Sector Points-of-Contact

EPA staff are Sector Points-of-Contact. We are a resource for regulators and businesses.

As sector experts, analysts, and advisors, we facilitate government-industry communications and develop strategies with our partners to:

- *Overcome barriers to environmental improvement*
- *Promote the use of Environmental Management Systems*
- *Measure performance*

The Sector Strategies Program is
Part of EPA's National Center for
Environmental Innovation

NCEI provides a testing ground for innovative ideas that advance environmental protection. The Center assists EPA programs and regions in adopting innovative approaches that support improved performance.

ation

Results

Promote Use of Environmental Management Systems (EMS)

Partners design strategies to:

- Evaluate EMS needs and capabilities of each sector
- Create the right EMS tools for each sector
- Achieve widespread EMS adoption throughout each sector

Sector associations provide leadership and direction.

A Systems Approach: Plan, Do, Check, Act

An EMS is a proven process to manage all the environmental aspects of your operations. You assess your impacts, set improvement targets, carry out plans to achieve them, and monitor results.

Overcome Barriers to Environmental Improvement

Partners find creative solutions to environmental problems by:

- Analyzing factors that affect environmental performance in each sector
- Crafting options for innovative regulatory and policy change
- Acting upon ideas that are most likely to solve significant problems

Better understanding brings smarter environmental protection.

Measure Performance

Partners track progress by:

- Selecting appropriate performance indicators for each sector
- Gathering information on trends, using existing data where possible
- Analyzing and reporting on environmental gains and burden reduction

Sector Strategies shows how partnerships can produce results.

For More Information

Visit the Sector Strategies Program Web site at www.epa.gov/sectors or call (202) 566-2992.

If you are in one of the participating sectors, contact your trade or service association to get more information or become involved.

Our Association Partners

Agribusiness

National Food Processors Association

Cement Manufacturing

Portland Cement Association

Colleges & Universities
