

Proposal Content

The proposal must state that the proposer has the legal corporate authority to perform all of the services covered by the DBA agreement.

The proposal must contain assurances that no conflicts of interest or apparent conflicts of interest exist. The proposal must describe the review and analysis that led the proposer to this conclusion. The proposer must include in its proposal resumes of owners and proposed program managers.

The proposal must describe the proposer's experience with respect to each of the DBA's tasks as described in this notice, including in particular any current relevant experience the proposer may have. The proposal must discuss existing resources available to perform these duties, and the need (if any) to hire and train additional staff. Since the DBA is expected to perform these duties for an extended period, the proposal must discuss similar programs and tasks which the proposer currently expects to perform for an extended period.

The proposal must include the proposer's approach to performing each of the DBA's tasks, and must reflect the proposer's review and understanding of the current program documents and processes. Innovative presentations will convey the proposer's understanding of the proposed duties and will be favorably received.

The proposal must also include information with respect to the proposer's financial strength and copies of the proposer's last five annual audited financial statements. The proposal must contain factors that assure the proposer's existence for an extended period, including, for example, issuance of other long-term non-callable debt, or other long-term ventures which will require the long-term existence of the company.

The proposal must discuss the proposer's history in working with HBCUs, particularly with respect to experience relating to HBCU physical facilities, financial planning, and the HBCUs' educational mission. It must also describe actions the proposer has taken and plans the proposer has made for recruiting and outreach programs to insure a diverse applicant pool in the proposer's employment, subcontracting, and partnering activities, as well as the success the proposer has achieved in attracting diverse applicants.

Since the Department desires that the HBCU Capital Financing Program not experience any lapse in its outreach efforts, the proposer's demonstrated ability to become fully operational as the DBA immediately upon

appointment will be important. The appointment will become effective as of the date of expiration of the incumbent DBA's appointment, which will occur in mid-December, 2000.

Bonneville Power Administration

Bonneville Power Administration's Proposed Adjustment to the 1996 Unauthorized Increase Charge, Public Hearing, and Opportunity for Public Review and Comment

AGENCY: Bonneville Power Administration, DOE.

ACTION: Notice of proposed adjustment to the 1996 unauthorized increase charge. BPA File No: UAI-96R.

SUMMARY: The Pacific Northwest Electric Power Planning and Conservation Act (Northwest Power Act) provides that Bonneville Power Administration (BPA) must establish and periodically review its rates so that they are adequate to recover, in accordance with sound business

principles, the costs associated with the acquisition, conservation, and transmission of electric power, and to recover the Federal investment in the Federal Columbia River Power System (FCRPS) and other costs incurred by BPA.

By this notice, BPA announces its proposed adjustment to the 1996 Unauthorized Increase Charge. The Unauthorized Increase Charge is a penalty charge that applies to any purchaser taking demand and/or energy in excess of its contractual entitlement. The 1996 Unauthorized Increase Charge was set at a level intended to deter customers who had their own generation or a contract obligation to supply power to their load from exceeding their BPA contractual entitlements to Federal power.

However, since 1996 a robust wholesale market for power has developed which has recently produced high and volatile prices. These market changes render the current level of the 1996 Unauthorized Increase Charge for energy and demand inadequate to deter customers from taking demand and energy in excess of the amount of Federal power to which they are contractually entitled. This action is to adjust the 1996 Unauthorized Increase Charge so that it will operate as intended—as a penalty charge, rather than as an attractive alternative to purchasing power at existing wholesale power market prices.

DATES: Proposed hearing dates are supplied in Supplementary Information, Section I.C. Close of public comments is November 15, 2000.

ADDRESSES: Written comments should be submitted to: Mr. Michael Hansen, Public Involvement and Information Specialist; Bonneville Power Administration; P.O. Box 12999; Portland, Oregon 97212.

FOR FURTHER INFORMATION CONTACT: Interested persons may also call (503) 230-4328 or call toll-free 1-800-622-4519. Documents will be available for public viewing after October 6, 2000, at BPA's Public Information Center, BPA Headquarters Building, 1st Floor; 905 NE. 11th, Portland, Oregon, and will be provided to parties at the prehearing conference to be held on October 6, 2000, from 9 a.m. to 12 p.m., Room 223, 911 NE. 11th, Portland, Oregon. The documents will also be available on BPA's website at www.bpa.gov/power/ratecase. Ms. Diane Cherry, Power Rates Process Manager, is the official responsible for the development of BPA's rates. Ms Cherry may be contacted as indicated above.
