SUPPLEMENTARY INFORMATION: The Director of National Security Space Office, Office of the Under Secretary to the Air Force, United States Air Force was appointed as the Compliance Officer for Department of Defense in keeping with a decree issued by the United States District court, District of Columbia. The Anti-Trust Division of the Department of Justice brought suit against Northrop-Grumman Corporation to prevent their merger with TRW, Incorporated because it would substantially reduce competition in production of certain satellites. However, the merger was permitted with the agreement that Northrop-Grumman Corporation would comply with certain prescribed behaviors decreed in the Final Judgment. The Compliance Division was established within NSSO to monitor the Northrop-Grumman Corporation's compliance with the Final Judgment on behalf of the Director, who has contracted with the Aerospace Corporation for much of the administrative support.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purposes of this program are to (1) help address State-identified needs for highly qualified personnel—in special education, related services, early intervention, and regular education—to work with infants or toddlers with disabilities, or children with disabilities; and (2) ensure that those personnel have the skills and knowledge—derived from practices that have been determined through research and experience to be successful—that are needed to serve those children.

Priority: In accordance with 34 CFR 75.105(b)(2)(v), this priority is from allowable activities specified in the statute (see sections 662(d) and 681(d) of the Individuals with Disabilities Education Act (IDEA)).

Absolute Priority: For FY 2007 this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is: *National Early Childhood Training Enhancement Center Background:*

In growing numbers, infants, toddlers, and preschoolers with disabilities are joining their peers without disabilities in natural settings such as childcare centers, Early Head Start and Head Start programs, and public and private preschools. Early interventionists, early childhood educators and special educators, related services providers, and childcare personnel share responsibility for ensuring high quality services and improved outcomes for young children with disabilities. To effectively meet the learning and

developmental needs of young children (birth through five) with disabilities, all of these professionals must have knowledge and training in early intervention and early childhood special education, including how to work with families with young children.

Recent data collected by the Office of Special Education Programs (OSEP)-funded Center to Inform Personnel Preparation Policy and Practice in Early Intervention and Preschool Education (http://www.uconnuconnu.org/per_prep_center/index.html) suggest, however, that programs have serious difficulty finding and hiring personnel with adequate training in early intervention or early childhood special education. In addition, many early care and education personnel do not have the training or knowledge to effectively meet the diverse developmental and educational needs of young children with disabilities in natural environments. In order to meet the early learning and developmental needs of young children more effectively, future and current early childhood personnel must have access to training, educational resources, and materials that reflect evidence-based practice in the fields of early intervention and early childhood education.

In particular, educators and service providers must have: (1) Knowledge of authentic assessment practices such as collecting work samples and observational records, which go beyond assessment of discrete skills to assessments that capture the depth of children's functional abilities within their daily context; (2) training in service coordination and collaborative models of service delivery (this is particularly important as specialized service providers go into natural environments, such as childcare centers and preschools, where staff may not be as knowledgeable about evidence-based practices in working with children with disabilities and their families); and (3) knowledge of interventions and practices that support the development of school readiness skills, particularly in the areas of language, early literacy, and social-emotional development.

To this end, the Assistant Secretary proposes a National Early Childhood Training Enhancement Center for preservice higher education faculty and professional development providers who train early interventionists, early childhood educators and special educators, related services providers, and childcare personnel (the targeted constituent group) to work with infants, toddlers, and preschoolers with disabilities (birth through five) and their families.

Priority

The purpose of this priority is to address the need for high quality early childhood personnel and ensure that they have the skills and knowledge to provide collaborative services to meet the developmental and learning needs of infants, toddlers, and preschoolers with disabilities. The goal of this priority is to establish a National Early Childhood Training Enhancement Center (Center) that will identify, develop, and disseminate evidence-based training modules for use by higher education faculty, including community college faculty, and professional development providers who provide ongoing training to the targeted constituent group. The Center must provide technical assistance to programs providing preservice preparation and professional development. The Center also must ensure that these programs have ready access to current materials and resources necessary to support the development of personnel to effectively work within a collaborative model to effectively serve young children with disabilities in natural environments.

The Center must:

(a) *Identify needs.* Identify knowledge and skill enhancement needs of preservice trainees and practicing personnel in the targeted constituent group that are most critical to ensuring that these personnel are well prepared to meet the developmental and learning needs of young children with disabilities. As part of this needs-identification process, the Center must consult with, representatives of professional organizations, faculty from both 4-year and 2-year programs engaged in preservice training, professional development providers, students in training, practicing personnel, families of young children with disabilities, and other stakeholders as appropriate. In addition to the needs identified through this process, the Center must, as appropriate to the roles of the targeted constituents, focus on the following topic areas: Authentic assessment of young children, collaborative service delivery, working with families of young children with disabilities, and knowledge of intervention and practices that support the development of school readiness outcomes for young children with disabilities, especially in the areas of language, early literacy, and social-emotional development.

(b) *Identify appropriate existing resources.* Identify existing resources that represent state of the art, evidence-based knowledge and practice in early

intervention and early childhood education, including resources that have been developed through early childhood discretionary grants or contracts funded by OSEP, Head Start and the Child Care Bureau in the Department of Health and Human Services, or other relevant agencies. Additionally, the Center must review and consider for incorporation, into proposed training modules and supporting materials, appropriate early childhood products that have been developed by projects that are part of the OSEP Technical Assistance Network, including State Personnel Development projects, Parent Training and Information Centers, and other OSEP-funded technical assistance projects.

(c) *Identify and develop training modules.* Identify and evaluate existing training modules in the field using established criteria and develop content-rich training modules that address the critical knowledge and skill-enhancement needs identified through activities conducted under paragraph (a); reflect evidence-based practices and scientifically-based research; are designed to maximize adult learning; and integrate existing resources identified in paragraph (b). In addition, the training modules must be designed for ease of integration into existing curricular and experiential opportunities in the targeted preservice preparation programs or structured to be effective resources for providing professional development opportunities for personnel already in practice. Training modules also must be identified and developed in collaboration with content experts, through sub-contractual or consultative arrangements with the Center, to ensure that module content is current and reflects promising and effective practices. Each proposed content expert and module topic must be approved by OSEP prior to the initiation of any development activity.

(d) *Disseminate training modules and provide targeted technical assistance.* Develop and implement mechanisms that will result in broad, effective dissemination and use of training modules identified or developed in paragraph (c). The Center must make all training modules and supporting materials available on a dedicated Web site that is easily searchable by topic and is available for use to everyone at no cost. As an example of previous OSEP-supported work that utilizes this approach, please see the following Web site: <http://iris.peabody.vanderbilt.edu/>. The Center must develop a dissemination partnership with at least one publisher who links (without cost to

the Center or additional costs to the consumer) the materials and resources created by the Center to its products and services. The Center must develop targeted mechanisms for the dissemination and utilization of products by preservice personnel preparation programs in institutions of higher education, including community colleges, OSEP-funded State Personnel Development grantees, and professional development providers whose services target personnel serving infants, toddlers, and preschoolers with disabilities. The Center must also develop efficient, effective strategies for providing technical assistance to assist higher education faculty and professional development providers in the use of the training modules created by the Center.

(e) *Conduct comprehensive project evaluation.* Design and conduct a comprehensive evaluation of the work, accomplishments, outcomes, impact, and effectiveness of the Center. This evaluation must be designed to provide information to guide ongoing refinements to the structure, activities, workflow, and products that will improve the ultimate impact and effectiveness of the Center. This comprehensive evaluation must also be designed to measure the impact of the Center's work on the goal of enhancing the knowledge and skills of the targeted constituent group so that they can effectively provide young children with disabilities the services and supports necessary for them to fully participate in natural environments, meet their developmental and learning potential, and be prepared to enter school ready to learn.

(f) *Establish an advisory board.* In designing and carrying out the required activities of the Center, the project must establish and make ongoing and effective use of a Board of Advisors. The make-up of the Board of Advisors should include as appropriate: Professional organization representatives, higher education faculty, practicing personnel, professional development providers, family members of young children with disabilities, State and local IDEA Part C and section 619 coordinators, federally supported technical assistance providers, and federally supported higher education project directors.

(g) *Maintain communication with OSEP.* The project should maintain ongoing communication with the OSEP Project Officer, including monthly conference calls. The project must also budget for a three-day Project Directors' meeting in Washington, DC during each year of the project plus additional two-

day trips annually to Washington, DC to attend additional national meetings and to meet and collaborate with the OSEP Project Officer and other funded projects for purposes of cross-project collaboration and information exchange.

Fourth and Fifth Years of the Project

In deciding whether to continue funding the Center for the fourth and fifth years, the Secretary will consider the requirements of 34 CFR 75.253(a), and in addition—

(a) The recommendation of a review team consisting of experts selected by the Secretary. The review will be conducted in Washington, DC during the last half of the project's second year; projects must budget for travel expenses associated with this one-day intensive review;

(b) The timeliness and effectiveness with which all requirements of the negotiated cooperative agreement have been or are being met by the Center; and

(c) The degree to which the Center's products reflect evidence-based practices and scientifically-based research and address the identified critical knowledge and skill enhancement needs within the field.

Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (APA) (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on a proposed priority. However, section 681(d) of IDEA makes the public comment requirements of the APA inapplicable to the priority in this notice.

Program Authority: 20 U.S.C. 1462 and 1481(d).

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99.

V. Application Review Information

1. *Selection Criteria:* The selection criteria for this competition are from 34 CFR 75.210 and are listed in the application package.

2. *Treating A Priority As Two Separate Competitions:* In the past, there have been problems in finding peer reviewers without conflicts of interest for competitions in which many entities throughout the country submit applications. The Standing Panel requirements under IDEA also have placed additional constraints on the availability of reviewers. Therefore, the Department has determined that, for some discretionary competitions, applications may be separated into two or more groups and ranked and selected for funding within the specific group. This procedure will ensure the availability of a much larger group of reviewers without conflicts of interest. It also will increase the quality, independence and fairness of the review process and permit panel members to review applications under discretionary competitions for which they have also submitted applications. However, if the Department decides to select for funding an equal number of applications in each group, this may result in different cut-off points for fundable applications in each group.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may also notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118.

4. *Performance Measures:* Under the Government Performance and Results Act of 1993 (GPRA), the Department has developed annual performance measures that will yield information on various aspects of the technical assistance and dissemination activities currently being supported under IDEA Part D. These measures will be used for the National Early Childhood Training Enhancement Center competition. They are: The percentage of products and services deemed to be of high quality by an independent review panel of qualified experts or individuals with appropriate expertise to review the substantive content of the products and services; the percentage of products and services deemed to be of high relevance to educational and early intervention policy or practice by an independent review panel of qualified members of the target audiences of the technical assistance and disseminations; the percentage of all products and services deemed to be of high usefulness by target audiences to improve educational or early intervention policy or practice.

We will notify grantees if they will be required to provide any information related to these measures.

Grantees will also be required to report information on their projects' performance in annual reports to the Department (34 CFR 75.590).

No. 06-1350 (D. D.C.). On July 31, 2006, Plaintiffs filed a complaint alleging that EPA had a mandatory duty under 42 U.S.C. 7661(b)(2), to respond within 60 days to Plaintiffs Title V petition requesting that EPA object to the proposed Tennessee Valley Authority's ("TVA") Paradise Fossil Plant Title V Operating Permit ("TVA Paradise Title V Operating Permit"). The complaint also alleges that EPA had a mandatory duty under 42 U.S.C. 7661(b)(3) and (c) and 40 CFR 71.4(e) to modify, terminate, or revoke, or issue or deny, the proposed TVA Paradise Title V Operating permit and that EPA has unreasonably delayed modifying, terminating, or revoking, or issuing or denying, the permit. The complaint also alleges that EPA has unreasonably delayed responding to the Plaintiffs' petition for rulemaking requesting, pursuant to 5 U.S.C. 553(a), that EPA promulgate a rule to amend the Kentucky State Implementation Plan to fully incorporate the credible evidence rule. Under the terms of the proposed settlement agreement, EPA shall by May 25, 2007, take final action to grant or deny Plaintiffs' April 2005 petition for rulemaking. The proposed settlement agreement also provides that EPA shall conclude a completeness determination within 60 days after receipt of TVA's forthcoming Title V federal operating permit application for the Paradise Plant. Within 18 months after determining the application is complete, EPA shall take final action to issue the permit.

SUPPLEMENTARY INFORMATION:

I. Additional Information About the Proposed Settlement

On February 18, 2005, EPA formally objected to the issuance of the proposed TVA Paradise's Title V Operating Permit submitted by the Kentucky Division of Air Quality ("KDAQ"). On April 21, 2005, Plaintiffs filed a petition requesting that EPA object to the proposed TVA Paradise Title V Operating Permit and a petition for rulemaking requesting that EPA amend the Kentucky State Implementation Plan to fully incorporate the credible evidence rule. On August 18, 2006, KDAQ withdrew the proposed TVA Paradise Title V Operating Permit. Subsequently, EPA initiated a Part 71 permit process for the TVA Paradise Plant and on December 14, 2006, EPA published notice in the **Federal Register** denying Plaintiffs' Title V petition. EPA has filed a motion to dismiss Plaintiffs' Complaint.

The settlement agreement, which is subject to CAA section 113(g), provides that by May 25, 2007, EPA shall take final action to grant or deny Plaintiffs' petition for rulemaking. The agreement also provides that within 60 days after receipt of TVA's forthcoming permit application to EPA for a Title V permit for the Paradise Plant, EPA shall conclude a completeness determination. Within 18 months after determining the application is complete, EPA shall take final action to issue the permit. Should KDAQ submit a new proposed CAA Title V Operating Permit for the TVA Paradise Plant that EPA determines adequately addresses the issues raised by EPA in its February 18, 2006 objections, EPA must notify Plaintiff's counsel with written notice that the commitments with regard to the Title V Federal Operating Permit for the TVA Paradise Plant are null and void. Within 20 days after EPA has fulfilled the above obligations or after agreement becomes null and void, Plaintiffs shall file a motion to dismiss with prejudice.

For a period of thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the proposed settlement agreement from persons who were not named as parties or intervenors to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed settlement agreement if the
