BILLING CODE 6717-01-M

[Docket No. RP93-99-007]

**Colorado Interstate Gas Company;
Notice of Refund Report**

May 30, 1995.

Take notice that on April 12, 1995, Colorado Interstate Gas Company (CIG) filed a refund report in Docket No. RP93-99-007. CIG states that the filing and refunds were made to comply with the Commission's order of November 10, 1994. CIG states that these amounts were paid by CIG on March 13, 1995 and April 7, 1995.

CIG notes that the refund report summarizes transportation and gathering refund amounts for the period October 1, 1993 through September 30, 1994 pursuant to Article 3.2 of CIG's Stipulation and Agreement as approved in the Commission's November 10, 1994 Order.

CIG states that copies of CIG's filing have been served on CIG's jurisdictional transportation and gathering customers, interested state commissions, and all parties to the proceedings.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). All such protests should be filed on or before June 6, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP95-91-001]

**Columbia Gas Transmission
Corporation; Notice of Compliance
Filing**

May 30, 1995.

Take notice that on May 24, 1995, Columbia Gas Transmission Corporation

(Columbia) tendered for filing the following information.

In compliance with the Commission's letter order of May 19, 1995 in Docket No. RP95-91-000, Columbia states that it has recalculated Appendix B of the Excess Revenue Credit Report to correct an error in its allocation of excess revenue credits.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure. All protests should be filed on or before June 6, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of Columbia's filings are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

Western Area Power Administration

**Stampede Division, Washoe Project—
Proposed Nonfirm Power Rate**

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of Proposed Stampede Division, Washoe Project Nonfirm Energy Rate Adjustment.

SUMMARY: The Western Area Power Administration (Western) is proposing a rate adjustment for nonfirm energy from the Stampede Division, Washoe Project (Stampede). Stampede is located in Sierra County, California. The power repayment study and other analyses indicate that the proposed ceiling rate for nonfirm energy provides sufficient revenue to pay all annual costs (including interest expense), plus repayment of required investment within the allowable time period. Details regarding the proposed rates are outlined in a rate brochure to be provided to all interested parties. Proposed rates for nonfirm energy are scheduled to become effective October 1, 1995.

This notice provides for proposed floor and ceiling rates that are intended to ensure the maximum reasonable annual repayment of the Stampede power investment at marketable rates. The proposed formula for the floor rate will be no less than 85 percent of the then-effective non-time-differentiated rate as provided in Sierra Pacific Power

Company's (SPPC) California Quarterly Short-Term Purchase Price Schedule for As-Available Purchases from Qualifying Facilities with Capacities of 100 kilowatts (kW) or Less (CSPP). This floor rate reflects the rate used to determine a value of an energy exchange account between Western and SPPC for the benefit of project-use facilities. The CSPP is filed with the California Public Utilities Commission (CPUC) on a semi-annual basis. The ceiling rate will be the rate determined by Western to be necessary to repay the Stampede power investment and annual expenses over the remaining repayment period of the power facilities.

Under the proposed rate schedule, Western will conduct a bidding process for the Stampede nonfirm energy that is available after project-use loads have been met, giving priority to preference entities. The nonfirm Stampede energy will be sold to the highest bidder, provided that the bid price is between the proposed floor and ceiling rates.

On June 7, 1991, the Federal Energy Regulatory Commission (FERC) approved the rate procedure for Stampede in Docket No. EF90-5161-000, which expires on September 30, 1995. FERC approved Rate Schedule SNF-3 through September 30, 1994, 55 FERC P61,391. On September 14, 1994, the Deputy Secretary of Energy extended the rate schedule until September 30, 1995 pursuant to Delegation Order No. 0204-108, 59 FR 488875. This rate procedure established an annual bidding process for the sale of Stampede nonfirm energy. The nonfirm energy would be sold to the entity offering the highest price, provided that the bid price is between the floor and ceiling rates established by Western. Since 1991, Western has not received a bid for Stampede energy that fully complied with the FERC-approved bidding procedure. As a result, Western has been able to market Stampede nonfirm energy only under short-term agreements. In addition, prior to 1994, Western could not provide Stampede power to project-use loads, as announced in the *Federal Register* (50 FR 21350) on May 23, 1985. To serve project-use loads and market Stampede nonfirm energy, Western negotiated an agreement in 1994 with SPPC that provides for an annual energy exchange account for Stampede energy. As members of the Western Systems Power Pool (WSPP); Western and SPPC agreed that SPPC would accept delivery of all energy generated by Stampede into its electrical system. The dollar value of the Stampede energy received by SPPC during any month will be credited into the Stampede Energy Exchange Account

(SEEA). Western can utilize the SEEA to benefit project use facilities, market Stampede nonfirm energy to preference entities over the SPPC transmission system at mutually agreed points of

delivery, or sell a portion of the Stampede energy to SPPC. So long as there is a balance in the SEEA, Western may direct SPPC to do any combination of the above transactions in any month.

The existing and proposed floor and ceiling rates for Stampede nonfirm energy are shown in the table below:

PERCENTAGE CHANGE IN NONFIRM ENERGY RATE

Nonfirm energy rate	Existing rates as of July 1, 1994	Proposed rates October 1, 1995	Percent change
Floor rate (mills/kWh)	27.69	See formula	N/A
Ceiling rate (mills/kWh)	67.39	72.307	7

Stampede is a power system which normally has annual sales less than 100 million kWh and an installed capacity of less than 20,000 kilowatt; therefore, the proposed rates constitute a minor rate adjustment as defined by the procedures for public participation in rate adjustments, as cited below. Since this is a minor rate adjustment, no public meetings are scheduled; however, Western will accept comments from interested parties. After review of public comments, Western will recommend proposed rates for approval on an interim basis by the Deputy Secretary of the Department of Energy (DOE).

DATES: The consultation and comment period will begin with publication of this notice in the **Federal Register** and will end July 5, 1995.

Written comments should be received by Western by the end of the consultation and comment period to be assured consideration and should be sent to the address below.

FOR FURTHER INFORMATION CONTACT: James C. Feider, Area Manager, Sacramento Area Office, Western Area Power Administration, 1825 Bell Street, Suite 105, Sacramento, CA 95825-1097, (916) 649-4418.

SUPPLEMENTARY INFORMATION: Nonfirm energy rates for Stampede are established pursuant to the Department of Energy Organization Act (42 U.S.C. 7101 *et seq.*), the Reclamation Act of 1902 (43 U.S.C. 372 *et seq.*), and acts amendatory or supplementary to the foregoing acts, particularly section 9(c) of the Reclamation Project Act of 1939 (43 U.S.C. 485h(c)) and the Act of August 1, 1956, 70 Stat. 775.

By Amendment No. 3 to Delegation Order No. 0204-108, published November 10, 1993 (58 FR 59716), the Secretary of Energy delegated (1) the authority to develop long-term power and transmission rates on a nonexclusive basis to the Administrator of Western; (2) the authority to confirm, approve, and place such rates into effect

on an interim basis to the Deputy Secretary; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to FERC. Existing DOE procedures for public participation in rate adjustments (10 CFR Part 903) became effective on September 18, 1985.

Availability of Information

The rate brochure, studies, comments, letters, memorandums, and other documents made or kept by Western for the purpose of developing the proposed rates for Stampede nonfirm energy are available for inspection and copying at Western's Sacramento Area Office, located at 1825 Bell Street, Suite 105, Sacramento, CA 95825-1097.

Regulatory Flexibility Analysis

Pursuant to the Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*), each agency, when required by 5 U.S.C. 553 to publish a proposed rule, is further required to prepare and make available for public comment an initial regulatory flexibility analysis to describe the impact of the proposed rule on small entities. In this instance, the initiation of the Stampede nonfirm energy rate adjustment is related to nonregulatory services provided by Western at a particular rate. Under 5 U.S.C. 601(2), rules of particular applicability relating to rates or services are not considered rules within the meaning of the act. Since the nonfirm energy rates are of limited applicability, no flexibility analysis is required.

Determination Under Executive Order 12866

DOE has determined that this is not a significant regulatory action because it does not meet the criteria of Executive Order 12866, 58 FR 51735. Western has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget is required.

Environmental Evaluation

In compliance with the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321 *et seq.*; Council on Environmental Quality Regulations (40 CFR Parts 1500-1508); and DOE NEPA Regulations (10 CFR Part 1021), Western has determined that this action is categorically excluded from the preparation of an environmental assessment or an environmental impact statement. A categorical exclusion was issued on April 15, 1995.

Issued in Golden, Colorado, May 10, 1995.

J.M. Shafer,
Administrator.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5215-2]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Requests (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden.

DATES: Comments must be submitted on or before July 5, 1995.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA, (202) 260-2740, please refer to ICR #193.05.
