

Dear ENERGY STAR® Set-top Box Stakeholder:

Thank you very much to those of you who were able to participate in today's discussion of the Draft 3 ENERGY STAR set-top specifications. Attached, please find the two presentations delivered during the meeting, both of which have been slightly edited since they were last distributed. Of note, the EPA presentation contains follow up action items as the final slides. These presentations will be posted to the ENERGY STAR Web site shortly.

Once action item is to hold a follow up conference call to discuss some outstanding topics from today, including:

- Gateway boxes
- Home networking (MoCA)
- DOSCIS (Should the base allowance be increased or an adder provided for DOSCIS?)
- Hybrid architecture products

We'll plan on holding a two-hour call on **Tuesday, February 5 from 1:00 p.m. until 3:00 p.m. Eastern time**. Approximately 30 minutes will be devoted to each topic. Following are the details of the conference call:

Call in number:	1-866-299-3188
International call in number:	1-706-758-1822
Pass code (US and International):	202-343-9120#

We sincerely hope you are able to participate. If you have any questions or concerns, please contact Darcy Martinez, ICF, at dmartinez@icfi.com. Thank you.

This e-mail has been sent to you on behalf of ENERGY STAR. ICF International provides consulting services in a broad range of areas. ICF International does not determine or interpret EPA policy.
