

Conceptual Site Model (Part III)

This document is part of the training materials for the RCRA Corrective Action Workshop on Results-Based Project Management. It contains summaries of EPA statutory authorities, regulations, and guidance materials. This document does not substitute for any of these authorities or materials. In addition, this document is not an EPA regulation and therefore cannot impose legally binding requirements on EPA, States, or the regulated community. EPA may change this document in the future, as appropriate.

CSM Module Objectives (Part III)

Participants will:

- practice using a publicly available computerized “Site Conceptual Exposure Model Builder” to visually capture environmental conditions for the case study

SCEM Exercise

- Working with the instructor and via large group interaction, build a computerized SCEM CSM at the laptop at your table.
