

Comparability index for tables in Older Americans: Key Indicators of Well-Being
(Older Americans 2000 (OA2000), Older Americans 2004 (OA2004), Older Americans Update 2006 (OA2006))

Population

Number of Older Americans

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
1A	Total number of persons age 65 or older by age group, 1900 to 2050	Decennial Census data and Population Projections	Updated with 2000 data. No high-series projections.	1A	Number of people age 65 and over and 85 and over, selected years 1900-2000 and projected 2010-50	Decennial Census and Population Projections	Not updated.	1A	Number of people age 65 and over and 85 and over, selected years 1900-2000 and projected 2010-2050	Decennial Census and Population Projections	No
1B	Percentage of the population age 65 and older and age 85 and older, 1900 to 2050	Decennial Census Data and Population Projections	Updated with 2000 data. No high-series projections.	1B	Percentage of the population age 65 and over and 85 and over, selected years 1900-2000 and projected 2010-50	Decennial Census and Population Projections	Not updated.	1B	Percentage of the population age 65 and over and 85 and over, selected years 1900-2000 and projected 2010-2050	Decennial Census and Population Projections	No
1C	Percentage of the population age 65 and older, by country, 2000	International Data Base	Updated with 2003 data. Revised and expanded. Different criteria used to select countries.	1C	Population of countries with at least 10 percent of their population age 65 and over, 2003	International Data Base	Updated with 2004 data.	1C	Population of countries with at least 10 percent of their population age 65 and over, 2004	International Data Base	No
1D	Percentage of the population age 65 and older, by state, 2000	Population Projections	Updated with 2002 data.	1D	Percentage of the population age 65 and over, by State, 2002	Population Estimates	Updated with 2004 data.	1D	Percentage of the population age 65 and over, by state, 2004	Population Estimates	No
			New table.	1E	Percentage of the population age 65 and over, by county, 2002	Population Estimates	Updated with 2004 data.	1E	Percentage of the population age 65 and over, by county, 2004	Population Estimates	No

Racial and Ethnic Composition

2A	Projected distribution of the population age 65 and older, by race and Hispanic origin, 2000 and 2050	Population Projections	Updated with 2003 data and new race categories.	2	Population age 65 and over, by race and Hispanic origin, 2003 and projected 2050	Population Estimates and Projections	Population estimates updated with 2004 data. Projections not updated.	2	Population age 65 and over, by race and Hispanic origin, 2004 and projected 2050.	Population Estimates and Projections	No
----	---	------------------------	---	---	--	--------------------------------------	---	---	---	--------------------------------------	----

Racial and Ethnic Composition (continued)

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
2B	Projected population age 65 and older, by race and Hispanic origin, 2000 and 2050, in thousands	Population Projections	Table updated with 2003 and combined with Table 2A.								

Marital Status

3	Marital status of the population age 65 and older, by age group and sex, 1998	March Current Population Survey	Updated with 2003 data.	3	Marital status of the population age 65 and over, by age group and sex, 2003	Current Population Survey, Annual Social and Economic Supplement	Updated with 2004 data.	3	Marital status of the population age 65 and over, by age group and sex, 2004	Current Population Survey, Annual Social and Economic Supplement	No
---	---	---------------------------------	-------------------------	---	--	--	-------------------------	---	--	--	----

Educational Attainment

4A	Percentage of the population age 65 and older with a high school diploma or higher and bachelor's degree or higher, 1950-98	Population Census Volumes and March Current Population Survey	Updated with 2000 and 2003 data with slightly different question wording.	4A	Educational attainment of the population age 65 and over, selected years 1950-2003	Decennial Census and Current Population Survey, Annual Social and Economic Supplement	Decennial Census data replaced with CPS data from 1965-2004.	4A	Educational attainment of the population age 65 and over, selected years 1965-2004.	Current Population Survey, Annual Social and Economic Supplement	No
4B	Percentage of the population age 65 and older with a high school diploma or higher and bachelor's degree or higher, by race and Hispanic origin, 1998	March Current Population Survey	Updated with 2003 data with slightly different question wording and new race categories.	4B	Educational attainment of the population age 65 and over, by race and Hispanic origin, 2003	Current Population Survey, Annual Social and Economic Supplement	Updated with 2004 data.	B	Educational attainment of the population age 65 and over, by race and Hispanic origin, 2004	Current Population Survey, Annual Social and Economic Supplement	No

Living Arrangements											
Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
5A	Living arrangements of the population age 65 and older, by sex and race and Hispanic origin, 1998	March Current Population Survey	Updated with 2003 data with new race categories.	5A	Living arrangements of the population age 65 and over, by sex, race, and Hispanic origin, 2003	Current Population Survey, Annual Social and Economic Supplement	Updated with 2004 data. The living arrangement data disaggregated by sex, race, and Hispanic origin presented in OA2004 were incorrect. See erratum at www.agingstats.gov for changes to this table.	5A	Living arrangements of the population age 65 and over, by sex, race, and Hispanic origin, 2004	Current Population Survey, Annual Social and Economic Supplement	No
5B	Percentage of the population age 65 and older living alone, by age group and sex, 1970-98	Current Population Survey Reports	Updated with 2000 and 2003 data.	5B	Population age 65 and over living alone, by age group and sex, selected years 1970-2003	Current Population Survey, Annual Social and Economic Supplement	Updated with 2004 data.	5B	Population age 65 and over living alone, by age group and sex, selected years 1970-2004	Current Population Survey, Annual Social and Economic Supplement	No
Older Veterans											
			New.	6A	Percentage of men age 65 and over who are veterans, by age group, United States and Puerto Rico, 1990 and 2000	Decennial Census	Not updated.	6A	Percentage of men age 65 and over who are veterans, by age group, United States and Puerto Rico, 1990 and 2000	Decennial Census	No
			New.	6B	Estimated and projected number of male veterans and total veterans age 65 and over, by age group, United States and Puerto Rico, 1990, 2000, and projected 2005-15	Decennial Census and VetPop2001 Estimates and Projections	The projections have been updated using a new model.	6B	Decennial Census and VetPop2004, December 2004	Decennial Census and VetPop2004 Estimates and Projections	No

Economics

Poverty

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
6A	Percentage of the population living in poverty, by age group, 1959-98	March Current Population Survey	Updated with 1999-2002 data.	7A	Percentage of the population living in poverty, by age group, 1959-2002	Current Population Survey, Annual Social and Economic Supplement	Updated with 2003 and 2004 data.	7A	Percentage of the population living in poverty, by age group, 1959-2004	Current Population Survey, Annual Social and Economic Supplement	No
6B	Percentage of persons age 65 or older living in poverty, by selected characteristics, 1998	March Current Population Survey	Updated with 2002 data and expanded with new race categories.	7B	Percentage of the population age 65 and over living in poverty, by selected characteristics, 2002	Current Population Survey, Annual Social and Economic Supplement	Updated with 2003 and 2004 data.	7B	Percentage of the population age 65 and over living in poverty, by selected characteristics, 2004	Current Population Survey, Annual Social and Economic Supplement	No

Income Distribution

7	Income distribution of the population age 65 and older, 1974-98	March Current Population Survey	Updated with 1999-2002 data and revised. Extreme poverty no longer separated from poverty.	8	Income distribution of the population age 65 and over, 1974-2002	Current Population Survey, Annual Social and Economic Supplement	Updated with 2003 and 2004 data.	8	Income distribution of the population age 65 and over, 1974-2004	Current Population Survey, Annual Social and Economic Supplement	No
---	---	---------------------------------	--	---	--	--	----------------------------------	---	--	--	----

Sources of Income

8A	Distribution of sources of income for the population age 65 and older, 1962-98	March Current Population Survey; Survey of the Aged; Survey of Demographic and Economic Characteristics of the Aged	Updated with 1999-2002 data.	9A	Distribution of sources of income for the population age 65 and over, selected years 1962-2002	Current Population Survey, Annual Social and Economic Supplement and SSA data	Updated with 2003 and 2004 data. Title changed.	9A	Aggregate income by source for the population age 65 and over, selected years 1962-2004	Current Population Survey, Annual Social and Economic Supplement and SSA data	No
8B	Sources of income among persons age 65 or older, by income level, 1998	March Current Population Survey	Updated with 2002 data.	9B	Sources of income for the population age 65 and over, by income quintile, 2002	Current Population Survey, Annual Social and Economic Supplement and SSA data	Updated with 2003 and 2004 data. Title changed.	9B	Aggregate income for the population age 65 and over, by source and income quintile, 2004	Current Population Survey, Annual Social and Economic Supplement and SSA data	No

Net Worth											
Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
9	Median household net worth, by selected characteristics, in thousands of 1999 dollars, 1984-99	Panel Study of Income Dynamics	Updated in 2001 dollars.	10	Median household net worth of head of household, by selected characteristics, in 2001 dollars, selected years 1984-2001	Panel Study of Income Dynamics	Updated in 2003 dollars.	10	Median household net worth of head of household, by selected characteristics, in 2003 dollars, selected years 1984-2003	Panel Study of Income Dynamics	No
Participation in the Labor Force											
10	Labor force participation rates of persons age 55 or older, by age group and sex, annual averages, 1963-99	Current Population Survey	Updated with 2000-2003 data.	11	Labor force participation rates of people age 55 and over, by age group and sex, annual averages, 1963-2003	Current Population Survey	Updated with 2004 and 2005 data. The 2003 estimate for men, age 62-64, should be changed from 49.6 to 49.5.	11	Labor force participation rates of people age 55 and over, by age group and sex, annual averages, 1963-2005	Current Population Survey	No
Housing Expenditures											
11	Percentage of total annual expenditures allocated to housing costs in households headed by persons age 65 or older, by income level, 1987-98	Consumer Expenditure Survey	Updated with 2002 data.	12	Total annual expenditures allocated to housing costs in households headed by people age 65 and over, by income level, selected years 1987-2002	Consumer Expenditure Survey	Not updated.	12	Total annual expenditures allocated to housing costs in households headed by people age 65 and over, by income level, selected years 1987-2002	Consumer Expenditure Survey	No

Health Status

Life Expectancy

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
12A	Life expectancy by age group and sex, in years, 1900-97	Vital Statistics	Updated with 2000 and 2001 data.	13A	Life expectancy, by age and sex, selected years 1900-2001	Vital Statistics	Updated with 2002 and 2003 data.	13A	Life expectancy, by age and sex, selected years 1900-2003	Vital Statistics	No
12B	Life expectancy by age group and race, in years, 1997	Vital Statistics	Updated with 2001 data and expanded.	13B	Life expectancy, by age and race, 2001	Vital Statistics	Updated with 2003 data.	13B	Life expectancy, by age and race, 2003	Vital Statistics	No

Mortality

13A	Death rates for selected leading causes of death among persons age 65 or older, 1980-97 (per 100,000)	Vital Statistics	Updated with 1998-2001 data. See note under table for change in coding information.	14A	Death rates for selected leading causes of death among people age 65 and over, 1981-2001	Vital Statistics	Updated with 2002 and 2003 data. Alzheimer's disease added as one of the leading causes of death.	14A	Death rates for selected leading causes of death among people age 65 and over, 1981-2003	Vital Statistics	No
13B	Leading causes of death among persons age 65 or older, by sex and race and Hispanic origin, 1997	Vital Statistics	Updated with 2001 data. Does not include number of deaths from all causes.	14B	Leading causes of death among people age 65 and over, by sex and race and Hispanic origin, 2001	Vital Statistics	Updated with 2002 data.	14B	Leading causes of death among people age 65 and over, by sex and race and Hispanic origin, 2002	Vital Statistics	No
13C	Leading causes of death among persons age 85 or older, by sex and race and Hispanic origin, 1997	Vital Statistics	Updated with 2001 data. Does not include number of deaths from all causes.	14C	Leading causes of death among people age 85 and over, by sex and race and Hispanic origin, 2001	Vital Statistics	Updated with 2002 data.	14C	Leading causes of death among people age 85 and over, by sex and race and Hispanic origin, 2002	Vital Statistics	No

Chronic Health Conditions

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
14	Percentage of persons age 70 or older who reported having selected chronic conditions, by selected characteristics, 1984 and 1995	Supplement on Aging, Second Supplement on Aging	Changed data source from SOA I&I. Separated into two tables. Added emphysema, asthma, and chronic bronchitis. No longer have age-breaks.	15A	Percentage of people age 65 and over who reported having selected chronic conditions, by sex, 2001-02	National Health Interview Survey	Updated with 2003-04 data. The question used to estimate percentage of people with arthritis changed.	15A	Percentage of people age 65 and over who reported having selected chronic conditions, by sex, 2003-04	National Health Interview Survey	No
			New table. Changed data source from SOA I&I. Included data for five 2-year averaged periods.	15B	Percentage of people age 65 and over who reported having selected chronic conditions, 1997-2002	National Health Interview Survey	Updated with 2003-04 data. Note: The question used to estimate percentage of people with arthritis changed. Estimates in OA2004 are age-adjusted. Estimates in OA2006 are unadjusted.	15B	Percentage of people age 65 and over who reported having selected chronic conditions, 1997-2004	National Health Interview Survey	No

Memory Impairment

15	Percentage of persons age 65 or older with moderate or severe memory impairment, by age group and sex, 1998	Health and Retirement Study	Updated with 2002 data. Because of some changes in methods from OA2000, no inference should be made about longitudinal trends between OA2000 and OA2004. Data are only shown for the combined moderate or severe memory impairment category.	17	Percentage of people age 65 and over with moderate or severe memory impairment, by age group and sex, 2002	Health and Retirement Study	Not updated.	17	Percentage of people age 65 and over with moderate or severe memory impairment, by age group and sex, 2002	Health and Retirement Study	No
----	---	-----------------------------	---	----	--	-----------------------------	--------------	----	--	-----------------------------	----

Depressive Symptoms

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
16	Percentage of persons age 65 or older with severe depressive symptoms, by age group and sex, 1998	Health and Retirement Study	Updated with 2002 data. Different title.	18	Percentage of people age 65 and over with clinically relevant depressive symptoms, by age group and sex, 2002	Health and Retirement Study	Not updated.	18	Percentage of people age 65 and over with clinically relevant depressive symptoms, by age group and sex, 2002	Health and Retirement Study	No

Self-Rated Health Status (OA2000) changed to Respondent-Assessed Health Status (OA2004 and OA2006)

17	Percentage of persons age 65 or older who reported good to excellent health, by age group, sex, and race and Hispanic origin, 1994-96	National Health Interview Survey	Updated with 2000-02 data and expanded. Title changed. Different race categories.	20	Respondent-assessed health status among people age 65 and over, by selected characteristics, 2000-02	National Health Interview Survey	Updated with 2002-04 data.	20	Respondent-assessed health status among people age 65 and over, by selected characteristics, 2002-04	National Health Interview Survey	No
----	---	----------------------------------	---	----	--	----------------------------------	----------------------------	----	--	----------------------------------	----

Disability

18A	Percentage of Medicare beneficiaries age 65 or older who are chronically disabled, by level and category of disability, 1982-94	National Long Term Care Survey	Updated with 1999 data and expanded with a change in coding schemes and weights. Data from 1982 are no longer included.	19A	Age-adjusted percentage of Medicare enrollees age 65 and over who are chronically disabled, by selected characteristics, 1984, 1989, 1994, and 1999	National Long Term Care Survey	Not updated.	19A	Age-adjusted percentage of Medicare enrollees age 65 and over who are chronically disabled, by selected characteristics, 1984, 1989, 1994, and 1999	National Long Term Care Survey	No
18B	Percentage of persons age 70 or older who are unable to perform certain physical functions, by sex, 1984 and 1995	Supplement on Aging, Second Supplement on Aging	New table. Changed data source from SOA I&II. Different physical functioning measures.	19B	Percentage of Medicare enrollees age 65 and over who are unable to perform certain physical functions, by sex, 1991 and 2002	Medicare Current Beneficiary Survey	Updated with 2003 data. The 1991 estimate for women who are unable to stoop/kneel should be changed from 15.0 to 15.1.	19B	Percentage of Medicare enrollees age 65 and over who are unable to perform certain physical functions, by sex, 1991 and 2003	Medicare Current Beneficiary Survey	2004

Disability (continued)

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
18C	Percentage of persons age 70 or older who are unable to perform any one of nine physical functions, by sex and race, 1995	Supplement on Aging, Second Supplement on Aging	New table. Changed data source from SOA I&II. Different physical functioning measures and race categories.	19C	Percentage of Medicare enrollees age 65 and over who are unable to perform any one of five physical functions, by selected characteristics, 2002	Medicare Current Beneficiary Survey	Updated with 2003 data.	19C	Percentage of Medicare enrollees age 65 and over who are unable to perform any one of five physical functions, by selected characteristics, 2003	Medicare Current Beneficiary Survey	2004

Sensory Impairments and Oral Health

			New.	16A	Percentage of people age 65 and over who reported having any trouble hearing, any trouble seeing, or no natural teeth, by selected characteristics, 2002	National Health Interview Survey	Updated with 2004 data.	16A	Percentage of people age 65 and over who reported having any trouble hearing, any trouble seeing, or no natural teeth, by selected characteristics, 2004	National Health Interview Survey	No
			New.	16B	Percentage of people age 65 and over who reported ever having worn a hearing aid, 2002	National Health Interview Survey	Updated with 2004 data.	16B	Percentage of people age 65 and over who reported ever having worn a hearing aid, 2004	National Health Interview Survey	No
			New.	16C	Percentage of people age 65 and over who reported certain conditions among those who reported having trouble seeing, 2002	National Health Interview Survey	Not updated.	16C	Percentage of people age 65 and over who reported certain conditions among those who reported having trouble seeing, 2002	National Health Interview Survey	No

Health Risks and Behaviors

Social Activity

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
19A	Percentage of persons age 70 or older who reported engaging in social activities, by age group and sex, 1995	Second Supplement on Aging	Discontinued.								
19B	Percentage of persons age 70 or older who reported being satisfied with their level of social activity, by sex, 1995	Second Supplement on Aging	Discontinued.								

Sedentary Lifestyle (OA2000) changed to Physical Activity (OA2004 and OA2006)

20	Percentage of persons age 65 or older who reported having a sedentary lifestyle, by sex, 1985, 1990, and 1995	National Health Interview Survey	New table. Changed from sedentary lifestyle to regular leisure time physical activity using the same data source, NHIS. Updated with 1997-2002 data and revised and expanded. Estimates for five 2-year averages are shown.	24A	Percentage of people age 45 and over who reported engaging in regular leisure time physical activity, by age group, 1997-2002	National Health Interview Survey	Updated with 2002-03 and 2003-04 data.	24A	Percentage of people age 45 and over who reported engaging in regular leisure time physical activity, by age group, 1997-2004	National Health Interview Survey	No
			New table. Changed from sedentary lifestyle to regular leisure time physical activity using the same data source, NHIS. Updated with 2001-02 data, revised, and expanded. Estimates are shown for a 2-year average.	24B	Percentage of people age 65 and over who reported engaging in regular leisure time physical activity, by selected characteristics, 2001-02	National Health Interview Survey	Updated with 2003-04 data.	24B	Percentage of people age 65 and over who reported engaging in regular leisure time physical activity, by selected characteristics, 2003-04	National Health Interview Survey	No

Vaccinations											
Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
21A	Percentage of persons age 65 or older who reported having been vaccinated against influenza and pneumococcal disease, by race and Hispanic origin, 1989-95	National Health Interview Survey	Updated with 1997-2002 data.	21A	Percentage of people age 65 and over who reported having been vaccinated against influenza and pneumococcal disease, by race and Hispanic origin, selected years 1989-2002	National Health Interview Survey	Updated with 2003 and 2004 data.	21A	Percentage of people age 65 and over who reported having been vaccinated against influenza and pneumococcal disease, by race and Hispanic origin, selected years 1989-2004	National Health Interview Survey	No
21B	Percentage of persons age 65 or older who reported having been vaccinated against influenza and pneumococcal disease, by sex and age group, 1993-95	National Health Interview Survey	Updated with 2002 data and expanded.	21B	Percentage of people age 65 and over who reported having been vaccinated against influenza and pneumococcal disease, by selected characteristics, 2002	National Health Interview Survey	Updated with 2004 data.	21B	Percentage of people age 65 and over who reported having been vaccinated against influenza and pneumococcal disease, by selected characteristics, 2004	National Health Interview Survey	No
Mammography											
22	Percentage of women age 65 or older who reported having had a mammogram within the past two years, by race and Hispanic origin, 1987-94	National Health Interview Survey	Updated with 1998-2000 data and expanded.	22	Percentage of women age 65 and over who reported having had a mammogram within the past 2 years, by selected characteristics, selected years 1987-2000	National Health Interview Survey	Updated with 2003 data. Estimates for 2000 have been revised and may differ from what was reported in OA2004.	22	Percentage of women age 65 and over who reported having had a mammogram within the past 2 years, by selected characteristics, selected years 1987-2003	National Health Interview Survey	No

Dietary Quality											
Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
23A	Dietary quality ratings among persons age 45 or older, as measured by the healthy eating index, by age group and poverty status, 1994-96	Continuing Survey of Food Intakes by Individuals	Updated with 1999-2000 data. The former data source, Continuing Survey of Food Intakes by Individuals, was merged with the National Health and Nutrition Examination Survey. The questions remained the same.	23A	Dietary quality ratings of people age 45 and over, as measured by the Healthy Eating Index, by age group and poverty status, 1999-2000	National Health and Nutrition Examination Survey	Not updated.	23A	Dietary quality ratings of people age 45 and over, as measured by the Healthy Eating Index, by age group and poverty status, 1999-2000	National Health and Nutrition Examination Survey	No
23B	Average scores of persons age 65 or older for components of the healthy eating index, 1994-96	Continuing Survey of Food Intakes by Individuals	Updated with 1999-2000 data. The former data source, Continuing Survey of Food Intakes by Individuals, was merged with the National Health and Nutrition Examination Survey. The questions remained the same.	23B	Average scores on a scale from 1 to 10, of people age 65 and over for components of the Healthy Eating Index (HEI), 1999-2000	National Health and Nutrition Examination Survey	Not updated.	23B	Average scores on a scale from 1 to 10, of people age 65 and over for components of the Healthy Eating Index (HEI), 1999-2000	National Health and Nutrition Examination Survey	No
Criminal Victimization											
24	Violent and property crime rates, by age of victim, 1973-98	National Crime Victimization Survey and Uniform Crime Reports	Discontinued.								
Obesity											
			New.	25	Body weight status among people age 65 and over, by sex and age group, selected years 1960-2002	National Health and Nutrition Examination Survey	Updated with 2003-2004 data. In OA2004 data were combined for 1999-2002; two-year estimates are shown in OA2006 (1999-2000 and 2001-02).	25	Body weight status among people age 65 and over, by sex and age group, selected years 1960-2004	National Health and Nutrition Examination Survey	No

Cigarette Smoking

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
			New.	26A	Percentage of people age 45 and over who are current cigarette smokers, by selected characteristics, selected years 1965-2002	National Health Interview Survey	Updated with 2003 and 2004 data.	26A	Percentage of people age 45 and over who are current cigarette smokers, by selected characteristics, selected years 1965-2004	National Health Interview Survey	No
			New.	26B	Cigarette smoking status of people age 18 and over, by sex and age group, 2002	National Health Interview Survey	Updated with 2004 data.	26B	Cigarette smoking status of people age 18 and over, by sex and age group, 2004	National Health Interview Survey	No

Air Quality

			New.	27A	Percentage of people age 65 and over living in counties with "Poor air quality," 2000-02	U.S. EPA Air Quality System; U.S. Census Bureau Projections	Updated with 2003 and 2004 data.	27A	Percentage of people age 65 and over living in counties with "Poor air quality," 2000-04	U.S. EPA Air Quality System; U.S. Census Bureau Population Projections; Woods and Poole Population Projections 2000-04	No
			New.	27B	Counties with "Poor air quality" for any standard in 2002	U.S. EPA Air Quality System; U.S. Census Bureau Projections	Updated with 2004 data.	27B	Counties with "Poor air quality" for any standard in 2004	U.S. EPA Air Quality System	No

Health Care

Health Care Expenditures

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
25A	Average health care expenditures among Medicare beneficiaries age 65 or older, in 1996 dollars, by age group, 1992-96	Medicare Current Beneficiary Survey	Updated with 1997-2001 data in 2001 dollars. Includes different age groups.	29A	Average annual health care costs for Medicare enrollees age 65 and over, by age group, 1992-2001	Medicare Current Beneficiary Survey	Updated with 2002 and 2003 data in 2003 dollars.	29A	Average annual health care costs for Medicare enrollees age 65 and over, in 2003 dollars, by age group, 1992-2003	Medicare Current Beneficiary Survey	No
25B	Average health care expenditures among Medicare beneficiaries age 65 or older, by selected characteristics, 1996	Medicare Current Beneficiary Survey	Updated with 2001 data and revised.	29C	Average annual health care costs among Medicare enrollees age 65 and over, by selected characteristics, 2001	Medicare Current Beneficiary Survey	Updated with 2003 data.	29C	Average annual health care costs among Medicare enrollees age 65 and over, by selected characteristics, 2003	Medicare Current Beneficiary Survey	No
25C	Percentage of health care expenditures incurred by Medicare beneficiaries age 65 or older, by level of expenditures, 1996	Medicare Current Beneficiary Survey	Discontinued.								
25D	Distribution of health care expenditures among Medicare beneficiaries age 65 or older, by institutional status, 1996	Medicare Current Beneficiary Survey	Discontinued.								

Components of Health Care Expenditures (OA2000) combined with Health Care Expenditures (OA2004 and OA2006)

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
26A	Major components of health care expenditures among Medicare beneficiaries age 65 or older, 1992 and 1996	Medicare Current Beneficiary Survey	Table has been updated with 2001 data, expanded, and included under the Health Care Expenditures indicator. Because of some changes in methods from OA2000 only estimates from the OA2004 should be used.	29B	Major components of health care costs among Medicare enrollees age 65 and over, 1992 and 2001	Medicare Current Beneficiary Survey	Updated with 2003 data.	29B	Major components of health care costs among Medicare enrollees age 65 and over, 1992 and 2003	Medicare Current Beneficiary Survey	No
26B	Distribution of major components of health care expenditures among Medicare beneficiaries age 65 or older, by age group and income level, 1996	Medicare Current Beneficiary Survey	Table has been updated with 2001 data and included under the Health Care Expenditures indicator. No longer includes health care costs by income level.	29D	Major components of health care costs among Medicare enrollees age 65 and over, by age group, 2001	Medicare Current Beneficiary Survey	Updated with 2003 data.	29D	Major components of health care costs among Medicare enrollees age 65 and over, by age group, 2003	Medicare Current Beneficiary Survey	No

Out-of-Pocket Health Care Expenditures

			New table. Changed data source from CEX. Different measure of out-of-pocket expenditures presented.	32A	Percentage of people age 55 and over with out-of-pocket expenditures for health care service use, by age group, 1977, 1987, 1996, and 2001	Medical Expenditure Panel Survey and MEPS predecessor surveys	Expanded and updated with 2000, 2002, and 2003 data. The 1987 estimate for people age 75-84 should be changed from 90.1 to 90.0.	32A	Percentage of people age 55 and over with out-of-pocket expenditures for health care service use, by age group, selected years 1977-2003	Medical Expenditure Panel Survey and MEPS predecessor surveys	No
--	--	--	---	-----	--	---	---	-----	--	---	----

Out-of-Pocket Health Care Expenditures (continued)

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
27	Percentage of total out-of-pocket expenditures allocated to health care costs in households headed by persons age 65 or older, by income level, 1987-98	Consumer Expenditure Survey	New table. Changed data source from CEX. Different measure of out-of-pocket expenditures presented.	32B	Out-of-pocket health care expenditures as a percentage of household income, among people age 65 and over with out-of-pocket expenditures, by selected characteristics, 1977, 1987, 1996, and 2001	Medical Expenditure Panel Survey and MEPS predecessor surveys	Expanded and updated with 2000, 2002, and 2003 data. See note under table for changes in methods used to estimate the ratio of a person's out-of-pocket expenditures to their household income.	32B	Out-of-pocket health care expenditures as a percentage of household income, among people age 55 and over with out-of-pocket expenditures, by selected characteristics, selected years 1977-2003	Medical Expenditure Panel Survey and MEPS predecessor surveys	No
			New table. Changed data source from CEX. Different measure of out-of-pocket expenditures presented.	32C	Distribution of total out-of-pocket health care expenditures among people age 65 and over with out-of-pocket expenditures, by type of health care services and age group, 2001	Medical Expenditure Panel Survey	Expanded and updated with 2000, 2002, and 2003 data. The 2001 estimates 4.8 and 35.8 for people age 85 and over are correctly footnoted in OA2006 as having relative standard errors greater than 30 percent.	32C	Distribution of total out-of-pocket health care expenditures among people age 55 and over with out-of-pocket expenditures, by type of health care services and age group, 2000-03	Medical Expenditure Panel Survey	No

Access to Health Care (OA2000) combined with Health Care Expenditures (OA2004 and OA2006)

28A	Percentage of Medicare beneficiaries age 65 or older who reported problems with access to health care, 1992-96	Medicare Current Beneficiary Survey	Table has been updated with 1997-2000 data and included under the Health Care Expenditures indicator.	29E	Percentage of Medicare enrollees age 65 and over who reported problems with access to health care, 1992-2000	Medicare Current Beneficiary Survey	Updated with 2001 and 2002 data.	29E	Percentage of Medicare enrollees age 65 and over who reported problems with access to health care, 1992-2002	Medicare Current Beneficiary Survey	No
-----	--	-------------------------------------	---	-----	--	-------------------------------------	----------------------------------	-----	--	-------------------------------------	----

Access to Health Care (OA2000) combined with Health Care Expenditures (OA2004 and OA2006) (continued)

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
28B	Access to and satisfaction with health care among Medicare beneficiaries age 65 or older, by age group and race and Hispanic origin, 1996	Medicare Current Beneficiary Survey	Discontinued.								

Use of Health Care Services

29A	Rates of health care service usage by Medicare beneficiaries age 65 or older, 1990-98 (per 1,000)	Medicare claims and enrollment data	Updated with 1999-2001 data. Note: Table has been updated but because of some changes in methods from the 2000 edition of Older Americans, only estimates from the 2004 chartbook should be used.	28A	Use of Medicare-covered health care services by Medicare enrollees age 65 and over, 1992-2001	Medicare Claims Enrollment data	Updated with 2002 data except for physician visits.	28A	Use of Medicare-covered health care services by Medicare enrollees age 65 and over, 1992-2002	Medicare Claims Enrollment data	2003
29B	Use of home health and skilled nursing facility services by Medicare beneficiaries age 65 or older, by age group, 1998	Medicare claims and enrollment data	Updated with 2001 data.	28B	Use of Medicare-covered home health and skilled nursing facility services by Medicare enrollees age 65 and over, by age group, 2001	Medicare Claims and Enrollment data	Updated with 2002 data.	28B	Use of Medicare-covered home health and skilled nursing facility services by Medicare enrollees age 65 and over, by age group, 2002	Medicare Claims Enrollment data	2003

Nursing Home Utilization

30A	Rate of nursing home residence among persons age 65 or older, by sex and age group, 1985, 1995, and 1997 (per 1,000)	National Nursing Home Survey	Updated with 1999 data.	35A	Rate of nursing home residence among people age 65 and over, by sex and age group, 1985, 1995, 1997, and 1999	National Nursing Home Survey	Not updated.	35A	Rate of nursing home residence among people age 65 and over, by sex and age group, 1985, 1995, 1997, and 1999	National Nursing Home Survey	No
-----	--	------------------------------	-------------------------	-----	---	------------------------------	--------------	-----	---	------------------------------	----

Nursing Home Utilization (continued)

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
30B	Number of nursing home residents age 65 or older, by sex and age group, 1985, 1995, and 1997, in thousands	National Nursing Home Survey	Updated with 1999 data.	35B	Number of current nursing home residents age 65 and over, by sex and age group, 1985, 1995, 1997, and 1999	National Nursing Home Survey	Not updated.	35B	Number of current nursing home residents age 65 and over, by sex and age group, 1985, 1995, 1997, and 1999	National Nursing Home Survey	No
30C	Percentage of nursing home residents age 65 or older who are incontinent and dependent in mobility and eating, by age group and sex, 1985 and 1997	National Nursing Home Survey	Updated with 1999 data and revised.	35C	Percentage of nursing home residents age 65 and over receiving assistance with activities of daily living, by selected characteristics, 1985, 1995, 1997, and 1999	National Nursing Home Survey	Not updated.	35C	Percentage of nursing home residents age 65 and over receiving assistance with activities of daily living, by selected characteristics, 1985, 1995, 1997, and 1999	National Nursing Home Survey	No

Home Care (OA2000) changed to Caregiving and Assistance (OA2004 and OA2006)

31A	Percentage of Medicare beneficiaries age 65 or older who received home care for a chronic disability, by type of assistance, 1982, 1989, and 1994	National Long Term Care Survey	Updated with 1999 data and expanded with a change in coding schemes and weights. Title changed. Data from 1982 are no longer included.	37A	Distribution of Medicare enrollees age 65 and over receiving personal care for a chronic disability, by type of care, 1984, 1989, 1994, and 1999	National Long Term Care Survey	Not updated.	37A	Distribution of Medicare enrollees age 65 and over receiving personal care for a chronic disability, by type of care, 1984, 1989, 1994, and 1999	National Long Term Care Survey	No
-----	---	--------------------------------	--	-----	--	--------------------------------	--------------	-----	--	--------------------------------	----

Home Care (OA2000) changed to Caregiving and Assistance (OA2004 and OA2006) (continued)

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
31B	Distribution of types of assistance among Medicare beneficiaries age 65 or older who received home care for a chronic disability, by level of disability, 1982, 1989, and 1994	National Long Term Care Survey	Updated with 1999 data with a change in coding schemes and weights. Title changed. Data from 1982 are no longer included.	37B	Distribution of Medicare enrollees age 65 and over receiving personal care for a chronic disability, by type of care and level of disability, 1984, 1989, 1994, and 1999	National Long Term Care Survey	Not updated.	37B	Distribution of Medicare enrollees age 65 and over receiving personal care for a chronic disability, by type of care and level of disability, 1984, 1989, 1994, and 1999	National Long Term Care Survey	No
			New table.	37C	Distribution of Medicare enrollees age 65 and over using assistive devices and/or receiving personal care for a chronic disability, by type of care, 1984, 1989, 1994, and 1999	National Long Term Care Survey	Not updated.	37C	Distribution of Medicare enrollees age 65 and over using assistive devices and/or receiving personal care for a chronic disability, by type of care, 1984, 1989, 1994, and 1999	National Long Term Care Survey	No
			New table.	37D	Distribution of Medicare enrollees age 65 and over using assistive devices and/or receiving personal care for a chronic disability, by type of care and level of disability, 1984, 1989, 1994, and 1999	National Long Term Care Survey	Not updated.	37D	Distribution of Medicare enrollees age 65 and over using assistive devices and/or receiving personal care for a chronic disability, by type of care and level of disability, 1984, 1989, 1994, and 1999	National Long Term Care Survey	No

Prescription Drugs

Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
			New.	30A	Average annual prescription drug costs and sources of payment among noninstitutionalized Medicare enrollees age 65 and over, 1992-2000	Medicare Current Beneficiary Survey	Updated with 2001 and 2002 data.	30A	Average annual prescription drug costs and sources of payment among noninstitutionalized Medicare enrollees age 65 and over, in 2002 dollars, 1992-2002	Medicare Current Beneficiary Survey	2003
			New.	30B	Distribution of annual prescription drug costs among noninstitutionalized Medicare enrollees age 65 and over, 2000	Medicare Current Beneficiary Survey	Updated with 2002 data.	30B	Distribution of annual prescription drug costs among noninstitutionalized Medicare enrollees age 65 and over, 2002	Medicare Current Beneficiary Survey	2003
			New.	30C	Average annual number of filled prescriptions among noninstitutionalized Medicare enrollees age 65 and over, by selected characteristics	Medicare Current Beneficiary Survey	Updated with 2002 data.	30C	Average annual number of filled prescriptions among noninstitutionalized Medicare enrollees age 65 and over, by selected characteristics	Medicare Current Beneficiary Survey	2003
			New.	30D	Percentage of noninstitutionalized Medicare enrollees age 65 and over with prescription drug coverage, by selected characteristics, 2000	Medicare Current Beneficiary Survey	Updated with 2002 data.	30D	Percentage of noninstitutionalized Medicare enrollees age 65 and over with prescription drug coverage, by selected characteristics, 2002	Medicare Current Beneficiary Survey	2003

Sources of Health Insurance											
Table # in OA 2000	Table titles in OA2000	Data source	Summary of changes between OA2000 and OA2004	Table # in OA 2004	Table titles in OA2004	Data source	Summary of changes between OA2004 and OA2006	Table # in OA 2006	Table titles in OA2006	Data source	Updated since OA2006
			New.	31A	Percentage of noninstitutionalized Medicare enrollees age 65 and over with supplemental health insurance, by type of insurance, 1991-2002	Medicare Current Beneficiary Survey	Updated with 2003 data. The 1993 estimate for Private (Medi-gap) supplemental insurance should be changed from 45.4 to 45.3. See note under table for changes in methods used to estimate supplemental health insurance coverage.	31A	Percentage of noninstitutionalized Medicare enrollees age 65 and over with supplemental health insurance, by type of insurance, 1991-2003	Medicare Current Beneficiary Survey	2004
Sources of Health Insurance											
			New.	31B	Percentage of people age 55-64 with health insurance coverage, by type of insurance and poverty status, 2002	National Health Interview Survey	Updated with 2004 data.	31B	Percentage of people age 55-64 with health insurance coverage, by type of insurance and poverty status, 2004	National Health Interview Survey	No
Sources of Payment for Health Care Services											
			New.	33A	Sources of payment for health care services for Medicare enrollees age 65 and over, by type of service, 2001	Medicare Current Beneficiary Survey	Updated with 2003 data.	33A	Sources of payment for health care services for Medicare enrollees age 65 and over, by type of service, 2003	Medicare Current Beneficiary Survey	No
			New.	33B	Sources of payment for health care services for Medicare enrollees age 65 and over, by income, 2001	Medicare Current Beneficiary Survey	Updated with 2003 data.	33B	Sources of payment for health care services for Medicare enrollees age 65 and over, by income, 2003	Medicare Current Beneficiary Survey	No

Veterans' Health Care
