

The Tomales Bay area shown in dark blue is part of Golden Gate National Recreation Area. Check with a national park ranger about special regulations that apply here.

High Tide
Check tide tables before walking on beaches. Rising water can trap you against a cliff with no possibility of escape.

Heavy Surf
The pounding surf and rip currents are treacherous, especially at McClures Beach, Kehoe Beach, and Point Reyes Beaches, North and South. Stay away from the water.

Steep Cliffs
The cliffs of Point Reyes are likely to crumble and slide. Climbing on them or walking near the edge invites catastrophe. Because of falling rocks, walking below cliffs is dangerous. Keep away!
