## **TITLE II—RURAL TELEPHONE SERVICE**

### **SEC. 201. LOANS FOR RURAL TELEPHONE SERVICE.**

From such sums as are from time to time made available by the Congress to the Secretary for such purpose, pursuant to section 3 of this Act, the Secretary is authorized and empowered to make loans to persons now providing or who may hereafter provide telephone service in rural areas, to public bodies now providing telephone service in rural areas and to cooperative, nonprofit, limited dividend, or mutual associations. Except as otherwise provided by this title, such loans shall be made under the same terms and conditions as are provided in section 4 of this Act, for the purpose of financing the improvement, expansion, construction, acquisition, and operation of telephone lines, facilities or systems to furnish and improve telephone service in rural areas: Provided, however, That the Secretary, in making such loans, shall give preference to persons providing telephone service in rural areas, to public bodies now providing telephone service in rural areas and to cooperative, nonprofit, limited dividend, or mutual associations: And, provided further, that for a period of one year from and after the effective date of this title applications for loans received by the Secretary from persons who on the effective date of this title are engaged in the operation of existing telephone service in rural areas shall be considered and acted upon before action is taken upon any application received from any other person for any loan to finance the furnishing or improvement of telephone service to substantially the same subscribers. The Secretary in making such loans shall, insofar as possible, obtain assurance that the telephone service to be furnished or

improved thereby will be made available to the widest practical number of rural users. When it is determined by the Secretary to be necessary in order to furnish or improve telephone service in rural areas, such loans may be made for the improvement, expansion, construction, acquisition, and operation of telephone lines, facilities, or systems without regard to their geographical location. The Secretary is further authorized and empowered to make loans for the purpose of refinancing outstanding indebtedness of persons furnishing telephone service in rural areas: Provided, That such refinancing shall be determined by the Secretary to be necessary in order to furnish and improve telephone service in rural areas: And provided further, That such refinancing shall constitute not more than 40 per centum of any loan made under this title. Loans under this section shall not be made unless the Secretary finds and certifies that in his judgement the security therefore is reasonably adequate and such loan will be repaid within the time agreed, nor shall such loan be made in any State which now has or may hereafter have a State regulatory body having authority to regulate telephone service and to require certificates of convenience and necessity to the applicant unless such certificate from such agency is first obtained. In a State in which there is no such agency or regulatory body legally authorized to issue such certificates to the applicant, no loan shall be made under this section unless the Secretary shall determine (and set forth his reasons therefore in writing) that no duplication of lines, facilities, or systems, providing reasonably adequate services will result therefrom.

(c) **DISQUALIFICATION FOR PREPAYMENT ON FINDING OF ADVERSE EFFECT ON FEDERAL FINANCING BANK.**

(d) AMOUNT OF PERMISSABLE PREPAYMENTS;  
ESTABLISHMENT OF ELIGIBILITY CRITERIA.

(1) The Secretary shall permit, subject to subsection (a), prepayments of principal on loans in fiscal year 1987 under this section or Public Law 99-349 [Pub. ELECTRIC LOANS.

(1) IN GENERAL.—Except as provided in paragraph (2), a direct or insured loan made under this Act shall not be sold or prepaid at a value that is less than the outstanding principal balance on the loan.

(2) EXCEPTION.—On request of the borrower, an electric loan made under this Act, or a portion of such a loan, that was advanced before May 1, 1992, or has been advanced for not less

than 2 years, shall be sold to or prepaid by the borrower at the lesser of—

(A) the outstanding principal balance on the loan; or

(B) the present value of the loan discounted from the face value at maturity at the rate established by the Secretary.

(3) DISCOUNT RATE.—The discount rate applicable to the prepayment under this subsection of a loan or loan advance shall be the then current cost of funds to the Department of the Treasury for obligations of comparable maturity to the remaining term of the loan.

(4) TAX EXEMPT FINANCING.—If a borrower prepays a loan under this subsection using tax exempt financing, the discount shall be adjusted to ensure that the borrower receives a benefit that is equal to the benefit the borrower would receive if the borrower used fully taxable financing. The borrower shall certify in writing whether the financing will be tax exempt and shall comply with such other terms and conditions as the Secretary may establish that are reasonable and necessary to carry out this subsection.

(5) ELIGIBILITY.

(A) IN GENERAL.—A borrower that has prepaid an insured or direct loan shall remain eligible for assistance under this Act in the same manner as other borrowers, except that—

(i) a borrower that has prepaid a loan, either before or after the date of enactment of this subsection, at a discount rate as provided by paragraph (3), shall not be eligible, except at the discretion of the Secretary, to apply for or receive direct or insured loans under this Act during the 120-month period beginning on the date of the prepayment; and

(ii) a borrower that prepaid a loan before the date of enactment of this subsection at a discount rate greater than that provided by paragraph (3), shall not be eligible—

(I) except at the discretion of the Secretary, to apply for or receive direct or insured loans described in clause (i) during the 180-month period beginning on the date of the prepayment, or

(II) to apply for or receive direct or insured loans described in clause (i) until the borrower has repaid to the Federal Government the sum of—

(aa) the amount (if any) by which the discount the borrower received by reason of the prepayment exceeds the discount the borrower

would have received had the discount been based on the cost of funds to the Department of the Treasury at the time of the prepayment, and

(bb) interest on the amount described in item (aa), for the period beginning on the date of the prepayment and ending on the date of the repayment, at a rate equal to the average annual cost of borrowing by the Department of the Treasury.

(B) EFFECT ON EXISTING AGREEMENTS.—If a borrower and the Secretary have entered into an agreement with respect to a prepayment occurring before the date of enactment of this subsection this paragraph shall supersede any provision in the agreement relating to the restoration of eligibility for loans under this Act.

(C) DISTRIBUTION BORROWERS.—A distribution borrower not in default on the repayment of loans made or insured under this Act shall be eligible for discounted prepayment as provided in this subsection. For the purpose of determining eligibility for discounted prepayment under this subsection or eligibility for assistance under this Act, a default by a borrower from which a distribution borrower purchases wholesale power shall not be considered a default by the distribution borrower.

(6) DEFINITIONS.—As used in this subsection:

(A) DIRECT LOAN.—The term 'direct loan' means a loan made under section 4.

(B) INSURED LOAN.—The term 'insured loan' means a loan made under section 305.

(b) MERGERS OF ELECTRIC BORROWERS.

Notwithstanding subsection (a), a direct or insured loan may be prepaid by an electric borrower at the lesser of the outstanding principal balance due thereon or the present value thereof discounted from the face value at maturity at the rate set by the Secretary if the borrower is an electrical organization which resulted from a merger or consolidation between a borrower and an organization which, prior to October 1, 1987, prepaid its direct or insured loans pursuant to this section. Prepayments by a borrower hereunder shall be made not later than one year after the effective date of the merger, consolidation, or other transaction. The discount rate to be set by the Secretary for direct or insured loans prepayments hereunder shall be based on the current cost of funds to the Department of the Treasury for obligations of comparable maturity to those being prepaid. If a borrower prepays

using tax exempt financing, the discount shall be adjusted to make the discount equivalent to fully taxable financing. The borrower shall certify in writing whether the financing will be tax exempt and shall comply with such other terms and conditions as the Secretary may establish which are reasonable and necessary to implement this provision. As used in this section, the term "direct loan" means a loan made under section 4.

refinanced under this section by the amount of the penalty.

(B) INCREASED PRINCIPAL.—If a borrower meets the penalty requirements of paragraph (1) by increasing the outstanding principal balance of the loan advance that is being refinanced, the borrower shall make a payment at the time of the refinancing equal to 2.5 percent of the amount of the penalty that is added to the outstanding principal balance of the loan.

(c) LOAN TERMS AND CONDITIONS AFTER REFINANCING.

(1) IN GENERAL.—On the payment of a penalty as provided by subsection (b), the loan or loan advance, or any portion of the loan or advance, shall be refinanced at the interest rate described in paragraph (2) for a term selected by the borrower pursuant to paragraph (3), except that this paragraph shall not apply if the loan advance, or any portion of the advance, is prepaid by the borrower.

(1) **OUTSTANDING LOANS.**—A lender shall not receive a guarantee under this section for a bond or note if, at the time of the guarantee, the total principal amount of such guaranteed bonds or notes outstanding of the lender would exceed the principal amount of outstanding loans of the lender for electrification or telephone purposes that have been made concurrently with loans approved for such purposes under this Act.

(2) **GENERATION OF ELECTRICITY.**—The Secretary shall not guarantee payment on a bond or note issued by a lender, the proceeds of which are used for the generation of electricity.

#### **SEC. 408. LENDING POWER.**

(a) **LOANS FOR PRESCRIBED PURPOSES; REQUISITE CONDITIONS.**—The Governor of the telephone bank shall make loans on behalf of the telephone bank, to the extent that there are qualifying applications therefor, subject only to limitations as to amounts authorized for loans and advances as may be imposed by law enacted by the Congress of the United States for loans to be made in any one year, and in conformance with policies approved by the Telephone Bank Board, to corporations and public bodies which have received a loan or loan commitment pursuant to section 201 of this Act, or which have been certified by the Secretary to be eligible for such a loan or loan commitment, (1) for the same purposes and under the same limitations for which loans may be made under section 201 of this Act, (2) for the acquisition, purchase and Installation of telephone lines, systems, and facilities (other than buildings used primarily for administrative purposes, vehicles not used primarily in construction and customer premise equipment) related to the furnishing, improvement, or extension of rural telecommunications service, and (3) for the purchase of class B stock required to be purchased under Section 406(d) of this Act but not for the purchase of class C stock, subject, as to the purposes set forth in (2) hereof, to the following provisos: That in the case of any such loan for the acquisition of telephone lines, facilities, or systems, the acquisition shall be approved by the Secretary, the location and character thereof shall be such as to improve the efficiency effectiveness, or financial stability of the telephone system of the borrower, and in respect of exchange facilities for local services, the size of each acquisition shall not be greater than the borrower's existing system at the time it receives its first loan from the telephone bank, taking into account the number of subscribers served, miles of line, and plant investment. (ii) after the fiscal year in which the advance is made, the cost of money rate for such fiscal year, as determined under subparagraph (D).

(D) Within 30 days after the end of each fiscal year, the Governor shall determine to the nearest 0.01 percent the cost of money rate for the fiscal year, by calculating the sum of the results of the following calculations:

(i) The aggregate of all amounts received by the telephone bank during the fiscal year from the issuance of class A stock multiplied by the rate of return payable by the telephone bank during the fiscal year, as specified in section 406(c), to holders of class A stock, which product is divided by the aggregate of the amounts advanced by the telephone bank during the fiscal year.

(ii) The aggregate of all amounts received by the telephone bank during the fiscal year from the issuance of class B stock multiplied by the rate at which dividends are payable by the telephone bank during the fiscal year as specified in section 406(d), to holders of class B stock, which product is divided by the aggregate of the amounts advanced by the telephone bank during the fiscal year. For purposes of the calculation under this subparagraph, such rate shall be zero.

(II) For purposes of this clause, the term "historic cost of money rate", with respect to the close of a preceding fiscal year, means the sum of the results of the following calculations: The amounts advanced by the telephone bank in each fiscal year during the period beginning with fiscal year 1974 and ending with the preceding fiscal year, multiplied, respectively, by the cost of money rate for the fiscal year (as set forth in the table in subparagraph (E)) for fiscal years 1974 through 1987, and as determined by the Governor under this subparagraph for fiscal years after fiscal year 1987) each of which products is divided, respectively, by the aggregate of the amounts advanced by the telephone bank during the period.

(E) For purposes of subparagraph (D)(II)[sic]<sup>6</sup>, the cost of money rate for the fiscal years in which each advance was

If any borrower makes an election under this clause with respect to a loan, the Governor shall adjust the interest rate which applies to the unadvanced portion of the loan accordingly.

(ii) (I) If the telephone bank, pursuant to section 407(b), issues telephone debentures on any date to refinance telephone debentures or other obligations of the telephone bank, the telephone bank shall, in

addition to any interest rate reduction required by any other provision of this paragraph, for the period applicable to the advance, reduce the interest rate charged on each advance made under this section during the fiscal year in which the refinanced debentures or other obligations were originally issued by the amount applicable to the advance.

(II) For the purposes of subclause (I), the term "the period applicable to the advance" means the period beginning on the issue date described in subclause (I) and ending on the earlier of the date the advance matures or is completely prepaid.

(IV) Within 60 days after any issue date described in subclause (I), the Governor shall amend the loan documentation for each advance described in subclause (I), as necessary, to reflect any interest rate reduction applicable to the advance by reason of this clause, and shall notify each affected borrower of the reduction.

(G) Within 30 days after the publication of any determination made under subparagraph (D), any affected borrower may obtain review of the determination, or any other equitable relief as may be determined appropriate by the United States court of appeals for the judicial circuit in which the borrower does business by filing a written petition requesting the court to set aside or modify such determination. On receipt of such a petition, the clerk of the court shall transmit a copy of the petition to the Governor. On receipt of a copy of such a petition from the clerk of the court, the Governor shall file with the court the record on which the determination is based. The court shall have jurisdiction to affirm, set aside, or modify the determination.

In a State in which there is no such agency or regulatory body legally authorized to issue such certificates to the applicant, no loan shall be made under this section unless the Governor of the telephone bank shall determine (and set forth his reasons therefor in writing) that no duplication of lines, facilities, or systems, providing reasonably adequate services will result therefrom.

(B) if the applicant is eligible for a loan, make a loan to the applicant under this section in an amount equal to the amount that bears the same ratio to the total amount of loans for which the applicant is eligible under this section and under section 305(d)(2), as the amount made available for loans under this section for the fiscal year bears to the total amount made available for loans under this section and under section 305(d)(2) for the fiscal year.

(10) **APPLICATION AS COST-OF-MONEY LOAN REQUEST.**—On request of any applicant who is eligible for a loan under this section for which funds are not available, the

The Board may approve loan guarantees under this chapter only to the extent provided for in advance in appropriations Acts, and the Board may accept credit risk premiums from a non-Federal source in order to cover the cost of a loan guarantee under this chapter, to the extent that appropriations of budget authority are insufficient to cover such costs.

(d) Requirements and criteria applicable to approval

(1) In general

(B) the proceeds of the loan will not be used for operating, advertising, or promotion expenses, or for the acquisition of licenses for the use of spectrum in any competitive bidding under section 309(j) of this title;

(C) the proposed project, as determined by the Board in consultation with the National Telecommunications and Information Administration, is not likely to have a substantial adverse impact on competition that outweighs the benefits of improving access to the signals of a local television station in a nonserved area or underserved area and is commercially viable;

(D) (i) the loan—

---

<sup>12</sup> So in the original. Probably should be section 1003, which is classified to section 1102 of this title.

(I) is provided by any entity engaged in the business of commercial lending—

(aa) if the loan is made in accordance with loan-to-one borrower and affiliate transaction restrictions to which the entity is subject under applicable law; or

(bb) if item (aa) does not apply, the loan is made only to a borrower that is not an affiliate of the entity and only if the amount of the loan and all outstanding loans by that entity to that borrower and any of its affiliates does not exceed 10 percent of the net equity of the entity; or

(II) is provided by a nonprofit corporation, including the National Rural Utilities Cooperative Finance Corporation, engaged primarily in commercial lending, if the Board determines that such nonprofit corporation has one or more issues of outstanding long-term debt that is rated within the highest 3 rating categories of a nationally recognized statistical rating organization;

(ii) if the loan is provided by a lender described in clause (i)(II) and the Board determines that the making of the loan by such lender will cause a decline in such lender's debt rating as described in that clause, the Board at its discretion may disapprove the loan guarantee on this basis;

(iii) no loan may be made for purposes of this chapter by a governmental entity or affiliate thereof, or by the Federal Agricultural Mortgage Corporation, or any institution supervised by the Office of Federal Housing Enterprise Oversight, the Federal Housing Finance Board, or any affiliate of such entities;

(iv) any loan must have terms, in the judgment of the Board, that are consistent in material respects with the terms of similar obligations in the private capital market;

(v) for purposes of clause (i)(I)(bb), the term "net equity" means the value of the total assets of the entity, less the total liabilities of the entity, as recorded under generally accepted accounting principles for the fiscal quarter ended immediately prior to the date on which the subject loan is approved;

(E) repayment of the loan is required to be made within a term of the lesser of—

- (i) 25 years from the date of execution of the loan; or
  - (ii) the economically useful life, as determined by the Board or in consultation with persons or entities deemed appropriate by the Board, of the primary assets to be used in the delivery of the signals concerned; and
- (F) the loan meets any additional criteria developed under subsection (g).

(3) Protection of United States financial interests

The Board may not approve the guarantee of a loan under this chapter unless—

(A) the Board has been given documentation, assurances, and access to information, persons, and entities necessary, as determined by the Board, to address issues relevant to the review of the loan by the Board for purposes of this chapter; and

(B) the Board makes a determination in writing that—

(i) to the best of its knowledge upon due inquiry, the assets, facilities, or equipment covered by the loan will be utilized economically and efficiently;

(ii) the terms, conditions, security, and schedule and amount of repayments of principal and the payment of interest with respect to the loan protect the financial interest of the United States and are reasonable;

(iii) the value of collateral provided by an applicant is at least equal to the unpaid balance of the loan amount covered by the loan guarantee (the "Amount" for purposes of this clause); and if the value of collateral provided by an applicant is less than the Amount, the additional required collateral is provided by any affiliate of the applicant;

(iv) all necessary and required regulatory and other approvals, spectrum licenses, and delivery permissions have been received for the loan and the project under the loan;

(v) the loan would not be available on reasonable terms and conditions without a loan guarantee under this chapter; and

(vi) repayment of the loan can reasonably be expected.

(e) Considerations

(1) Type of market

(A) Priority considerations

To the maximum extent practicable, the Board shall give priority in the approval of loan guarantees under this chapter in the following order:

(i) First, to projects that will serve households in nonserved areas. In considering such projects, the Board shall balance projects that will serve the largest number of households with projects that will serve remote, isolated communities (including noncontiguous States) in areas that are unlikely to be served through market mechanisms.

(ii) Second, to projects that will serve households in underserved areas. In considering such projects, the Board shall balance projects that will serve the largest number of households with projects that will serve remote, isolated communities (including noncontiguous States) in areas that are unlikely to be served through market mechanisms.

Within each category, the Board shall consider the project's estimated cost per household and shall give priority to those projects that provide the highest quality service at the lowest cost per household.

(B) Additional consideration

The Board should give additional consideration to projects that also provide high-speed Internet service.

(C) Prohibitions

The Board may not approve a loan guarantee under this chapter for a project that—

(i) is designed primarily to serve 1 or more of the top 40 designated market areas (as that term is defined in section 122(j) of Title 17); or

(ii) would alter or remove National Weather Service warnings from local broadcast signals.

(2) Other considerations

The Board shall consider other factors, which shall include projects that would—

(A) offer a separate tier of local broadcast signals, but for applicable Federal, State or local laws or regulations;

(B) provide lower projected costs to consumers of such separate tier; and

(C) enable the delivery of local broadcast signals consistent with the purpose of this chapter by a means

reasonably compatible with existing systems or devices predominantly in use.

(3) Further consideration

In implementing this chapter, the Board shall support the use of loan guarantees for projects that would serve households not likely to be served in the absence of loan guarantees under this chapter.

(f) Guarantee limits

(1) Limitation on aggregate value of loans

The aggregate value of all loans for which loan guarantees are issued under this chapter (including the unguaranteed portion of such loans) may not exceed \$1,250,000,000.

(2) Guarantee level

A loan guarantee issued under this chapter may not exceed an amount equal to 80 percent of a loan meeting in its entirety the requirements of subsection (d)(2)(A). If only a portion of a loan meets the requirements of that subsection, the Board shall determine that percentage of the loan meeting such requirements (the "applicable portion") and may issue a loan guarantee in an amount not exceeding 80 percent of the applicable portion.

(g) Underwriting criteria

Within the period provided for under subsection (b)(1), the Board shall, in consultation with the Director of the Office of Management and Budget and an independent public accounting firm, develop underwriting criteria relating to the guarantee of loans that are consistent with the purpose of this chapter, including appropriate collateral and cash flow levels for loans guaranteed under this chapter, and such other matters as the Board considers appropriate.

(h) Credit risk premiums

(1) Establishment and acceptance

(A) In general

The Board may establish and approve the acceptance of credit risk premiums with respect to a loan guarantee under this chapter in order to cover the cost, as defined in section 661a(5) of Title 2, of the loan guarantee. To the extent that appropriations of budget authority are insufficient to cover the cost, as so determined, of a loan guarantee under this chapter, credit risk premiums shall be accepted from a non Federal source under this subsection on behalf of the applicant for the loan guarantee.

(B) Authority limited by appropriations Acts

Credit risk premiums under this subsection shall be imposed only to the extent provided for in advance in appropriations Acts.

(2) Credit risk premium amount

(A) In general

The Board shall determine the amount of any credit risk premium to be accepted with respect to a loan guarantee under this chapter on the basis of—

(i) the financial and economic circumstances of the applicant for the loan guarantee, including the amount of collateral offered;

(ii) the proposed schedule of loan disbursements;

(iii) the business plans of the applicant for providing service;

(iv) any financial commitment from a broadcast signal provider; and

(v) the concurrence of the Director of the Office of Management and Budget as to the amount of the credit risk premium.

(B) Proportionality

To the extent that appropriations of budget authority are sufficient to cover the cost, as determined under section 661a(5) of Title 2, of loan guarantees under this chapter, the credit risk premium with respect to each loan guarantee shall be reduced proportionately.

(C) Payment of premiums

Credit risk premiums under this subsection shall be paid to an account (the "Escrow Account") established in the Treasury which shall accrue interest and such interest shall be retained by the account, subject to subparagraph (D).

(D) Deductions from escrow account
