EPA Tracked Sites in New Mexico with Utility Scale Wind Energy Generation Potential

Wind Resource

1 0-200 Poor 2 200-300 Marginal Abandoned Mine Land 3 300-400 Fair Brownfield Screening Criteria 4 400-500 Good Wind power class of 4 or greater, measured at 50m above ground 5 500-600 Excellent Property size of 2,000 acres or more 7 >800 Superb Non-Federal Superfund Distance to graded roads of 25 miles or less	Power Class W/m²		Resource Potential			
3 300-400 Fair Brownfield Screening Criteria 4 400-500 Good Wind power class of 4 or greater, measured at 50m above ground 5 500-600 Excellent Distance to electric transmission lines of 10 miles or less Property size of 2,000 acres or more	1	0-200	Poor	EPA Tracked Sites		
4 400-500 Good 5 500-600 Excellent 6 600-800 Outstanding Outstanding Outstanding Screening Criteria Wind power class of 4 or greater, measured at 50m above ground Distance to electric transmission lines of 10 miles or les Property size of 2,000 acres or more	2	200-300	Marginal	0	Abandoned Mine Land	
5 500-600 Excellent 6 600-800 Outstanding County Property size of 2,000 acres or more RCRA measured at 50m above ground Distance to electric transmission lines of 10 miles or les Property size of 2,000 acres or more	3	300-400	Fair	•	Brownfield	Screening Criteria
5 500-600 Excellent measured at 50m above ground 6 600-800 Outstanding Federal Superfund Distance to electric transmission lines of 10 miles or les Property size of 2,000 acres or more	4	400-500	Good	0	RCRA	Wind power class of 4 or greater,
Outstanding Property size of 2,000 acres or more	5	500-600	Excellent		KOKA	
	6	600-800	Outstanding	0	Federal Superfund	
	7	>800	Superb	•	Non-Federal Superfund	· · ·

This map was developed by SRA International for the U.S. Environmental Protection Agency (EPA) OSWER Center for Program Analysis. Results are based on site screening criteria adapted from National Renewable Energy Laboratory (NREL) criteria and GIS data provided by NREL and EPA. This map and its associated data are intended to provide a general understanding of the renewable energy potential of EPA tracked sites; additional site specific analysis is required to determine the actual energy generation potential of EPA tracked sites. For further information, please see the accompanying Data Guidelines document, or contact cleanenergy@epa.gov.
