aviation Safety Center", and "Interagency Airspace Coordination".

Two callouts are present: a pink speech bubble pointing to the "Read File" link under "System Safety" with the text "READ File and Six Minutes for Safety (Aviation)", and a pink oval callout with the text "Systems Safety Information" pointing to the "System Safety" link.

Windows taskbar at the bottom shows the Start button, several open applications (blm.bat on \\ILM..., Gila District Signo..., Joan M Galanis..., jgalanis on 'lmazs..., 3 Microsoft Offi..., Aviation Safety...), and the system tray with the time 10:31 AM.
